September 27, 2024

To: The Officials of the City of Noblesville  
City of Noblesville  
Hamilton County, Indiana

As authorized under Indiana Code 5-11-1, we engaged private examiners under our review to perform the audit of the City of Noblesville. We have reviewed the Annual Comprehensive Financial and Single Audit Reports which have been opined upon by Forvis Mazars, LLP, Independent Public Accountants, for the period January 1, 2023 to December 31, 2023. Per the *Independent Auditor's Report*, the financial statements included in the Annual Comprehensive Financial Report present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

In our opinion, Forvis Mazars, LLP prepared the audit report in accordance with the guidelines established by the State Board of Accounts.

The report is filed with this letter in our office as a matter of public record.

A handwritten signature in cursive script that reads "Tammy R. White".

Tammy R. White, CPA

Citizens of Noblesville and Other Interested Persons,

I am proud and pleased to present the 2023 Annual Comprehensive Financial Report and a summary of all the services, projects, and activities that make the City of Noblesville a community of exceptional opportunities and great potential. This report reflects our financial position, which remains very strong.

The report was prepared under the guidance of our Chief Financial Officer, Jeff Spalding, and follows the guidelines set forth by the Government Finance Officers Association (GFOA) of the United States and Canada. It will now be submitted to the GFOA for review.

Noblesville, a city that values its citizens, is a great place to live, work, and play. Like all aspiring communities, we are committed to providing the necessary public amenities and lifestyle opportunities to support and encourage essential private investment. Our city's high-quality services, including public safety, sanitation and recycling service, transportation infrastructure, community planning and zoning, parks and recreation, and general administration, are a testament to this commitment. Our uncompromising goal is to provide those services to our citizens in an efficient, cost-effective manner. We strive to hire well, plan insightfully, and provide employees with up-to-date equipment and ongoing training.

This report would not be possible without the support of the entire Noblesville Common Council, City administration, our auditors from FORVIS, and the commitment of our accountants at Krohn & Associates, LLP to quality reporting and absolute compliance with statutory and regulatory requirements. I invite your comments and questions concerning the information contained in this document.

Keep chasing,

Chris Jensen, Mayor

June 26, 2024

To the Honorable Mayor Jensen,  
Members of Common Council, and  
Citizens of the City of Noblesville, Indiana:

The Annual Comprehensive Financial Report (ACFR) of the City of Noblesville, Indiana, for the year ended December 31, 2023, is submitted herewith. The ACFR is presented as part of a continuing effort to provide the citizens of Noblesville with the highest standards of financial accountability and disclosure.

This report was prepared by O.W. Krohn & Associates, LLP (OWK) on behalf of the City and in conjunction with the Office of Finance & Accounting (OFA). Responsibility for the accuracy, completeness, and fairness of the presentation, including all disclosures, rests with the City. I believe the data presented is accurate in all material aspects; that it is presented in a manner that fairly sets forth the City's financial position and results of operations as measured by the financial activity of its various funds; and that all material disclosures necessary to enable a knowledgeable reader to gain full understanding of the City's financial activity have been included, and does not reflect an oversight, error, or on-going change in practice.

FORVIS CPAs & Advisors has issued an unqualified opinion on the City of Noblesville's financial statements for the year ended December 31, 2023. The independent auditor's opinion is located at the front of the financial section of this report.

The State of Indiana requires that each reporting entity shall report financial information on a financial statement. The City is also required to undergo an annual Federal single audit in conformity with the *U.S. Office of Management and Budget (OMB) Title 2 U.S. Code of Federal Regulation Part 200, Uniform Administrative of Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), the provisions of Indiana Code section 5-11-1-9, and the requirements of the Indiana State Board of Accounts.

## **REPORT FORMAT**

Generally Accepted Accounting Principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the official financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is intended to complement the MD&A and should be read in conjunction with it. The City of Noblesville's MD&A can be found immediately following the report of the independent auditors.

-V-

## **PROFILE OF THE GOVERNMENT**

The City of Noblesville was incorporated in 1851 and is the County seat of Hamilton County. It is located in central Indiana 17 miles northeast of downtown Indianapolis. Noblesville is one of the most rapidly growing municipalities in the State, serving a current population of 73,916, covering an area of approximately 35.8 square miles with 313.03 miles of public roadways.

The City government is comprised of executive, legislative, and judicial branches. The Mayor is the head of the executive branch and is elected to a four-year term. The Mayor appoints the Controller, who is the chief fiscal officer of the City. The legislative branch is the City's nine member Common Council which is the official fiscal body as defined in Indiana law. The Council is comprised of six district and three at-large seats. All serve four-year terms. The Council meets formally twice a month to conduct business. Their duties include the enactment of all ordinances and resolutions and approving the annual budget and any augmentations or transfers of appropriations. All local judicial branch duties reside with the Noblesville City Court which is led by an elected judge.

The administrative body for the City is the Board of Public Works & Safety (BOW). Through the end of 2019, the BOW was composed of three members, two appointed by the Mayor and the Mayor, who presides. In January 2020, the structure of the BOW was changed to a five member body all appointed by the Mayor. The BOW is also administrator of the Wastewater Utility. That utility served 23,704 customers as of December 31, 2023, an increase of 411 over the prior year.

The City of Noblesville provides a full range of municipal services to its residents. These include police and fire protection; emergency medical services; road and street preservation, construction, and maintenance; public parks; other public improvements; recreational activities; cultural activities; wastewater services; business recruitment and retention; development planning; zoning enforcement; engineering services; and general administrative services. Certain public financing functions are provided by the Noblesville Building Corporation, the Noblesville Community Development Corporation, and the Noblesville Redevelopment Authority. Although all are legally separate entities, they provide service almost exclusively to the City, and therefore are included as an integral part of the City's financial statements. Additional information on those entities is provided in Note I.A. of the notes to the financial statements.

## **FACTORS AFFECTING FINANCIAL CONDITION**

The information presented in the financial statements may be better understood when economic and related environmental factors specifically impacting the City of Noblesville are considered. The following sections provide brief summaries of certain key factors related to the local economy, long term financial planning, and other matters intended to assist readers of this report in assessing the City's financial condition.

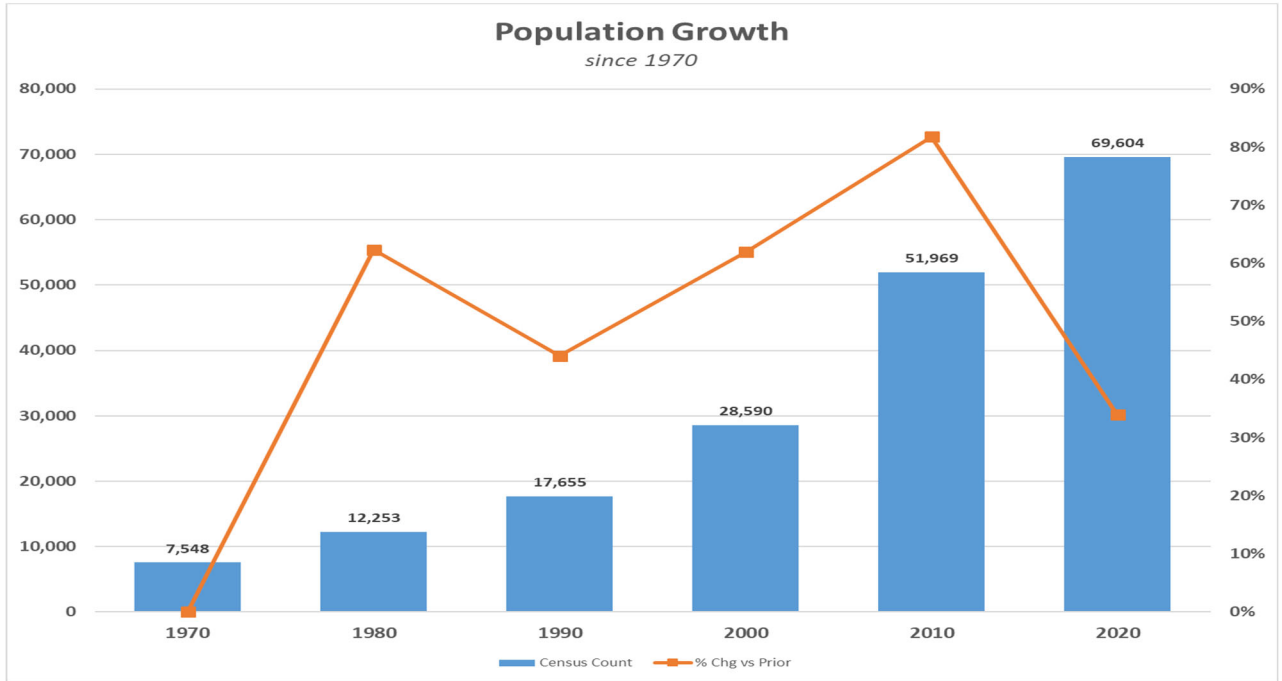

### Local Economy

Population growth and new investment, in and around the City of Noblesville, continues to be positive factors affecting the local economy. Population increases in the last five U. S. Census

surveys were as follows: 1980 increased 62.3%; 1990 increased 44.1%, 2000 increased 61.9%; 2010 increased 81.8%; and 2020 increased 33.9%.

According to the US Census Bureau, the estimated population as of July 1, 2023, in the City of Noblesville is measured at 73,916.

During the fourth quarter of 2020, the Economic Development department conducted a strategic planning exercise to further hone the focus and energy surrounding the new administration. Clearly defining our mission, vision, and values enabled the team to communicate with stakeholders how we intend to execute our goals and grow our city. During this process, the team also identified industries in which we will target our development efforts. They are advanced manufacturing, health technology, life sciences, wholesale trade, and professional, technical, and financial services. The city will also give special consideration to corporate headquarters and businesses that operate internationally.

A significant investment milestone was reached in 2022. Noblesville reached \$1 billion in private committed capital investment which included investments made since the beginning of 2020. This commitments are not only from new businesses coming to Noblesville, but also from the expansion of current businesses. These investments will make Noblesville more attractive to potential future residents and businesses. Our team continues to focus on attracting companies from our targeted industries which include advanced manufacturing, life sciences, wholesale trade, and professional, technical, and financial services.

Total investments from economic development activity for 2023 totaled \$728,100,000 triggering almost 511 new jobs with average wages of over \$82,260. Of these investments, one was an

expansion projects with investments totaling over \$4.5 million. Below are some of the key projects announced in 2023.

**Bastian Solutions** is planning a new state-of-the-art corporate campus that will serve as the future home to the company's corporate headquarters and advanced manufacturing facilities which will produce industry leading supply chain automation technologies. The new campus will be designed to support the company's anticipated growth over the next several decades. The total investment is an estimated \$130 million with 562,200 SF of new improvements, 400 retained and relocated jobs and 250 new jobs over the next 5 years.

**Best Equipment Company** plans to build a new 35,000 SF headquarters and will bring approximately 40 new jobs to the city. The facility will have a campus feel and will provide centralized support to the staff in Indiana, as well as to their two Midwest service branches. This project will include premium office space, a training area for their employees and customers, a showroom and common areas to host events. The estimated investment for this relocation project is \$11.6 million.

**Ryan Fireprotection** designs, fabricates, installs, inspects, tests, and maintains fire protection systems. Ryan Fireprotection is constructing a new addition to add 49,000 SF to its existing headquarters. The estimated investment for this expansion project is \$4.5 million.

**Deer Creek Business Park** consists of two phases and is planned to consist of two buildings totaling 550,000 SF. The estimated investment for both phases is \$42 million. The project is expected to bring 150 new full-time employees.

**Pulte/Del Webb** will develop approximately 603 acres into a mixed-use development. The project development plan consists of 295 market-rate multi-family apartments, 10,000 SF of commercial/retail space, 690 age-restricted single-family units, 535 traditional single family and 110 specialty housing units, and a 14,000 SF amenity center. The estimated investment for this project is \$42 million.

**Meijer** plans to build a 90,000 SF market near the Promenade of Noblesville. This project has an estimated investment of \$475 million and will open during the summer of 2024.

Here is a brief summary of the development activity that occurred across the city during the past year:

<b>2023 NOBLESVILLE ANNUAL REPORT SUMMARY</b>		
<b>BUILDING PERMITS</b>

Commercial, Industrial, & Institutional	\$64,837,476	77%
<b>TOTAL</b>	<b>\$294,344,444</b>	

Noblesville is a tremendous place to live and work, and the City intends to build on the successes of 2023 and position itself to capitalize on future opportunities.

### Long-Range Planning

The Noblesville Comprehensive Plan serves as the City’s overall guide to development. The core purpose of a comprehensive plan is to coordinate the City’s many unique assets, protect its valuable natural features, and maintain a healthy variety of living options thereby creating a diverse community while also strengthening the tax base. Every proposed development must align with the goals and objectives identified in the comprehensive plan.

In 2023, The City of Noblesville included funding in their budget preparations for consulting services to create two separate gateway master plans. The City entered a contract with MKSK Studios to create both The West Gateway Master Plan and East Gateway Master Plan. The West Gateway Master Plan includes 388 acres stretching about mile west of the White River in downtown Noblesville. The master planning process will help the community envision a vibrant, walkable, and unique district shaping a gateway into the downtown area. This plan will design an iconic gateway feature, identify opportunities to active the White River, identify potential redevelopment opportunities, and review economic impacts and fiscal projections related to potential redevelopment. MKSK currently has a draft of the plan completed and anticipates adoption of the plan in November of 2024.

The East Gateway Master Plan includes 315 acres from about 11<sup>th</sup> Street to State Road 37 east of downtown. In addition to the goals of the West Gateway Master Plan, a large part of this plan will focus on redevelopment around the old Firestone Tire factory site. MKSK also anticipates this plan to be finalized in late 2024.

Throughout 2023, the City continued to implement the recommendations of a housing study previously created in 2016 by the consulting firm Greenstreet Ltd and updated in 2021. City leadership and elected official have advanced many of the report's recommendations to diversify housing options throughout the community. Specifically, special attention has been made to include multiple housing products within each new development, which has helped increase the number of duplexes and townhomes.

### Relevant Financial Policies

The City's central finance office, the Office of Finance & Accounting (OFA), is responsible for establishing and maintaining a system of internal financial controls. The purpose of those controls is to ensure that the city's assets are protected from loss, theft, or misuse and that those objectives are met within appropriate cost-benefit trade-offs. That office is also tasked with maintaining accounting data and the preparation of financial statements in conformance with Generally Accepted Accounting Principles (GAAP). In 2018, the City implemented a new chart of accounts in an effort to more accurately reflect the types and purposes of expenditures with the goal of producing more meaningful financial reports and developing more managerial accounting tools. In 2019, the City implemented a new budget development process and tool with the goal of improving the quality, transparency, and usefulness of operational budgets. In 2020, work on improving the budgeting process continued with the implementation of a new capital budgeting tool. Since 2018, the City continuously builds out new internal financial reports for enhanced financial management and decision-making at all levels of the enterprise. Among the most significant are: i) a substantial enhancement to the comprehensiveness and quality of the City's 5-year fiscal plan; and ii) the implementation of a new, more robust quarterly financial performance tracking and reporting process. Such work continues unabated today.

The concept of reasonable assurance recognizes that the cost of an internal control should not exceed the benefits likely to be received; and that the evaluation of cost and benefits requires estimates and judgments by management. It is the assessment of the Chief Financial Officer and the Mayor's Office that the internal control structure meets that standard. Furthermore, the City

consults with the Indiana State Board of Accounts and with its professional accounting advisor routinely throughout the year, as needed.

### Local Income Tax

The City has long been a recipient of a distributive share of the formerly entitled Hamilton County Option Income Tax (“COIT”) and pledged a portion of its distributive share to pay debt service (“COIT Statute”). In 2015, the General Assembly enacted legislation to consolidate and simplify the various local income tax laws, including COIT, into a uniform law and to transition each county from the former multi-statute tax authorization construct to a single tax statute with multiple local options hereafter referred to as the Local Income Tax statute (“LIT Statute”). Further amendments were made to the LIT Statute in 2016. Although the LIT Statute repealed the COIT Statute, effective January 1, 2017, the LIT Statute stipulates that the pledge of the City’s distributive share of COIT to the payment of debt service on bonds will be treated as a pledge of the City’s allocation of the Hamilton County LIT. Under the LIT Statute, any pledge of revenues received from a tax imposed under any of the provisions of the COIT Statute, prior to its repeal, to the payment of debt service due on bonds is binding and enforceable and remains in full force and effect as long as the debt service remains unpaid.

Under the LIT Statute, the County’s maximum LIT rate may consist of: (i) a property tax relief rate, not to exceed 1.25%; and (ii) an expenditure rate, not to exceed 2.5%. The key distinction is that a LIT rate authorized for property tax relief requires a dollar-for-dollar reduction in property tax levies. Conversely, a LIT rate authorized for expenditure is additional revenue to supplement property tax revenue.

In a typical municipal tax environment, the dollar-for-dollar tax offset provision of the LIT for property tax relief implies a revenue neutral effect. However, in Indiana, the property tax caps initiated in 2009 may cause the adoption of a LIT for property tax relief to yield some additional revenue to local government units by reducing the amount of property tax credits necessary to comply with the new property tax caps.

In Hamilton County, during 2023, the total LIT rate was 1.1% on the adjusted gross income of local taxpayers in the County and was authorized as an expenditure rate. Prior to 2020, the Hamilton County LIT rate was 1.0%. Due to certain unique aspect of Indiana law, the revenue from the additional 0.1% rate, added in for 2020, was dedicated to fund the cost of public safety communication services (i.e. dispatch, etc.) countywide. Therefore, that tax rate increase did not generate a LIT revenue increase for the City. Instead, the County retained all of the additional revenue from the 0.1% rate increase. Correspondingly, the County ended intergovernmental charges to cities and towns for dispatch services and interconnected public safety radio equipment which is now funded with its new 0.1% LIT rate. So, the 2020 fiscal relief realized by the City was a reduction of costs for County-provided services, of nearly \$1.5M, and that savings will be ongoing.

## Budgetary Controls

Under Indiana law, an annual budget must be prepared for all planned spending from certain funds. Those funds are also subject to appropriation approval by the Indiana Department of Local Government Finance (DLGF). That annual budget must be adopted by the local fiscal body (in our case, the City Council) no later than November 1<sup>st</sup> of the preceding year.

The annual budget ordinance is prepared, under the Mayor's direction, for introduction to the City Council at or before its first meeting in October. After the Mayor's budget is introduced, the fiscal body may reduce any appropriation amount proposed, but they may not increase any appropriation amount proposed by the Mayor. That proposed budget must be publicly disclosed as prescribed in the Indiana Code, and a public hearing must be held prior to the final adoption.

In accordance with Indiana law, the City maintains appropriation controls integrated within their enterprise accounting system. The purpose of those controls is to ensure compliance with the appropriation limits adopted by the City Council and approved by the DLGF.

The appropriation control thresholds established in state law are set by: a) major expense classification within a fund; and b) department within a fund. The four major expense classifications defined in Indiana law are: Personal Services; Supplies; Services & Other Charges; and Capital Outlay. Departments may be established at local discretion and typical examples include Police Protection, Fire Protection, Street Maintenance, and Parks & Recreation.

The City Council, as the fiscal body, maintains appropriation authority over all City funds with the exception of utility funds and redevelopment funds, neither of which are funded by a property tax levy or any other general taxes. Those funds are not subject to appropriation control under Indiana state law. Furthermore, for all funds supported by a property tax levy, any additional appropriation (i.e. an appropriation in excess of the original budgeted amount approved for a fund), must also be submitted to the DLGF for review and approval. The DLGF serves as a backstop to ensure local government units do not appropriate an amount from a fund in excess of the available cash plus tax revenue receivable.

Additionally, the Park Board may also exercise appropriation authority over the certain park funds, if the City Council chooses to delegate its authority.

