Annual Report for Programs in Nursing

Guidelines: An Annual Report, prepared and submitted by the faculty of the school of nursing, will provide the Indiana State Board of Nursing with a clear picture of how the nursing program is currently operating and its compliance with the regulations governing the professional and/or practical nurse education program(s) in the State of Indiana. The Annual Report is intended to inform the Education Subcommittee and the Indiana State Board of Nursing of program operations during the academic reporting year. This information will be posted on the Board’s website and will be available for public viewing.

Purpose: To provide a mechanism to provide consumers with information regarding nursing programs in Indiana and monitor complaints essential to the maintenance of a quality nursing education program.

Directions: To complete the Annual Report form attached, use data from your academic reporting year unless otherwise indicated. An example of an academic reporting year may be: August 1, 2011 through July 31, 2012. Academic reporting years may vary among institutions based on a number of factors including budget year, type of program delivery system, etc. Once your program specifies its academic reporting year, the program must utilize this same date range for each consecutive academic reporting year to insure no gaps in reporting. You must complete a separate report for each PN, ASN and BSN program.

This form is due to the Indiana Professional Licensing Agency by the close of business on October 1st each year. The form must be electronically submitted with the original signature of the Dean or Director to: PLA2@PLA.IN.GOV. Please place in the subject line “Annual Report (Insert School Name) (Insert Type of Program) (Insert Academic Reporting Year). For example, “Annual Report ABC School of Nursing ASN Program 2011.” The Board may also request your most recent school catalog, student handbook, nursing school brochures or other documentation as it sees fit. It is the program’s responsibility to keep these documents on file and to provide them to the Board in a timely manner if requested.

List of Faculty no Longer employed since last Annual Report:

- Lisa Scholl
- La’Shea Stewart
- Michelle Kozak
Complaints:

• Students and Faculty had concerns about the Anatomy and Physiology class having too much content and not enough time for the students to learn the material. Basically the course was too fast-paced. The schedule of the course was changed from 10 hours per week over 7 weeks to 7 hours per week over 10 weeks. This change has really helped the students have enough time to study between lectures.

• Several students expressed concern about a clinical instructor being too strict and insensitive. Referred the students to the nursing student handbook for the policies regarding clinical behavior, dress and expectations. Observations of the instructor completed with follow-up coaching.

• Eight students from the same cohort complained of various items regarding the program progression and remediation policy. Students referred to nursing student handbook and catalog. One main complaint was due to six students who failed a course in their last level of the program who were not being allowed to take IN-NSG300N Level 3 competency course. An additional course of IN-NSG300N held in October 2011 for these students. These students were not eligible in August 2011 to take this course with the rest of the cohort due to the progression policy. Students would have had to of waited until December 2011 to take the course and complete the program.
