Dr. Hassain stated that there is currently a pending complaint against Dr. Kawaiah in the state of Vermont; however, it is still under investigation. He stated that when he worked in Indiana there were no issues, and that he had support around him.

Ms. Vaught stated that SB 180 and HB 1254 have passed regarding foreign trained dentist being licensed as dental hygienist. She inquired as to what examinations will be required for in order to be licensed. The Board noted that dental national examinations are different from dental hygiene examinations, and that an institute will authorize an individual to take the ADEX or national board examination. For Indiana, the institute is typically the university.

The Board noted that the law stated that the individual must have a degree that is considered

DDS or DMD. They stated that the ECE or WES will note that those degrees are master's degrees, not a doctoral degree. They also noted that the education is primarily dental, not dental hygiene which is a different training.

The Board noted that they understood that the law was to give a licensure pathway for foreign trained practitioners, but they expressed concerns on the wording of the law and unclear requirements.

The Board agreed that applicants will need to show passing of the dental hygiene national board and clinical examinations. They stated that the applicants should be held to the same requirements of any new dental hygiene graduate.
