REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

TO: THE OFFICIALS OF IVY TECH COMMUNITY COLLEGE, INDIANAPOLIS, INDIANA

We have audited the financial statements of Ivy Tech Community College (College), as of and for the year ended June 30, 2008, and have issued our report thereon dated October 24, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the College's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be significant deficiencies or material weaknesses, as defined above.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS
(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the College's Board of Trustees, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. In accordance with Indiana Code 5-11-5-1, this report is a part of the public records of the State Board of Accounts and of the office examined.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

TO: THE OFFICIALS OF THE IVY TECH COMMUNITY COLLEGE OF INDIANA, INDIANAPOLIS, INDIANA

Compliance

We have audited the compliance of Ivy Tech Community College of Indiana (College) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2008. The College's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the School Corporation's management. Our responsibility is to express an opinion on the School Corporation's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the College's compliance with those requirements.

In our opinion, the College complied in all material respects with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying Schedule of Findings and Questioned Costs as items 2008-1 through 2008-4.

Internal Control Over Compliance

The management of the College is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the College's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133
(Continued)

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the entity's internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A control deficiency in a College's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiencies in internal control over compliance described in items 2008-1 through 2008-4 of the accompanying Schedule of Findings and Questioned Costs to be significant deficiencies.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. Of the significant deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs, we consider items 2008-1 to 2008-4 to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of Tech Community College as of and for the year ended June 30, 2008, and have issued our report thereon dated October 24, 2008. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The College's response to the findings identified in our audit is described in the accompanying Official Response and Corrective Action Plan. We did not audit the College's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the College's management, State Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. In accordance with Indiana Code 5-11-5-1, this report is a part of the public records of the State Board of Accounts and of the office examined.

Total federal awards expended			$ 90,538,536

The accompanying notes are an integral part of the Schedule of Expenditures of Federal Awards.

IVY TECH COMMUNITY COLLEGE OF INDIANA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Ivy Tech Community College of Indiana and is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Accordingly, the amount of federal awards expended is based on when the activity related to the award occurs. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The purpose of the schedule is to present a summary of those activities of the College for the year ended June 30, 2008, which have been financed by the U.S. Government (federal awards). For purposes of the schedule, federal awards include all federal assistance and procurement relationships entered into directly between the College and the federal government, and sub-awards from agencies of the State of Indiana, and other entities, made under federal sponsored agreements. Because the schedule presents only a selective portion of the activities of the College, it is not intended to and does not present the financial position of the College. For reporting purposes, federal awards have been classified into two types:

1. Student Financial Aid
2. Other Federal Programs

The accounting principles followed by the College in each of these areas used in preparing the accompanying schedule are as follows:

Student Financial Aid – Deductions (expenditures) are recognized on the accrual basis for awards made to students and allowable administrative expenses of running such programs.

Other Federal Programs – Deductions (expenditures) for direct costs are recognized as incurred using the accrual method of accounting and cost accounting principles contained in the Office of Management and Budget (OMB) Circular A-21, Cost Principles for Educational Institutions. Under those cost principles, certain types of expenditures are not allowable or are limited as to reimbursement. Moreover, expenditures include a portion of costs associated with general college activities (indirect costs), which are allocated to federal awards under negotiated formulas commonly referred to as indirect cost rates.

Indirect costs and related revenues applicable to these cost recoveries are classified as unrestricted expenditures and revenues in the General Purpose Financial Statements. In the accompanying schedule, restricted grants and contracts and other agreements are recognized when funds are expended.

IVY TECH COMMUNITY COLLEGE OF INDIANA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
(Continued)

Note 2. Subrecipients

Of the federal expenditures presented in the schedule, the primary government provided federal awards to subrecipients as follows for the year ended June 30, 2008:

Program Title	Federal CFDA Number	Amount Provided to Subrecipents
Job Training Grants	17.268	$ 67,928
Education and Human Resources	47.076	26,619
Totals		$ 94,547

Note 3. Federal Family Education Loans

The number of guaranteed loans and total amounts of each program for the year ended June 30, 2008, were as follows:

Program Title	Number Students	Loans Amounts
Stafford Student Loan Program (Subsidized)	25,741	$ 74,002,851
Stafford Student Loan Program (Unsubsidized)	18,677	54,508,305
Parents Loans for Undergraduate Students (PLUS)	328	1,594,356
Totals	44,746	$ 130,105,512

This information is not included in the schedule.

Note 4. Other Considerations

There were no federal awards of noncash assistance, no federal loans outstanding, and no amounts of insurance in effect for federal programs for the year ending June 30, 2008.

IVY TECH COMMUNITY COLLEGE OF INDIANA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Section I – Summary of Auditor's Results

Financial Statements:

Type of auditor's report issued: Unqualified

Internal control over financial reporting:	
Material weaknesses identified?	no
Significant deficiency identified that are not considered to be material weaknesses?	none reported
Noncompliance material to financial statements noted?	no

Federal Awards:

Internal control over major programs:	
Material weaknesses identified?	yes
Significant deficiency identified that are not considered to be material weaknesses?	none reported
Type of auditor's report issued on compliance for major programs:	Unqualified
Any audit findings disclosed that are required to be reported in accordance with Section 510(a) of Circular A-133?	yes

Identification of Major Programs:

CFDA Number	Name of Federal Program or Cluster
SFA Cluster	Student Financial Aid Cluster
84.048	Career and Technical Education – Basic Grants to States

Dollar threshold used to distinguish between Type A and Type B programs:	$2,716,156
Auditee qualified as low-risk auditee?	no

Section II – Financial Statement Findings

No matters are reportable.

