Statewide Opioid Summit
A Medication-Assisted Treatment and Addictions Primer for Justice Professionals
July 25, 2018 | Indiana Convention Center

AGENDA

8:00 a.m.
Registration

9:00 a.m. | Opening Session
500 Ballroom, 1st Level
Welcome
Hon. Loretta H. Rush, Chief Justice of Indiana
Hon. William J. Nelson, Marion Superior Court

The Science of Addiction & Medication-Assisted Treatment (MAT)
Leslie Hulvershorn, M.D., Family and Social Services Administration, Indiana University School of Medicine
R. Andrew Chambers, M.D., Indiana University School of Medicine
Hon. Darrin Dolehanty, Wayne Superior Court #3, panel discussion moderator
Jennifer Walthall, M.D., Secretary, Family and Social Services Administration, Indiana University School of Medicine

10:30 a.m.
Break

10:45 a.m. | Concurrent Breakout Sessions
500 Ballroom, 1st Level
- Services at Your Fingertips: Connect People to Care
  Rooms 109-110, 1st Level
- Legal and Policy Barriers to Effective Opioids Interventions
  Rooms 104-106, 1st Level
- Indiana Opioid Data Overview
  Rooms 101-103, 1st Level

2:00 p.m.
Legal and Policy Barriers to Effective Opioids Interventions
500 Ballroom, 1st Level

3:00 p.m.
Break

3:10 p.m. | Concurrent Breakout Sessions
500 Ballroom, 1st Level
- Legal Implications of Addiction & MAT and the Role of Justice Professionals
  Douglas Marlowe, J.D., Ph.D., National Association of Drug Court Professionals
- Sequential Intercept Model (SIM) and County-Team Discussions

4:10 p.m.
The Face of Recovery & Closing Remarks
500 Ballroom, 1st Level
Hon. Loretta H. Rush, Chief Justice of Indiana
Hon. Steven H. David, Justice, Indiana Supreme Court
Brandon George, Director, Indiana Addiction Issues Coalition

Next Level Recovery

The Science of Addiction & Medication-Assisted Treatment (MAT)
Faculty: Leslie Hulvershorn, M.D., Medical Director, Family and Social Services Administration, Division of Mental Health and Addiction and Indiana University School of Medicine; R. Andrew Chambers, M.D., Indiana University School of Medicine, Addiction Psychiatry Fellowship Director; Hon. Darrin Dolehanty, Wayne Superior Court #3, panel discussion Moderator; and Jennifer Walthall, M.D., Secretary, Family and Social Services Administration and Indiana University School of Medicine.

A panel of expert physicians will discuss addiction as a disease of the brain with a focus on opioid use disorders. The presentation will address the neurobiology and pathogenesis of opioid addiction, biological vulnerabilities, and the causes and potential remedies of the epidemic.

Faculty will cover the fundamentals of medication-assisted treatment (MAT) for opioid use disorders, review the clinical evidence, the neurobiological mechanisms, and the personal and societal risks of using/not using MAT. This session will explore the array of treatment settings in which individuals can receive MAT and the regulatory environment surrounding MAT. This session will also include a moderated panel discussion addressing facts and myths about the use of MAT for opioid use disorders.

Legal Implications of Addiction & MAT and the Role of Justice Professionals
Faculty: Douglas Marlowe, J.D., Ph.D., Senior Scientific Consultant for the National Association of Drug Court Professionals.

This session will review legal standards governing the use of MAT in the criminal justice system including best practice standards promulgated by National Association of Drug Court Professionals and other leading national practitioner organizations. Audience members will learn about the appropriate roles and responsibilities of criminal justice professionals in working with persons receiving MAT, and methods for monitoring and reducing the risk of diversion or misuse of the medications.

Best Practices for Individuals with a Substance Use Disorder
Faculty: Douglas Marlowe, J.D., Ph.D., Senior Scientific Consultant for the National Association of Drug Court Professionals.

In this plenary session, Dr. Marlowe will highlight policy considerations and best practices for serving and supervising justice system-involved persons diagnosed with opioid and other substance use disorders. Audience members will learn practical methods for screening appropriate candidates for MAT, effective procedures for compliance-monitoring, and responsible ways of dealing with misuse or untoward effects from the medications.

Services at Your Fingertips: Connect People to Care
Faculty: Nishi Rawat, M.D., Open Beds, Inc.; Julie Johns-Cole, Indiana 211; Leslie Hulvershorn, M.D., Medical Director, Family and Social Services Administration, Division of Mental Health and Addiction and Indiana University School of Medicine.

What steps do you currently take to find treatment resources? What is your success rate? Is there a better way to locate an open bed? By leveraging current technologies with best practices identifying capacity and patient referral, Indiana’s Family and Social Services Administration, 211, and OpenBeds, Inc., deployed a provider-facing, cloud-based platform that facilitates the referral of patients in need of substance use disorder treatment. This platform replaces existing manual search and communication processes to provide real-time treatment facility availability, evidence-based therapy offerings, two-way digital provider communication, and data aggregation and analytics.

Faculty will discuss the platform, implementation across the state, treatment utilization and referral data compiled to date, and how the network can serve the criminal justice system. Faculty will also discuss challenges and opportunities to improve transparency and integrate care across the medical, behavioral health, and justice systems.

Sobriety Treatment and Recovery Teams (START) and Family Recovery Courts—How These Models Can Help Families Affected by the Opioid Crisis
Faculty: Hon. Christopher Goff, Justice, Indiana Supreme Court; Tina Willauer, Program Director, National Center on Substance Abuse and Child Welfare; and Pamela Knight, Field Manager, Indiana Department of Child Services.

The Sobriety Treatment and Recovery Teams (START) model, a child welfare-led intervention, has been shown to improve outcomes for both parents and children impacted by parental substance use disorders. START is instrumental in ensuring child safety while helping families find recovery, promoting cross-system collaboration, and addressing system barriers to support best practice by both the child welfare system and treatment providers.

Family Recovery Courts (FRC), a judiciary-led intervention, uses a multidisciplinary and collaborative approach to help families suffering from opioid/substance use and co-occurring disorders. Family Recovery Courts have been shown to increase parental participation in treatment as well as the rate of children reunified with their parents. Both the START and FRC models promote collaborative relationships between child welfare agencies, substance use treatment providers, the court, and other family-serving systems and agencies. This session will increase understanding of the strategies associated with each model and how these strategies overlap and intersect. Additionally, this session will focus on approaches to operationalizing MAT practices when serving families involved with both the child welfare and court systems.
Legal and Policy Barriers to Effective Opioids Interventions

Faculty: Nicolas P. Terry, Hall Render Professor of Law, Executive Director, William S. and Christine S. Hall Center for Law and Health, Indiana University Robert H. McKinney School of Law; Ross D. Silverman, Professor of Health Policy & Management, Indiana University Richard M. Fairbanks School of Public Health at IUPUI, Professor of Public Health & Law, Indiana University Robert H. McKinney School of Law; and Aila Hoss, Visiting Assistant Professor and IU Grand Challenge Fellow, Indiana University Robert H. McKinney School of Law.

In 2017, Indiana University, in cooperation with Governor Eric Holcomb and community partners, launched the Grand Challenge: Responding to the Addictions Crisis initiative, a university-wide effort to advance interdisciplinary research and interventions in response to the substance abuse crisis.

Researchers at the IU Robert H. McKinney School of Law and IU Richard M. Fairbanks School of Public Health led the project on “Legal and Policy Best Practices in Response to the Substance Abuse Crisis.” Their preliminary report identifies legal and policy barriers that hinder effective implementation of opioids crisis interventions. During this session, project team members will present findings identifying legal and policy barriers which hinder effective implementation of opioid crisis interventions, discuss implementation, and suggest future actions. A summary of their report may be found at grandchallenges.iu.edu.

Indiana Opioid Data Overview

Faculty: Lee Everett, Director of Engagement & Analytics for Public Safety, Indiana Management Performance Hub; Josie Fasoldt, Director of Engagement & Analytics for Health & Human Services, Indiana Management Performance Hub; Timothy George, Director of Policy, Office of Governor Eric J. Holcomb; and Jim McClelland, Executive Director, Indiana Drug Prevention, Treatment and Enforcement, Office of Governor Eric J. Holcomb.

