SBA Grants Management Support

State agencies and recipients have a variety of SBA support options for navigating grants management.

- SBA Grants Management website – resources, user guides, and policy information.
- Weekly State Agency Office Hours – Q&A sessions with SBA Grants Management Analysts, bring your questions for live support.
- Applicant and Recipient Office Hours – short demonstration and Q&A session for potential applicants.
- SBA Grants Management Help Desk – submit a ticket for support.

Information for all the above can be found on the SBA Grants Management website here SBA Grants Management Website. This website is updated frequently to ensure you have access to the most current information.

SBA Pursuance Approval

With upcoming holidays, shortened work weeks, and planned leave, please plan ahead for grant deadlines and submit SBA Pursuance approval tasks with sufficient lead time. FMC 4.1 requires approval requests at least 10 business days before an application deadline, while new grant requests require additional time for review.

Please note, we have been seeing an increase in the number of SBA Pursuance approval tasks where users are assigning the due date of SBA Pursuance approval with the same due date as the application. This practice creates barriers for timely submission of applications that have been approved by SBA in compliance with the FMC. Please ensure you are not assigning these task due dates as the same date.

Euna Grants

The transition to Euna Grants Powered by AmpliFund is underway, with State agencies already managing funding opportunities and active awards in the system.

Thank you for participating in training and adopting the platform. We appreciate your collaboration and partnership.