For all of the City's redevelopment funds, state law designates the Redevelopment Commission as the fiscal body with approval authority over the expenditure of those monies. There is no corresponding appropriation control for redevelopment funds. For the wastewater utility, the Board of Public Works & Safety is designated as the fiscal body in state law. Similarly, there is no budget approval requirement or appropriation control on local public utilities. Nevertheless, the City's wastewater utility does prepare and present an advisory budget, as do most other such public utilities across the state.

The City also maintains an encumbrance process as one technique of ensuring compliance with appropriation controls. Encumbered amounts, for goods or services, which are yet to be delivered and/or invoiced, are set aside to ensure that those monies are not unintentionally spent for another

purpose. Consequently, at year end, with further approval by the City Council, any encumbered funds may be carried forward to the subsequent year and expended, once the good or service is delivered, without consuming any of the appropriation authority for that next budget year.

Budget to actual comparisons are provided in this report for each governmental fund for which an annual budget is required. For the general fund, that comparison is presented on pages 93-96. For all other governmental funds with required annual budgets, the comparison is presented on pages 145-153.

## **AWARDS AND ACKNOWLEDGEMENTS**

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting (Certificate) to the City of Noblesville for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended December 31, 2022. The Certificate is a prestigious national award recognizing conformance with the highest standards for preparation of a state or local government financial report.

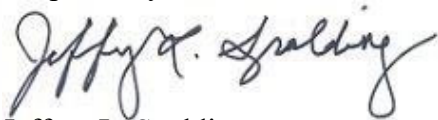

In order to be awarded a Certificate, a government must publish an easily readable and efficiently organized ACFR that also complies with GAAP and all applicable legal requirements.

The Certificate is valid for a period of one year. The City has received the Certificate for the last thirty-four consecutive years (December 31, 1988 - December 31, 2022). We believe our 2023 ACFR continues to meet the full requirements of GFOA and it will be submitted for their review and consideration.

The successful preparation of this report would not have been possible without the dedication and cooperation of city officials, council members, department directors, and many others. Special appreciation is also extended to our Deputy Controller, Caitlin Moss and our Accounting Manager, Heather Trexler. I must also acknowledge the skillful and insightful oversight of Daniel Waninger, our lead auditor from FORVIS CPAs and Advisors, and the other members of their full audit team. And finally, this report would not have been successfully completed without the tremendous effort and guidance of both Jim Treat and Nathan Fox, our external accountants from OWK.

I believe this report to be of value to the citizens of Noblesville, our many visitors, and any prospective investors in our community.

Respectfully submitted,

Jeffrey L. Spalding,  
CFO & Controller

## **FINANCIAL SECTION**

## **Independent Auditor's Report**

The Mayor and Common Council  
City of Noblesville, Indiana  
Noblesville, Indiana

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Noblesville, Indiana (City), as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison, pension, and other postemployment benefit information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining nonmajor fund financial statements and nonmajor fund budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining nonmajor fund financial statements and nonmajor fund budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 26, 2024, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**Indianapolis, Indiana  
June 26, 2024**

## MANAGEMENT'S DISCUSSION AND ANALYSIS

We encourage readers to consider information presented here, in conjunction with related information in our letter of transmittal, which can be found on pages V-XIII of this report, as the information assesses financial and economic strength of our city.

### HIGHLIGHTS

- Year-end total assets and deferred outflows of \$955.5 million increased by \$93.7 million or 10.9% as compared to the prior year. This increase is primarily due to increases in cash and cash equivalents of \$44.0 million, intergovernmental receivables of \$7.4 million, capital and lease assets of \$34.3 million, and deferred pension and OPEB outflow of \$7.3 million. The increases were slightly offset by \$1.0 million decrease to deferred losses on refunding.
- Year-end total liabilities and deferred inflows of \$551.5 million increased by \$64.0 million or 13.1% as compared to the prior year. This increase was primarily due to increases in accounts payable of \$8.8 million, accrued interest payable of \$2.0 million, general obligation bonds payable of \$43.8 million, and net pension and total OPEB liabilities of \$11.7 million. The increases were offset by \$1.9 million decrease in deferred inflows of resources from deferred pension and OPEB and \$3.4 million decrease in revenue bonds payable.
- Total assets and deferred outflows exceeded liabilities and deferred inflows by \$404.0 million. Of this amount, \$10.5 million is considered unrestricted. The unrestricted net position for governmental activities is a deficit of \$16.5 million. The unrestricted net position for business-type activities is \$27.0 million.
- Change in net position for governmental activities increased \$4.0 million or 29.7% from \$13.7 million in 2022 to \$17.7 million in 2023. Change in net position for business-type activities increased \$2.2 million or 22.3% from \$9.8 million in 2022 to \$12.0 million in 2023.
- Governmental fund balances of \$207.4 million at year-end increased by \$35.5 million or 20.6% as compared to the prior year. The increase is primarily due to the balance of unexpended bond proceeds. Approximately 75.9% of the total governmental fund balance, or \$157.5 million is designated as committed, assigned, and unassigned. The remaining 24.1% is designated as restricted.
- Total outstanding debt obligations increased by \$40.4 million during the year, the net effect of \$77.8 million in new bonds issued offset by \$37.4 million in bond debt retired during the year.

### FINANCIAL STATEMENTS

The City's basic financial statements are organized in this report as follows:

- ✓ Government-wide financial statements, providing information for the City as a whole, which includes component units and business type activities.
- ✓ Fund financial statements, providing detailed information for significant funds.
- ✓ Notes to the financial statements, providing additional information that is essential to interpreting the financial statements.

**Government-wide financial statements.** These statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all assets, liabilities and deferred outflows/inflows of resources. The net total of these items is reported as *net position*. Tracking changes in net position is a very rough indicator of whether the financial strength of the City is improving or deteriorating over time.

The *statement of activities* presents factors affecting the City's net position during the most recent fiscal year. All changes in net position are reported in the fiscal year the event occurs, regardless of the timing

## MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

of the related cash flows. Thus, revenues and expenses as reported in this statement may result in cash flows for future periods (e.g. uncollected taxes; earned, but not used, compensated absences; etc.).

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are substantially or completely funded by user fees and charges (*business-type activities*). The governmental activities include general government, public safety, highways and streets, culture and recreation and economic development. The business-type activities include a wastewater utility.

The government-wide financial statements are presented on pages 17-18 of this report.

**Fund financial statements.** A fund is an aggregation of monies, with a common set of allowable uses, for the purpose of tracking the allocation of those monies for specific activities or objectives. The City, like other state and local government units, uses fund accounting to ensure and demonstrate compliance with certain legal requirements. All of the funds of the City are grouped into three (3) categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities on the government-wide financial statements. The individual funds provide more detail on City operations by function. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating near-term financial performance.

A reconciliation report is provided for the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances to facilitate comparison of governmental funds totals to governmental activities totals.

The report includes data for one hundred nine (110) separate governmental funds. For the three (3) major funds data is presented separately on the governmental funds balance sheet and statement of revenue, expenditures, and change in fund balance. For the other one hundred six (107) non-major governmental funds, the data is aggregated in the combining financial statements found elsewhere in this report.

As required by Indiana law, the City adopts an annual budget which appropriates funds from its general fund, certain special revenue funds, and certain debt service funds. Budgetary comparison statements are also provided for each of those funds.

The basic governmental fund financial statements are presented on pages 19-22 of this report.

**Proprietary funds.** The City maintains two (2) types of proprietary funds. *Enterprise funds* are established for business-type activities and *internal service funds* are established to aggregate costs that are shared across various City functions. Enterprise funds are used to account for the City's wastewater utility. Internal service funds are used to account for the City's self-insured programs for employee medical care, property & casualty liability, and other similar contingent liabilities. Since the internal service funds predominately support governmental activities rather than business-type activities, their data is included with governmental activities on the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 23-25 of this report.

**Fiduciary funds.** The City maintains several fiduciary funds to account for resources held for the benefit of parties outside the government. Therefore, fiduciary funds are not included in the government-wide financial statements.

The basic fiduciary fund financial statements can be found on pages 26-27 of this report.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

**Notes to the financial statements.** The notes provide additional detail or context that is essential to a full understanding of the data presented in the financial statements. Those notes are presented on pages 28-85 of this report.

**Other Information.** Combining statements for all funds that function together as the City's general fund are presented on pages 162-163. Combining statements for all other non-major governmental funds are presented on pages 109-155 of this report, internal service funds are presented on pages 164-166 of this report, and fiduciary funds are presented on pages 157-160 of this report.

### **GOVERNMENT-WIDE FINANCIAL RESULTS**

Net position is a key financial indicator. For the City, the net position (i.e. assets less liabilities) was \$403,999,926 at year-end.

By far, the largest portion of the City's net position, 79.7%, is capital assets (i.e. land, buildings, vehicles, and equipment) – measured by the value of those assets less any outstanding debt used to acquire them. Those capital assets are deployed to provide services to citizens; consequently, these assets are illiquid and not available to fund future spending. Therefore, resources needed to repay that debt must be provided from other sources.

A notable portion of the City's net position, 17.7%, is funds subject to external restrictions on their use.

The remaining portion of the City's net position is unrestricted in the amount of \$10,472,593.

**Results from Governmental Activities**

Governmental activities raised the City's net position by \$17,711,155. Total assets and deferred outflows of resources increased approximately \$81.0 million and total liabilities and deferred inflows of resources increased approximately \$63.3 million.

The change in total assets and deferred outflows of resources included \$38.6 million increase in cash and cash equivalents, \$7.4 million increase in intergovernmental receivables, \$27.4 million increase in capital and lease assets, and \$6.8 million increase in deferred pension and OPEB. The increase in cash and cash equivalents is due to \$25.9 million increase in capital projects fund cash balances, largely due to unspent bond proceeds, \$2.4 million increase in general fund cash balance, \$3.3 million increase in special revenue fund cash balances, and \$6.5 million increase in debt service fund cash balances. The increase in

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

intergovernmental receivables is due to a receivable of \$4.9 million from Hamilton County for expenditures the City incurred on the County's behalf related to the Pleasant Street Bridge. Additional increase is due to \$2.0 million due from Indiana Department of Natural Resources for the Next Level Trail Grant, used to fund the Nickel Plate Trail construction. The increase in capital assets is due to construction in progress net increase of \$10.5 million, \$10.2 million of developer contributed infrastructure assets, and \$1.1 million related to improvements at City Hall.

For total liabilities and deferred inflows of resources, the increase was primarily due to increase in general obligation bonds payable of \$43.8 million, increase in accounts payable of \$8.2 million, increase in accrued interest payable of \$2.0 million, increase to compensated absences payable of \$1.0 million, and increase to net pension and total OPEB liabilities of \$8.9 million. The increase was partially offset by a \$2.6 million decrease to deferred inflows of resources from deferred pension and deferred OPEB.

Notable changes in governmental activities revenues and expenses, as compared to the prior year, included:

- Governmental revenue increased approximately \$32.5 million. The primary factors were a \$8.5 million increase in property tax collections. Property tax revenue includes controlled levies, debt levies, and tax increment capture. The City's tax rate remained constant at 1.10% for 2022 and 2023. The increase in property tax collections is primarily due to continued growth in tax base. The City's Net Assessed Value increased by \$708.7 million or 18.1% in 2023. Charges for services increased by \$4.5 million due to general road impact fees increasing by \$3.4 million and Pleasant Street road impact fees increasing by \$0.3 million, and golf fees increasing by \$0.3 million. The increase in general road impact fees is due to \$1.6 million of fees generated by an incoming Meijer grocery store and \$0.6 million generated by a new Costco Wholesale. Operating grants and contributions increased by \$15.6 million mainly due to the City receiving \$1.1 million from Hamilton County related to work performed on the Little Chicago Road pedestrian bridge and \$12.7 million related to work performed on the Pleasant Street bridge. Remaining increase relates to the Next Level Trails Grant for work on the Nickel Plate Trail, which totaled \$2.3 million in 2023. Capital grants and contributions increased by \$5.9 million due to developer contributions to the City's capital assets increasing by \$5.9 million. Other taxes decreased by \$1.1 million primarily due to admissions tax decreasing by \$0.8 million.
- Governmental expenses increased overall by \$28.1 million. Within this net change, there were offsetting variations across functions that merit mention. Public safety expenses increased by \$5.0 million primarily due to increase in personal services costs of \$3.2 million and increase in compensated absences payable of \$0.7 million, both of which are a result of an increase in number of full-time equivalent employees of 26. Highways and streets expenses increased by \$18.1 million primarily due to \$13.8 million in expenditures incurred on behalf of Hamilton County and subsequently reimbursed, as well as an increase in roadway maintenance and improvement expenditures. Economic development expenses increased \$4.5 million primarily due to subsidies related to economic development bonds related to 2023 Millhaus Multifamily projects, Bastian Solutions headquarters project, and Midland Pointe project. Interest expense on long-term debt increased \$4.1 million due to increases in both interest rates and principal outstanding.

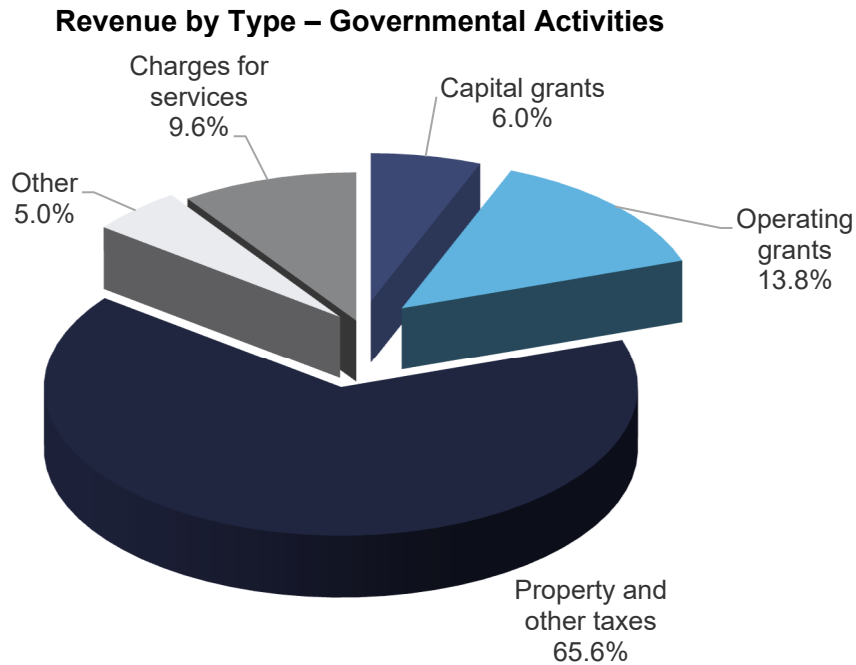

**MANAGEMENT’S DISCUSSION AND ANALYSIS  
(Continued)**

**Expenses and Program Revenues – Governmental Activities**

- The chart below is a comparison of spending versus restricted program revenue for each of the City’s major governmental activities. The chart provides insight regarding the extent to which various governmental activities are supported from related user fees.

- The chart below shows a further breakout of revenue supporting the City’s governmental activities. It illustrates that governmental activities are funded predominately from tax revenue. The other sections illustrate the component parts of program revenue amounts reported above:

**MANAGEMENT’S DISCUSSION AND ANALYSIS  
(Continued)**

**Results from Business-type Activities**

Net position for business-type activities increased \$12.0 million. The major factors were an increase of \$1.8 million in charges for services, an increase in contributed capital assets of \$3.7 million, and an increase in other revenue of \$2.5 million.

Total revenue from the sewer utility increased by \$8.0 million and total expenses increased \$6.1 million. Charges for services increased by \$1.8 million between years due to an increase in customers from 23,293 in 2022 to 23,704 in 2023, coupled with an increase in tap fees as a result of several large projects being completed, including Federal Hill Apartments and Promenade Apartments. Developer contributions to capital assets increased by \$3.7 million in 2023 due to the completion of several developer projects including Nexus, Washington Business Park, and various housing developments. Operating cost increased \$6.1 million in 2023 due to increase in employee benefits and pension expenditures of \$4.6 million as a result of the net change in OPEB liability, net pension liability, and related deferred outflows and inflows in 2023 increased employee benefits and pension expenditures by \$3.0 million compared to in 2022 the respective net change decreased employee benefits and pension expenditures by \$1.4 million.

- The chart below is a comparison of spending versus restricted program revenue for the City’s business-type activities:

## MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

### Overview of Changes in Fund Balances

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with certain legal requirements and restrictions on the use of public funds.

**Governmental funds.** As of year-end, the City's governmental funds reported combined fund balances of \$207.4 million, an increase of \$35.5 million from the prior year. \$50.0 million of that total was restricted and the remaining \$157.5 million was either committed, assigned or unassigned.

The general fund is the chief operating fund of the City. As of December 31, 2023, the total general fund balance was \$39.1 million, of which \$7.1 million was assigned and the remaining \$32.0 million was unassigned. The fund balance increased by \$5.3 million compared to prior year end. Key factors in this increase are as follows:

Total general fund revenues increased by \$22.7 million from \$60.5 million in 2022 to \$83.2 million in 2023. The primary factors were a \$8.0 million increase in tax revenue and \$11.7 million increase in intergovernmental revenue. Property tax revenue includes controlled levies, debt levies, and tax increment capture. The City's tax rate remained constant at 1.10% for 2022 and 2023. The increase in property tax and local tax collections is primarily due to continued growth in tax base. The City's Net Assessed Value increased by \$708.7 million or 18.1% in 2023. The increase in intergovernmental revenue is due to \$13.8 million of reimbursement revenue earned by the City for incurring expenditures on behalf of Hamilton County relating to Pleasant Street bridge and Little Chicago Road pedestrian bridge.

Total expenses increased by \$14.7 million from \$61.9 million in 2022 to \$76.6 million in 2023. The primary factors were a \$12.3 million increase in highway and streets operating expenses and a \$3.3 million increase in public safety expenses. The increase in highway and streets operating expenses is due to the costs incurred on behalf of Hamilton County. The increase in public safety expenses is due to the costs related to salaries and wages and related employee benefits increasing by \$3.2 million in 2023, in large part due to increase in headcount by 26 year over year. These increases were partially offset by a decrease in capital outlay of \$3.1 million. This decrease was due to a significant portion of capital outlay relating to Pleasant Street occurring in 2022 as the project began and less being incurred in 2023.

As a measure of liquidity, the City compares the General Fund unassigned balance to total fund expenditures. At year-end, the unassigned fund balance was equal to 42% of total expenditures. The unassigned fund balance decreased by \$204,078 from \$32,238,910 in 2022 to \$32,034,932 in 2023 due to the City's strategic spend down on cash reserve to reinvest reserves into the community.

In 2016, the City established a Rainy Day Fund and deemed it a stabilization fund. As such, all revenue and expenditures for the Rainy Day Fund have been combined with the General Fund for the purpose of this report. For 2023, year-end fund balances for the General Fund and the Rainy Day Fund were \$26,504,583 and \$12,608,811, respectively.

Redevelopment Authority Funds increased by \$38,154,990. The Debt Service Fund balance increased by \$3,581,998 during the year. The Capital Projects Fund balance increased by \$34,572,992 during the year, primarily due to unspent bond proceeds from 2023 Pleasant Street II & III Bonds to fund the capital projects related to the Pleasant Street infrastructure project, see Debt Financing section for description of bond issuances in 2023 to fund new capital projects.