This breakout session will offer an overview of the State’s data efforts. Speakers will provide insights from the data and discuss it being used to combat the opioid epidemic.

Treating Opioid Use Disorder in Jail Settings: Workforce Development and Program Opportunities

Faculty: Zachary Adams, Ph.D., HSPP, Department of Psychiatry, Indiana University School of Medicine; Nicholas Svetauskas, Addiction Bureau Chief, Division of Mental Health and Addiction, Indiana Family and Social Services Agency; Mary Beth Bonaventura, Special Counsel, Indiana Attorney General’s Office; and Stephanie L. (Spoolstra) Anderson, LCSW, Executive Director, Addiction Recovery Services, Indiana Department of Correction.

Incarcerated persons experience elevated rates of opioid use disorder and other complex health conditions, such as Hepatitis C. Medical professionals working in correctional settings face challenges in delivering treatment for opioid use disorder due to gaps in resources, training, and a lack of specialists. Project Extension for Community Health Outcomes (ECHO) is a lifelong learning and guided practice model that increases workforce capacity to provide best practice specialty care and reduce health disparities through hub-and-spoke knowledge-sharing networks. Specifically, Project ECHO uses videoconferencing technology to connect health professionals in the community with experts.

This presentation gives an overview of the ECHO model with an emphasis on initiatives to address the opioid epidemic at Indiana University School of Medicine, applications of the ECHO model in correctional settings, and legal ramifications for failing to provide MAT to prisoners. In addition to opportunities with Project ECHO, this session will also detail jail-based MAT projects around the state of Indiana; and best practices for jails, given physical space limitations.

Indiana Scheduled Prescription Electronic Collection and Tracking (INSPECT) Program

Faculty: Diane Mains, Staff Attorney, Indiana Office of Court Services, Office of Judicial Administration; and William Woodruff, INSPECT Business System Consultant, Professional Licensing Agency.

What is it? How do I access it? How may I use Indiana Scheduled Prescription Electronic Collection Tracking (INSPECT) information? Learn how probation officers and court staff may access and use INSPECT when completing a presentence investigation report; determining eligibility for a program or service; and using community supervision management to help address the problem of prescription drug abuse and diversion in Indiana.
Zachary Adams, Ph.D., HSSP, is an Assistant Professor and licensed health service provider in psychology at the Indiana University School of Medicine, Department of Psychiatry. His clinical and research interests center on improving care and promoting healthy outcomes for young people with co-occurring mental health and substance use problems, with an emphasis on youth and families impacted by trauma and adversity. Dr. Adams is a member of the Indiana Opioid Use Disorder ECHO leadership team and is the facilitator for the Behavioral Health Specialist track.

Stephanie L. Anderson is the Executive Director of Addiction Recovery Services for the Indiana Department of Correction where she is responsible for clinical addiction treatment, addiction recovery programming, and the integration of addiction treatment with mental health and physical health services. She received her Master of Social Work (2007), from Washington University in St. Louis, where she specialized in working with at-risk, delinquent youth, and their families. Her work included a focus on the treatment of co-morbid mental health and addiction disorders. In 2014, she began serving as Deputy Director of Adult Mental Health and Addiction Services of the Family and Social Services Administration. Ms. Anderson was a founding member of the Indiana Addiction Care Plan and the Indiana Addiction Recovery Partnership, a nonprofit organization dedicated to Adult Forensic Populations, Mental Illness, Addiction Treatment, Opioid Treatment Programs, Services for Homeless Populations and Veterans, and Emergency Preparedness.

Mary Beth Bonaventura serves as Special Counsel to Indiana Attorney General Curtis Hill. She oversees the Attorney General’s Outreach Program, which includes serving on the Drug Task Force Committee. From 2013-2017, she led the Indiana Department of Child Services, which aims to protect children from abuse and neglect, and work to ensure their financial support. Prior to leading DCS, Bonaventura served Honorees in Lake County for over 30 years, most recently as Senior Judge of the Lake County Superior Court, Juvenile Division. Bonaventura earned her Juris Doctor degree from Northern Illinois University in DeKalb, Illinois, and received an honorary Doctor of Arts and Humane Letters degree from Marian University.

