North Dearborn Water Authority Rate Case: OUCC Invites Consumer Comments

If you would like to comment on North Dearborn Water Authority's pending rate request, you have the chance to do so.

The Indiana Office of Utility Consumer Counselor (OUCC), the state agency representing consumer interests in cases before the Indiana Utility Regulatory Commission (IURC), is reviewing the utility's request and is scheduled to file testimony on Dec. 10, 2021.

While using its legal and technical resources to analyze the request, including examining the utility's books and operations, the OUCC is inviting written comments from customers through Dec. 7, 2021.

North Dearborn Water Authority is requesting an across-the-board rate increase in two phases. The first increase of 23 percent would take effect when a Commission order is issued in 2022. The second increase of 17.26 percent would take effect in June 2023. The utility is also seeking IURC approval to issue up to \$4.25 million in long-term debt.

In its filings, the utility states it is seeking the changes to cover higher operating and maintenance costs, along with infrastructure improvements including new mains, well capacity upgrades, and a new water treatment plant.

North Dearborn Water Authority received IURC approval of its current rates in 2009. The utility provides water to more than 2,100 customers in Dearborn, Franklin, and Ripley Counties.

A settlement agreement is possible in any legal proceeding. If an agreement is reached, the settling parties are required to present evidence showing it to be in the public interest. The IURC may approve, deny, or modify any settlement it considers.

Consumers who wish to submit written comments for the case record may do so via the OUCC's website at www.in.gov/oucc/2361.htm, by email at uccinfo@oucc.IN.gov, or by mail at:
