New Reciprocity Licensure for Physicians, Osteopathic Medical Physicians, and Physician Assistants beginning Monday, July 25, 2022

Indianapolis, IN – The Indiana Professional Licensing Agency (IPLA), the Indiana Medical Licensing Board, and the Indiana Physician Assistant Committee are pleased to announce that physicians (MDs), osteopathic medical physicians (DOs), and physician assistants (PAs) now have a new means to apply for licensure through reciprocity in the state of Indiana. This is the first phase of the IPLA's rollout and implementation of licensure through reciprocity for health care professionals under the requirements of [Indiana Code § 25-1-21](#).

Beginning Monday, July 25, 2022, eligible applicants seeking licensure through reciprocity as MDs, DOs, and PAs may apply for their official license as well as a provisional (temporary) license online at MyLicense.IN.gov. The online application is the only means to apply for licensure through this method at this time.

More specific guidance and directions for applying for licensure through this method will be provided on the IPLA's "[Medical \(Physicians & Osteopathic Physicians\) Home](#)" [web page](#) and "[Physician Assistant Home](#)" [web page](#). Questions may be directed to the IPLA's staff to the Indiana Medical Licensing Board and the Indiana Physician Assistant Committee at pla3@pla.in.gov or (317) 234-2060.

The IPLA will proactively continue to roll out applications for licensure through reciprocity under the requirements of [Indiana Code § 25-1-21](#) for other eligible health care professionals. These applications will be rolled out in phases through the end of the year. The IPLA will provide additional announcements and guidance when such information is ready to be made available.