R. Andrew Chambers, M.D., is an Associate Professor of Psychiatry at the Indiana University (IU) School of Medicine in Indianapolis. He is a graduate of Centre College (1991), Duke University School of Medicine (1996), and Yale University Psychiatry Residency and Fellowship Programs in Neuroscience (2002). He graduated from the Addiction Psychiatry Training Program at IU in 2002, and is now Director of this program. Dr. Chambers has served as an expert consultant for the Attorney General of Indiana, the U.S. Drug Enforcement Agency, and private attorneys in criminal, civil, and administrative cases.

Hon. Steven H. David is the 108th justice of the Indiana Supreme Court, and was appointed to in 2010. Justice David’s 35 years of public service includes 16 years as a trial court judge in Boone County and 28 years of military service. He was the recipient of the coveted Robert Kinsey Award, awarded to the most outstanding Juvenile Court Judge in Indiana. Justice David also received the Defense Superior Service Award, the nation’s third highest non-combat medal He served in the United States Army Judge Advocate General’s Corps, earning the rank of Colonel, and logged active and reserve time, including service in Iraq and Guantanamo Bay Cuba. Justice David is currently an adjunct professor at IU McKinney School of Law and is a frequent public speaker.

Hon. Darrin M. Dolehanty has served as the Judge of Wayne Superior Court No. 3 since 2003. Judge Dolehanty received his B.S. in Public Affairs from the Indiana University School of Public and Environmental Affairs (1989) and his J.D. from the Indiana University School of Law (1992). Prior to taking the bench, he was associated with the firm Kellner, Mendenhall, Kleinriecht and Milligan, in Richmond, Indiana (1992-1994). He served as Deputy and then Chief Deputy Prosecuting Attorney in Wayne County, Indiana, from 1994-2002. He currently serves on the Indiana Supreme Court’s Juvenile Justice Improvement Committee as well as the Strategic Planning Committee. He sits on the Indiana Judicial Conference Board of Directors, the GAL/CASAC Advisory Board, and the Wayne County Community Corrections Advisory Board; and currently serves as Secretary/Treasurer of the Indiana Judges Association, and President of the Indiana Council of Juvenile and Family Court Judges. Judge Dolehanty has served as adjunct faculty at Indiana University East, and the National Judicial College, in Reno, Nevada.

Lee Everett serves as a Director of Engagement & Analytics for Public Safety at Indiana’s Management Performance Hub (MPH). He works on a broad range of analytical projects throughout the state’s public safety agencies, including addressing the state’s opioid crisis through data analytics. Prior to joining MPH at the State of Indiana, Mr. Everett served as an assistant professor at the University of Indianapolis and a graduate research associate at Oklahoma State University. Mr. Everett earned his Georgia Southern University, PhD from Oklahoma State University, and an MBA from the University of Indianapolis.

Josie Fasoldt serves as the Director of Engagement and Analytics for Health and Human Services at the Management Performance Hub (MPH). Ms. Fasoldt guides government and business executives in the health and human services space towards inaugurating data analytics solutions that improve state agency operations and inform policy to benefit Indiana residents. She is the co-project owner for the MPH Drug Project that supports the Indiana Commission to Combat Drug Abuse. Before joining MPH, she worked for New York State’s oldest criminal justice non-profit, the Osborne Association, where she led data analytics for its jail, prison, substance abuse, and workforce development programs.

Brandon George is the Director of Indiana Addiction Issues Coalition (IAIC). Mr. George sits on the advisory board (MHAPAC) for Indiana’s Division of Mental Health and Addiction, is on the Expert Panel for Indiana University School of Medicine’s Project ECHO, and is a committee chair on the Indiana Attorney General’s Office Drug Task Force. Mr. George also manages a jail chemical addictions program at Boone County Jail to help people get the services they need while incarcerated. Mr. George is also a person in long-term recovery from substance use disorders/opioid use disorder. His personal experience, education, and professional accomplishments give him a unique perspective and outlook on both addiction and recovery.

