## Cataract Lake Water rate case: Consumer comments invited

If you would like to comment on Cataract Lake Water Corporation's proposed rate increase, here's your chance.

The Indiana Office of Utility Consumer Counselor (OUCC) is inviting written consumer comments on the request through April 27, 2017. The OUCC, the state agency representing consumer interests in cases before the Indiana Utility Regulatory Commission (IURC), is scheduled to file its report in this case on May 4, 2017.

Cataract Lake Water Corporation's current rates were approved in 2009. Under its pending request, the monthly water bill for a residential customer using 5,000 gallons would rise from \$36.78 to \$45.68. The not-for-profit utility, which provides service to nearly 1,200 customers in Owen and Putnam counties, cites proposed capital improvements along with increased operating and maintenance costs in its filing with the IURC. Specific projects in the utility's filing include new meters, pump replacements, well cleaning, storage tank cleaning and painting.

More information on this case is available at [www.in.gov/oucc/2576.htm](http://www.in.gov/oucc/2576.htm).

Consumers who wish to submit written comments may do so via the OUCC's website at [www.in.gov/oucc/2361.htm](http://www.in.gov/oucc/2361.htm), or by mail, email, or fax:

- Fax: (317) 232-5923

The OUCC needs to receive all written consumer comments no later than April 27, 2017 so that it can: 1) Consider them in preparing its report and 2) File them with the Commission to be included in the case's formal evidentiary record. Comments should include the consumer's **name**, **mailing address**, and a reference to "**IURC Cause No. 44897-U.**"

Consumers with questions about submitting written comments can contact the OUCC's consumer services staff toll-free at 1-888-441-2494.

Cataract Lake Water Corporation is seeking the rate increase through the state's Small Utility Filing Procedure, which is available to utilities with fewer than 5,000 customers and is designed to reduce the time and expense involved with regulatory filings. Savings are gained by allowing utility staff to use standardized forms resulting in utilities needing less assistance from rate consultants or attorneys.

The standard for OUCC and IURC reviews on small utility filings is the same that applies to traditional utility filings. The OUCC conducts its review on behalf of all utility consumers while the IURC's review is conducted on behalf of the public interest (a balancing of utility and customer interests). A settlement agreement is possible in any legal proceeding; such an agreement, if reached, would require IURC approval.
