Van Buren Water Rate Case: Public Comments Invited *IURC Hearing April 2 in Bloomington*

The Indiana Office of Utility Consumer Counselor (OUCC) is inviting public comments on Van Buren Water Inc's pending rate request through April 7, 2025.

In addition, the Indiana Utility Regulatory Commission (IURC) will hold a public field hearing in Bloomington on Wednesday, April 2, 2025.

The OUCC – the state agency representing consumer interests in cases before the IURC – is reviewing the utility's request and is scheduled to file its report and recommendations on April 14, 2025.

Van Buren Water is a not-for-profit utility providing service to customers in Monroe County.

Written Consumer Comments

Consumers who wish to submit written comments for the case record may do so via the OUCC's website at www.in.gov/oucc/2361.htm or by mail at:

Public Comments
Indiana Office of Utility Consumer Counselor (OUCC)
115 W. Washington St., Suite 1500 SOUTH
Indianapolis, IN 46204

The OUCC needs to receive all written consumer comments **no later than April 7, 2025**, so that it can: 1) Consider them in preparing its testimony and 2) File them with the Commission to be included in the case's formal evidentiary record. Comments should include the consumer's **name, city, and zip code** and a reference to either **IURC Cause No. 46185-U** or **Van Buren Water**.

Comments **should not** contain sensitive or personal information as comments will become viewable and searchable online once posted to the IURC's online case file. Consumers with questions about submitting written comments can contact the OUCC's consumer services staff toll-free at 1-888-441-2494.

Public Field Hearing

The IURC has scheduled a public field hearing in this case for Wednesday, April 2, 2025, at the Monroe Convention Center in the Olcott Young Room (302 South College Avenue).

(Continued)

The hearing will begin at **6:00 p.m.** Consumers are encouraged to arrive by 5:45 p.m. for an overview of field hearing procedures and the rate case process. Attendees are required to comply with all local health and safety regulations. No final decisions about the case will be made at the hearing.

The sole purpose of a field hearing is to receive public testimony. A final decision is expected later this year.

- Consumers can speak directly to the Commission under oath and on the record.
- Oral comments presented during the field hearing will become part of the case record. They will carry the same weight as written consumer comments submitted to the OUCC by April 7, 2025.
- Utilities do not make presentations or answer questions during field hearings. The focus, again, is on public input.
- Commissioners are not allowed to answer questions about the case. They will ultimately render a decision after weighing evidence from the utility, the OUCC, and intervening parties. OUCC staff will be available to answer questions at the hearing.

Case Overview

Van Buren Water's current rates received IURC approval in 2015, with adjustments to account for changes in wholesale water costs.

According to its filing, the utility is requesting financing authority and seeking the rate increase due to higher operating and maintenance costs, and the need for infrastructure repairs and replacements. Monthly rates for a residential customer using 4,000 gallons would increase from \$31.60 to \$43.86 under the utility's request.

The utility has filed this case through the IURC's Small Utility Filing Procedure, which is designed to reduce the time and expense involved with regulatory filings for utilities with fewer than 8,000 customers. Savings are gained by allowing utility staff to use standardized forms and forego a technical evidentiary hearing. This is designed to result in utilities needing less assistance from rate consultants or attorneys, leading to fewer expenses to be passed on to customers.

The OUCC uses the same standard to review a utility's operations and records whether it seeks a rate increase through the Small Utility Filing Procedure or a traditional case. Conducting its analysis on behalf of all utility consumers, the OUCC will present the results of its review through a report to the IURC, including formal testimony. The IURC's review is conducted on behalf of the public interest (a balancing of utility and customer interests); it is responsible for resolving any factual disputes that may arise and issuing a final order establishing new rates.

A settlement agreement is possible in any legal proceeding; such an agreement, if reached, would require IURC approval.

The OUCC is posting case updates online at www.in.gov/oucc/watersewer/key-cases-by-utility/van-buren-water/. Case updates are also available through the agency's monthly email newsletter. Consumers can subscribe at www.in.gov/oucc/news/.

(IURC Cause No. 46185-U)

The Indiana Office of Utility Consumer Counselor (OUCC) represents Indiana consumer interests before state and federal bodies that regulate utilities. As a state agency, the OUCC's mission is to represent all Indiana consumers to ensure quality, reliable utility services at the most reasonable prices possible through dedicated advocacy, consumer education, and creative problem solving.