**Proprietary funds.** The net position of the Utility increased by \$11,970,071 due to factors discussed above in business-type activities. Net investment in capital assets increased by \$9.3 million. The remaining increase was to restricted for capital projects by \$2.7 million.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

### **BUDGETARY ANALYSIS**

For the General Fund, actual revenue exceeded the budgeted revenue by \$5.6 million due mainly to the supplemental distribution of LIT revenue (aka the catch-up distribution), which exceeded the budgeted amount by \$3.0 million. The City uses these funds to enhance reserves. Additional variance is due to investment income exceeding the budgeted amount by \$1.4 million. For the same period, total expenditures were \$9.7 million less than the final budgeted expenditures. Positive variances included \$1.2 million of Fire personal services expenditures which were paid via a US Department of Homeland Security grant and were charged to a grant fund, an additional \$1.3 million in personal services expenditures across all other departments due to funded positions not filled, \$0.7 million of Economic Development appropriations which were encumbered but not expended in 2023 related to the purchase of real property, \$2.8 million of contingency funds budgeted but not expended, and various Street projects which were delayed to 2024 which resulted in \$1.2 million of positive variances in the Street department.

Changes from the approved (i.e. beginning) budget to the amended (i.e. revised) budget reflect either: 1) appropriations encumbered from the prior fiscal year (and carried forward for expenditure in the current year); or 2) appropriation adjustments during the current year. Both types of budget actions require approval of the City's fiscal body under Indiana law.

### **CAPITAL ASSETS**

The City's capital assets include land, buildings, improvements other than buildings, machinery and equipment, recreational facilities and equipment, roads, traffic signals, streetlights, and storm sewers. The City's cumulative investment in capital assets, for both governmental and business-type activities, totaled \$598,071,683 (net of accumulated depreciation). Net investment in capital assets increased by \$34,305,248 during the year.

**Governmental activities.** For governmental activities, capital asset additions included: \$10.2 million of contributed infrastructure (roads, right-of-way, storm sewers); net increase of \$10.5 million of construction in progress (roadways, trails and economic development projects); net decrease of \$1.8 million of buildings; and \$8.2 million of City-funded infrastructure improvements and land purchase. The City also purchased approximately \$2.7 million of machinery and equipment for public safety, street maintenance and park maintenance.

**Business-type activities.** For business-type activities, capital asset additions included: \$5.4 million of sewers contributed by developers; \$0.6 million of improvements other than buildings and \$3.2 million increase to construction in progress.

Additional information on the City's capital assets can be found in Note II C, on pages 40-41 of this report.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
(Continued)**

	Governmental Activities		Business-Type Activities		Total	
	2022	2023	2022	2023	2022	2023
Land	103,676,568	107,218,451	973,154	973,154	104,649,722	108,191,605

**DEBT FINANCING**

**Outstanding debt.** At year end, the City had \$361,665,590 of outstanding principal due on long-term debt. Of that total, \$258,445,585 is debt backed by the full faith and credit of the City. \$62,610,005 is developer backed bonds which are secured by pledged TIF revenues. If the pledged TIF revenues are insufficient for the debt service due, the developer is obligated to cover any shortfalls. \$40,610,000 is for business-type activities and backed by a pledge of sewer revenue.

**City of Noblesville's Outstanding Debt as of December 31, 2022 and 2023**

	Governmental Activities		Business-Type Activities		Total	
	2022	2023	2022	2023	2022	2023

<b>Total Outstanding Debt</b>	<b>\$ 278,455,716</b>	<b>\$ 321,055,590</b>	<b>\$ 43,980,000</b>	<b>\$ 40,610,000</b>	<b>\$ 322,435,716</b>	<b>\$ 361,665,590</b>

The City's total bonds payable (i.e. outstanding principal due) increased by \$39,229,874 during the year. That increase is the net result of \$38,591,881 in regular principal payments; and \$77,821,755 of new long-term debt issued for refunding or new projects.

The Redevelopment Authority Ad Valorem Property Tax Lease Rental Bonds of 2023, in the amount of \$45,245,000, provided funding for the construction and reconstruction of Phase II and III of the Pleasant Street corridor from the intersection of 10<sup>th</sup> Street and Pleasant, east to just east of the intersection of Pleasant Street and 19<sup>th</sup> Street, and from the intersection of Hague Road/State Road 32 to just west of River Road and repayment of the outstanding Pleasant St Phase II 2022 Bond Anticipation Notes.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

The Taxable Economic Development Revenue Bonds of 2023, Series A, in the amount of \$3,313,000, provided partial funding of the design, acquisition, construction, installation, equipping and improvement projects in or physically connected to 146<sup>th</sup> St./River Road Economic Development Area, which are necessary for the construction of an approximately \$25,000,000 mixed-use development, including 146 age restricted multifamily units and amenities.

The Taxable Economic Development Revenue Bonds of 2023, Series B, in the amount of \$401,000, provided partial funding of the design, acquisition, construction and installation of economic development projects in or physically connected to 146<sup>th</sup> St./River Road Economic Development Area, which are necessary for the construction of an approximately \$2,000,000 commercial development, including a Crew Car Wash. The bonds are draw bonds and as of December 31, 2023 \$52,750 of draws have been made.

The Annual Appropriation Economic Development Revenue Bonds of 2023, in the amount of \$9,295,000, provided funding to pay for a portion of the acquisition costs of 160 acres of land at 146<sup>th</sup> Street and Promise Road to support the construction of the Bastian Solution 120,000 square foot corporate headquarters, 47,500 square foot innovation center and 350,000 square foot manufacturing facility.

The Taxable Economic Development Revenue Bonds of 2023, in the amount of \$7,919,550, provided partial funding of the Midland Pointe Project which includes construction of 249 rental dwelling units, approximately 40,000 square feet of commercial/retail space and trail improvements.

The Capital Projects Short-Term General Obligation Bonds of 2023, Series A, in the amount of \$6,000,000, provided funds for capital investment needs for public safety, roadways, parks and other municipal facilities. These bonds are a tax rate management tool, not a traditional capital financing tool. The bonds mature in one year and provide a mechanism for the City to target its property tax rate within the complex property taxation laws of Indiana.

The Capital Projects Short-Term General Obligation Bonds of 2023, Series B, in the amount of \$4,850,000, provided funding for roadway projects that are not controlled projects per IC 6-1.1-20-1.1(9). These bonds are a tax rate management tool, not a traditional capital financing tool. The bonds mature in one year and provide a mechanism for the City to target its property tax rate within the complex property taxation laws of Indiana.

Credit ratings. The City's credit ratings, from S&P Global, are "AA" for general obligation (GO) debt, "AA+" for the Local Income Tax (LIT) debt, and A+ for annual appropriation debt in 2023. The City's credit rating, from Moody's Investor Services, is "Aa2" for user fee-backed revenue debt in 2023.

The State of Indiana's constitution limits the amount of GO and LIT-backed debt a City may issue to 0.66% of its current assessed value. That limitation is commonly referred to as the 2% constitutional debt limit. However, that is now a misnomer. Due to a State Supreme Court ruling in the late 1990's, the legal definition of assessed value was changed dramatically. That change resulted in the tripling of assessed values statewide. Correspondingly, the standard for calculating the 2% constitutional debt limit was also changed to prevent an unintended expansion of municipal debt issuance capacity.

For the City, that limit was \$102,125,040 at the end of the year. That total reflects the fact that the Civil City, the Redevelopment District, and the Park District are each granted their own debt issuance authority under State law. All three (3) entities share the same geographic footprint; and thus, the same total assessed value. So, each entity has an identical debt limit of \$34,041,680 based on the most current certified assessed values. As of year-end, the amount of outstanding principal on debt subject to this limit for the Civil City, Redevelopment District, and Park District was \$20,620,000, \$4,665,585, and \$6,005,000 respectively.

All other outstanding debt is structured in a manner not subject to this limit. Debt structured as a lease rental obligation, debt subject to annual appropriation and debt funded solely with tax increment revenue are not subject to the constitutional debt limit. Additional information on the City's long-term liabilities is provided in Note II I, on pages 45-51 of this report.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

### **ECONOMIC AND OTHER FACTORS**

- The annual average unemployment rate in the City was 2.6% during the year compared to 2.2% in 2022. This compares favorably to a 3.3% State annual average unemployment rate and a 3.6% National annual average unemployment rate over the same period.
- 898 new building permits were issued in the current year compared to 1,021 in 2021. This is a 12.0% decrease from the prior year.
- State-wide property tax caps first took effect in 2009. This year, the tax credits (i.e. forgone revenue) totaled \$7.1 million for the City. That impact is estimated to be \$6.7 million next year. Over time, the total gross property tax levies growth continues to outpace the tax credit losses resulting in consistent annual increases in net property tax billing and collections.
- The City continues to experience strong growth in its property tax base. The City's Certified Net Assessed Value increased 18.1% this year and has been growing at an average annual rate of 10.3% over the past five years.

### **REQUESTS FOR INFORMATION**

This report is intended to provide a general overview of the City's finances for all with either a direct or passing interest. Questions concerning any of the information provided in this report or requests for additional information should be sent to the Office of Finance & Accounting, City of Noblesville, 16 South 10<sup>th</sup> Street, Noblesville, Indiana 46060-2809 or [OFA@noblesville.in.gov](mailto:OFA@noblesville.in.gov).

CITY OF NOBLESVILLE  
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF NET POSITION  
December 31, 2023

Fund balance - governmental funds		\$ 207,433,024
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:		
Land and construction in progress	157,838,555	
Other capital assets, net of depreciation	304,808,093	462,646,648
Internal Service funds are used by management to charge the costs of insurances to general and highway funds. The assets and liabilities of the Internal Services fund are included in governmental activities in the Statement of Net Position.		5,386,800
Deferred outflows of resources that are the net losses on refunding of bonds and is not a current financial resource, and, therefore, are not reported in the funds.		4,690,177
Deferred outflows of resources related to pension liabilities are included in the governmental activities in the Statement of Net Position.		22,182,382
Deferred outflows of revenue related to OPEB liabilities are included in the governmental activities in the Statement of Net Position.		6,528,048
Deferred inflows of resources that are not available to pay current obligations, and, therefore, are not reported in the Statement of Net Position.		18,994,343
Deferred inflows of resources related to pension liabilities are included in the governmental activities in the Statement of Net Position.		(389,573)
Deferred inflows of resources related to OPEB liabilities are included in the governmental activities in the Statement of Net Position.		(26,217,361)
Compensated absences that are not due and payable in the current period and, therefore, are not reported in the funds.		(9,491,087)
Accrued interest on bonds payable is not due and payable in the current period and, therefore, is not reported in the funds.		(6,201,783)
Net pension liability is not due and payable in the current period and, therefore, are not reported in the funds.		(33,143,875)
Total OPEB obligation is not due and payable in the current period and, therefore, is not reported in the funds.		(71,232,659)
Long-term liabilities, including bonds payable are not due and payable in the current period and, therefore, are not reported in the funds:		
General obligation bonds	(325,929,090)	
Lease obligations	(609,856)	
Financed purchased obligations	(5,886,132)	(332,425,078)
Net position of governmental activities		\$ 248,760,006

CITY OF NOBLESVILLE  
RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
For The Year Ended December 31, 2023

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)		\$ 35,494,754
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period:		
Capital outlay per the funds statement	33,446,944	
Capital outlay for items costing less than the capitalization threshold	(3,410,522)	
Depreciation expense	(12,481,130)	17,555,292
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations).		
Asset disposals	(340,251)	
Donated assets	10,233,914	9,893,663
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds.		
Unavailable revenue, net increase		2,983,705
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:		
Bond issuance:		
Bonds	(77,821,755)	
Bond premium	(1,575,411)	
Lease obligations	(384,735)	
Financed purchased obligations	(3,817,717)	
Principal payments:		
General obligation bonds	35,221,881	
Lease obligations	321,722	
Financed purchased obligations	2,654,522	
Amortization of bond discount	(484,528)	(45,886,021)
Accrued interest reported in the Statement of Activities does not require the use of current financial resources and, therefore, is not reported as expenditures in governmental funds.		
		(2,017,480)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported with governmental activities.		
Change in net position		226,144
Change in internal balance		(46,019)
Compensated absences which are not due and payable in the current period are, therefore, not reported in the funds, net.		
		(983,038)
Changes in the Total OPEB liability, deferred outflows of resources and deferred inflows of resources related to benefit plans results in an increase or a decrease to the OPEB expense reported in the Statement of Activities. For fiscal 2023, the effect of these adjustments resulted in an decrease in the OPEB expense reported in the Statement of Activities.		
		1,466,235
Changes in the Net pension liability, deferred outflows of resources and deferred inflows of resources related to benefit plans results in an increase or a decrease to the pension expense reported in the Statement of Activities. For fiscal 2023, the effect of these adjustments resulted in a increase in the pension expense reported in the Statement of Activities.		
		(976,080)
Change in net position of governmental activities (Statement of Activities)		\$ 17,711,155

The notes to the financial statements are an integral part of this statement.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

I. Summary of Significant Accounting Policies

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body of establishing governmental accounting and financial reporting principles.

A. Reporting Entity

The City of Noblesville (primary government) was established under the laws of the State of Indiana. The primary government operates under a Council-Mayor form of government and provides the following services: public safety (police and fire), highways and streets, health, culture and recreation, public improvements, planning and zoning, general administrative services, wastewater, and urban redevelopment.

The accompanying financial statements present the activities of the primary government and its significant component units. The component units discussed below are included in the primary government's reporting entity because of the significance of their operational or financial relationships with the primary government. Blended component units, although legally separate entities, are in substance part of the primary government's operations and exist solely to provide services for the primary government; data from these units is combined with data of the primary government.

Blended Component Units

The Noblesville Building Corporation (Building Corporation) is a significant blended component unit of the primary government. It was created by the primary government for the purpose of constructing and financing buildings and infrastructure. The primary government appoints a voting majority of the Building Corporation's board and a financial benefit/burden relationship exists between the primary government and the Building Corporation. Although it is legally separate from the primary government, the Building Corporation is reported as if it were a part of the primary government because it provides services entirely or almost entirely to the primary government.

The Noblesville Redevelopment Authority (Redevelopment Authority) is a significant blended component unit of the primary government. It was created by the primary government for the purpose of constructing and financing development and redevelopment of areas within the corporate boundaries of the City. The primary government appoints a voting majority of the Redevelopment Authority's board and a financial benefit/burden relationship exists between the primary government and the Redevelopment Authority. Although it is legally separate from the primary government, the Redevelopment Authority is reported as if it were a part of the primary government because it provides services entirely or almost entirely to the primary government.

The Noblesville Community Development Corporation ("CDC") is a significant blended component unit of the primary government. It was created by the primary government for the purpose of constructing and financing buildings and infrastructure. The primary government appoints a voting majority of the CDC's board and a financial benefit/burden relationship exists between the primary government and the CDC. Although it is legally separate from the primary government, the CDC is reported as if it were a part of the primary government because it provides services entirely or almost entirely to the primary government.

Jointly Governed Organization

The primary government and the City of Fishers, Indiana jointly own, on an equal basis, a certain railroad right-of-way obtained from a railroad company extending approximately 37 miles from the City of Tipton, Indiana, to near the downtown of the City of Indianapolis, Indiana. The primary government and the City of Fishers created the Hoosier Heritage Port Authority (Port Authority) for the purpose of protecting and preserving the existence of real property, contained within the railroad's right-of-way, as a single parcel of real estate in perpetuity for such uses as may benefit

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

the citizens of Noblesville and Fishers, including, but not necessarily limited to, recreational, transportation, and tourism purposes. Subsequently, Hamilton County, Indiana joined in with the primary government and the City of Fishers to become part of the Port Authority. The Port Authority's Board consists of six members with two appointed by the Mayor of the primary government, two appointed by the Mayor of Fishers, and two appointed by the County Commissioners of Hamilton County. The primary government, City of Fishers, and Hamilton County do not have any obligations for or any interests in Port Authority matters.

B. Government-Wide and Fund Financial Statements

Government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which direct expenses of a given function or segments are offset by program revenues. Direct expenses are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide, proprietary, and fiduciary financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the period in which the tax levy and rates are certified, which is the period they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the primary government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the primary government receives cash.

The primary government reports the following major governmental funds:

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

The General Fund is the primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Redevelopment Authority – Debt Service Fund (debt service) accounts for the accumulation of resources and payments of general obligation bonds issued by the Noblesville Redevelopment Authority (a component unit of the primary government). Financing is provided by semiannual lease payments from the Redevelopment Tax Increment Financing funds.

The Redevelopment Authority - Capital Projects Fund (capital projects) accounts for expenditures related to the construction of various infrastructure projects. Financing is provided by general obligation bonds issued by the Noblesville Redevelopment Authority (a component unit of the primary government).

The primary government reports the following major proprietary funds:

The Wastewater Utility Fund accounts for the operation of the primary government's wastewater treatment plant, pumping stations and collection systems.

Additionally, the primary government reports the following fund types:

The internal service fund accounts for the collection and payment to an insurance third party administrator for the primary government's employees' health and life insurance programs provided to other departments on a cost-reimbursement basis. In 2021, the City reclassified unemployment self-insurance fund and accrued sick leave payout fund from nonmajor fund to internal service funds. These funds account for the City's share of unemployment self-insurance and the City's accrued sick leave payout.

The pension trust funds account for the activities of the 1925 Police Officers' and 1937 Firefighters' pension funds which accumulate resources for pension benefit payments.

The custodial funds account for the assets related to the municipal court costs and fees, which are held by the primary government on behalf of third parties.

Both the pension trust funds and custodial funds are considered fiduciary funds for reporting purposes.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's wastewater function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the primary government's policy to use restricted resources first, then unrestricted resources as they are needed.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Fund Balance

1. Cash and Cash Equivalents

The primary government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less.

2. Investments

State statute (IC 5-13-9) authorizes the primary government to invest in securities, including but not limited to, federal government securities, repurchase agreements, and certain money market mutual funds. Certain other statutory restrictions apply to all investments made by local governmental units.

Debt securities are reported at fair value. Debt securities are defined as securities backed by the full faith and credit of the United States Treasury or fully insured or guaranteed by the United States or any United States government agency.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on methods and inputs as outlined in Note II.A.2. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances.

Investment income, including changes in the fair value of investments, is reported as revenue in the operating statement.

3. Interfund Transactions and Balances

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year to cover deficit cash balances are referred to as "interfund receivables/payables – pooled cash". All other outstanding balances between funds are reported as "interfund services provided/used." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

4. Property Taxes

Property taxes levied are collected by the County Treasurer and are distributed to the primary government in June and in December. State statutes (IC 6-1.1-17-16) requires the Indiana Department of Local Government Finance to establish property tax rates and levies by December 31 of the year preceding the budget year or January 15 of the budget year if the County is issuing debt after December 1 or intends on filing a shortfall appeal. These rates were based upon the preceding year's January 1 (lien date) assessed valuations adjusted for various tax credits. Taxable property is assessed at 100 percent of the true tax value (determined in accordance with rules and regulations adopted by the Indiana Department of Local Government Finance). Taxes may be paid in two equal installments that become delinquent if not paid by May 10 and November 10, respectively. Delinquent property taxes outstanding at year end for governmental and/or proprietary funds, net of allowances for uncollectible accounts, are recorded as a receivable with an offset to deferred inflow of resources-unavailable revenue since the amounts are not considered available within 60 days.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

5. Restricted Assets

Certain proceeds of the enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statement of Net Position because City Ordinance No. 15-05-17 requires the establishment of a Bond and Interest Fund, Construction Fund and Reserve Fund. As of December 31, 2023, the total restricted assets for the enterprise fund totaled \$15,255,474. In addition, Improvement Funds which totaled \$18,590,414 at the end of 2023 are internally restricted for capital expenditures.

6. Capital and Lease Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements.

Capital assets are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed or donated assets are reported at an estimated acquisition value at the time received.

