DISCUSSION

Revision of Advanced Practice Nurse Rules Regarding Pharmacology Requirement

The Board discussed revising the pharmacology requirement that now exists in the Advanced Practice Nurse rules. Mary Blenchat with the Coalition of Advanced Practice Nurses was also present and spoke to the Board concerning the pharmacology requirements. The proposed language allows for advanced practice nurses who cannot meet the pharmacology course, within the past 5 years, to receive prescriptive authority if they have national certification. Ernest Klein, Executive Director of the Indiana State Nurses Association (ISNA) was also present and addressed the Board regarding this matter. Mr. Klein stated that just because they have national certification does not necessarily mean they've taken a pharmacology course or pharmacology continuing education. Mr. Klein also indicated to the Board that more research should be done to determine whether each certifying body that we accept requires the pharmacology courses. The Board requested more research on the certifying bodies and TABLED the discussion until the April 2003 meeting.

Errors in submitting Certificate of Completions – The Health Professions Bureau submitted a letter of concern to the Board concerning Ivy Tech State College, Columbus. They have submitted two (2) Certificate of Completions incorrectly with a worst-case scenario being that the two students could have been licensed before they had finished their program requirements. The Bureau caught both errors before the students actually took the examination. The Board considered this a very serious error made by the school and requested that a letter be sent to the school addressing this error.