Section III – Federal Award Findings and Questioned Costs

2008-1 RETURN OF TITLE IV FUNDS NOT COMPLETED

Federal Agency: U.S. Department of Education
Federal Program: Student Financial Aid Cluster
CFDA Number: Various
Federal Award Number: N/A
Pass-through Entity: N/A

When sampling the students that withdrew from Ivy Tech classes, the sample revealed that one region (Region 8 – Indianapolis) failed to determine the amount of title IV grant or loans assistance that the student earned as of the student's withdrawal date for any student that withdrew after completion of 60 percent of the period of enrollment. This was due to the Region not performing any assistance earned calculations for these students.

34 CFR 668.22 (a)(1) states: "When a recipient of title IV grant or loan assistance withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance, the institution must determine the amount of title IV grant or loans assistance that the student earned as of the student's withdrawal date in accordance with paragraph (e) of this section."

Failure to determine the amount of title IV grant or loans assistance that a student earned could lead to an ineligible student enrolling and receiving additional aid.

Regional and administrative personnel need to ensure that a Return of Funds Calculation is completed for all students receiving title IV monies that have officially or unofficially withdrawn.

2008-2 TIMELINESS OF RETURN OF TITLE IV FUNDS

Federal Agency: U.S. Department of Education
Federal Program: Student Financial Aid Cluster
CFDA Number: 84.375
Pass-through Entity: N/A
Federal Award Number: N/A

When sampling the students that withdrew from Ivy Tech classes, the sample revealed that five of the fourteen regions (Region 1 – Gary, 10 of 26 or 38.46%; Region 6 – Muncie, 3 of 13 or 23.07%; Region 8 – Indianapolis, 7 of 26 or 26.92%; Region 10 – Columbus, 7 of 13 or 53.85%; and Region 11 – Madison, 4 of 12 or 33.33%) failed to timely remit the amount of title IV funds for which the institution was responsible. Failure to remit the monies timely was due to an untimely review of the students' files to determine overpayments.

34 CFR 668.22 (j)(1) states in part: "An institution must return the amount of title IV funds for which it is responsible under paragraph (g) of this section as soon as possible but no later than 45 days after the date of the institution's determination that the student withdrew as defined in paragraph (1)(3) of this section."

Not calculating the title IV, HEA grant overpayment timely can lead to an ineligible student receiving aid.

Controls should be put into place to ensure a timely calculation of overpayments and prevent further occurrences in the delay of returning title IV funds.

2008-3 MISSING OR INCORRECT SUPPORT FOR RETURN OF TITLE IV ASSISTANCE

Federal Agency: U.S. Department of Education
Federal Program: Student Financial Aid Cluster
CFDA Number: Various
Federal Award Number: N/A
Pass-through Entity: N/A

When sampling the students that withdrew from Ivy Tech classes, the sample revealed that one region (Region 8 – Indianapolis) failed to use correct institutional charges or had a lack of documentation to support the last date of attendance for 22 of 26 or 84.62% of the students tested. This error is due to not using proper institutional charges and or not being able to support the last day of attendance utilized.

34 CFR 668.22 (g)(1) state: "The institution must return, in the order specified in paragraph (i) of this section, the lesser of – (i) The total amount of unearned title IV assistance to be returned as calculated under paragraph (e)(4) of this section; or (ii) An amount equal to the total institutional charges incurred by the student for the payment period or period of enrollment multiplied by the percentage of the title IV grant or loan assistance that has not been earned by the student, as described in paragraph (e)(3) of this section. (2) For purposes of this section, 'institutional charges' are tuition, fees, room and board (if the student contracts with the institution for the room and board) and other educationally related expenses assessed by the institution."

34 CFR 668.22 (c)(3)(i) states: "Notwithstanding paragraphs (c)(1) and (2) of this section, an institution that is not required to take attendance may use as the student's withdrawal date a student's last date of attendance at an academically related activity provided that the institution documents that the activity is academically related and documents the student's attendance at the activity. (ii) An 'academically-related activity' includes, but is not limited to, an exam, a tutorial, computer-assisted instruction, academic counseling, academic advisement, turning in a class assignment or attending a study group that is assigned by the institution. (4) An institution must document a student's withdrawal date determined in accordance with paragraphs (c)(1), (2), and (3) of this section and maintain the documentation as of the date of the institution's determination that the student withdrew as defined in paragraph (1)(3) of this section."

Incorrect information utilized to calculate the amount of unearned title IV assistance to be returned could result in errors causing erroneous amounts to be returned to the Department of Education.

Region 8 - Indianapolis needs to insure that future calculations of the amount of unearned title IV assistance use the proper institutional charges and last day of attendance.

2008-4 STUDENT FINANCIAL AID - OVERAWARDS

Federal Agency: U.S. Department of Education
Federal Program: Student Financial Aid Cluster
CFDA Number: Various
Federal Award Number: N/A
Pass-through Entity: N/A

When sampling the students that received financial aid, the sample revealed that one region (Region 5 – Kokomo) overawarded financial aid to 6 of 18 or 33.33% of the students tested. This error is due to title IV monies, specifically Stafford loans, being awarded in excess of the student's financial need.

