## IV. INDIANA STATE NURSES ASSISTANCE PROGRAM

Chuck Lindquist presented on behalf of ISNAP. They are receiving good feedback for the new case management system. They ran an INSPECT report in the second quarter on all nurses with encumbered licenses. Out of the 228 with encumbered licenses, 199 had no INSPECT activity; 11 had informed ISNAP of a prescription; 11 had 1 or 2 prescriptions without pattern of abuse; 5 were closed out of ISNAP and 2 had OTSC issued for them. ISNAP reports 40 RMA's returned this month, which is the highest in 7 years. Ms. McIntosh asked Mr. Klein about the transition in his position given his retirement. Mr. Klein indicated they have signed a shared services agreement with the Ohio State Nurses Association and that individual will serve as the CEO of the ISNA. They also have new policy director named Blayne Miley. Mr. Klein reports that ISNA will remain incorporated in the State of Indiana with an Indiana elected Board of Directors. Ms. Ogle asked about how this will affect ISNAP. Mr. Klein indicated she will monitor ISNAP via email and technology and that Mr. Miley will be taking care of the invoicing. Ms. Ogle indicated concerns that the new employee will be half-time. Will she be able to support the ISNAP program in same manner? Mr. Klein indicated he provided very little oversight for ISNAP and left most of it to Mr. Lindquist. Ms. Ogle then asked about having the new system in place- has there been an increase in employee efficiencies since the system has been in place? Mr. Lindquist indicated it has allowed case managers to respond in a much timelier basis and provides better oversight for a smaller case load. Mr.

Lindquist also spoke as to the ability to quickly run reports and have alerts on licensees after 3 days of not calling into the system. Mr. Klein was thanked for his years of service on behalf of Indiana's nurses.

E. Brown Mackie Fort Wayne Site Visit September 2012 (Narwold/Dolk) **CONTINUED**

F. Ivy Tech Richmond ASN Program Site Visit September 2012 (Hall/Narwold)

Staff from Ivy Tech Richmond ("IVR") was present regarding the site visit conducted in September 2012. Ms. Hall indicated this was a visit after a one year plan of correction. The site visitors met with administrators. IVR has hired four new faculty members, there has been increased support and rigor in the nursing department including test writing and increased use of ATI. The academic dean of the school (who had only been in place for 1 month) noticed a very positive attitude in the nursing department. The site visitors asked why it took so long to focus on NCLEX scores and they indicated it was faculty turnover. The faculty interviewed was all fairly new with the exception of 2 full time faculty members. Faculty now advises students in the nursing program. Students interviewed voiced frustration with the program especially pharmacology where a teacher quit suddenly and they felt they were being taught to pass the NCLEX vs. gaining skills to be a nurse. The school was placed on a plan of correction in May 2011 and submitted a review in May 2012. NCLEX 08 71.1, 09 64.18, 10 74.0 11 68.29. The surveyors felt there is strength in administrative support and newly developed faculty advising. Their weaknesses include low NCLEX scores and faculty turnover. The recommendation is conditional accreditation for one year of NCLEX scores above the national average. Ms. Peters indicated the 4<sup>th</sup> quarter of last year was 100%, 1<sup>st</sup> quarter of this year 100% and 2<sup>nd</sup> quarter of this year was 96%. They have started pharmacology tutoring for their students to fit student schedules. Their graduating class in May 2012 was the first since they have implemented changes in the last year. Ms. Narwold voiced that she is against the recommendation because she says the rules were not followed in this instance. In the rules, she is looking at the accreditation purpose itself and if a program has 3 consecutive years below the standard they can be put on a plan of correction which occurred in May 2011. She says they have not seen the next year of scores to calculate a standard deviation. Ms. Laux asked how many people took the exam in 4<sup>th</sup> quarter 2011- 2 people, 1<sup>st</sup> quarter 2012- 1 person, 2<sup>nd</sup> quarter 2012- 27. Ms. Kiefner explained the data utilized was from 3 years (2008, 2009 and 2010) for the plan of correction and then the 2011 NCLEX scores were utilized for the site visit and this recommendation. **Board Action: A motion is made and seconded to place the program on conditional accreditation. Ogle/Laux, 6-1-1 (Narwold against, Cooper abstained) May 2013 will be date they can come back for removal.**