Timothy George is the Director of Policy for Indiana Governor Eric J. Holcomb. He works on a broad range of policy issues, including addressing the state’s opioid crisis and furthering the use of the State’s data. Prior to joining Governor Holcomb’s staff, Mr. George practiced law in Charlotte, NC, and worked as an aide to former Indiana Governor Mitch Daniels. He has a BA from Wheaton College (IL) and a JD from The University of Texas School of Law.

Hon. Christopher M. Goff is the 110th justice of the Indiana Supreme Court and was appointed in 2017. Justice Goff previously served as Wabash County Superior Court Judge for twelve years. He established the Wabash County Drug Court and the Wabash County Family Drug Treatment Court. Justice Goff served on the Board of Directors of the Indiana Judicial Conference, representing Wabash, Huntington, Wells and Adams Counties. He also served as Chair of the Protection Order Committee of the Indiana Judicial Conference. Justice Goff attended Ball State University graduating summa cum laude (1994) and earned his law degree at the Indiana University Maurer School of Law (1996).

Aila Hess is a Visiting Assistant Professor at Indiana University Robert H. McKinney School of Law. Her research explores topics in public health law, health policy development, and the impact of federal Indian law and Tribal law on health outcomes. Prior to joining the faculty at IU, Aila served as a staff attorney for the Centers for Disease Control and Prevention’s Public Health Law Program (PHLP), where she worked to improve public health through the development of legal tools and the provision of legal technical assistance to state, Tribal, local, and territorial governments. She has published on a variety of health law topics in the Journal of Law, Medicine and Ethics, the Journal of Public Health Management and Practice, and the CDC’s Morbidity and Mortality Weekly Report, among others. Professor Hess completed her BA at Emory University and her JD at the University of Oregon.

Regina “Regi” Huerter serves as a Senior Project Associate with Policy Research Associates Inc., in New York to provide training and technical assistance to counties engaged in the MacArthur Safety and Justice Challenge and, those addressing the intersection of behavioral health and justice. Prior to joining PRA, she was the Executive Director of the Department of Behavioral Health Strategies and Crime Prevention and Control Commission. Her work for the City and County of Denver resulted in youth and adult justice system reform across the system. Ms. Huerter holds a Bachelor’s degree in Psychology from the University of Northern Colorado and a Master’s degree in Counseling from the University of Colorado. Ms. Huerter works as adjunct faculty for Metropolitan State University of Denver. Ms. Huerter is the recipient of several awards, including those she is most proud of— the 9 News “9 Who Care” and 2008 NAMI Colorado “Heroes in the Fight” – for advocacy and creating changes in the mental health/criminal justice system.

Leslie Hulvershom, M.D., is currently an Assistant Professor of Psychiatry at the Indiana University School of Medicine and serves as the Medical Director for the Division of Mental Health and Addiction at Indiana Family and Social Services Administration. She graduated from Indiana University, Bloomington, with honors in Neuroscience. She completed a Master of Science in Neuroscience at the University of Oxford, United Kingdom, her M.D. at the Indiana University School of Medicine, an Academic Track residency in General Psychiatry at the Indiana University School of Medicine, Department of Psychiatry, and a two-year Research Track Child and Adolescent Psychiatry Fellowship at New York University. Dr. Hulvershom is an active researcher and clinician and has authored numerous publications on child psychiatry and addiction psychiatry. She is board certified in Addiction Medicine and directs the Adolescent Dual Diagnosis Program at the Riley Hospital for Children.

Julie Johns-Cole is the State Director for the Indiana 211 Partnership, a nonprofit organization dedicated to providing the 2-1-1 information and referral services for Indiana. Ms. Johns-Cole has over a decade of experience working in the community, economic development, and nonprofit field. Prior to joining the Partnership, Ms. Johns-Cole’s previous roles include Executive Director for the Zionsville Chamber of Commerce and Economic Development & Planning Director for the City of Angola. Ms. Johns-Cole received her Economic Development Finance Professional certification (2011), graduated from the University of Oklahoma’s Economic Development Institute (2009), completed her Master’s Degree from Indiana University-Fort Wayne (2002) and received her bachelor’s degree from Ball State University (1998).
Pamela Knight serves as a Field Manager with the Indiana Department of Child Services (DCS). In this role, Ms. Knight oversees field practice in specialized areas including Institutional Child Protective Services, Child Fataility Review, Rapid Safety Feedback, and Sobriety Treatment and Recovery Teams (START). Ms. Knight has been with DCS for nearly 18 years, serving in a variety of roles including Family Case Manager, Staff Development Trainer and Local Office Director. Ms. Knight obtained her Master's Degree in Social Work from Indiana University and Bachelor's Degree in Psychology from Ball State University.

