New Life Center, 61100116B Cause No. 2017IBP0077
Reinstatement

DAG: Alex James
Respondent: Tonja Rogers, Chief Clinical Officer
Exhibit(s): Exhibits A - K
Witness(es): Tonja Rogers

Respondent notified about being represented by Counsel and chose to proceed without Counsel. Respondent asked that their license be reinstated and be allowed to serve their population of patients. The State reminded the Board of what transpired in this case. State reminded the Board that the Respondent surrendered their DEA which renders the CSR also surrendered. Respondent asked that submitted exhibits be admitted. The State summarized the Summary Suspension Order issued in May 2026. The Board asked what has changed and what is different today. The Respondent discussed various staffing changes. Respondent stated that it was not possible to remember what was included in all of the exhibits. The Board asked the Respondent to distinguish between New Life Center and Edgewater Health. Respondent explained that Edgewater Health is a program in New Life Center. The Board asked how many patients are seen at Edgewater health. 2500 patient are seen in a year at Edgewater Health. The Board asked about the disconnect of adherence of policies and procedures from 2024 to now. Respondent explained that the disconnect was related to disgruntled employees and takes full responsibility. The Board asked about the new implementation of training including the Respondent and Director of the Program. Prior orientation did not include everything that was needed for new employees. The Nurse Manager will report directly to the Director. The current power of attorney is Joseph Torres. He is the only current power of attorney. The new nurse manager will also have power of attorney when she starts. The Respondent hired a new alarm company. The new alarm system is functional according to the Respondent. The Board asked about the registrant, Dr. Danita Johnson. Dr. Johson is the registrant and is a Ph.D. The registrant is responsible for all licensing activities. The Respondent admitted a lot of training should have taken place. The Board acknowledges there is a need for the patients to be seen. The Board asked about the plan going forward. Hired a new nurse manager and other qualified staff. The Director has twenty plus years of experience with methadone. The Board asked that if the license is reinstated today, to describe how soon the patients could be served. The State described other deficiencies found over the years. The Respondent stated that there was no excuse for what occurred. The Respondent hopes to open the clinic. The State recommended reinstatement on Probation and contingent upon receiving their DEA. Given the history with this facility, the Probation length should be long in term. The Board agreed that a probationary license should be contingent on receiving the DEA and a pharmacy consultant be hired. A Ph.D registrant will not necessarily know what to do. The Board discussed requiring quarterly inspections from an independent inspector. Alarm system must be functional. The Board agrees there's a patient base and a need is there. There should be a stop gap in place until there's confirmation that this facility is on track. The Board would like to see what else has been fixed and building a new culture. If a probationary license is

issued, may not practice until they receive their DEA. Dr. Johson must review and sign off on the DEA Manual and understands the requirements of the manual. Must provide updating training documents. May not request probation withdraw for two years, hire a pharmacy manager consultant and appear before the Board after DEA is issued. The Respondent must notify the Board if the DEA permit is issued and whether issuance includes any terms and conditions.

After having considered the evidence presented and taking official, judicial notice of the pleadings, evidence and orders in this matter the Board moved to REINSTATE the license on INDEFINITE PROBATION with terms and conditions.

Reinstatement

DAG: None
Respondent: Dr. John Swaim, Mike Hardy
Exhibit(s): Exhibits A, B
Witness(es): Dr. John Swaim

The Respondent gave an opening statement. Dr. Swaim has a fully valid medical license held for about 60 years. The issue stemmed from the treatment of his daughter in the spring of last year. Dr. Swaim attempted to temper the patient. Dr. Swaim ultimately surrendered his DEA. The Respondent referenced exhibits A & B included as attachments to the Hearing Notice. Discussed related completed training numbering hundreds of hours. Dr. Swaim continues to maintain a small practice but would like to provide a full service of care by having his CSR reinstated. Dr. Swaim described what happened in this case.

After having considered the evidence presented and taking official, judicial notice of the pleadings, evidence and orders in this matter the Board moved to REINSTATE the CSR.

Pharmaneek – Pharmacy Remodel Application – Failed Inspection

Matt and Ryan Torres appeared in person to discuss the pharmacy remodel application failure. The Board invited Melissa Gresham and Zaneta Nunnally to discuss the inspections for the remodel inspections. March, June and August inspections were fails there have been a total of 5 inspections. Some of the failure points were similar. There are ongoing issues regarding the clean room flooring. The Board asked Pharmaneek to describe their concerns about the failed inspections and what they did. Pharmaneek has contacted a different contractor and believes the floor looks better. The flooring issue has been fixed according to Pharmaneek. The flooring has been done more than three times. The floor was completed again on September 10th. The inspectors have not returned to the facility since the August 11, 2026 failed inspection. Inspectors recommended bringing in a pharmacist consultant to assist with the open opportunities to correct. Pharmaneek stated they are not currently compounding. The Board asked about the June 24, 2026 inspection. The inspectors suggested that Pharmaneek withdraw the application. The owner disclosed that he was in the cleanroom with a hammer to fix the floor. The failure was about the opportunities to correct and the ongoing failure to do so. The Board explained that unlicensed personnel could go in the room if it's not yet licensed. Have passed environmental test reports. Each inspection lasts approximately four to five hours. The Board asked again about the confrontational behavior during the last inspection. The Board asked Pharmaneek if they had a different view of the confrontation during the last inspection. Pharmaneek stated that they respected the position of the inspectors. The Board asked what type of compounding they plan to do. Planning to do GLP1 compounding but stated they have not engaged in any of that compounding. The Board asked about quantity of compounds they are considering. Stated they have lost several contracts. According to the Inspectors, are purchasing GLP1s from unlicensed facilities. They are purchasing a sterile product and according to rule 30, this is compounding. The Board asked what Pharmaneek is buying and relabeling. Pharmaneek sent out the products they were purchasing. The Board asked Zaneta to describe what happens when a facility remodel application is submitted. Discussed the number of inspections at this one facility alone. Inspectors have inspected many facilities and have failed none. Inspectors must return within 90 days of the last inspection. The Board discussed the Probation Terms and what happens if they pass their inspection.

After discussion, the Board moved to TABLE the remodel application until receipt of a passing inspection.