34 CFR 682.604(h) states in part: "Except as provided under paragraph (i) of this section if, before the delivery of any Stafford, SLS or PLUS loan disbursement, the school learns that the borrower will receive or has received financial aid for the period of enrollment for which the loan was made that exceeds the amount of assistance for which the student is eligible, the school shall reduce or eliminate the overaward. . . ."

Cost of attendance for a student is an estimate of that student's educational expenses and the basis for awarding aid. Exceeding a student's cost of attendance causes a student to receive aid over their allowable costs. Aid awarded in excess of a student's educational needs, or an overaward, may need to be repaid.

The College needs to properly calculate the amount of assistance for which the student is eligible and reduce or eliminate any overaward.

IVY TECH COMMUNITY COLLEGE

Ivy Tech Community College
Summary Schedule of Prior Audit Findings

FINDING NO. 2007-1 Restatement and Reclassification of Financial Statements
Original SBA Audit Report Number: B31717
Audit Contact Person: Ben Burton
Title of Contact Person: Executive Director of Internal Audit
Phone Number: (317) 921-4712

Status of Finding:
The College received a Final Determination Letter (FDL) dated September 24, 2008 from the Department of Education (ED) for the year ending June 30, 2007, Audit Control Number (ACN): 05-2007-80206. Although this specific finding was not directly addressed, no corrective action was required by the College. Thus consistent with OMB Circular A-133 section .315 (b), this finding is considered closed.

FINDING NO. 2007-2 Recording of Capital Leases
Original SBA Audit Report Number: B31717
Audit Contact Person: Ben Burton
Title of Contact Person: Executive Director of Internal Audit
Phone Number: (317) 921-4712

Status of Finding:
The College received a Final Determination Letter (FDL) dated September 24, 2008 from the Department of Education (ED) for the year ending June 30, 2007, Audit Control Number (ACN): 05-2007-80206. Although this specific finding was not directly addressed, no corrective action was required by the College. Thus consistent with OMB Circular A-133 section .315 (b), this finding is considered closed.

FINDING NO. 2007-3 Academic Competitiveness Grants (ACG)
Original SBA Audit Report Number: B31717
Audit Contact Person: Ben Burton
Title of Contact Person: Executive Director of Internal Audit
Phone Number: (317) 921-4712

Status of Finding:
The College received a Final Determination Letter (FDL) dated September 24, 2008 from the Department of Education (ED) for the year ending June 30, 2007, Audit Control Number (ACN):05-2007-80206. Corrective action has been taken by the College; thus consistent with OMB Circular A-133 section .315 (b), this finding is considered closed.

50 WEST FALL CREEK PARKWAY NORTH DRIVE
INDIANAPOLIS, INDIANA 46208-5752
P. 317-921-4882

FINDING NO. 2007-4 Return of Funds - Improper Break Days/Total Days in Period

Original SBA Audit Report Number: B31717
Audit Contact Person: Ben Burton
Title of Contact Person: Executive Director of Internal Audit
Phone Number: (317) 921-4712

Status of Finding:
The College received a Final Determination Letter (FDL) dated September 24, 2008 from the Department of Education (ED) for the year ending June 30, 2007, Audit Control Number (ACN): 05-2007-80206. Corrective action has been taken by the College, thus consistent with OMB Circular A-133 section .315 (b), this finding is considered closed.

FINDING NO. 2007-5 Return of Funds Calculations - Calculation Errors

Original SBA Audit Report Number: B31717
Audit Contact Person: Ben Burton
Title of Contact Person: Executive Director of Internal Audit
Phone Number: (317) 921-4712

Status of Finding:
The College received a Final Determination Letter (FDL) dated September 24, 2008 from the Department for the year ending June 30, 2007, Audit Control Number (ACN): 05-2007-80206. On February 17, 2009 the College received additional direction from the Department regarding this issue. The College has complied with the directives from both documents.

As required by the Department, the Indiana State Board of Accounts has performed the reviews necessary to ensure the College's compliance with the directives outlined in each of the above-noted Department letters.

Consistent with OMB Circular A-133 section .315 (b), this finding is considered closed.

Corrective Action Plan

Finding: 2008-1 RETURN OF TITLE IV FUNDS NOT COMPLETED

The College is concerned that Return of Title IV calculations were not performed in accordance with CFR 668.22. The College has engaged a consultant to assist the region in reviewing the Return of Title IV (R2T4) Calculations for the 2007-2008 and 2008-2009 award years.

It is important to note that performing the R2T4 calculation for individuals who attended beyond the 60% period only confirms/denies the students' eligibility for a post-withdrawal disbursement and does not affect funds owed back to the Department by the College or the student. A review of the post 60% refund calculations performed at other regions confirms that a very small percentage of Ivy Tech students receive post-withdrawal disbursements.

In order to more directly address the year in question, the College has instructed the region to review 100% of the Return of Title IV calculations for the 2007-2008 award year. Upon completion of their review, the region has been instructed to contact Central Office Financial Aid Management for direction regarding the correction of identified issues.

We want to emphasize that this finding was isolated to the Indianapolis region only and is not reflective of operations at other College locations.