Lease assets are recorded at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the asset into service. The lease assets are amortized on a straight-line basis over their useful life or the life of the non-cancellable lease term, whichever is shorter.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Governmental activities:			
Land	\$ 5,000	N/A	N/A
Buildings and improvements	5,000	Straight-line	20 - 50 yrs
Machinery and equipment	5,000	Straight-line	3 - 25 yrs
Roads – collectors and residential	5,000	Straight-line	10 - 50 yrs
Business-type activities:			
Land	5,000	N/A	N/A
Buildings and improvements	5,000	Straight-line	20 - 50 yrs
Machinery and equipment	5,000	Straight-line	3 - 25 yrs
Wastewater distribution and collection systems	5,000	Straight-line	50 yrs

N/A = Not applicable

For depreciated assets, the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

7. Compensated Absences

- a. Sick Leave – Effective 09/01/05, full time employees shall accrue sick leave hours at the rate of seven (7) hours per month worked, starting the last day of the first full month of employment. Part-time and temporary employees shall not accrue sick leave. Earned sick leave days or time shall be accumulated from year to year, not to exceed nine-hundred sixty (960) hours.

CITY OF NOBLESVILLE  
 NOTES TO FINANCIAL STATEMENTS  
 (Continued)

Full-time employees hired prior to January 1, 2018 are entitled to payment of their unused sick time hours not to exceed a set maximum amount of hours. The set maximum amount of hours is established per employee. The maximum amount of sick hours is determined and set at the highest balance of sick time hours the employee has accrued during the 2018 calendar year. Employees will be provided a letter of acknowledgement stating their set maximum amount of sick time hours. Once acknowledged and signed by the employee, the letter will remain in the employee's personnel file. The amount of hours accrued at the time of termination, not to exceed the set maximum amount of sick time hours per individual, will then be paid based on their years of full-time service with the City.

Payment of accrued sick time is as follows:

Years of Full-Time Service	Percentage of Sick Time Payout
5 Years	30%
10 Years	50%
15 Years	75%
20 Years	100%

Payment will be calculated at the employee's current base rate plus longevity rate and may be included in the employee's last regular earnings paycheck, if possible, or in a separate check. Full-time employees hired or rehired on or after January 1, 2018 are not entitled to payment of their unused sick time hours.

Full-time employees terminating their employment with the City and then rehired as a full-time employee with two (2) years for a Civilian employee or within one (1) for a Sworn Police Officer or Firefighter from their termination date, shall receive prior service credit for years work as a full-time employee and be credited with their prior unpaid sick leave balance.

- b. Vacation Leave – Full time employees hired after January 1, 2020 will receive three (3) vacation days after successfully completing ninety (90) days of full-time employment. In addition, employees hired during the months of January through September will receive pro-rated vacation hours on January 1<sup>st</sup> of the year following their full-time hire date. Employees hired during the months of October through December will receive the pro-rated vacation hours after successfully completing 90 days of full-time employment. Employees who terminate their employment within the first year will not receive payment of unused vacation hours. After vacation time is received, employees may schedule and take off the three (3) vacation days and pro-rated vacation hours on or before December 31<sup>st</sup>; otherwise, the vacation hours will be forfeited. Employees may rollover up to 40 hours of vacation leave beyond the end of the calendar year.

After completion of one year of full-time service, vacation earned will be based on the following schedule:

Length of Service	Vacation Earned Each Year
1 year (after completing)	Pro-rated to end of the calendar year
2 - 9 years	3 weeks
10 - 14 years	4 weeks
15 years and above	5 weeks

Employees will receive pro-rated vacation hours on their one-year anniversary date of full-time employment. Thereafter, vacation hours will be given on January 1st of each calendar year. Employees who terminate their employment prior to their one-year anniversary date of full-time employment will not receive payment of vacation hours.

No vacation shall accrue while an employee is on an unpaid leave of absence, except for Military Leave and Family and Medical Leave. No temporary or part-time employee is

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

eligible to accrue vacation time. Vacation may not be taken in advance of being earned. Vacation time may be taken in a minimum of two (2) hours increments.

Once employees enter an eligible employment classification, they begin to earn paid vacation time according to the above schedule. Former full-time employees who are rehired within two (2) years from termination as full-time employees shall be credited with prior full-time service after completing one year's additional service. This seniority service credit is for the calculation of vacation time only and not any other city benefit.

- c. Floating Holidays - Full time employees will be allowed five (5) paid floating holidays in each calendar year. Employees earn and may use two (2) floating holidays between January 1 and June 30; and earn and may use three (3) floating holidays between July 1 and December 31. Floating holidays not used between January 1 and June 30 may be carried forward to the time period of July 1 through December 31. Any unused floating holidays will not carry beyond December 31 of each year and consequently, no liability for compensated absences exists at year end for floating holidays.

Vacation and sick leave are accrued when incurred in government-wide statements and proprietary fund statements and are reported as a liability in the Statement of Net Position. Only amounts due and payable at year end to terminated employees are included in the governmental fund statements.

8. Unavailable Revenue

Unavailable revenues are those where asset recognition criteria have been met, but for which revenue recognition criteria have not been met.

9. Lease Obligations

The lease obligations are initially measured at the present value of payments expected to be made during the lease term. Subsequently, the lease obligations are reduced by the principal portion of lease payments made. In the government-wide financial statements and proprietary fund statements, lease obligations are reported as liabilities. In the governmental fund financial statements, the City recognizes lease proceeds and capital outlay at initiation of the lease and the outflow of resources for the lease obligation as a debt service payment.

10. Long-Term Obligations

In the government-wide financial statements and proprietary fund statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, and proprietary funds Statement of Net Position. Bond premiums, discounts, as well as deferred loss on refunding are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as debt service expenditures.

In the government-wide financial statements and the proprietary fund types in the fund financial statements, issuance costs are reported as regulatory assets and amortized over the life of the bonds using the interest method. This practice is used for rate-making purposes.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

11. Encumbrances

Contracts and purchasing commitments are reported as encumbrances when the contract or purchase order is executed. When the terms of the purchase order or contract have been fulfilled and payment to the contracting party is due, the encumbrance is liquidated, and the liability and expenditure are recorded. Encumbrances remaining at calendar year-end are reported within the assigned fund balances of the governmental funds. The following shows encumbrances at December 31, 2023:

	Amount
General Fund	\$ 7,078,562
Other Governmental Funds	58,094,191
Total	\$65,172,753

12. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to future periods and so will *not* be recognized as an outflow of resources (expense/expenditures) until then. Items that qualify for reporting in this category include a deferred charge on refunding resulting from the difference in the carrying value of the refunded debt and its reacquisition price. The others are certain debits arising from changes in actuarial assumptions and timing differences for pensions and other postemployment benefits.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The government has two types of items, the first arises under a modified accrual basis of accounting, while the second item arises under a full-accrual basis, that qualifies for reporting in this category. The first item, unavailable revenue, is reported only in the governmental funds balance sheet. The government funds report unavailable revenues from three sources: property taxes, income taxes and intergovernmental distributions. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The second item relates to changes in actuarial assumptions and timing differences for pensions and other postemployment benefits.

13. Pensions and Other Postemployment Benefit Plans

For purposes of measuring the net pension liability or asset, deferred outflows of resources and deferred inflow of resources related to pensions, and pension expense, information about the fiduciary net position of the primary government's pension plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are valued in accordance with the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*, and are predominantly at fair value.

The primary government has a single-employer defined benefit other postemployment benefit (OPEB) plan. For purposes of measuring the OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense amounts have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, benefit payments are recognized with due and payable in accordance with the benefit terms. Investments are reported at fair value.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

14. Net Position/Fund Balance

The government-wide and proprietary fund financial statements utilize a net position presentation. The components of net position are categorized as follows:

Net investment in capital assets – This category groups all capital and lease assets into one component of net position. Accumulated depreciation and amortization and outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.

Restricted – This category represents resources that have external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments, and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This category represents resources of the primary government not restricted for any project or other purpose.

Fund balances are classified as Nonspendable, Restricted, Committed, Assigned, and Unassigned based on the extent to which the primary government is bound to observe constraints imposed on the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. The primary government does not have any nonspendable fund balance.

Restricted – The fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors through debt covenants, grantors, contributors, or laws or regulation of other governments or it is imposed by law through enabling legislation.

Committed – The committed fund balance includes amounts that can be used only for the specific purposes imposed by formal action (ordinance) of the City Council. Those committed amounts cannot be used for other purposes unless the City Council removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance are intended to be used by the primary government for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the City Council.

Unassigned – Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and does not have a specific purpose. In the governmental funds, other than the General Fund, if liabilities incurred exceeded the assets, the fund may report a negative fund balance.

Generally, the primary government would first apply restricted resources, then committed, assigned, and unassigned resources when an expense is incurred for purposes for more than one classification of fund balance are available.

Deficit Fund Balances – The primary government did not have any funds with a deficit fund balance.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

15. Consideration and Adoption of Various GASB Standards

Adoption of New Accounting Standards

In 2023, the City adopted GASB No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* and GASB No. 96, *Subscription-Based Information Technology Arrangements*. There was no impact on the financial statements upon adoption of these pronouncements.

Future Adoption of Accounting Standards

GASB has issued GASB No. 99, *Omnibus 2022; and* GASB No. 100, *Accounting Changes and Error Corrections* – an amendment of GASB Statement No. 62; and GASB No. 101, *Compensated Absences*, all of which will be adopted in subsequent reporting periods based on each standards respective effective date.

16. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

E. Revision to General Fund Beginning Net Position

The beginning fund balance for the General Fund was revised in the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Fund from \$33,819,405 to \$32,695,399 in order to reclassify a previously reported nonmajor special revenue, the Pleasant Street Phase 1 - County, as a component of the General Fund.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

II. Detailed Notes on All Funds

A. Deposits and Investments

1. Deposits

Custodial credit risk is the risk that in the event of a bank failure, the primary government's deposits may not be returned to it. Indiana Code 5-13-8-1 allows a political subdivision of the State of Indiana to deposit public funds in a financial institution only if the financial institution is a depository eligible to receive state funds and has a principal office or branch that qualifies to receive public funds of the political subdivision. The bank balances were insured by the Federal Deposit Insurance Corporation or the Public Deposit Insurance Fund, which covers all public funds held in approved depositories. The primary government does not have a formal deposit policy for custodial credit risk.

2. Investments

Authorization for investment activity is stated in Indiana Code 5-13. As of December 31, 2023, the primary government had the following investments:

Investment Type	Fair Value	Investment Maturities (in Years)		
		Less Than 1	1-5	More than 5
United States treasury notes	\$ 41,933,240	\$ 19,912,372	\$22,020,868	\$ -
Certificates of deposit	29,756,843	9,746,137	20,010,706	-
U.S Government money market funds	87,307,654	87,307,654	-	-
Total investments	<u>\$ 158,997,737</u>	<u>\$ 116,966,163</u>	<u>\$42,031,574</u>	<u>\$ -</u>

Investments are reported at fair value. The fair value of the U.S. Government money market funds is determined using unadjusted quoted prices in active markets for identical assets and are therefore classified as level one fair value measurements. The fair value of investments in United States treasury notes and certificates of deposit are based on quoted prices for similar assets, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets. Accordingly, all investments in United States treasury notes and certificates of deposit are classified in level two of the hierarchy of fair value.

Statutory Authorization for Investment Policies

Indiana Code 5-13-9 authorizes the primary government to invest in securities backed by the full faith and credit of the United States Treasury or fully guaranteed by the United States of America and issued by the United States Treasury, a federal agency, a federal instrumentality, or a federal government sponsored enterprise. Indiana Code also authorizes the primary government to invest in securities fully guaranteed and issued by a federal agency, a federal instrumentality, or a federal government sponsored enterprise. These investments are required by statute to have a stated final maturity of no more than five years.

Indiana code also provides for investment in money market mutual funds that are in the form of securities of or interest in an open-end, no-load, management-type investment company or investment trust registered under the provision of the federal investment Company Act of 1940, as amended. Investments in money market mutual funds may not exceed 50 percent of the funds held by the primary government and available for investment. The portfolio of an investment company or investment trust used must be limited to direct obligations of the United States of America, obligations issued by a federal agency, a federal instrumentality, or a federal government sponsored enterprise; or repurchase agreements fully collateralized by direct obligations of the United States of America or obligations issued by a federal agency, a federal

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

instrumentality, or a federal government sponsored enterprise. The form of securities or interest in an investment company or investment trust must be rated as AAA, or its equivalent by Standard and Poor's Corporation or its successor or Aaa, or its equivalent, by Moody's Investors Service, Inc., or its successor. The form of securities in an investment company or investment trust should have a stated final maturity of one day.

Additionally, the primary government may enter into repurchase agreements with depositories designated by the State Board of Finance as depositories for state deposits involving the unit's purchase and guaranteed resale of any interest-bearing obligations issued or fully insured or guaranteed by the United States of America, a United States of America government agency, an instrumentality of the United States of America, or a federal government sponsored enterprise. The repurchase agreement is considered to have a stated final maturity of one day. This agreement must be fully collateralized by interest-bearing obligations as determined by their current market value.

Investment Custodial Credit Risk

The custodial risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The primary government does not have a formal investment policy for custodial credit risk for investments.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The primary government must follow state statute and limit the stated final maturities of the investments to no more than five years. The primary government does not have a formal investment policy for interest rate risk for investments.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The primary government does not have a formal investment policy for credit risk for investments. All of the primary government's investments are FDIC insured or are backed by the U.S. Government.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The primary government does not have a policy in regards to concentration of credit risk. United States of America government and United States of America governmental agency securities are exempt from this policy requirement.

B. Receivables

The Emergency Management Service receivable accounts have timing and credit characteristics different from typical accounts receivable. Many of these receivables are due from insurance companies and collection experience indicates that most are received in excess of 90 days.

E. Interfund Activity

A. Interfund Receivables/Payables – Pooled Cash

The following are reported in the fund financial statements:

Receivable Funds

Governmental:

General \$ 2,161,417

Payable Funds

Governmental:

Non-major Governmental \$ 2,161,417

The interfund receivable/payable - pooled cash reflects when one fund with positive cash covers another fund with negative cash.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

B. Interfund transfers for the year ended December 31, 2023, were as follows:

Transfer From	General	Transfer To		Nonmajor Governmental	Totals
		Redevelopment Authority - Debt Service	Redevelopment Authority - Capital Projects		
Governmental					
Major funds:					
General	\$ -	\$ -	\$ -	\$ 207,609	\$ 207,609
Redevelopment Authority - Debt Service	-	-	20,316	-	20,316
Redevelopment Authority - Capital Projects	-	555	-	-	555
Nonmajor governmental	-	15,000,055	11,752,500	9,135,827	35,888,382
Totals	\$ -	\$ 15,000,610	\$ 11,772,816	\$ 9,343,436	\$36,116,862

The primary government typically uses transfers to fund ongoing operating subsidies and current-year debt service requirements.

Transfer From	Transfer To	Transfer To	Totals
	Governmental Activities	Enterprise Fund	
Proprietary			
Enterprise fund:			
Wastewater Utility - cash	200,000	-	200,000
Totals	\$ 200,000	\$ -	\$ 200,000

In 2009, the primary government issued COIT Bonds, which were subsequently refunded in 2019, the proceeds of which were used for primary government park infrastructure. During the course of the project, it was determined there was a need for sewer replacement within the project area. \$200,000 transfer is that portion of the debt service payment attributable to the sewer project.

F. Other Income

The other income shown on the Statement of Revenues, Expenditures, and Changes in Fund Balances is comprised of the following:

Description	General Fund	Redevelopment Authority - Debt Service	Redevelopment Authority - Capital Projects	Nonmajor Governmental Funds	Totals
Interest Earned	\$ 1,984,808	\$ 361,721	\$ 1,214,898	\$ 1,306,095	\$ 4,867,522
Refunds and Reimbursements	1,158,740	24	-	647,142	1,805,906
Sale of Property	1,465	-	-	128,900	130,365
Donations	-	-	-	266,149	266,149
Totals	\$ 3,145,013	\$ 361,745	\$ 1,214,898	\$ 2,348,286	\$ 7,069,942

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

G. Lease Obligations

The primary government has entered into agreements to lease certain vehicles. As the lessee, the primary government recognizes a lease obligation and lease asset in the statement of net position. The calculated amount of the lease assets and lease obligations are impacted by the length of the lease term and the discount rate used to present value the minimum lease payments. The primary government's lease agreements often include options to renew at the primary government's discretion which were considered, as applicable, in the calculation of the lease asset and lease obligations. If at lease inception, the primary government considers the exercising of a renewal option to be reasonably certain, the primary government will include the extended term in the calculation of the lease asset and lease obligation. The primary government uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the primary government uses its incremental borrowing rate as the discount rate for leases.

As of December 31, 2023, the primary government had contractual agreements for various leases of vehicles ranging from 1 to 5 years in length as lessee. The primary government is required to make monthly payments throughout the year for both principal and interest. The leases have interest rates ranging from 3.65% to 8.48% charged by the lessor.

Future minimum lease payments as of December 31, 2023 are as follows:

Year Ending December 31	Principal Payments	Interest Payments	Total Payments
2024	\$ 311,520	\$ 31,736	\$ 343,256
2025	198,366	17,760	216,126
2026	84,101	9,402	93,503
2027	47,488	4,214	51,702
2028	28,998	1,182	30,180
Total minimum lease payments	<u>\$ 670,473</u>	<u>\$ 64,294</u>	<u>\$ 734,767</u>

H. Financed Purchases

The primary government has entered into various financed purchases for equipment for various departments including Police, Fire, Street, Emergency Medical Services, and Park. Future minimum payments and present values of the net minimum payments under these financed purchases as of December 31, 2023, are as follows:

Year Ending December 31,	Governmental Activities
2024	\$ 2,382,068
2025	1,700,096
2026	1,312,222
2027	842,786
Total minimum payments	6,237,172
Less amount representing interest	<u>(351,040)</u>
Present value of net minimum payments	5,886,132
Less current portion	<u>(2,225,607)</u>
Total long-term portion	<u>\$ 3,660,525</u>

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Assets acquired through financed purchases still in effect are as follows:

	Governmental Activities
Machinery and equipment	\$ 5,613,910
Accumulated depreciation	<u>(3,377,700)</u>
Total	<u>\$ 2,236,210</u>

I. Long-Term Liabilities

1. General Obligation Bonds

The primary government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities.

General obligation bonds are direct obligations and pledge the full faith and credit of the primary government. The outstanding general obligation bonds of the governmental funds will be retired by future property tax levies, tax increment revenues, income taxes or other revenues. General obligation bonds currently outstanding at year end are as follows:

2. Revenue Bonds

The primary government issues bonds to be paid by income derived from the acquired or constructed assets. Revenue bonds outstanding at year end are as follows:

Purpose	Interest Rates	Original Debt Issued	Outstanding Principal
2013 Revenue and Refunding Revenue Bonds due in installments of \$110,000 to \$135,000 plus interest through January 1, 2033 (A)	2.20%	12,995,000	2,185,000
2015 Refunding Revenue Bonds due in installments of \$1,120,000 to \$1,225,000 plus interest through January 1, 2028 (A)	2.52%	19,505,000	9,370,000
2017 Revenue Bonds due in installments of \$305,000 to \$365,000 plus interest through January 1, 2033 (B)	3.00%	9,100,000	5,780,000
2020 Revenue Bonds due in installments of \$320,000 to \$515,000 plus interest through January 1, 2040 (B)	2.00% to 2.125%	13,505,000	13,255,000
2021 Refunding Revenue Bonds due in installments of \$125,000 to \$1,530,000 plus interest through January 1, 2031 (A)	2.05%	10,740,000	10,020,000
Totals		<u>\$ 65,845,000</u>	40,610,000
Current portion of debt			(4,000,000)
Unamortized premium			<u>541,722</u>
Total long-term portion			<u>\$ 37,151,722</u>

(A) Direct borrowings and direct placements

(B) Open Market

The primary government has pledged future receipts, net of specified operating expenditures, to repay revenue bonds issued in 2013, 2015, 2017, 2020 and 2021. Proceeds from the bonds provided financing for Wastewater Treatment Plant improvements. The bonds are payable solely from net receipts and are payable through 2040. Annual principal and interest payments are expected to require approximately 41.9 percent of net receipts. The total principal and interest remaining to be paid on the revenue bonds is \$45,731,701. Principal and interest paid in the current year and total customer net revenues were \$4,363,248 and \$11,774,864 respectively.

