ANNUAL REPORT FOR PROGRAMS IN NURSING

Guidelines: An Annual Report prepared and submitted by the faculty of the school of nursing, will provide the Indiana State Board of Nursing with a clear picture of how the nursing program is currently operating and its compliance with the regulations governing the professional and/or practical nurse education program(s) in the State of Indiana. The Annual Report is intended to inform the Education Subcommittee and the Indiana State Board of Nursing of program operations during the academic reporting year. This information will be posted on the Board's website and will be available for public viewing.

Purpose: To provide a mechanism to provide consumers with information regarding nursing programs in Indiana and monitor complaints essential to the maintenance of a quality nursing education program.

Directions: To complete the Annual Report form attached, use data from your academic reporting year unless otherwise indicated. An example of an academic reporting year may be: August 1, 2013 through July 31, 2014. Academic reporting years may vary among institutions based on a number of factors including budget year, type of program delivery system, etc. Once your program specifies its academic reporting year, the program must utilize this same date range for each consecutive academic reporting year to insure no gaps in reporting. You must complete a **SEPARATE report** for each PN, ASN and BSN program.

This form is due to the Indiana Professional Licensing Agency by the close of business on October 1st each year. The form must be electronically submitted with the original signature of the Dean or Director to: PLA2@PLA.IN.GOV. Please place in the subject line "Annual Report (Insert School Name) (Insert Type of Program) (Insert Academic Reporting Year). For example, "Annual Report ABC School of Nursing ASN Program 2013." The Board may also request your most recent school catalog, student handbook, nursing school brochures or other documentation as it sees fit. It is the program's responsibility to keep these documents on file and to provide them to the Board in a timely manner if requested.

SECTION 2: PROGRAM

Michael R. Pence, Governor

Nicholas Rhoad, Executive Director

1A.) How would you characterize your program's performance on the NCLEX for the most recent academic year as compared to previous years? Increasing X Stable Declining

1B.) If you identified your performance as declining, what steps is the program taking to address this issue?

2A.) Do you require students to pass a standardized comprehensive exam before taking the NCLEX?
Yes No X

2B.) If **not**, explain how you assess student readiness for the NCLEX.

We use the ATI Comprehensive Predictor to determine NCLEX readiness. It is used as a guide to assist the student to prepare for the exam, is not attached to a grade in the course, and is not a stipulation for program completion.

2C.) If **so**, which exam(s) do you require?

2D.) When in the program are comprehensive exams taken: Upon Completion
As part of a course X Ties to progression or thru curriculum

2E.) If taken as part of a course, please identify course(s):

NURS S 483 Practice Capstone (In last semester of program, usually about 3 weeks prior to completion)

3.) Describe any challenges/parameters on the capacity of your program below:

A. Faculty recruitment/retention:

- Finding PhD prepared nurses for Tenure track positions;
- Finding certain specialties with MSNs in Gerontological nursing and Medical-Surgical Nursing.
- Clinical faculty are hard to find and change often because of the other positions they hold and schedule needs and demands. Also, pay is not competitive for other nursing positions

B. Availability of clinical placements:

- We are fortunate to get many of the sites we request but one issue is low census in certain areas in certain facilities, such as Pediatrics and Psych. This limits the experiences students receive or we have to have smaller clinical groups to comply

Michael R. Pence, Governor

Nicholas Rhoad, Executive Director

with unit requirements (good for students and faculty, unit but less cost effective).
We maintain smaller groups sizes in lieu of increased observations.

C. Other programmatic concerns (library resources, skills lab, sim lab, etc.):

- The Lab Coordinator position is dedicated to SimLab experiences but faculty resources have limited our ability to fully implement this.
- Out of progression students use extra resources and demands on lab use. Exploring ways to better structure reentry of these students to clinicals (currently use workshop approach followed by practice and validations; considering requiring a one credit course to fulfill this.

4.) At what point does your program conduct a criminal background check on students?

- Criminal background checks are conducted at the point of application for the clinical program, normally second semester of sophomore year, and then again prior to the start of 7th semester (senior year) and placement into our Health of the Community classes

5.) At what point and in what manner are students apprised of the criminal background check for your program?

- Students are informed at the start of their pre-nursing studies of the criminal background check requirement for our program. Academic Advisors review this policy with the student in a one-to one registration appointment. Students are also given a hard copy of the online catalog department description for the nursing program. In this copy is a heading titled Criminal Checks. All new students pre-nursing must meet with an advisor for registration

SECTION 3: STUDENT INFORMATION

1.) Total number of students admitted in academic reporting year:

Summer 16 Fall 24 Spring 24

2.) Total number of graduates in academic reporting year:

Summer 2014 16 Fall 2013 26 Spring 2014 28

Michael R. Pence, Governor

Nicholas Rhoad, Executive Director

3.) Please attach a brief description of all complaints about the program, and include how they were addressed or resolved. For the purposes of illustration only, the CCNE definition of complaint is included at the end of the report. None.

4.) Indicate the type of program delivery system:

Semesters X Quarters _____ Other (specify): _____

Definitions from CCNE:

Potential Complainants

A complaint regarding an accredited program may be submitted by any individual who is directly affected by the actions or policies of the program. This may include students, faculty, staff, administrators, nurses, patients, employees, or the public.

Guidelines for the Complainant

The CCNE Board considers formal requests for implementation of the complaint process provided that the complainant: a) illustrates the full nature of the complaint in writing, describing how CCNE standards or procedures have been violated, and b) indicates his/her willingness to allow CCNE to notify the program and the parent institution of the exact nature of the complaint, including the identity of the originator of the complaint.

The Board may take whatever action it deems appropriate regarding verbal complaints, complaints that are submitted anonymously, or complaints in which the complainant has not given consent to being identified.
