
Interview Evaluation and Scoring Form

Instructions for the Interviewers:

The questions and categories for scoring may be modified to meet the specific needs of the applicant and project. The categories included on this form are typical examples of the criteria used to evaluate firms.

Highest number represents the most value for each column.

- **Weight column:** 1-10 depending on value to the project. Use the weight column to indicate the level of importance (in your judgment), in each area, to the particular project.
- **Rating column:** 1-5 points. In this column you rate the firm based on each qualification.

At the completion of the interview, multiply the rating by the weight for each category and enter the total. Add all totals to establish the grand total. The chairperson will combine all of the totals for those participating in the interview session on the Group Interview Evaluation Form.
