How can my team prepare?

Discovery Process Preparation

The Indiana SBA Grants Team has been gathering information about subrecipient funding programs and reaching out to agency Division Directors and Grants Management staff. In the discovery process, scheduled agencies and the SBA team will meet with Euna Solutions to perform a fit-gap analysis to state standards, evaluating agency workflows (program and finance), user roles, report requirements, etc.

Here are ways that Indiana State Agencies can prepare:

- Develop an inventory of grants and awards
 - Assess current workflows
 - Establish a calendar of activities (solicitation release dates, application periods, etc.)
 - Assess who from your agency needs to be involved (finance and program staff)
- Compile all SOP (Standard Operating Procedure) documents your agency has created describing the grant making process/ lifecycle.
 - Update these to align with current practices, including Euna Grants implementation, PeopleSoft Financials, & the SCM (Supplier Contracts Management) module.
 - Ensure all stakeholders are involved in its creation & review.

Please discuss your role in this process with agency leadership.