Finding: 2008-2 TIMELINESS OF RETURN OF TITLE IV FUNDS

The College is concerned that Return of Title IV (R2T4) Calculations were not performed in a timely manner as required by CFR 668.22. We would, however like to point out that a detailed review of the calculations in question revealed that only fourteen of the calculations referenced in the audit report were completed more than fifteen days after the forty-five day requirement.

Each region affected by this finding was instructed to provide a regional corrective action plan to delineate what internal controls were in place to ensure timely calculations and returns occur no later than forty-five days. The plans are inclusive of creating adequate checks and balances with a "second set of eyes" reviewing the calculations, hiring additional staff in the Financial Aid office, reassigning calculations to the Financial Aid Director, and enhancing institutional communication measures among the various offices (i.e. Registrar, Bursar, Academic Affairs) in reporting enrollment changes.

Finding: 2008-3 MISSING OR INCORRECT SUPPORT FOR RETURN OF TITLE IV ASSISTANCE

The College is concerned that Return of Title IV (R2T4) Calculations were not performed in accordance with CFR 668.22. The College has instructed the region to review 100% of the Return of Title IV calculations for the 2007-2008 award year. Upon completion of their review, the region has been instructed to contact Central Office Financial Aid Management for direction regarding the correction of identified issues.

The region has hired a consultant to train five staff members in the R2T4 procedure. Staff members were provided with a copy of the Ivy Tech Financial Aid Policy and Procedure Manual with reference to the Return of Title IV section, the Federal Student Aid Handbook relating to the section on the R2T4 process, and Job Aid instructions from the Student Information System. Training was conducted relative to the use of Student Information System financial aid screens for collecting information, use of the system R2T4 reports, and use of FAA Access for calculation purposes.

The College will continue to strengthen existing policies and procedures and interoffice communication and collaboration among offices (i.e. Registrar, instructors, Bursar) to ensure proper institutional charges and the last date of attendance are included in future calculations of the amount of unearned Title IV. The region was instructed to participate in the Department of Education's training and utilize resources to ensure compliance.

It is important to note that this finding was isolated to the Indianapolis region only and is not reflective of operations at other College locations.

Finding: 2008-4 STUDENT FINANCIAL AID - OVERAWARDS

The College makes every effort to ensure that awards are accurate when processing loans and awarding aid. The College's new student information system, which was implemented fall 2008, has a greater capacity to identify over awards than the legacy system. Within this system, the financial aid disbursement process has internal edit checks that are performed for all funds. The disbursement process automatically validates student awards for eligibility factors, such as enrollment. Reports are produced to identify students whose awards could not be paid, along with the applicable reason for nonpayment.

The region has hired additional staff and provided continued training for financial aid staff responsible for calculating loan eligibility. The region has been instructed to properly recalculate the amount of assistance for which the students are eligible and make the necessary corrections.

It is important to note that this finding was isolated to the Kokomo region only and is not reflective of operations at other College locations.

IVY TECH COMMUNITY COLLEGE OF INDIANA
EXIT CONFERENCE

The contents of this report were discussed on March 5, 2009, with Donald S. Doucette, Senior Vice President & Provost; Robert C. Holmes, Vice President/Treasurer; Mark Husk, Assistant Treasurer; Ben Burton, Executive Director of Internal Audit; Dr. Benjamin Young, Vice President for Student Affairs and Enrollment Management; and Dr. Patricia Wilson, Executive Director of Financial Aid Management. . Furthermore the contents of this report were discussed on March 11, 2009 with David Findley, Chairman of the Audit Committee; Ben Burton, Executive Director of Financial Aid; and Robert C. Holmes, Vice President/Treasurer.

IVY TECH COMMUNITY COLLEGE OF INDIANA

2007-08 FINANCIAL REPORT

Ivy Tech Community College of Indiana

2007-08 FINANCIAL REPORT

Supplementary Schedules

Dear Friends of Ivy Tech:

On behalf of the Trustees of Ivy Tech Community College, I am pleased to present the College's 2007-2008 Financial Report.

As evidenced by this document, 2007-08 was another positive year for the College. The financial statements highlight the College's strong fiscal health. Chancellors, administrators and finance directors across the system have been conscientious in controlling expenditures and stretching available resources. The College continues to regard the funding it receives as a public trust.

I'm especially delighted to inform you that the College's financial status not only is sound, but was recently upgraded by Standard & Poor's from A+ to AA-. In turn, Fitch Ratings recently re-affirmed the AA- rating previously assigned to the College.

This vote of confidence from objective evaluators allows us to proceed with measured confidence in plans to accommodate the galloping demand for higher education among Indiana residents. This year alone, an estimated 119,000 Hoosiers chose Ivy Tech as their gateway to higher education or path to more immediate career advancement.

Enrollment this fall has continued to increase, fueled by Ivy Tech's affordability, transferable credits, supportive learning environment, and nimble response to workforce needs.

Although some observers have pegged this growth to the nation's sobering economic situation, I think it more accurately reflects a pent-up demand for the convenience and access a community college provides. The people of Indiana have waited a long time for this enormous opportunity, and they are taking advantage of it.

Members of the Ivy Tech family – the students, faculty, staff, state and regional trustees, and Foundation board members – are excited by the magnitude of growth and the pace of change at the College.

We believe that, with your input and your support, the best is yet to come.