Under House Enrolled Act 1145, Section 1, the primary government may transfer at any time any unused and unencumbered local income tax funds. Local income tax is the revenue source, which is not restricted or committed, for the Rainy Day Fund. While the funds are shown as unassigned in the above table, the primary government's Common Council may approve an annual budget for this fund, in the event it becomes necessary. As of December 31, 2023, the ending fund balance for the Rainy Day Fund was \$12,608,811. This fund has been folded into the General Fund.

K. Restricted Net Position

The government-wide Statement of Net Position report restricted net position for the governmental activities and business-type activities of \$49,916,490 and \$21,536,265, respectively, all of which are restricted by enabling legislation.

L. Net Investment in Capital Assets

The net investment in capital assets is composed of the total capital assets and lease assets, net of depreciation and amortization less the outstanding debt associated with the acquisition of capital assets, net of the cash on hand from bond issues and the deferred loss on refunding at year end. The breakdown is as follows:

	Governmental Activities	Business-Type Activities
Total capital assets and lease assets, net	\$ 462,646,648	\$ 135,425,035
Less:		
Bonds payable	325,929,090	41,151,722

N. Subsequent Events

On April 17, 2024, the primary government through its Community Development Corporation issued \$7,500,000 Taxable Lease Rental Revenue Bonds, Series 2024A (2024A Bonds) and \$86,210,000 Lease Rental Revenue Bonds, Series 2024B (2024B Bonds) to fund the cost of planning, designing, and equipping of an Event Center to provide athletic events, including serving as the home court for Pacers G-League Team (National Basketball Association Development League) and entertainment events. The coupon rates of the 2024A Bonds ranged from 4.25% to 5.30% with a final maturity on February 1, 2036 and the all in true interest costs (including underwriter discount and issuance costs) was 5.22%. The coupon rates for the 2024B Bonds ranged from 4.25% to 5.00% with a final maturity on February 1, 2056 and the all in true interest costs (including underwriter discount and issuance costs) was 4.43%

On April 17, 2024, the primary government through its Redevelopment Authority issued \$63,690,000 Lease Rental Revenue Bonds, Series 2024A to fund the costs of planning, designing, and construction of the local public improvements related to construction and equipping of an Event Center. The public improvement projects include a parking garage, sitework & utilities, landscaping, street lighting, roadways & roundabouts, perimeter and private roads, foundation improvements, parking gates, bollards, wall improvements and various architectural features. In addition, bond proceeds funded the defeasance of the outstanding Taxable Lease Rental Revenue Bond Anticipation Notes, Series 2022 (Innovation Mile). The coupon rates on the bonds ranged from 4.30% to 5.00% with a final maturity on February 1, 2045 and the all in true interest costs (including underwriter discount and issuance costs) was 3.73%.

In addition, the City anticipates issuing additional bonds in 2024, in the ordinary course of operations, but the bonds have not closed as of the date of this report.

(Continued)

O. Conduit Debt

From time to time, the primary government has issued economic development revenue bonds and loaned the proceeds to a qualified borrower to provide financial assistance for the financing of economic development facilities which will be of benefit to the health or general welfare of the primary government and its citizens. Repayment of the bonds is secured solely by payments of the borrower made in accordance with the Amended and Restated Master Indenture and the Loan Agreement. The bonds shall never constitute a general obligation of, an indebtedness of, or a charge against the general credit of the primary government or Hamilton County, nor are the bonds payable in any manner from revenues raised by taxation. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2023, the economic development revenue bonds were outstanding in the principal amount payable of \$18,585,000.

P. Forest Park Remediation Project

The City owns property in Forest Park that was previously leased to a nonprofit organization and that has been found to have environmental issues. During the nonprofit tenant's use of the property, certain pollutants that require remediation, including coal ash, were introduced to the property. The City commenced remediation of this property during 2017 and continues this process. On August 16, 2021, the court entered judgement for the City and against the tenant for past legal expenses and remediation costs incurred by the City and all reasonable future costs incurred by the City to remediate contamination site. On March 8, 2022, the City entered into an agreement with a contractor for the site remediation project at a contract price of approximately \$3.3 million. On March 15, 2022, the City, the tenant, and the tenant's insurance providers reached a settlement agreement that awarded the City \$5.0 million to reimburse the City for past costs and site remediation project. As of December 31, 2023, the City did not recognize a contingent liability since all reasonably estimable future costs incurred by the City will be paid by the prior tenant and/or its insurance providers.

R. Tax Abatements

The primary government negotiates property and personal tax abatement agreements on an individual basis. The primary government has tax abatement agreements with the following entities as of December 31, 2023:

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Purpose	Percentage of Taxes Abated during the Fiscal Year	Amount of Real Taxes Abated during the Fiscal Year - Civil	Amount of Personal Taxes Abated during the Fiscal Year - Civil	Amount of Real Taxes Abated during the Fiscal Year - Redevelopment Commission
Manufacturing company relocated to newly constructed facility and added staff	20%	\$ 195	\$ -	\$ 5,450

Totals		<u>\$ 76,815</u>	<u>\$ 240,052</u>	<u>\$ 1,776,365</u>

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

(a) In addition to the current abatements, bonds were issued to provide for the construction of new roads, improvements to existing roads, land purchase and funding a portion of the overall project serving or benefiting the manufacturing facilities. See Note I.1. 2016 Redevelopment Authority Lease Rental Refunding Bonds, 2016 Taxable Redevelopment Revenue Bonds, 2016 Taxable Economic Development Revenue Bonds for further information.

Each agreement was negotiated under Indiana Code §6-1.1-12.1 and allows local communities to offer real and personal property tax abatements as an incentive to new and expanding businesses. Property tax abatements, both real and personal, allows a property owner to phase in payment of property taxes over a designated period. This period may be any number of years between one and ten. The primary government determines the period, up to a maximum of ten (10) years and sets the percentage of eligible assessed value which is abated each year. The code does not provide for the recapture of abated taxes in the event an abatement recipient does not fulfill the commitment it makes in return for the tax abatement.

The City of Noblesville has not made any future commitments as part of the agreements other than to reduce taxes. The primary government is not subject to any tax abatement agreements entered into by other governmental entities. The primary government has chosen to disclose information about its tax abatement agreements individually. All of the current abatement agreements, shown in the schedule, have been disclosed. The abatements range from 2 percent to 100 percent of the total dollar amount of taxes abated during the year.

### III. Other Information

#### A. Risk Management

The primary government is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; medical benefits to employees, retirees, and dependents (excluding postemployment benefits); and natural disasters.

The risks of torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; medical benefits to employees, retirees, and dependents (excluding postemployment benefits); and natural disasters are covered by commercial insurance from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance by major category of risk.

#### Medical Benefits to Employees, Retirees, and Dependents

The primary government has chosen to establish a risk financing fund for risks associated with medical benefits to employees, retirees, and dependents. The risk financing fund is accounted for in the Employee Benefit Trust Fund, an internal service fund, where assets are set aside for claim settlements. An excess policy through commercial insurance covers individual claims in excess of \$40,000 per year. Settled claims resulting from this risk did not exceed commercial insurance coverage in the past three years. A premium is charged to each fund that accounts for payroll expenses. The total charge allocated to each of the funds is calculated as it relates to payroll. Provisions are also made for unexpected and unusual claims.

Claim expenditures and liabilities of the fund are reported when it is probable that a loss had occurred and the amount of the loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported (IBNRs). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amounts of pay outs and other economic and social factors.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Changes in the balance of claim liabilities during the past two years are as follows:

	2023	2022
Unpaid claims, beginning of fiscal year	\$ 647,999	\$ 104,899
Incurred claims and changes in estimates	16,732,377	13,113,076
Claim payments	16,466,663	12,569,976
Unpaid claims, end of fiscal year	\$ 913,713	\$ 647,999

Job Related Illnesses or Injuries to Employees

During 1997, the primary government joined together with other governmental entities to form the Indiana Public Employers' Plan, Inc., a public entity risk pool currently operating as a common risk management and insurance program for approximately 515 member governmental entities. This risk pool was formed in 1990. The purpose of the risk pool is to provide a medium for the funding and administration of benefits for job related illnesses or injuries to employees. The primary government pays an annual premium to the risk pool for its coverage. The risk pool is considered a self-sustaining risk pool that will provide coverage for its members for up to \$1,000,000 per insured event. The risk pool obtains independent coverage for insured events in excess of the \$1,000,000 limit.

B. Postemployment Benefits Other than Pensions

Single-Employer Defined Benefit Healthcare Plan

Plan Description

Noblesville Healthcare Plan (the "Plan") is a single-employer defined benefit healthcare plan administered by the primary government. The Plan provides comprehensive medical, dental and vision benefits to eligible retirees and their spouses. To be eligible for full benefits at retirement, twenty years of active full-time employment with the primary government or at least two four-year terms in office as an elected official are required. Service does not have to be consecutive. After age sixty-five, retirees (but not spouses) may continue coverage under a fully insured Medicare Supplement plan. Medical coverage for spouse continues after death of retiree or after retiree becomes eligible for Medicare. Dental and vision coverage may be continued after age sixty-five for both retiree and spouse. The Plan also provides life insurance for eligible retirees who completes at least twenty years of active full-time employment with the primary government.

Funding Policy

The benefit requirements of plan members for the Plan are established and can be amended by the primary government's insurance committee and approved by the Common Council. The required payment is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the governing board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75 or any other trust. The Plan issues no separate reports. The primary government pays eighty percent of the employee/spouse premiums for the eligible retirees for Medicare Supplements, medical, dental and vision. As of December 31, 2023, the primary government paid \$1,748,983 to the Plan. Eligible retirees pay one hundred percent of their life insurance premiums.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Membership

At December 31, 2023, the following members were covered by the terms of the Plan:

Inactive plan members currently receiving benefit payments	134
Inactive plan members entitled to but not yet receiving benefit payments	-
Active plan members: fully eligible	84
Active plan members: not fully eligible	396
Total	614

Total OPEB Liability

The primary government's total OPEB liability of \$77,849,900 was measured as of December 31, 2023 and was determined by an actuarial calculation as of that date.

The Plan is supported by employer payments. Using the entry age normal method with costs determined as a level percentage of payroll, payments are determined such that payments will fund the projected benefits from the date of hire to 100% retirement age. A single discount rate of 4.00% was used to measure the total OPEB liability as of December 31, 2023. It has been assumed that the general assets of the primary government will cover the benefits.

The components of the total OPEB liability of the primary government at December 31, 2023, were as follows:

	<u>Total OPEB Liability</u>
Balance - beginning of year	\$ 71,882,139
Service cost	2,242,184
Interest	3,151,578
Changes in plan provisions	-
Difference between expected and actual experience	(2,050,230)
Changes in assumptions	4,373,212
Benefit payments	(1,748,983)
Net change in total OPEB liability	5,967,761
Balance - end of year	\$ 77,849,900

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

The total OPEB liability as of December 31, 2023 was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

<b>Valuation date:</b>	December 31, 2023
<b>Actuarial cost method:</b>	
Actuarially determined contribution	Projected unit credit
Total OPEB liability	Entry age normal, level % of pay (as prescribed by GASB 74/75)
<b>Attribution period:</b>	
Actuarially determined contribution	Date of hire to 20 years of service
Total OPEB liability	Date of hire to 100% retirement age (as prescribed by GASB 74/75)
<b>Healthcare cost trend rates:</b>	Pre-65 medical costs are trended at 9.00% in the first year, graded down to 5.00% over 11 years; post 65 medical costs are trended at a flat 5.00% per year. Dental and vision are trended at a flat 4.00% per year.
<b>Mortality assumption:</b>	SOA RP-2014 Total Dataset Mortality adjusted to 2006 base mortality year and then projected forward using MP-2021 generational future mortality improvement scale.
<b>Discount rate:</b>	4.00% per annum (4.31% in prior year). The discount rate was based on the S&P Municipal Bond 20 Year High Grade Rate Index

Sensitivity of the total OPEB liability to changes in the discount rates:

Discount rate sensitivity	<u>1% Decrease (3.00%)</u>	<u>Current Rate (4.00%)</u>	<u>1% Increase (5.00%)</u>
Total OPEB liability	\$ 89,692,958	\$ 77,849,900	\$ 68,164,488

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates:

Healthcare cost trend rate sensitivity	<u>1% Decrease (3.00%)</u>	<u>Current Rate (4.00%)</u>	<u>1% Increase (5.00%)</u>
Total OPEB liability	\$ 66,565,675	\$ 77,849,900	\$ 92,212,626

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2023, the primary government recognized OPEB expense in the amount of \$3,248,394. At December 31, 2022 the primary government reported deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred outflows of resources</u>	<u>Deferred inflows of resources</u>
Difference between expected and actual experience	\$ 839,790	\$ 8,098,381
Changes in assumptions or other inputs	<u>6,294,688</u>	<u>20,554,473</u>
Total	<u>\$ 7,134,478</u>	<u>\$ 28,652,854</u>

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Amortization amounts for year-ending December 31:

	2024	\$	(2,145,368)
	2025		(2,145,368)
	2026		(2,145,368)

	2028		(2,145,368)
	Thereafter		(10,791,536)
		<b>\$</b>	<b>(21,518,376)</b>

C. Pension Plans

1. Cost-Sharing Multiple-Employer Defined Benefit Pension Plans

a. Public Employees' Retirement Fund

Plan Description

The primary government contributes to the Public Employees' Retirement Fund (PERF), a cost-sharing, multiple-employer defined benefit pension plan based on 35 IAC 21-1-1, 35 IAC 21-1-2 and amended IC 5-10-2.2-11(b). State statutes (IC 5-10.2, 5-10.3, and IC 5-10.5) govern, through the Indiana Public Retirement System (INPRS) Board, most requirements of the system and give the primary government authority to contribute to the plan. There are two tiers to the PERF Plan. The first is the Public Employees' Defined Benefit Plan (PERF Hybrid Plan) and the second is My Choice: Retirement Savings Plan for Public Employees (MY Choice). There are two aspects of the PERF Hybrid Plan defined benefit structure. The first portion is the monthly defined benefit pension that is funded by the employer. The second portion of the PERF Hybrid Plan benefit structure is the Public Employees' Hybrid Members Defined Contribution Account (DC Account), that supplements the defined benefit at retirement. My Choice is funded by an employer and a member for the use of the member, or the member's beneficiaries or survivors, after the member's retirement. Members are full-time employees of the primary government, who elected to participate in My Choice, and are in a position eligible for membership in the PERF Hybrid Plan and elect to become members of My Choice. As of December 31, 2021, the primary government did not participate in the My Choice option.

INPRS administers the plans and issues a publicly available financial report that includes financial statements and required supplementary information for the plans as a whole and for its participants. The report is available online at [www.in.gov/inprs/annualreports.htm](http://www.in.gov/inprs/annualreports.htm) or may be obtained by contacting:

Indiana Public Retirement System  
One North Capitol, Suite 001  
Indianapolis, IN 46204  
Ph. (888) 526-1687

Membership

The primary government's PERF members become participants by ordinance or resolution of the governing body, which specifies the classifications of employees who will become members of the PERF Hybrid Plan. The ordinance or resolution is then filed with and approved by INPRS. In order to be a member, employees hired after June 30, 1982,

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

must occupy positions normally requiring performance of service of more than 1,000 hours during a year.

Contributions

The PERF Hybrid Plan members are obligateded, by state statute, to make contributions to the plan. The required contributions of the PERF Hybrid Plan members and primary government are determined by the INPRS Board of Trustees based on actuarial investigation and valuation in accordance with IC 5-10.2-2-11. The funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to fund the pension benefits when they become due. As PERF is a cost-sharing plan, all risks and costs, including benefit costs, are shared proportionately by the participating employers. The current rate is 11.2 percent of annual covered payroll.

PERF Hybrid members contribute 3 percent of covered payroll to their ASA, which is not used to fund the defined benefit pension for PERF Hybrid. For PERF Hybrid, the employer may elect to make the contributions on behalf of the member. In addition, members of PERF Hybrid may elect to make additional voluntary contributions, under certain criteria, of up to 10 percent of their compensation into their ASA.

The primary government's contributions to the PERF Hybrid Plan for the year ended December 31, 2023 was \$2,024,264, equal to the required contributions.

For 2023, the primary government's annual pension cost and related information for the PERF Hybrid Plan, as provided by the actuary, is presented in section c. of this note.

Retirement Benefits – Defined Benefit Pension

The PERF Hybrid Plan retirement benefit consists of the sum of a defined pension benefit provided by employer contributions plus the amount credited to the member's DC Account. Pension benefits (non-DC Account) vest after ten years of creditable service. The vesting period is eight years for certain elected officials. Members are immediately vested in their DC Account. At retirement, a member may choose to receive a lump sum payment of the amount credited to the member's DC Account, receive the amount as an annuity, or leave the contributions invested with INPRS. Vested PERF members leaving a covered position, who wait thirty days after termination, may withdraw their DC Account and will not forfeit creditable service or full retirement benefit. However, if a member is eligible for a full retirement at the time of withdrawal request, the member will have to begin drawing the member's pension benefit in order to withdraw the DC Account. A non-vested member who terminates employment prior to retirement may withdraw from the DC Account after thirty days, but by doing so, forfeits the member's creditable service. A member who returns to covered service and works no less than six months in a covered position may reclaim the member's forfeited creditable service.

A member who has reached age sixty-five and has at least ten years of creditable service is eligible for normal retirement and, as such, is entitled to 100 percent of the pension benefit component. This annual pension benefit is equal to 1.1 percent times the average annual compensation times the number of years of creditable service. The average annual compensation in this calculation uses the highest twenty calendar quarters of salary in which the member's annual compensation was the highest. All twenty calendar quarters do not need to be continuous, but they must be in groups of four consecutive calendar quarters. The same calendar quarter may not be included in two different groups. For PERF members who serve as an elected official, the highest one year (total of four consecutive quarters) of annual compensation is used. Member contributions paid by the employer on behalf of the member and severance pay up to \$2,000 are included as a part of the member's annual compensation.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

A member who has reached age sixty and has at least fifteen years of creditable service is eligible for normal retirement and, as such, is entitled to 100 percent of the pension benefit. A member who is at least fifty-five years old and whose age plus number of years of creditable service is at least eighty-five is entitled to 100 percent of the benefits, as described above.

A member who has reached at least the age of fifty and has a least fifteen years of creditable service is eligible for early retirement with a reduced pension. A member retiring early receives a percentage of the normal annual pension benefit. The percentage of the pension benefit at retirement remains the same for the member's lifetime. For age fifty-nine, the early retirement percentage of the normal annual pension benefit is 89 percent. The amount is reduced five percentage points per year (e.g., age fifty-eight is 84 percent) to age fifty being 44 percent.

The monthly pension benefits for members in pay status may be increased periodically as cost of living adjustments (COLA). Such increases are not guaranteed by statute and have historically been provided on an "ad hoc" basis and can only be granted by the Indiana General Assembly.

Disability and Survivor Benefits

The PERF Hybrid Plan also provides disability and survivor benefits. A member who has at least five years of creditable service and becomes disabled while in active service, on FLMA leave, receiving workers' compensation benefits, or receiving employer-provided disability insurance benefits may retire for the duration of the disability, if the member has qualified for social security disability benefits and has furnished proof of the qualification. The disability benefit is calculated the same as that for a normal retirement without reduction for early retirement. The minimum benefit is \$180 per month, or the actuarial equivalent.

