Re: City of Austin, Indiana – Site Control - WW-17-124

Dear Ms. Hruska:

This letter is to confirm that not all improvements proposed for the Austin Sanitary Sewer Improvements Project will be constructed, improved or replaced on property within existing City right-of-way, on easements granted to the City or on property owned by the City. While two easements are owned by the City, the third easement is owned by a Mr. Clyde Burns. URA will need to be followed to acquire this easement.

If you have question or require additional information, feel free to contact me.

Sincerely,

David R. Eberenz
Project Manager

Cc: Mr. Dillo Bush, Mayor, City of Austin Indiana
Ms. Trena Carter, Manager-Municipal Programs, ARA