Sincerely,

Tom Snyder

Tom Snyder

October 21, 2008

To the President and State Board of Trustees of Ivy Tech Community College

On behalf of all those individuals responsible for the financial stewardship of College resources, I am pleased to present the Ivy Tech Community College Annual Financial Report for the year ended June 30, 2008.

The report has been prepared in conformance with authoritative reporting standards and guidelines for colleges and universities. This report utilizes Governmental Accounting Standards Board Statement No. 35, Basic Financial Statement and Management's Discussion and Analysis for Public Colleges and Universities. An analysis is included which compares 2007-08 figures with the prior year.

The report contains data, which is consolidated for all College locations as well as statements and schedules listed in the table of contents.

The Indiana State Board of Accounts has audited the financial statements. Their audit opinion on the financial statements is a part of this report.

The final schedule provides information on student enrollment. The data is for five years and provides users of this report statistics relative to students enrolled in education provided by this College.

Respectfully submitted,

Robert C. Holmes
Vice President for Finance/Treasurer

INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF IVY TECH COMMUNITY COLLEGE, INDIANAPOLIS, INDIANA

We have audited the accompanying basic financial statements of Ivy Tech Community College, a component unit of the State of Indiana, as of and for the years ended June 30, 2008 and 2007. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the component unit of the College as discussed in Note 1, which represents 100% of the assets and revenues of the discretely presented component unit. The financial statements of this component unit were audited by another auditor whose report thereon has been furnished to us and our opinion, insofar as it relates to this unit, is based upon the report of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issues by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit and the report of the other auditor, the financial statements referred to above present fairly, in all material respects, the financial position of Ivy Tech Community College, as of June 30, 2008 and 2007, and the changes in its financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issues our report dated October 24, 2008, on our consideration of Ivy Tech Community College's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. The report is an integral part of an audit performed in accordance with Government Auditing Standards, and should be read in conjunction with this report in considering the results of our audit. This report will be issued in the University's Single Audit report prepared in accordance with OMB Circular A-133.

The Management's Discussion and Analysis (MD&A) is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurements and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Management's Discussion and Analysis

This section of Ivy Tech Community College's annual financial report presents a discussion and analysis of the financial performance of the College for the fiscal year ended June 30, 2008, along with comparative data for the year ending June 30, 2007. The management's discussion and analysis provides summary level financial information; therefore, it should be read in conjunction with the accompanying financial statements and note disclosures. The management's discussion and analysis is designed to focus on current activities, significant changes, and currently known facts. The financial statements, notes, and this discussion are the responsibility of management.

Using this Annual Report

This annual report consists of a series of financial statements, prepared in accordance with the Governmental Accounting Standards Board Statement No. 35, Basic Financial Statements — and Management's Discussion and Analysis — for Public Colleges and Universities, an Amendment of GASB Statement No. 34. The financial statements focus on the financial condition of the College, the results of operations, and cash flows of the College as a whole.

One of the most important questions asked about the College's finances is whether the College is better or worse as a result of this year's activity. The keys to understanding that question are the Statement of Net Assets, Statement of Revenues, Expenses, and Changes in Net Assets, and the Statement of Cash Flows. These statements present financial information in a form similar to that used by corporations. The College's net assets are one indicator of the College's financial strength. Over time, increases or decreases in net assets is one indicator of the improvement or erosion of the College's financial health when considered with non-financial facts such as enrollment levels and the condition of facilities.

The Statement of Net Assets includes all assets and liabilities. It is prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service to the College, regardless of when cash is exchanged.

The Statement of Revenues, Expenses, and Changes in Net Assets presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. The authoritative financial reporting model classifies State appropriations and gifts as nonoperating revenues; therefore such a classification results in an operating deficit being shown in this statement. The utilization of long-lived assets, referred to as capital assets, is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life

57% GROWTH OF NET ASSETS SINCE 2002

AA- BOND RATING

119,000 STUDENTS ENROLLED

17.10 M GROWTH OF STATE APPROPRIATIONS

Financial Highlights

Ivy Tech Community College's financial position remains strong as net assets grew by $10.6 million. This continues a trend that began several years ago. Since 2002, net assets have grown from $171.4 million to $269.3 million, an increase of 57%.

Driven by increasing enrollments, total operating revenues for 2007-08 grew by $19.9 million to $178.4 million as compared to $158.5 million in the prior fiscal year. While final figures are not yet in, both total credit enrollment and total full time equivalent (FTE) credit enrollment are expected to set new records. Total credit enrollment is estimated to exceed 119,000 students, while FTE enrollment is projected to top 49,000. This led to a $19.0 million increase in gross student fee revenue despite only increasing student fee rates by 3.9%. Growth in auxiliary enterprise revenues also contributed to the growth in operating revenues. It should be noted that in June 2008, Ivy Tech entered into a formal partnership with Follett Higher Education Group, Inc. (Follett) whereby Follett will operate the College's bookstores. The College will receive a sliding percentage of gross sales, thus freeing up resources that were previously dedicated to the operation of the bookstores.

Net non-operating revenues grew from $238.9 million in 2006-07 to $268.3 million in 2007-08, an increase of $29.4 million. State appropriations and restricted grants are the primary components of this category. In 2007-08 state appropriations grew by $17.1 million to a total of $175.4 million. The College is grateful to the State of Indiana for placing a high priority on funding the enrollment change formula and for continuing to fund debt service costs for new academic facilities. This is critical for a rapidly growing institution. It is also important to note that the State continued to repay the funds that it had withheld from the College and other public higher education institutions beginning in the 2001-03 biennuim. In 2007-08 Ivy Tech received $3.1 million of the previous deferral. This came on top of the $4.6 million that was repaid in 2006-07. The final $3.1 million is scheduled to be repaid in 2008-09. Additionally governmental grants and contracts increased by $12.5 million from the previous year.