Upon the death in service of a member with ten or more years of creditable service as of June 30, 2018, a survivor benefit may be paid to the surviving spouse to whom the member had been married for two or more years or surviving dependent children under the age of eighteen. This payment is equal to the benefit which would have been payable to a beneficiary if the member had retired at age fifty or at death, whichever is later.

If a member dies while receiving a benefit, a beneficiary receives the benefit associated with the member's selected form of payment: Five year Certain & Life, Joint with 100 percent Survivor Benefits, Joint with Two-Thirds Survivor Benefits, or Joint with One-Half Survivor Benefits.

Retirement Benefits – DC Account

Members are required to participate in the DC Account. The DC Account consists of the member's contributions, set by statute at 3 percent of compensation, as defined by IC 5-10.2-3-2 for PERF, plus the interest/earnings or losses credited to the member's account. The employer may elect to make the contributions on behalf of the member. In addition, under certain conditions, members may elect to make additional voluntary contributions of up to 10 percent of the compensation into their DC Account. A member's contribution and investment earnings belong to the member and do not belong to the State or the primary government.

Investments are self-directed, members may make changes daily, and investments are reported at fair value. Market risk is assumed by the member, and the member may choose among the following eight investment options with varying degrees of risk and return potential:

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

1. Stable Value Fund – This fund’s objective is to provide a market rate of return consistent with the preservation of principal through a shorter maturity, high quality portfolio.
2. Large Cap Equity Index Fund – This fund’s objective is to seek investment growth/capital appreciation through passive investment in the stocks of the 500 largest U.S. companies.
3. Small/Mid Cap Equity Fund – This fund’s objective is to seek investment growth/capital appreciation through both active and passive investment in the stocks of small- and mid-sized U.S. companies.
4. International Equity Fund – This fund’s objective is to seek investment growth/capital appreciation through both active and passive investment in the stocks of non-U.S. companies in both developed and emerging markets.
5. Fixed Income Fund – This fund’s objective is to seek total return, consisting of income and capital appreciation.
6. Inflation-Linked Fixed Income Fund – This fund’s objective is to provide investors inflation protection and income consistent with investment in inflation-indexed securities. Principal and interest payments are adjusted in response to changes in inflation.
7. Target Date Funds – The Funds are designated to seek an appropriate amount of total return, commensurate with risk, given the specific time horizon of each Fund. The Target Date Funds provide participants with a one-stop shop for investing. Participants simply choose the Fund most appropriate for the member, based upon the year in which the member plans to withdraw money (usually the member’s retirement year). Once a participant selects the appropriate fund, the underlying asset allocation automatically adjusts over time.
8. Money Market Fund – This fund’s objective is to provide a market rate of return consistent with the preservation of capital through a shorter maturity, high quality portfolio.

b. 1977 Police Officers' and Firefighters' Retirement Fund

Plan Description

The primary government contributes to the 1977 Police Officers' and Firefighters' Retirement Fund (1977 Fund), a cost-sharing, multiple-employer defined benefit pension plan established to provide retirement, disability, and survivor benefits to all full-time police officers and firefighters who are hired (or rehired) after April 30, 1977. The 1977 Fund is governed by the Indiana Public Retirement System (INPRS) Board of Trustees in accordance with IC 36-8-8 to provide coverage to full-time sworn officers of the police force and full-time firefighters.

INPRS issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. The report is available online at [www.in.gov/inprs/annualreports.htm](http://www.in.gov/inprs/annualreports.htm) or may be obtained by contacting:

Indiana Public Retirement System  
One North Capitol, Suite 001  
Indianapolis, IN 46204  
Ph. (888) 526-1687

Contributions

The funding policy for the 1977 Fund requires remittances of member and employer contributions based on percentages of the salary of a first class officer or firefighter rather than actual payroll. The employer contribution rate is actuarially determined. The required

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

contributions are determined by the INPRS Board of Trustees based on actuarial investigation and valuation in accordance with IC 36-8-8-6. As the 1977 Fund is a cost-sharing system, all risks and costs, including benefit costs, are shared proportionally by the participating employers. For fiscal year 2023, all participating employers were required to contribute 18.0 percent of the salary of a first class officer or firefighter.

The member contribution rate is established by statute, IC 36-8-8-8, at six percent of the salary of a first class officer or firefighter. Each fund member shall contribute during the period of the funds member's employment or for thirty-two years, whichever is shorter. The employer may pay all or a part of the contribution for the member. Member contributions are used to fund a portion of the defined benefit payment, unless the member ends employment other than by death or disability before the fund member completes twenty years of active service. The accumulated value of the member's contribution, including interest at a rate set by the INPRS Board of Trustees, may be withdrawn if the member terminates employment prior to completing twenty years of service. The INPRS Board of Trustees shall return to the fund member in a lump sum the fund member's contributions plus interest, as determined by the INPRS Board of Trustee, in accordance with IC 36-8-8-8.

The primary government's contributions to the plan for the year ended December 31, 2023 was \$4,680,009 (\$1,843,320 for 1977 Police and \$2,836,689 for the 1977 Firefighters), equal to the required contributions.

For 2023, the primary government's annual pension cost and related information for the 1977 Plan, as provided by the actuary, is presented in section c. of this note.

Retirement Benefits

A member vests after twenty years of service. If the member retires at or after the age of fifty-two with twenty years of service, the benefit is equal to 52 percent of the salary of a first class officer, as reported by the employer in the year the 1977 Fund member ended service plus 1 percent of that salary for each six months of active service over twenty years to a maximum of twelve additional years or 76 percent. At age fifty and with twenty years of service, a member may elect to receive a deducted benefit by a factor established by the fund's actuary, as established by statute IC 36-8-8-11. Currently, benefits are reduced 7 percent per year from age fifty-two to fifty.

The monthly pension benefits for members in pay status may be increased annually in accordance with the cost of living adjustment (COLA) statute IC 36-8-8-15. A member is entitled to an annual increase in the member's benefit based on the percentage increase in the Consumer Price Index (January – March); however, the maximum increase is 3 percent. The COLA increase effective for the year ended June 30, 2023 was 1.95 percent.

Disability and Survivor Benefits

The 1977 Fund also provides disability and survivor benefits. An active member may file an application for disability benefits. A determination is then made by the local pension board, and reviewed by the INPRS Board of Trustees, as to whether the member has a covered impairment and whether the impairment was incurred in the line of duty or not. The calculation for disability benefits is based on when the member was first hired, the type of impairment and other factors. In addition, the heirs or estate of a fund member may be entitled to receive \$12,000 upon the member's death.

If a member dies in the line of duty, the eligible survivor receives 100 percent of the member's benefit (the minimum benefits is calculated as if the member had at least twenty years of service and age fifty-two). If a member dies while receiving retirement or disability benefits, there are provisions for the surviving spouse and children to receive a portion of

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

the benefits. The member's surviving spouse or wholly dependent parent (for their lifetimes) or dependent (until at least age eighteen) are entitled to a monthly benefit equal to 70 percent of the member's monthly benefit, assuming the death did not occur in the line of duty.

Deferred Retirement Option Plan

The Deferred Retirement Option Plan (DROP) for the 1977 Fund was established by the Indiana Legislature in 2002 and is governed by the INPRS Board of Trustees in accordance with IC 36-8-8.5. Members of the 1977 Fund that are eligible to retire may elect to accumulate a DROP benefit while continuing to work. At the time of their election, the member executes an irrevocable election to retire on a DROP retirement date and remains in active service contributing to the fund until that date. The DROP retirement date must be not less the twelve months and not more than thirty-six months after their DROP entry date, and not after the date they reach any mandatory retirement age that may apply. The member may make an election to enter the DROP only once in their lifetime. The DROP and future retirement monthly benefit are calculated as of the member's DROP entry date.

At the time of retirement, the member must choose among the available options for distribution of the accumulated benefit under the DROP. As of June 30, 2023, the amount held by the plan under the DROP is \$98.6 million.

c. Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At December 31, 2022, the primary government reported a net pension liability of \$25,107,564 for its proportionate share of the net pension asset/liability for the Plans as shown below. The total pension asset/liability was measured as of June 30, 2023, and the total pension asset/liability used to calculate the net pension asset/liability was determined by an actuarial valuation as of that date for the above plans.

The primary government's proportion of the net pension assets/liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for the above plans is shown in the following table:

	<u>PERF - Civil</u>	<u>1977 Police</u>	<u>1977 Firefighters</u>	<u>Totals</u>
Proportionate share	0.0021639	0.0068126	0.0102412	
Net pension liability	\$ 7,637,126	\$ 6,979,037	\$ 10,491,401	\$ 25,107,564
Deferred outflow of resources	3,440,752	7,657,691	11,628,610	22,727,053
Deferred inflow of resources	4,517	172,050	213,721	390,288
Pension expense/(income)	1,724,141	2,405,882	3,630,457	7,760,480

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

The components of the Net Pension Liability as of June 30, 2023 (measurement date) are as follows:

	<u>PERF</u>	<u>1977 Police</u>	<u>1977 Firefighters</u>
Total Pension Liability	\$ 39,848,756	\$ 59,925,869	\$ 90,084,962
Plan Fiduciary Net Position	32,211,630	52,946,832	79,593,561
Net Pension Liability	7,637,126	6,979,037	10,491,401
Plan Fiduciary Net Position as a percentage of the Total Pension Liability	80.8%	88.4%	88.4%

At December 31, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflow of Resources</u>		
	<u>PERF - Civil</u>	<u>1977 Police</u>	<u>1977 Firefighters</u>
Differences between expected and actual experience	\$ 156,253	\$ 2,292,683	\$ 3,446,529
Net difference between projected and actual investment earnings on pension plan investments	1,750,450	2,860,819	4,300,593
Change of assumptions	416,468	1,571,178	2,361,911
Changes in proportion and differences between employer contributions and proportionate share of contributions	124,093	39,583	98,865
Contributions subsequent to the measurement date	993,488	893,428	1,420,712
<b>Total</b>	<b>\$ 3,440,752</b>	<b>\$ 7,657,691</b>	<b>\$ 11,628,610</b>

	<u>Deferred Inflow of Resources</u>		
	<u>PERF - Civil</u>	<u>1977 Police</u>	<u>1977 Firefighters</u>
Differences between expected and actual experience	\$ -	\$ 13,983	\$ 21,020
Change of assumptions	-	103,314	155,309
Changes in proportion and differences between employer contributions and proportionate share of contributions	4,517	54,753	37,392
<b>Total</b>	<b>\$ 4,517</b>	<b>\$ 172,050</b>	<b>\$ 213,721</b>

\$3,307,628 reported as deferred outflows of resources, as related to pension, is a result of the City's contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ending December 31, 2024.

Actuarial Assumptions

PERF - Civil	
Measurement date	June 30, 2023
Valuation date	
Assets	June 30, 2023
Liabilities	June 30, 2022 - The TPL as of June 30, 2023 was determined based on an actuarial valuation prepared as of June 30, 2022 rolled forward one year to June 30, 2023, using the following key actuarial assumptions and other inputs, such as benefit accruals and actual benefit payments during that time period.
Inflation	2.00%
Future salary increases	2.65% - 8.65% - based on service
Cost-of-living increases	
As of June 30, 2023:	No COLA was granted for the 2023-2025 biennium. Thereafter, the following COLAs, compounded annually, were assumed: 0.4% beginning on January 1, 2026 0.5% beginning on January 1, 2034 0.6% beginning on January 1, 2039
As of June 30, 2022:	Members in pay were granted a 1.00% COLA on January 1, 2022 and no COLA on January 1, 2023. Thereafter, the following COLAs, compounded annually, were 0.4% beginning on January 1, 2024 0.5% beginning on January 1, 2034 0.6% beginning on January 1, 2039
Mortality assumption	Pub-2010 Public Retirement Plans Mortality Tables (Amount-Weighted) with a fully generational projection of mortality improvements using SOA Scale MP-2019.  <i>Healthy Employees</i> - General Employee table with a 3 year set forward for males and a 1 year set forward for females.  <i>Retirees</i> - General Retiree table with a 3 year set forward for males and a 1 year set forward for females.  <i>Beneficiaries</i> - Contingent Survivor table with no set forward for males and a 2 year set forward for females.  <i>Disableds</i> - General Disabled table with a 140% load.
Experience study	The most recent comprehensive experience study, based on member experience between June 30, 2014 and June 30, 2019, was completed February 2020. The demographic assumptions were approved by the Board in June 2020 and were updated as appropriate based on the results of the study for this June 30, 2020 actuarial valuation. Economic assumptions were updated and approved by the Board in May 2021 following the completion of an Asset-Liability study and first used in the June 30, 2021 actuarial valuation.
Discount rate	6.25%, net of investment expenses  The discount rate is equal to the expected long-term rate of return on plan investments, net of investment expense and including price inflation. There was no change in the discount rate from prior measurement date.  The INPRS Board of Trustees has established a funding policy of setting the employer contribution rate equal to the greater of 11.2% (the current contribution rate) or a rate equal to the actuarially determined contribution rate, which is based on the assumptions and methods selected by the Board for the annual actuarial valuations and projected covered member payroll. The June 30, 2023 actuarial valuation assumes a long-term rate of return on assets of 6.25%, a 20-year level dollar closed method for amortizing the future layers of unfunded actuarial accrued liability (30 years for amortization layers established prior to June 30, 2016), and a 5-year smoothing method for recognizing investment gains and losses in the actuarial value of assets.  In the past several years, the Board has followed its current funding policy and the State has complied in its contributions to the plan. Therefore, if past practice is continued, the appropriations will be sufficient to fully fund the plan within 10 to 20 years. Deterministic projections indicate the actuarially determined contribution rate will decline over the coming years. As a result, it is presumed that the projected plan assets will be sufficient to cover the future benefit payments for current members and a detailed projection of plan assets and cash flows has not been prepared.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Asset allocation of the pension plan's portfolio

For the PERF – Civil, 1977 Police and the 1977 Firefighters plans, the long-term return expectation has been determined by using a building-block approach and assumes a time horizon, as defined in the INPRS Investment Policy Statement. A forecasted rate of inflation serves as the baseline for the return expectation. In order to determine the expected long-term nominal rate of return, the asset class geometric real returns are projected for a 30-year time horizon. These returns are combined with a projected covariance matrix and the target asset allocations to create a range of expected long-term real rates of return for the portfolio. A range of possible expected long-term rates of return is created by adding the forecasted inflation to the expected long-term real rates of return and adding an expected contribution to the return due to manager selection. The rate ultimately supports the long-term expected rate of return assumption of 6.25% selected by the Board as the discount rate. The assumption is a long-term assumption and is not expected to change with the small fluctuations in the underlying inputs but may change with a fundamental shift in the underlying market factors or significant asset allocation change.

	<u>Target Asset Allocation</u>	<u>Geometric Basis Long-Term Expected Real Rate of Return</u>
Public Equity	20.0%	3.7%
Private Markets	15.0%	6.4%
Fixed Income - Ex inflation-linked	20.0%	2.2%
Fixed Income - Inflation-linked	15.0%	0.5%
Commodities	10.0%	1.1%
Real Estate	10.0%	3.4%
Absolute Return	5.0%	1.6%
Risk Parity	20.0%	5.9%
Cash and Cash Overlay	N/A	0.0%

Money-weighted rate of return

The money-weighted rate of return equals investment performance, net of pension plan investment expense, adjusted for the changing amount actually invested. For the measurement date of June 30, 2023, the money-weighted return on the plan assets is 2.50% for the PERF Plan and 1977 Plans.

2. Single-Employer Defined Benefit Pension Plans

a. 1925 Police Officers' Pension Plan

Plan Description

The primary government contributes to the 1925 Police Officers' Pension Plan which is a single-employer defined benefit pension plan. The plan is administered by the local pension board as authorized by state statute (IC 36-8-6). The pension board consists of the mayor, chief financial officer, police chief and five members, four of which are elected by active members and one of which is elected by retired members. The plan provides retirement, disability, and death benefits to plan members and beneficiaries. The plan was established by and may be amended by the plan administrator, as provided by state statute. The plan administrator does not issue a publicly available financial report that includes financial statements and required supplementary information of the plan.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Contributions

Plan members are required by state statute (IC 36-8-6-4) to contribute an amount equal to 6 percent of the salary of a first class patrolman. The primary government is required to contribute an amount equal to the funding deficit of the difference between receipts of the fund and the required disbursements including administrative costs of the fund (pay-as-you-go basis); the amount contributed for 2023 is \$217,300. The contribution requirements of plan members and the primary government are established by state statute. All of this amount is contributed by the State of Indiana on behalf of the primary government. On behalf contributions from the State of Indiana approximate the amount paid out for benefits and were recognized as revenues and expenses during the year.

The contribution requirements of plan members for the 1925 Police Officers' Pension Plan are established by state statute. The primary government's annual pension cost and related information, as provided the actuary, is presented in section c. of this note.

Net Pension Liability and Pension Expense

The primary government's net pension liability of \$2,464,976 was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. For the year ended December 31, 2023, the primary government recognized a reduction of pension expense of \$78,866. At December 31, 2023, the primary government had deferred inflows of resources from pensions in the amount of \$0 and deferred outflows of resources from pensions in the amount of \$0.

Benefits Provided

The plan provides retirement, disability and death benefits to plan members and beneficiaries. Benefits are provided either through a life annuity or a joint and survivor annuity with 70% continuation to the surviving beneficiary, assuming the death did not occur in the line of duty. The benefit provisions of the 1925 Police Officers' Pension Plan for non-converted members are set forth in state statute (IC 36-8-6). The benefits provisions for converted members are set forth in state statute (IC 36-8-8). Unless specifically denoted, provisions for converted and non-converted members are the same.

All full-time, fully-paid police officers who were hired before May 1, 1977 or rehired between April 30, 1977 and February 1, 1979 are eligible participants. The pension plan is closed to new entrants.

Eligibility for annuity benefits is as follows. Non-converted members of any age with twenty or more years of creditable service and converted plan members who are age fifty-two with twenty or more years of creditable service are eligible for normal benefits. Normal retirement benefits are calculated at 52% of the base salary of a First Class Police Officer, plus an additional 1% for each completed six months of service over twenty years up to a maximum of 76% with thirty-two years of service.

Non-converted members of any age with twenty or more years of creditable service are eligible to receive early retirement without a benefit reduction. Converted members at age fifty with twenty or more years of creditable service are eligible to receive early retirement benefits, which are reduced by 7% per year for commencement between ages fifty and fifty-two. The late retirement benefit is calculated in the same manner as the normal retirement benefits.

The disability benefit for non-converted members is equal to a sum determined by the local board, but not exceeding 55% of the monthly salary (with longevity pay) of a First Class Police Officer. If a member has more than twenty years of service, the disability benefit, if

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

greater, will be equal to the pension the member would have received if the member had retired on the date of disability. Time spent receiving disability benefits is considered active service for the purpose of determining retirement benefits until the fund member has a total of twenty years of service. If the disability is considered to have occurred while on duty or due to a duty related disease then the member is entitled to have the amount of the disability benefit to be computed as a retirement benefit when the fund member becomes age fifty-five. Converted members disability benefit is only available to members hired prior to January 1, 1990 and who do not choose to be covered by the disability benefit for members hired after 1989. The disability benefit is equal to the benefit the member would have received if the member had retired. If the member does not have twenty years of service or is not at least age fifty-two on the date of disability, the benefit is computed as if the member does have twenty years of service and is age fifty-two on the date of disability. House Enrolled Act Number 1617 provided for enhanced disability benefit. In cases of catastrophic physical personal injuries that result in a degree of impairment of at least 67% and permanently prevents the member from performing any gainful work, the member will receive an enhanced disability benefit equal to 100% of base salary. Additionally, the benefit is increased by the increase in the base salary.