Diane Mains is a Staff Attorney for the Indiana Office of Court Services, Office of Judicial Administration. She was previously employed by the Indiana Department of Correction for ten years as staff attorney, legislative liaison, and reentry program administrator. She received her law degree from the Creighton School of Law.

Douglas Marlowe, J.D., Ph.D., is a Senior Scientific Consultant for the National Association of Drug Court Professionals (NADCP), Senior Science & Policy Advisor for Alcohol Monitoring Systems, and Training Consultant for the Global Institute of Forensic Research. Previously, he was the Chief of Science, Law & Policy for NADCP, the Director of Law & Ethics Research at the Treatment Professionals (NADCP), Senior Science & Policy Advisor to the National Research Council, and held roles including Family Case Manager, Staff Development Trainer, and Local Office Director. Mr. Marlowe has been employed by the Indiana Department of Correction for ten years as staff attorney, legislative liaison, and reentry program administrator. He received his law degree from the Creighton School of Law.

Correction for ten years as staff attorney, legislative liaison, and reentry program administrator. He received his law degree from the Creighton School of Law.

Jennifer Walthall, M.D., M.P.H. was appointed as Secretary of the Family and Social Services Administration by Governor Eric J. Holcomb in 2017. Prior to this, she served as the Deputy State Health Commissioner and Director for Health Outcomes at the Indiana State Department of Health. Dr. Walthall is currently a Professor of Emergency Medicine and Pediatrics at Indiana University School of Medicine. She served as the Division Chief for Pediatric Emergency Medicine and was the Program Director for the Emergency Medicine and Pediatrics Residency from 2007-2015. Dr. Walthall works clinically in the Riley Hospital for Children Emergency Department. She earned her undergraduate degree from the University of Houston Honors College and her Master in Public Health at the Richard Fairbanks School of Public Health at Indiana University. She earned her Medical Doctorate at Indiana University School of Medicine and is board certified in Emergency Medicine and Pediatrics.

Tina Willauer currently serves as a Program Director with the National Center on Substance Abuse and Child Welfare. She also serves as a Program Director for the Center for Children and Family Futures (CCFF). In this role, Ms. Willauer oversees the management of the Regional Partnership Grant Technical Assistance program through the National Center on Substance Abuse and Child Welfare. Ms. Willauer also serves as the Program Director for Sobriety Treatment and Recovery Teams (START). Prior to this, she was the Director of Kentucky Sobriety Treatment and Recovery Teams (START) at the Department for Community Based Services (DCBS) from 2007-2017, overseeing the development, implementation and expansion of the model in KY. As an independent consultant since 2007, Ms. Willauer has also worked in numerous jurisdictions to help implement START and other child welfare system improvement strategies. Ms. Willauer obtained her Master's Degree in Public Administration from Cleveland State University and Bachelor's Degree in Criminal Justice from Bowling Green State University. She has 27 years of experience in the child welfare system, serving as a front line social worker, supervisor, senior manager, program director and consultant within the public child welfare system, with a focus on child maltreatment and substance use disorders.

William Woodruff serves as an Indiana Scheduled Prescription Electronic Collection and Tracking (INSPECT) Business System Consultant with the Professional Licensing Agency. Mr. Woodruff has spent some 20 years in healthcare. He was in private business and government business with Blue Cross and Blue Shield prior to opening his own business. After selling his business, he joined EDS/HP as a field consultant for the Medicaid program for which they were the fiscal agent. After retiring from HP, he went back to work with the State as a consultant for the State Medicaid Program. For the last 4 years he has served as the Compliance Officer and Business Analyst for the State PDMP Program (INSPECT).