Operating expenses were $437.1 million for fiscal year 2008, an increase of $51.9 million over 2006-07. This increase was primarily related to serving the College's growing enrollment and a large increase in scholarships and fellowships of 6.2 million. In addition it includes costs related to the continuing implementation of Banner, the College's new enterprise resource planning software system. During 2007-08, the College went live with the finance and the student system modules. The human resources system is scheduled to go live in 2008-09, the advancement module is planned to go live in 2008-09 and the foundation finance module is scheduled for 2009-10.

In the capital area, construction continued on new academic buildings in Madison, Marion, and Valparaiso. The College expects to begin offering classes in the new facilities in fall semester 2008. During 2007-08, the State Budget Committee and Governor approved the release of bonding authority previously approved by the General Assembly for new academic buildings in Fort Wayne, Logansport, and Greencastle. The completion of these projects will reduce overcrowding and significantly improve the College's presence in these three communities. The Series L Bonds that will finance the construction of these projects were sold in early 2008-09.

In conjunction with this bond issue, in early 2008-09, Ivy Tech received its highest long-term bond rating from Standard and Poor's, advancing from an "A+" with a "positive" outlook to a "AA-" with a "stable" outlook. At the same time, Fitch Ratings reaffirmed its "AA-" rating and continued with a "stable" outlook.

CONDENSED STATEMENT OF NET ASSETS

June 30	2008	2007 Restated	Percent Change
Current assets	$110,973,047	$159,579,911	(30.5)
Noncurrent assets	430,343,597	360,734,313	19.3
Total assets	541,316,644	520,314,224	4.0
Current liabilities	68,734,368	43,997,112	56.2
Noncurrent liabilities	203,288,606	217,646,552	(6.6)
Total liabilities	272,022,974	261,643,664	4.0

Invested in capital assets, net of related debt	139,112,234	96,637,375	44.0
Restricted	23,066,044	55,895,048	(58.7)
Unrestricted	107,115,393	106,138,137	0.9
Total net assets	**$269,293,670**	**$258,670,560**	**4.1**

Assets

Current Assets

Cash and cash equivalents are comprised of cash (in banks and on hand) and investments with maturity dates of 0-90 days as of June 30, 2008. Short-term investments include those with maturity dates of 91-365 days. The College's policy is to invest available cash balances, and in 2001-02 this policy was expanded to allow longer-term investments. Cash and cash equivalents decreased 58% from 2006-07 and short-term investments decreased 33%. These categories were reduced because the college increased long term investments by 438% this year, as compared to the previous year.

Accounts receivable are related to several transactions including, but not limited to, state appropriations, student and contract tuition and fees, and auxiliary sales. Accounting standards typically require the establishment of an allowance for bad debt in the Statement of Net Assets to reflect receivables that are likely to be uncollectible. Net accounts receivable increased by 26.4%, mainly due to the leasing of the rights for the operations of the College's bookstores to Follett Higher Education Group, Inc. (Follett), which was effective in June 2008 Accounts receivable increased significantly due to the College returning book inventory to publishers.

Inventories decreased by 100% due to the bookstore lease agreement including a clause for the purchase of the bookstore's inventory for resale by Follett.

The deposits with trustee are $6.6 million, and it is anticipated that it will all be used within 2008-09. The deposits with trustee are attributable to the Series K construction projects for Valparaiso Phase II, Marion Phase I, and Madison Phase I in the amount of $6.1 million. The remaining balance is attributed to Series I construction for Valparaiso Phase I, Evansville Phase II, Portage Architecture & Engineering, and Series J Richmond Phase II.

Prepaid expenses are payments made in the current or a previous fiscal year, and for which we have not realized the full value of through fiscal year 2007-08. The prepaid balance at June 30, 2008 includes, among other items, payments of debt principal and interest totaling $14.0 million. Overall current assets decreased by $48.6 million which was due mainly to a decrease in cash and cash equivalents, short term investments, inventories and deposit with trustee. The decrease was offset by an increase in net accounts receivable in the amount of $11.2 million.

Noncurrent Assets

Long-term investments increased by $48.0 million from the previous year. This was primarily done to take advantage of higher long-term interest rates. Deposit with trustee decreased 100% due to the anticipation of the entire amount to be spent in fiscal year 2008-09. Noncurrent accounts receivable represents future income related to the lease of the rights to operate the College's bookstore. Capital assets include land, buildings, infrastructure, equipment, deferred losses on debt refunding, and construction work in progress. Noncurrent assets increased by $69.6 million or a 19.3% increase from the previous year.

