TO: THE OFFICIALS OF THE WARREN COUNTY SOLID  
WASTE DISTRICT, WARREN COUNTY, INDIANA

As authorized under Indiana Code 5-11-1, we performed certain procedures to the accounting records and related documents of the Warren County Solid Waste District (District), for the period of January 1, 2020 to December 31, 2023. The objective of this engagement was to determine compliance with applicable Indiana laws, regulations, and uniform compliance guidelines (Guidelines) established by the Indiana State Board of Accounts pursuant to Indiana Code 5-11-1-24. The objective of this engagement is not to opine on compliance or financial activity of the District as this engagement was not conducted in accordance with any standards established by an authoritative standard setting body, and, as such, we do not provide any opinions on compliance or financial activity.

Management is responsible for preparing and maintaining its accounting records and related documents in accordance with applicable Indiana laws, regulations, and Guidelines. Management's responsibility also includes, but is not limited to, complying with other applicable Indiana laws, regulations, and Guidelines concerning how it operates: authorized sources and uses of funds; what reports are required to be prepared and filed; and what depositories and investment types are allowable.

We fulfilled our responsibility as detailed in the first paragraph, using procedures that verified the appropriate accounting for and reporting of cash, receipts, and disbursements; and the appropriate sources and uses of funds in accordance with applicable Indiana laws, regulations, and Guidelines. Expanding the scope and nature of these procedures can and does occur in specific circumstances.

The Comments contained herein, if any, describe the identified reportable instances of noncompliance found during our engagement. Our procedures were not designed to identify all instances of noncompliance; therefore, noncompliance may exist that is unidentified. Any Official Response to the Comments incorporated within this report was not verified for accuracy.

The Schedule of Officials and Statements of Receipts, Disbursements, and Cash and Investment Balances - Regulatory Basis (Statements) are informational only. The Statements have not been subjected to any procedures designed to express an opinion or provide any assurance on them, and, accordingly, we do not express an opinion or provide any assurance on them.

This report is intended solely for the information and use of management, governance, and others within the organization. This restriction is not intended to limit the distribution of this report, which is a matter of public record. COMMENT

**CAPITAL ASSETS**

*Condition and Context*

Internal controls were not in place to ensure compliance with requirements related to capital assets. The District did not have a capital asset policy that detailed the threshold at which an item is considered a capital asset.

*Criteria*

Every unit must have a capital assets policy that details the threshold at which an item is considered a capital asset. Every unit must have a complete detailed listing of all capital assets owned which reflects their acquisition value. Capital Asset Ledger (Form 369) has been prescribed for this purpose. A complete physical inventory must be taken at least every two years, unless more stringent requirements exist, to verify account balances carried in the accounting records. (Accounting and Uniform Compliance Guidelines Manual for Special Districts, Chapter 1)

The Indiana State Board of Accounts (SBOA) is required under Indiana Code 5-11-1-27(e) to define the acceptable minimum level of internal control standards. To provide clarifying guidance, the State Examiner compiled the standards contained in the manual, *Uniform Internal Control Standards for Indiana Political Subdivisions*. All political subdivisions subject to audit by SBOA are expected to adhere to these standards. The standards include adequate control activities. According to this manual:

"Control activities are the actions and tools established through policies and procedures that help to detect, prevent, or reduce the identified risks that interfere with the achievement of objectives. Detection activities are designed to identify unfavorable events in a timely manner whereas prevention activities are designed to deter the occurrence of an unfavorable event. Examples of these activities include reconciliations, authorizations, approval processes, performance reviews, and verification processes.

An integral part of the control activity component is segregation of duties. . . .

There is an expectation of segregation of duties. If compensating controls are necessary, documentation should exist to identify both the areas where segregation of duties are not feasible or practical and the compensating controls implemented to mitigate the risk. . . ."
