

Ensuring that Indiana’s priorities are funded today and tomorrow.

The eCivis Update

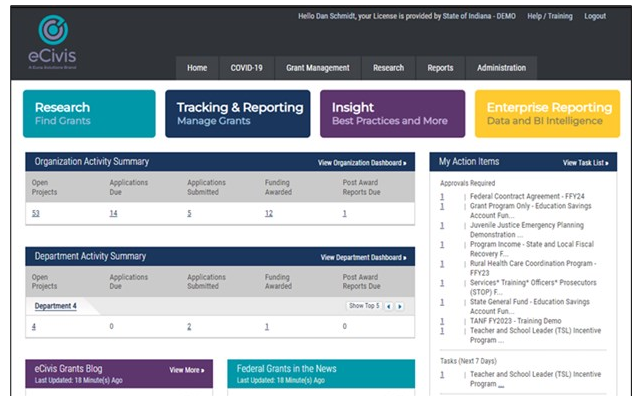

Introducing eCivis - The Next Step in Grants Management

What is eCivis?

eCivis is Indiana’s new state-wide grants management system that will track grants from application to close-out.

All state agencies are required to use eCivis to manage state **and** federal grants.

Agencies will use eCivis to build solicitations, publish solicitations to applicants, review applications, issue award decisions, conduct subrecipient management, and perform grant close-out.

Dashboard state agencies will use to manage grants.

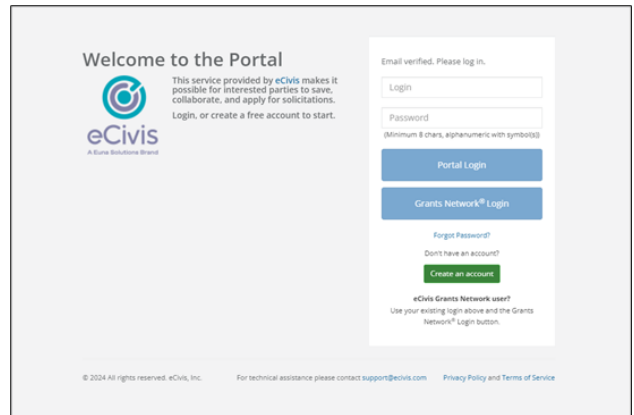

What does eCivis mean for agency subrecipients?

Grant applicants will access solicitations via the SBA website or a private link.

Applications will be submitted electronically through the eCivis Grants Portal.

Grant subrecipients will receive their award notice via eCivis.

Subrecipients will use eCivis to submit activity reports, request reimbursement, and conduct grant close-out activities.

Login page where subrecipients will access the Portal.

“eCivis was a dream.”
 ~ Brian Mounts, Executive Director
 Alcohol & Addictions Resource Center (FSSA Subrecipient)

Why is grants management important?

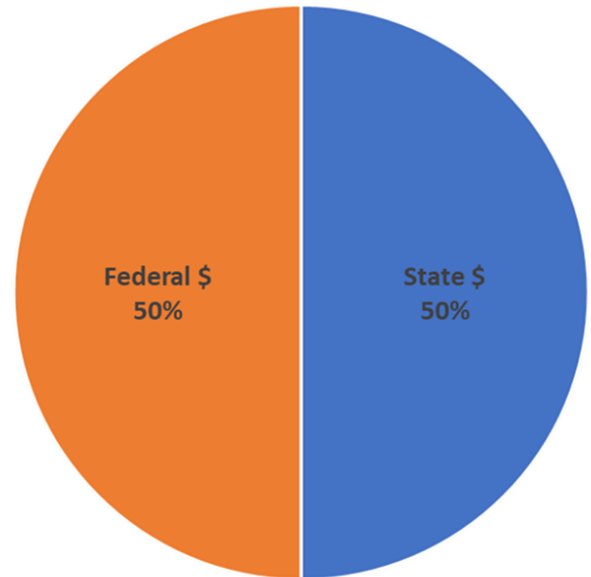

The Office of Management and Budget and the Indiana State Budget Agency are driving an initiative to improve federal grants management.

As Hoosiers know, Indiana state government is very good at managing state dollars. With annual budget surpluses that have enabled taxpayer refunds and record investments, Hoosiers take pride in knowing that Indiana's fiscal leaders are *intentional, deliberate, strategic, and disciplined* about managing the \$44 billion biennial state budget.

Hoosiers may be surprised to learn that federal funding accounts for roughly 50% of the dollars that are spent in Indiana any given year. This funding supports services Hoosiers expect, including education, roads, workforce development, environmental quality, parks and trails, and public safety.

Indiana's federal funding touches millions of Hoosiers, and the state must be *intentional, deliberate, strategic, and disciplined* to effectively manage these dollars. As Indiana's state-wide grants management system, eCivis will help achieve these goals by **tracking** federal grants from application to close-out, **unlocking** new federal funding opportunities for Indiana's state agencies, **streamlining** the federal grants management process, and **enhancing** the effectiveness of state government's internal controls.

Annual State Spending

What resources are available for subrecipients?

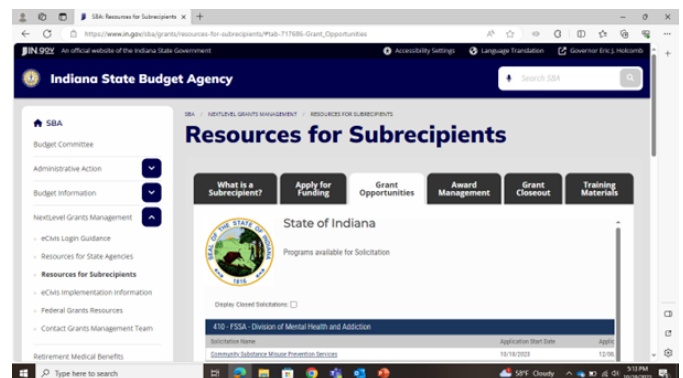

eCivis Implementation and Background Information

Training Materials:

- User Guides
- Quick Reference Sheets
- Videos
- Monthly Office Hours
- Hands-On Workshops

Technical Assistance:

- SBA Grants Management Team
- eCivis Customer Support Team

For more information, check out the Grants Management section of the SBA Website at: www.in.gov/sba/grants.