OUTSTANDING DEBT AT YEAR END

	6/30/2008	6/30/2007	Increase (Decrease)	Percent Change
Leases, notes, and bonds payable:				
Revenue bonds payable:				
Series E student fee bonds	$6,540,000	$7,575,000	$(1,035,000)	-13.7%
Series G student fee bonds	30,050,000	33,505,000	(3,455,000)	-10.3%
Series H student fee bonds	40,305,000	42,615,000	(2,310,000)	-5.4%
Series I student fee bonds	36,820,000	38,430,000	(1,610,000)	-4.2%
Series J student fee bonds	9,245,000	9,245,000	-	0.0%
Series K student fee bonds	58,760,000	60,670,000	(1,910,000)	-3.1%
Total bonds payable	181,720,000	192,040,000	(10,320,000)	-5.4%
Premium on bonds - H,I,J & K	5,912,596	6,339,046	(426,450)	-6.7%
Lease Obligations	13,453,020	11,750,448	1,702,572	14.5%
Notes Payable	17,135,000	18,215,000	(1,080,000)	-5.9%
Total leases, notes, and bonds payable	**$218,220,616**	**$228,344,494**	**$(10,123,878)**	**-4.4%**

Liabilities

Current Liabilities

Accounts payable and accrued liabilities represent amounts due at June 30, 2008 for goods and services received prior to the end of the fiscal year. This category increased 56.8% compared to the previous year. Accounts payable and accrued liabilities increased by $4.7 million due mainly to a general increase in accounts payable throughout the College. Compensated absences and Other Post Employment Benefits (OPEB) ($7.6 million) are the amounts due to employees for earned but unpaid vacation/special holidays and accrued sick leave payout and the estimated current portion of the OPEB. Deposits held in custody for others are monies held by the College for payroll withholdings ($4.2 million), and student clubs ($1.4 million). Deferred revenue represents monies received in the current year for services, tuition and fees, future revenue related to the lease of the College bookstores, or goods to be provided by the College in a future period. Deferred Revenue went up by $9.5 million or 79.4%. A major reason for this increase was due to future revenues related to the leasing of the rights for the operation of the College's bookstores to Follett; the College will receive $6.0 million over the term of the agreement. Additionally the College received restricted grant monies in advance of expenditures of $2.4 million. The Current portion of debt obligation is the portion of the College's long-term debt which is payable within the next fiscal year. This category increased by $8.9 million due to a bank loan that will be paid off at the November 3, 2008 maturity, the loan will be refinanced with proceeds from the series L Bond Issue. Overall, current liabilities increased by 56.2%, this was primarily due to the large increases in the current portion of debt obligation and deferred revenue.

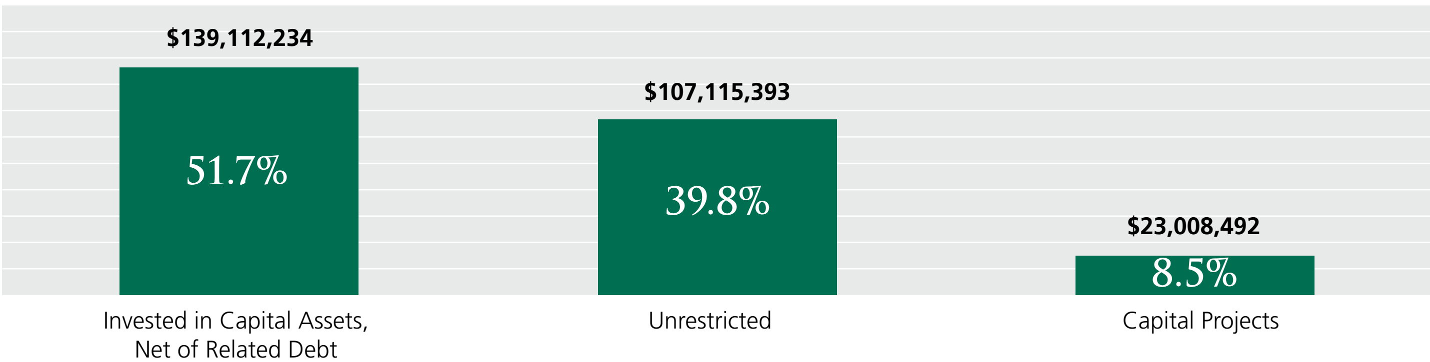
Noncurrent Liabilities

Noncurrent liabilities will be paid one year or later from the date of the Statement of Net Assets. The College's noncurrent liabilities include compensated absences, notes and bonds payable, and other long-term obligations. Noncurrent liabilities decreased by $14.4 million mainly due to a decrease of ($17.6) million) in long term debt and other obligations and an increase in Other Post Employments Benefits ($2.6 million). The reduction in long term debt and other obligations was made up of the transfer of the bank loan ($9.9 million) and the current portion of the bonds to current liabilities. The Governmental Accounting Standards Board (GASB) Statement 45 Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions became effective for the College this year. The current liability is $.6 million and the long-term portion is $2.6 million for a total liability of $3.2 million.

Net Assets

Net assets represent the difference between the College's assets and liabilities. The classification "invested in capital assets, net of related debt" (which includes building and equipment less depreciation, land owned by the College, and construction work in progress) increased by 44.0% over the prior year. Consequently, the restricted "capital projects" classification decreased by 58.8% from the prior year this was due to the capitalization of three building projects in the current year. Unrestricted net assets increased .9%. Overall net assets increased in fiscal 2007-08 by $10.6 million.

2008 ANALYSIS OF NET ASSETS



Internally Designated Reserves of Unrestricted Funds

The College ended the fiscal year with an unrestricted net asset balance of $107.1 million, an increase of $977 thousand, or .9% as compared to the prior fiscal year. The following provides additional information concerning the allocation of the unrestricted net assets.