For converted members disability benefit is only available to members hired after 1989 or hired prior to January 1, 1990 who have chosen to be covered by the disability benefit, the following describes the three different classes of impairments and the amount of base benefit for each class:

1. Class 1 Impairment: A personal injury that occurs while on duty, while responding to an emergency, or due to an occupational disease. The disability benefit is equal to a base benefit of 45% of the base salary, plus an additional amount between 10% and 45% of this salary based upon the degree of impairment. The benefit is payable for life, at which time the member is entitled to a retirement benefit based upon the salary and service the member would have earned had the member remained in active service.
2. Class 2 Impairment: A proven duty-related disease. The disability benefit is equal to a base benefit of 22% of the base salary, plus an additional 0.5% of this salary for each year of service up to a maximum of thirty years of service, plus an additional amount between 10% and 45% of this salary based upon the degree of impairment. If the member's total benefit is less than 30% of this salary and the member has fewer than four years of service, then the benefit is payable for a period equal to the years of service of the member. Otherwise, the benefit is payable for life.
3. Class 3 Impairment: All other impairments that are not Class 1 or Class 2. The disability benefit is equal to a base benefit of 1% of base salary for each year of service up to a maximum of thirty years of service, plus an additional amount between 10% and 45% of this salary based upon the degree of impairment. If the member's total benefit is less than 30% of this salary and the member has fewer than four years of service, then the benefit is payable for a period equal to the years of service of the member. Otherwise, the benefit is payable until age fifty-two, at which time the member is entitled to a retirement benefit based upon twenty years of service.

House Enrolled Act Number 1617 provided for enhanced disability benefit. In cases of catastrophic physical personal injuries that result in a degree of impairment of at least 67% and permanently prevents the member from performing any gainful work, the member will receive an enhanced disability benefit equal to 100% of base salary. Additionally, the benefit is increased by the increase in the base salary after commencement.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Pre-retirement death benefits vary for converted and non-converted members and depending upon whether or not the death is considered in the line of duty or not in the line of duty. Such benefits range from 30-55% of a First Class Police Officer monthly salary, with longevity, or from 55-100% of the monthly benefit the member was receiving, or was entitled to receive, on the date of death. Pre-retirement death benefits are payable to the surviving spouse, children and dependent parents of members provided they meet eligibility guidelines. A one-time funeral death benefit is paid to the heirs or estate upon a member's death from any cause and is equal to at least \$12,000. An additional benefit of \$150,000 is paid from the Pension Relief Fund to a surviving spouse, children, or parent(s) if death occurs in the line of duty.

Non-converted members are entitled to the normal retirement benefits described above if termination occurs after earning twenty years of service. If termination occurs before completing twenty years of service, no benefits are payable. Converted members are entitled to the accrued retirement benefit determined as of the termination date and payable commencing on the normal retirement date if termination occurs after earning twenty years of service. If termination occurs before completing twenty years of service, the member shall be entitled to the member's contributions plus accumulated interest.

Cost of living adjustments for non-converted retired members and disabled members are increased annually based upon increases in the first class salary as approved by the employer. Converted retired members and disabled members benefits are increased annually based upon increases in the CPI-U index. The increase is subject to a 3 percent maximum and 0 percent minimum.

Investments

The pension plan investment policy is consistent with the overall policy of the primary government as described in Note II. A. – Deposits and Investments. The plan held no investments during the reporting period.

Deferred Retirement Option Plan

The Deferred Retirement Option Plan (DROP) is an optional form of benefit, which allows members who are eligible for an unreduced retirement benefit to continue to work and earn a salary while accumulating a DROP benefit payable in a lump sum or three annual installments. A member who elects to enter the DROP shall execute an irrevocable election to retire on the DROP retirement date. The member shall select a DROP retirement date not less than twelve months and not more than thirty-six months after the member's DROP entry date. While in the DROP, the member shall continue to make applicable fund contributions.

When a member enters the DROP, a "DROP frozen benefit" will be calculated. This is equal to the member's monthly retirement benefit based upon accrued service and base salary as of the date member enters the DROP. Upon DROP retirement, the member is eligible to receive a lump sum equal to the amount of the DROP frozen benefit multiplied by the number of months in the DROP. The member may elect to receive this amount in three annual installments instead of in a single lump sum. In addition, the member will receive a monthly retirement benefit equal to the DROP frozen benefit. The member will not continue to accrue service credit for the years in the DROP. Cost of living adjustments will not apply to the frozen monthly benefit while in the DROP. The cost of living adjustments will begin to be applied to the frozen monthly benefit, however, in the year after the year in which the member retires.

If a member elected to participate in the DROP, the member may, upon retirement, elect to forego DROP benefits, and instead receive monthly retirement benefits calculated as if the member never elected to participate in the DROP. These benefits would be based upon

accrued service and base salary as of the date the member retires. There is no balance of amounts held by the pension plan pursuant to the DROP.

b. 1937 Firefighters' Pension Plan

Plan Description

The primary government contributes to the 1937 Firefighters' Pension Plan which is a single-employer defined benefit pension plan. The plan is administered by the local pension board as authorized by state statute (IC 36-8-7). The pension board consists of six members. Four members are elected from the active members, one is elected from retired members and the Fire Chief serves as executive by default. The plan provides retirement, disability, and death benefits to plan members and beneficiaries. The plan was established by and may be amended by the plan administrator, as provided by state statute. The plan administrator does not issue a publicly available financial report that includes financial statements and required supplementary information of the plan.

Contributions

Plan members are required by state statute (IC 36-8-6-4) to contribute an amount equal to 6 percent of the salary of a fully paid first class firefighter. The primary government is required to contribute an amount equal to the funding deficit of the difference between receipts of the fund and the required disbursements including administrative costs of the fund (pay-as-you-go basis); the amount contributed for 2023 is \$480,836. The contribution requirements of plan members and the primary government are established by state statute. All of this amount is contributed by the State of Indiana on behalf of the primary government. On behalf contributions from the State of Indiana approximate the amount paid out for benefits and were recognized as revenues and expenses during the year.

The contribution requirements of plan members for the 1937 Firefighters' Pension Plan are established by state statute. The primary government's annual pension cost and related information, as provided the actuary, is presented in section c. of this note.

For 2023, the primary government's annual pension cost and related information for the 1937 Firefighters' Pension Plan, as provided by the actuary, is presented in section c. of this note.

Net Pension Liability and Pension Expense

The primary government's net pension liability of \$6,780,292 was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. For the year ended December 31, 2023, the primary government recognized reduction of pension expense of \$845,774. At December 31, 2023, the primary government had deferred inflows in the amount of \$0 and deferred outflows in the amount of \$0.

Benefits Provided

The plan provides retirement, disability and death benefits. The benefit provisions of the 1937 Firefighters' Pension Plan for non-converted members are set forth in state statute (IC 36-8-7). Benefits are provided either through a life annuity or a joint and survivor annuity with 70% continuation to the surviving beneficiary, assuming the death did not occur in the line of duty. The benefits provisions for converted members are set forth in state statute (IC 36-8-8). Unless specifically denoted, provisions for converted and non-converted members are the same. All full-time, fully-paid firefighters who were hired before May 1, 1977 or rehired between April 30, 1977 and February 1, 1979 are eligible participants. The pension plan is closed to new entrants.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Eligibility for annuity benefits is as follows. Non-converted members of any age with twenty or more years of creditable service and converted plan members who are age fifty-two with twenty or more years of creditable service are eligible for normal benefits. Normal retirement benefits are calculated at 52% of the base salary of a First Class Firefighter, plus an additional 1% for each completed six months of service over twenty years up to a maximum of 76% with thirty-two years of service.

Non-converted members of any age with twenty or more years of creditable service are eligible to receive early retirement without a benefit reduction. Converted members at age fifty with twenty or more years of creditable service are eligible to receive early retirement benefits, which are reduced by 7% per year for commencement between ages fifty and fifty-two. The late retirement benefit is calculated in the same manner as the normal retirement benefits.

The disability benefit for non-converted members is equal to a sum determined by the local board, but not exceeding 55% of the monthly salary (with longevity pay) of a First Class Firefighter. If a member has more than twenty years of service, the disability benefit, if greater, will be equal to the pension the member would have received if the member had retired on the date of disability. Time spent receiving disability benefits is considered active service for the purpose of determining retirement benefits until the fund member has a total of twenty years of service. If the disability is considered to have occurred while on duty or due to a duty related disease then the member is entitled to have the amount of the disability benefit to be computed as a retirement benefit when the fund member becomes age fifty-five. Converted member's disability benefit is only available to members hired prior to January 1, 1990 and who do not choose to be covered by the disability benefit for members hired after 1989. The disability benefit is equal to the benefit the member would have received if the member had retired. If the member does not have twenty years of service or is not at least age fifty-two on the date of disability, the benefit is computed as if the member does have twenty years of service and is age fifty-two on the date of disability.

House Enrolled Act Number 1617 provided for enhanced disability benefit. In cases of catastrophic physical personal injuries that result in a degree of impairment of at least 67% and permanently prevents the member from performing any gainful work, the member will receive an enhanced disability benefit equal to 100% of base salary. Additionally, the benefit is increased by the increase in the base salary.

For converted members disability benefit is only available to members hired after 1989 or hired prior to January 1, 1990 who have chosen to be covered by the disability benefit, the following describes the three different classes of impairments and the amount of base benefit for each class:

1. Class 1 Impairment: A personal injury that occurs while on duty, while responding to an emergency, or due to an occupational disease. The disability benefit is equal to a base benefit of 45% of the base salary, plus an additional amount between 10% and 45% of this salary based upon the degree of impairment. The benefit is payable for life, at which time the member is entitled to a retirement benefit based upon the salary and service the member would have earned had the member remained in active service.
2. Class 2 Impairment: A proven duty-related disease. The disability benefit is equal to a base benefit of 22% of the base salary, plus an additional 0.5% of this salary for each year of service up to a maximum of thirty years of service, plus an additional amount between 10% and 45% of this salary based upon the degree of impairment. If the member's total benefit is less than 30% of this salary and the member has fewer than four years of service, then the benefit is payable for a

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

period equal to the years of service of the member. Otherwise, the benefit is payable for life.

3. Class 3 Impairment: All other impairments that are not Class 1 or Class 2. The disability benefit is equal to a base benefit of 1% of base salary for each year of service up to a maximum of thirty years of service, plus an additional amount between 10% and 45% of this salary based upon the degree of impairment. If the member's total benefit is less than 30% of this salary and the member has fewer than four years of service, then the benefit is payable for a period equal to the years of service of the member. Otherwise, the benefit is payable until age fifty-two, at which time the member is entitled to a retirement benefit based upon twenty years of service.

House Enrolled Act Number 1617 provided for enhanced disability benefit. In cases of catastrophic physical personal injuries that result in a degree of impairment of at least 67% and permanently prevents the member from performing any gainful work, the member will receive an enhanced disability benefit equal to 100% of base salary. Additionally, the benefit is increased by the increase in the base salary after commencement.

Pre-retirement death benefits vary for converted and non-converted members and depending upon whether or not the death is considered in the line of duty or not in the line of duty. Such benefits range from 30-55% of a First Class Firefighter monthly salary, with longevity, or from 55-100% of the monthly benefit the member was receiving, or was entitled to receive, on the date of death. Pre-retirement death benefits are payable to the surviving spouse, children and dependent parents of members provided they meet eligibility guidelines. A one-time funeral death benefit is paid to the heirs or estate upon a member's death from any cause and is equal to at least \$12,000. An additional benefit of \$150,000 is paid from the Pension Relief Fund to a surviving spouse, children, or parent(s) if death occurs in the line of duty.

Non-converted members are entitled to the normal retirement benefits described above if termination occurs after earning twenty years of service. If termination occurs before completing twenty years of service, no benefits are payable. Converted members are

entitled to the accrued retirement benefit determined as of the termination date and payable commencing on the normal retirement date. If termination occurs before completing twenty years of service, the member shall be entitled to the member's contributions plus accumulated interest.

Cost of living adjustments for non-converted retired members and disabled members are increased annually based upon increases in the first class salary as approved by the employer. Converted retired members and disabled members benefits are increased annually based upon increases in the CPI-U index. The increase is subject to a 3 percent maximum and 0 percent minimum.

#### Investments

The pension plan investment policy is consistent with the overall policy of the City as described in Note II. A. – Deposits and Investments. The plan held no investments during the reporting period.

#### Deferred Retirement Option Plan

The Deferred Retirement Option Plan (DROP) is an optional form of benefit, which allows members who are eligible for an unreduced retirement benefit to continue to work and earn a salary while accumulating a DROP benefit payable in a lump sum or three annual installments. A member who elects to enter the DROP shall execute an irrevocable election

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

to retire on the DROP retirement date. The member shall select a DROP retirement date not less than twelve months and not more than thirty-six months after the member's DROP entry date. While in the DROP, the member shall continue to make applicable fund contributions.

When a member enters the DROP, a "DROP frozen benefit" will be calculated. This is equal to the member's monthly retirement benefit based upon accrued service and base salary as of the date member enters the DROP. Upon DROP retirement, the member is eligible to receive a lump sum equal to the amount of the DROP frozen benefit multiplied by the number of months in the DROP. The member may elect to receive this amount in three annual installments instead of in a single lump sum. In addition, the member will receive a monthly retirement benefit equal to the DROP frozen benefit. The member will not continue to accrue service credit for the years in the DROP. Cost of living adjustments will not apply to the frozen monthly benefit while in the DROP. The cost of living adjustments will begin to be applied to the frozen monthly benefit, however, in the year after the year in which the member retires.

If a member elected to participate in the DROP, the member may, upon retirement, elect to forego DROP benefits, and instead receive monthly retirement benefits calculate as if the member never elected to participate in the DROP. These benefits would be based upon accrued service and base salary as of the date the member retires. There is no balance of amounts held by the pension plan pursuant to the DROP.

Sensitivity of the net pension liability to changes in the discount rate

1925 Police Officers' Pension Plan

Discount rate sensitivity	<u>1% Decrease (0.00%)</u>	<u>Current Rate (1.00%)</u>	<u>1% Increase (2.00%)</u>
Net pension liability	\$ 2,783,545	\$ 2,464,976	\$ 2,194,519

1937 Firefighters' Pension Plan

Discount rate sensitivity	<u>1% Decrease (0.00%)</u>	<u>Current Rate (1.00%)</u>	<u>1% Increase (2.00%)</u>
Net pension liability	\$ 7,581,708	\$ 6,780,292	\$ 6,098,865

At the direction of INPRS, the discount rate for the fund valuation continues to be the Barclay's 20-year Municipal Bond Index rate as of the measurement date, which decreased from 4.12% as of December 31, 2022, to 3.71% as of December 31, 2023. The primary government has assets that exceed one year of benefit payments in reserve and is expected to maintain such reserves. Therefore, the fiduciary net position is projected to not be depleted if all assumptions are met, and the discount rate is set equal to the expected return on assets, which results in a discount rate of 1.00% for the measurement date.

Membership in the 1925 Police Officers' Pension Plan and the 1937 Firefighters' Pension Plan as of January 1, was comprised of the following:

	1925 Police Officers' Pension	1937 Firefighters' Pension
Currently receiving benefits: retired members, disabled, and beneficiaries	5	13
Inactive members entitled to but not yet receiving benefits	-	-
Inactive non-vested members entitled to a refund of member contributions	-	-

1925 Police Officers' Pension Plan	\$ 2,989,584	\$ 524,608	\$ 2,464,976	17.55%
1937 Firefighters' Pension Plan	\$ 7,499,148	\$ 718,856	\$ 6,780,292	9.59%

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

The components of the pension expense for the year ended December 31, 2023 are as follows:

	1925 Police	1937 Firefighters
Service Cost, as of the beginning of year	\$ -	\$ -
Interest cost, including interest on service cost	-	-
Expected return on assets	-	-
Plan amendments	-	-
Recognition of deferred (inflows) / outflows of resources related to:		
Liability experience (gains) / losses	239,703	(44,358)
Assumption change (gains) / losses	(318,569)	(801,416)
Investment experience (gains) / losses	-	-
Total	(78,866)	(845,774)
 Total pension expense / (reduction of expense)	 \$ (78,866)	 \$ (845,774)

Deferred inflows and outflows of resources

All deferred inflows and outflows arising prior to 2023 have been fully amortized. The initial amortization period for gains and losses due to investment experience is five years. The initial amortization period for gains and losses due to liability experience and assumption changes is equal to the average expected future working lifetime active and inactive members. A period less than one results in the remaining balance being fully recognized during the current year. As of December 31, 2023, the City reported \$0 deferred outflows of resources and deferred inflows of resources for both 1925 Police Officers' and 1937 Firefighters' Pension Plans.

The Plan did not receive direct contributions from a nonemployer contributing entity nor did the City provide any employer contributions to the plan subsequent to the measurement date. However, the primary government received revenue from the State of Indiana via the Pension Relief Fund to offset benefit payments made by the employer in the amounts of \$217,300 and \$480,836 for the 1925 Police Officers' and the 1937 Firefighters' Pension Plans, respectively. The Pension Relief Fund is administered by the board of trustees of the Indiana Public Employees Retirement System.

CITY OF NOBLESVILLE  
NOTES TO FINANCIAL STATEMENTS  
(Continued)

Significant Actuarial Assumptions to Measure the Total Pension Liability

Measurement date	December 31, 2023
Valuation date	
Assets	Benefits are paid on a pay-as-you-go basis.
Liabilities	January 1, 2023 - Census data provided by INPRS as of January 1, 2023 was used in the valuation. Standard actuarial techniques were used to roll forward the total pension liability computed as of December 31, 2022 to the December 31, 2023 measurement date. Projected benefit payments, rather than actual benefit payments, were used in the roll forward due to fluctuation in actual benefit payments caused by the DROP payments and lump sum death benefits.
Price inflation	2.00%
Wage inflation	2.65%
Salary increases, including wage inflation	2.65%
Long-term Rate of Return, net of investment expense, including price inflation	1.00%
Municipal Bond Index Rate	3.71%
Year Fiduciary net pension is projected to be depleted	No depletion date
Final discount rate	1.00%
Cost-of-living adjustment	Non-converted - 2.65% per year in retirement beginning July 1, 2023. Converted - 1.95% per year in retirement beginning July 1, 2024. The actual cost-of-living increase of 3.00% effective July 1, 2023 is reflected in the liability valuation at January 1, 2023.
Mortality assumption	Pub-2010 Public Retirement Plans Mortality Tables (Amount-Weighted) with a fully generational projection of mortality improvements using SOA Scale MP-2019.  <i>Healthy Employees</i> - Safety Employee table with a 3 year set forward for males and no set forward for females.  <i>Retirees</i> - Safety Retiree table with a 3 year set forward for males and no set forward for females.  <i>Beneficiaries</i> - Contingent Survivor table with no set forward for males and a 2 year set forward for females.  <i>Disableds</i> - General Disabled table.
Pre-retirement death	Of active member deaths, 20% are assumed to be in the line of duty and 80% are other than in the line of duty.
Experience study	The actuarial assumptions used in the valuation are based on the results of the actuarial experience study adopted by the INPRS Board in June 2020 for the 1977 Police Officers' and Firefighters' Pension and Disability Fund, which covered the period beginning July 1, 2015 and ending June 30, 2019, along with the results of the INPRS asset liability study adopted by the Board in May 2021.
Discount rate	The discount rate used as of December 31, 2023 was 1.00%, an increase from 0.00% used at December 31, 2022. The 1925 Police Pension Fund and 1937 Firefighters' Pension Fund have assets that exceed one year's benefit payments; therefore, the fiduciary net pension is projected to never be depleted and the discount rate is set equal to the expected return on assets.

CITY OF NOBLESVILLE  
 REQUIRED SUPPLEMENTARY INFORMATION  
 BUDGET/GAAP RECONCILIATION -  
 GENERAL FUND  
 For The Year Ended December 31, 2023

The major differences between Budgetary (Non-GAAP) basis and GAAP basis are:

- a. Revenues are recorded when received in cash (budgetary) as opposed to susceptible to accrual (GAAP).
- b. Expenditures are recorded when paid in cash (budgetary) as opposed to when the liability is incurred (GAAP).

