Budget Committee Review

The State Budget Committee reviewed the Department’s submission of fees, fines and penalties at the State Budget Committee meeting held November 14, 2023. No objections to the fees, fines or civil penalties was raised at the meeting.

The Commission received Authorization to Proceed from the Legislative Services Agency on May 1, 2024. The **Notice of First Comment Period** to adopt a rule was published in the Indiana Register at DIN: 20240522-IR-312240165FNA on May 22, 2024. The notice identified Linnea Petercheff as the “small business regulatory coordinator” for purposes of IC 4-22-2-28.1.

The **Notice of Public Hearing** was published at DIN: 20240522-IR-312240165PHA on May 22, 2024.

The Commission posted the Notice of First Comment Period, Regulatory Analysis, and Notice of Public Hearing and other information required under IC 4-22-2-22.5 on the Commission’s rulemaking docket maintained on its website at <https://www.in.gov/nrc/rules/rulemaking-docket/>. The rulemaking docket was updated periodically as the rule adoption process progressed.

As required under IC 4-22-2.1-5(c)(2), the proposed rule amendments and regulatory analysis were submitted to the Indiana Economic Development Corporation’s (IEDC) Small Business Ombudsman on May 8, 2024. In a letter dated May 15, 2024, Matthew Jaworoski, Small Business Ombudsman for the IEDC, commented as follows:

Proposed rule LSA #24-165 aims to permanently codify rules related to fees to be found within 312 Indiana Administrative Code (IAC) 1.5. The requirement to codify various currently fees and fines is derived from statutory requirements found within House Enrolled Act (HEA) 1623-2023 as part of executive agency rulemaking reform “safe harbor” of codifying existing fee related rules. The proposed rule specifically outlines and specifies various fees related to functions under the jurisdiction of IDNR, notably aquaculture permitting, falconry permitting, various hunting and fishing permits, boating operations, and numerous other fee structures related to IDNR regulated activities, and does not appear to increase fees or fines and does not impose any new regulatory requirements. The proposed rule appears to bring transparency and clarity to the various fees associated with IDNR activities, creates a streamlined approach for Hoosiers to

become more easily familiar with required fees for regulated activities, and brings IDNR into compliance under HEA1623-2023. The NRC's provided regulatory analysis displays a proper due diligence and understanding of how implementation must be carried out to ensure compliance while minimizing the impact to small businesses and individuals in Indiana. Based upon this statement and review, the Indiana Small Business Ombudsman supports the proposed rule related to the economic impact on small business if the NRC and IDNR's conclusion reflects the actual result after promulgation.

2. PUBLIC HEARING AND COMMENT

The public hearing was held on June 25, 2024 at the Fort Harrison State Park Inn, Roosevelt Ballroom, 5830 North Post Road, Indianapolis, Indiana. The meeting was also live streamed via Teams, providing members of the public the opportunity to appear in person or through the Teams application and provide comments. No public comments were received during the meeting.

Members of the public were also able to make comments through the Commission's rulemaking docket until the public commenting period closed on June 25, 2024 at 11:59 p.m. No public comments were received through the Commission's rulemaking docket.

3. HEARING OFFICER ANALYSES WITH RECOMMENDATIONS REGARDING FINAL ADOPTION

As required by HEA 1623-2023, the fees, fines civil penalties, financial benefit limitations, or other payment set by an agency otherwise qualifying as a rule charged by the department must be placed in rule. The proposed rule fulfills the requirement by setting the fees, finds civil penalties, financial benefit limitations or other payment set by various divisions of the department and the divisions of entomology and plant pathology. The proposed rule also clarifies the various fees associated with DNR-regulated activities and creates a streamline approach by including the various fees, fines and civil penalty charged by various Department divisions into a single rule.

The proposed rules are appropriate and are presented for final adoption and attached as Exhibit A.