Adjustments necessary to convert the results of operations at the end of the year on a budgetary basis to a GAAP basis are as follows:

	General
Net change in fund balance (budgetary basis)	\$ 4,977,255
Adjustments:	
To adjust revenues for accruals	5,536,133
To adjust expenditures for accruals	(4,095,393)
Net change in fund balance (GAAP basis)	\$ 6,417,995

The notes to the required supplementary information are an integral part of the required supplementary information.

CITY OF NOBLESVILLE  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Note I. Financial Report – Pension Plans

A. Changes in assumptions since the prior year:

1925 Police Officers' and 1937 Firefighters' Pension Plans:

- *Expected Return on Assets* (EROA): The EROA used for the December 31, 2023 valuation was 1.00% based on the allocation of assets in the trust. This is an increase from the 0.00% used for the December 31, 2022 valuation.

PERF and 1977 Plans:

- No changes in assumptions since the prior year

B. Method and assumptions used in the calculations of actuarially determined contributions:

The following actuarial method and assumptions were used to determine contribution rates reported in their respective schedules:

CITY OF NOBLESVILLE  
 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
 (Continued)

1925 Police Officers' and 1937 Firefighters' Pension Plans

1925 Police and 1937 FF:

Actuarial cost method	Entry Age Normal - Level percent of payroll
Amortization method	Level percentage of projected payroll, closed
Remaining amortization period	The initial amortization period for gains and losses due to investment experience is five years. The initial amortization period for gains and losses due to liability experience and assumption changes is equal to the average expected future working lifetime of active and inactive members. A period of less than one results in the remaining balance being fully recognized during the current year.
Price Inflation	2.00%
Salary increases, including wage inflation	2.65%
Cost-of-Living increases	Non-converted - 2.65% per year in retirement beginning July 1, 2023. Converted - 1.95% per year in retirement beginning July 1, 2024. The actual cost-of-living increase of 3.00% effective July 1, 2023 is reflected in the liability valuation at January 1, 2023.
Discount rate	The discount rate used for the December 31, 2023 valuation was 1.00%, which is an increase from 0.00% discount rate used for the December 31, 2022 valuation. This is a blend of the expected return in assets and a bond rate directed by INPRS based on the Barclay's 20-year Municipal Bond Index as of December 31, 2023.
Mortality assumption	Pub-2010 Public Retirement Plans Mortality Tables (Amount-Weighted) with a fully generational projection of mortality improvements using SOA Scale MP-2019.  <i>Healthy Employees</i> - Safety Employee table with a 3 year set forward for males and no set forward for females.  <i>Retirees</i> - Safety Retiree table with a 3 year set forward for males and no set forward for females.  <i>Beneficiaries</i> - Contingent Survivor table with no set forward for males and a 2 year set forward for females.  <i>Disableds</i> - General Disabled table.
Pre-retirement death	Of active member deaths, 20% are assumed to be in the line of duty and 80% are other than in the line of duty.

CITY OF NOBLESVILLE  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
(Continued)

The following actuarial methods and assumptions were used to determine the actuarially determined contribution rates reported in their respective schedules:

PERF - Civil:

Valuation date:

Assets

June 30, 2023

Liabilities

The Total Pension Liability as of June 30, 2023 was determined based on an actuarial valuation prepared as of June 30, 2022 rolled forward one year to June 30, 2023, using the following key actuarial assumptions and other inputs, such as benefit accruals and actual benefit payments during that time period.

Actuarial cost method (funding)

Entry Age Normal - Level percent of payroll

Actuarial amortization method for unfunded liability

Level dollar

Actuarial amortization period for unfunded liability

20 years, closed

Asset valuation method

5-year smoothing of gains and losses on the Market Value of assets subject to a 20% corridor

Investment rate of return (funding)

6.25% per year, compounded annually (net of administrative and investment expenses)

Cost of living increases

As of June 30, 2023: No COLA was granted for 2023-2025 biennium. Thereafter, the following COLAs, compounded annually were assumed:

0.4% beginning on January 1, 2026

0.5% beginning on January 1, 2034

0.6% beginning on January 1, 2039

Future salary increases, including inflation

2.65% - 8.65% based on service

Inflation

2.00%

1977 Funds:

Valuation date:

Assets

June 30, 2023

Liabilities

The Total Pension Liability as of June 30, 2023 was determined based on an actuarial valuation prepared as of June 30, 2022 rolled forward one year to June 30, 2023, using the following key actuarial assumptions and other inputs, such as benefit accruals and actual benefit payments during that time period.

Actuarial cost method (funding)

Entry Age Normal - Level percent of payroll

Actuarial amortization method for unfunded liability

Level dollar

Actuarial amortization period for unfunded liability

20 years, closed

Asset valuation method

5-year smoothing of gains and losses on the Market Value of assets subject to a 20% corridor

Investment rate of return (funding)

6.25% per year, compounded annually (net of administrative and investment expenses)

Interest on member balances

3.30%

Cost of living increases

1.95% compounded annually, beginning July 1, 2024. Actual COLA increases at July 1, 2022 (3.00%) and July 1, 2023 (3.00%) are reflected in the valuation. For benefits paid under the 2017 House Enrolled Act No. 1617, the annual COLA assumption is 2.65%, which is the same as the salary increase assumption for active members.

Future salary increases, including inflation

2.65%

Inflation

2.00%

CITY OF NOBLESVILLE  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
(Continued)

Note II. Budgets and Budgetary Accounting

Annual budgets are adopted on the cash basis which is not consistent with accounting principles generally accepted in the United States. All annual appropriations lapse at fiscal year-end.

On or before August 31, the City Executive Fiscal Officer submits to the Common Council a proposed operating budget for the year commencing the following January 1. Prior to adoption, the Notice to Taxpayers is submitted through the State's Gateway portal, and a public hearing is conducted by the Common Council to obtain taxpayer comments. Prior to November 1 of each year, the Common Council through the passage of an ordinance approves the budget for the next year. Copies of the budget ordinance, along with all budget forms for funds for which property taxes are levied or highway use taxes are received are submitted via Gateway to the Indiana Department of Local Government Finance. The budget becomes legally enacted after the City receives approval of the Indiana Department of Local Government Finance.

The primary government's management cannot transfer budgeted appropriations between object classifications of a budget without approval of the Common Council. The Indiana Department of Local Government Finance must approve any revisions to the appropriations for any fund or any department of the General Fund. The legal level of budgetary control is by object and department within the fund for the General Fund and by object within the fund for all other budgeted funds.

Formal budgetary integration is required by state statute and is employed as a management control device. An annual budget was legally adopted for the following funds:

Major funds:

General – (includes Rainy Day Fund)

Nonmajor funds:

Special revenue:

Motor Vehicle Highway  
Local Road and Street  
Parking Meter  
Local Law Enforcement Continuing Education  
Deferral  
Court Records Perpetuation  
Park and Recreation  
Park Program Fees

Debt service:

DS/COIT Sinking  
DS/LT Debt 50% Reserve  
DS/LT Debt 15% Reserve  
DS/Capital Improvement Short-Term Debt

Capital projects:

Cumulative Capital Improvement  
Cumulative Capital Development  
Fire Cumulative Control  
Downtown Development  
2016 LOIT Special Distribution for Roads

## Supplemental Schedules

## NONMAJOR GOVERNMENTAL FUNDS

**Special revenue funds** - used to account for specific revenues that are legally restricted to expenditure for particular purposes. The title of the fund is descriptive of the activities involved. The primary government maintains the following nonmajor special revenue funds:

Motor Vehicle Highway -	To account for street construction and the operations of the street and maintenance department. Recent statutory restrictions require that at least 50 percent of the revenue be used on construction, reconstruction, or preservation of the local highway and streets and with the remaining percent to be designated as general unallocated costs or maintenance. Financing is provided by a specific annual property tax levy and by state motor vehicle highway distributions.
Local Road and Street -	To account for operation and maintenance of local and arterial road and street systems. Financing is provided by state gasoline tax distributions.
Local Law Enforcement Continuing Education -	To account for expenditures related to continuing education of law enforcement officers employed by the City. Financing is provided by fees collected for accident report copies, motor checks, and the violation of City ordinances.
Parks and Recreation -	To account for the operations of the City parks and activities sponsored by the parks department. Financing is provided by a specific annual property tax levy, charges for use of park facilities, and donations.
Parks Program Fees -	To account for the operations of the City golf courses and special events. Financing is provided by golf revenue and fees charged for park events.
Parking Meter -	To account for the acquisition and maintenance of parking lots. Financing is provided by fees collected for violation of City ordinance governing public parking and by police department subsidy.
Tree Board Donation -	To account for Federal grant monies used for planting trees in urban areas.
Police Donation -	To account for donations received for police department expenditures.
Fire Donation -	To account for donations received for fire department expenditures.
Park Donation -	To account for donations received for park department expenditures.
Cemetery Donation -	To account for donations received for cemetery department expenditures.
Civil City Donation -	To account for donations received for general government expenditures.
Event Sponsorships -	To account for the summer concert series and other City special events. Financing is provided by donations from the community and revenue related to special events.
Asset Forfeitures -	To account for cash assets that have been seized during illegal activity and used to pay the costs of police training or any settlements.
Court Record Perpetuation -	To account for equipment or supplies used by the City Court. Financing is provided by document storage fees.
ARP Local -	To account for federal grant monies received by the City for reimbursement of COVID-19 public health emergency eligible expenditures defined in the American Rescue Plan Act.

## NONMAJOR GOVERNMENTAL FUNDS

Economic Incentive Revolving -	To account for monies associated with Common Council approved developer agreements. Financing is provided by other funds of the City.
Deferral -	To account for fees collected from individuals involved in the deferral program and used to pay costs of prosecuting City ordinances.
Vehicle Excise -	To account for construction, reconstruction, repair or maintain streets and roads. Financing is provided by motor vehicle license excise tax.
Trail Maintenance -	To account for funds accumulated for trail maintenance.
DOJ-Block Grant -	To account for Federal grant monies received by the City for reimbursement of public safety personnel wage expenditures.
Community Development Block Grant -	To account for Federal grant monies received by the City for reimbursement of recreation expenditures.
186 <sup>th</sup> & Cumberland Grant -	To account for Federal grant monies received by the City for reimbursement of road improvement expenditures.
Community Connect for Disabilities Grant -	To account for State grant monies received by the City for reimbursement of community and workplace inclusion expenditures targeted at citizens with disabilities aged 18 and over.
NEA Our Town Federal Grant -	To account for Federal grant monies received by the City for reimbursement of recreation improvement expenditures.
Community Crossings Matching Grant -	To account for State grant monies received by the City for reimbursement of road improvement expenditures.

## FIDUCIARY FUNDS

<b>Pension trust funds:</b>	To be used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans. The City maintains the following pension trust funds:
Police Pension -	To account for resources related to police pension benefit payments to qualified police officers and/or their beneficiaries.
Fire Pension -	To account for resources related to pension benefit payments to qualified firefighters and/or their beneficiaries.
<b>Custodial funds:</b>	To be used to account for resources that are custodial in nature. They are amounts held by the City on behalf of third parties. The City maintains the following custodial funds:
City Court -	To account for the tracking of fines and fees collected by the City Court to be disbursed to the State of Indiana, Hamilton County and the City of Noblesville.
City Court Services -	To account for fines and fees collected by the City Court to be disbursed to Hamilton County and the City of Westfield.

a The change in the net investment in capital assets balance in governmental and business-type activities is due to change in account principle - GASB 87 Leases. The net impact to net position for governmental and business-type activities is a decrease of \$15,654 and \$1,144, respectively.

b The change in the unrestricted balance in governmental activities is due to a correction in the actuarial assumptions for the OPEB Plan. The net impact to unrestricted net position is a decrease of \$32,951,529.

c The change in the unrestricted balance in business-type activities is due to a correction in the actuarial assumptions for the OPEB Plan. The net impact to unrestricted net position for business-type activities is a decrease of \$7,631,659.

d Capital assets for 2020 were restated in 2021 to include a prior period adjustment of \$4,540,210 due to overstatement of capital assets for improvements other than buildings.

e The change in the restricted/unrestricted balances is due to a reclassification of funds from unrestricted to restricted.

f The change in the restricted/unrestricted balances is due to a reclassification of funds from restricted to unrestricted.

g The change in the unrestricted balance in the governmental funds is primarily due to the implementation of GASB 68 and GASB 71. The net pension asset, net pensions liability and OPEB obligation increased by a net \$14.6 million from the prior year.

h Capital assets were restated in 2015 to include a prior period adjustment of \$2,837,217 due to overstatement of capital assets for improvements.

Notes:

a Increase in Economic Development expenditures related to the City's investment in the BlueSky Technologies Inc. downtown headquarters project.

b In 2015, the General Assembly enacted legislation to consolidate and simplify the various local income tax laws, including COIT, into a single uniform law. Beginning in 2017, County option income tax has been renamed Local income tax (LIT).

c Includes a full year of trash receipts, the final phase of a rate increase and the increase in the collection of tap fees.

d Primarily due to decrease in deferred outflows of resources for public safety pension plans.

e Increase in General Government expenditures is due to a correction in the actuarial assumptions for the OPEB Plan. The net impact to expenditures is a increase of \$3,024,083.

a In 2017, there was a reclassification of the Redevelopment Authority - Debt Service and Noblesville Building Corporation - Debt Service funds from committed to restricted.

b In 2021, the City reclassified unemployment self-insurance fund and accrued sick leave payout fund from nonmajor funds to internal service funds total \$692,034 as of January 1, 2020.

Debt service as a percentage of noncapital expenditures (b)	25.5%	32.4%	26.6%	26.5%	26.6%	27.0%	27.9%	26.6%	28.6%	28.5%

a The State of Indiana made a one-time special income tax distribution out of excess trust funds on hand. The City received approximately \$8.5 million from this special distribution.

b The amount of capital outlay used to calculate noncapital expenditures for this ratio is adjusted to exclude items costing less than the capitalization threshold as shown in the reconciliation between the government-wide statement of activities and the statement of revenues, expenditure and changes in fund balance.

-176-

- (A) Amount represents post-circuit breaker levy.
- (B) Amount represents collections of tax levy due in the reporting year.
- (C) Collections of prior year levies represents any collections for years prior to the reporting year. The data to segregate collections by year billed is unavailable.
- (D) Total collections in the reporting year is the total of taxes due and collected in reporting year and any delinquent taxes collected in reporting year.

Note: Hamilton County Auditor's Office system is not set-up to track collections by year levied. As of the end of 2023, total delinquent property tax due to the City for 2022 and all prior years was approximately \$3,390,235.

\* The City's population can be found in the Demographics and Economics Schedule and the assessed value can be found on the Assessed Value Schedule.

Notes:

- 1) This schedule includes only debt repaid with property taxes. It excludes bonds payable from income taxes and tax increment financing bonds.
- 2) The amount of debt service funds netted against outstanding debt represents cash restricted by ordinance for the repayment of the property tax paid bonds listed above.

**CITY OF NOBLESVILLE**  
Direct and Overlapping Debt  
At December 31, 2023

This part of the City of Noblesville's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Governmental Unit</u>	<u>Outstanding Debt</u>	<u>Percent Applicable to Noblesville</u>	<u>Amount Applicable to Noblesville</u>
<b>Direct Debt:</b>			
City of Noblesville	\$ 226,902,637	100.00%	\$ 226,902,637
<b>Overlapping Debt Paid with Property Taxes:</b>			
Hamilton Southeastern School Corporation	228,040,000	5.97%	13,613,988
Noblesville Schools	206,925,000	100.63%	208,228,628
Noblesville Southeastern Public Library	30,630,000	35.78%	10,959,414
Hamilton County	137,440,000	16.82%	23,117,408
Wayne Township	1,667,250	64.22%	1,070,708
Delaware Township	8,000,000	1.72%	137,600
<b>Other Overlapping Debt:</b>			
Hamilton County Tax Increment Bonds	52,245,000	16.82%	8,787,609
Subtotal Overlapping Debt	<u>\$ 664,947,250</u>		<u>\$ 265,915,355</u>
<b>Total Direct and Overlapping Debt</b>			<b><u><u>\$ 492,817,992</u></u></b>

Note: The percentage of overlapping debt applicable is estimated using assessed values. The percentages are calculated by deterring the portion of another governmental unit's assessed value that is within the City's corporate boundaries and dividing it by each unit total assessed value.

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

Source: Pledged revenue data provided by the County Auditor is based upon actual annual LIT to the City.

- (1) As of December 31, 2023, the City had four outstanding bonds with a LIT pledge that is reported in the debt service above. During 2023, the City only used \$996,500 LIT distributions to pay debt service. The remaining debt service on these bonds were paid from tax increment revenues in the amount of \$1,027,987 and from Sewage Works in the amount of \$200,000.
- (2) Includes a supplemental distribution in the amount of \$2,711,855 and a one-time distribution in the amount of \$148,962.
- (3) Includes a supplemental distribution in the amount of \$2,297,808.
- (4) Includes a supplemental distribution in the amount of \$2,074,182.
- (5) Includes a supplemental distribution in the amount of \$2,849,764.
- (6) Includes a supplemental distribution in the amount of \$3,498,048.
- (7) Includes a supplemental distribution in the amount of \$5,381,559.

Sources:

- 1) Estimated population for 2014, 2015, 2016, 2017, & 2018 are from the Noblesville Planning Department. Population for 2019, 2021, 2022 and 2023 are U.S. Census Bureau estimates. Population for 2020 is from the Decennial Census.
- 2) State of Indiana, Department of Education for students attending Noblesville School Corporation schools.
- 3) State of Indiana, Department of Workforce Development (IDWD).
- 4) Personal income and per capita income statistics are not maintained by the State for municipalities. Personal income data is available through the Indiana Department of Workforce Development, however, the smallest unit of government for which this can be obtained is the county level. Hamilton County personal income and per capita income figures are for the prior calendar year. In order to provide personal income data for the required ratios outlined in GASB 44, we have used Hamilton County data, as displayed above, from the IDWD. We have assumed that the per capital personal income for the County is reasonably representative of Noblesville per capita personal income. Personal income for the City shown above is calculated using City population estimates times the County per capita personal income.

(2) In 2017, the police department upgraded its records management system; the decrease is primarily due to the fundamental differences in the software capabilities, as well as the unfamiliarity of the new system.

**City of Noblesville, Indiana**  
**Notes to Schedule of Expenditures of Federal Awards**  
**Year Ended December 31, 2023**

---

**Note 1. Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the City of Noblesville, Indiana (City) under programs of the federal government for the year ended December 31, 2023. The accompanying notes are an integral part of this Schedule. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

**Note 2. Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-102, "Grant Awards and Cooperative Agreements with State and Local Governments", or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

**Note 3. Indirect Cost Rate**

The City has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

**Note 4. Federal Loan Programs**

The City of Noblesville had no federal loans that they were administering as of December 31, 2023.

## **Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

### **Independent Auditor's Report**

The Mayor and Common Council  
City of Noblesville, Indiana  
Noblesville, Indiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Noblesville, Indiana (City), as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June 26, 2024.

### ***Report on Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### ***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Purpose of This Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **Report on Compliance for the Major Federal Program and Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

### **Independent Auditor's Report**

The Mayor and Common Council  
City of Noblesville, Indiana  
Noblesville, Indiana

#### **Report on Compliance for the Major Federal Program**

##### ***Opinion on the Major Federal Program***

We have audited the City of Noblesville, Indiana (City)'s compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended December 31, 2023. The City's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2023.

##### ***Basis for Opinion on the Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the "Auditor's Responsibilities for the Audit of Compliance" section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the "Auditor's Responsibilities for the Audit of Compliance" section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit, we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

### **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated June 26, 2024, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.