Description	FY 2008 Amount	FY 2007Amount
Auxiliary Enterprise Bookstores	$23,083,392	$22,955,416
Economic Development Revolving Loan	4,918,333	4,557,666
Student Accounts Receivable	4,903,696	4,417,393
Insurance Stabilization	3,120,655	2,949,480
Debt Service Cash Flow Reserve	5,792,107	4,400,362
Parking Lot Repair and Replacement	3,484,706	3,228,602
Compensated Absences Reserve	7,085,586	5,748,177
Other Post Employment Benefits	5,119,675	3,875,881
Technology Acquisition	17,027	42,711
Payroll Reserve	1,084,191	903,616
Enterprise Software Replacement	3,209,218	5,101,078
Lawrenceburg Financial Aid	36,160	43,276
Unclaimed Property	1,069,978	823,947
Student Loan Fund	53,860	57,758
Operating Budget	44,136,809	47,032,774
Total	**$107,115,393**	**$106,138,137**

The College operated bookstores at twelve of its fourteen regional campuses. The bookstores' net assets shown above were mainly used to maintain those operations. Effective 06/30/08, all college bookstores have been leased to Follett Higher Education Group, Inc.

The Economic Development Revolving Loan Fund is primarily used within the College to acquire equipment necessary to rapidly implement training programs relative to economic development as well as other College initiatives. This fund is a revolving fund and is paid back over time by the College site originally granted the loan.

The College does not recognize certain student accounts receivable balances for budget purposes. After they have been collected, they are recognized for budgetary purposes and therefore available for expenditure.

The insurance stabilization reserve was established in the fiscal year ending June 30, 1994. The interest earned on this reserve has been used to reduce the amount of health insurance increases that must be passed on to the employees of the College.

Debt Service Cash Flow Reserve is used to partially offset the bond debt service payments made until they are reimbursed by the state of Indiana.

The parking lot repair and replacement reserve is funded with a College designated portion of student fee collections. Currently seventy-five cents ($.75) per student credit hour is designated to assist the funding of repairing, maintaining, and providing new parking lots throughout the College.

The compensated absences reserve was established to offset the College's compensated absences liability. This benefit is discussed in more detail in the Notes to the Financial Statements, section VII.

The Other Post Employment Benefits cash reserve was established in fiscal year 2005-06 to offset the College's other post employment benefit liability. This reserve was established in advance of the reporting requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The reporting requirements of GASB 45 are applicable to the College at fiscal year ended June 30, 2008. An actuarial estimate was obtained by the College for the period 06/30/08. As a result of this estimate, the College reported an OPEB an expense are corresponding liability in the amount of $3.2 million for 2007-08.

The technology acquisition reserve is the balance of a State appropriation received to assist the College in acquiring and maintaining technology related items.

The College pays hourly employees bi-weekly. Therefore, every eleven years the College pays employees twenty-seven times in one year instead of the normal twenty-six. This payroll reserve is to pay for the additional payroll.

The enterprise software replacement reserve has been established to assist the College in replacing the enterprise-wide software programs. The current enterprise software programs are outdated and implementation of the new Banner software system is currently underway.

In fiscal year 2003-04 the City of Lawrenceburg paid $2,875,000 to pay off a loan on the College's building in Lawrenceburg. In appreciation of the City's generosity, the College dedicated an initial amount of $375,000 for financial aid purposes for Ivy Tech students attending the Lawrenceburg campus. The amount shown represents the balance that is remaining. A committee of College and City officials developed guidelines for the use of these monies to assure that citizens in the Lawrenceburg area receive the benefit of this financial aid.

State law allows the College to maintain unclaimed property. The unclaimed properties are checks that have not been cashed and are greater than two-years old. The payees may claim these checks upon the filing of a claim and proof of identity.

The College maintains a loan fund for the purpose of making short-term loans to students. The funds are derived from a number of different sources.

The operating budget is the remaining amount of the unrestricted net assets available for expenditure in the next fiscal year.

CAPITAL ASSETS, NET, AT YEAR-END

		Restated		
	6/30/2008	6/30/2007	Increase (Decrease)	Percent Change
Construction Work In Progress	$10,600,615	$40,496,562	$(29,895,947)	-73.8%
Land, Improvements, and Infrastructure	23,302,744	22,816,363	486,381	2.1%
Buildings	313,010,639	261,033,851	51,976,788	19.9%
Furniture, fixtures, and equipment	20,171,724	15,225,898	4,945,826	32.5%
Library materials	253,185	123,088	130,097	105.7%
Totals	**$367,338,907**	**$339,695,762**	**$27,643,145**	**8.1%**

During fiscal year 2007-08 net capital assets increased by $27,643,145 or 8.1%. The major changes were from the capitalization of the Marion project of $12.7 million, the Madison project of $11.7 million, and the Valparaiso Phase II project of $8.2 million and the increased expenses related to on-going construction projects. In addition, the college capitalized $3.8 million for the new College Administrative Software project. The College is in the process of implementing a new administrative software system and the Finance and Student systems went live in fiscal year 2007-08.

The College's credit rating assigned by Standard and Poor's as of June 2007 was A+ with a positive outlook. Fitch Ratings assigned a rating of AA- with a stable outlook. In early 2008-09, Standard and Poor's increased the College's rating to AA- with a stable outlook.

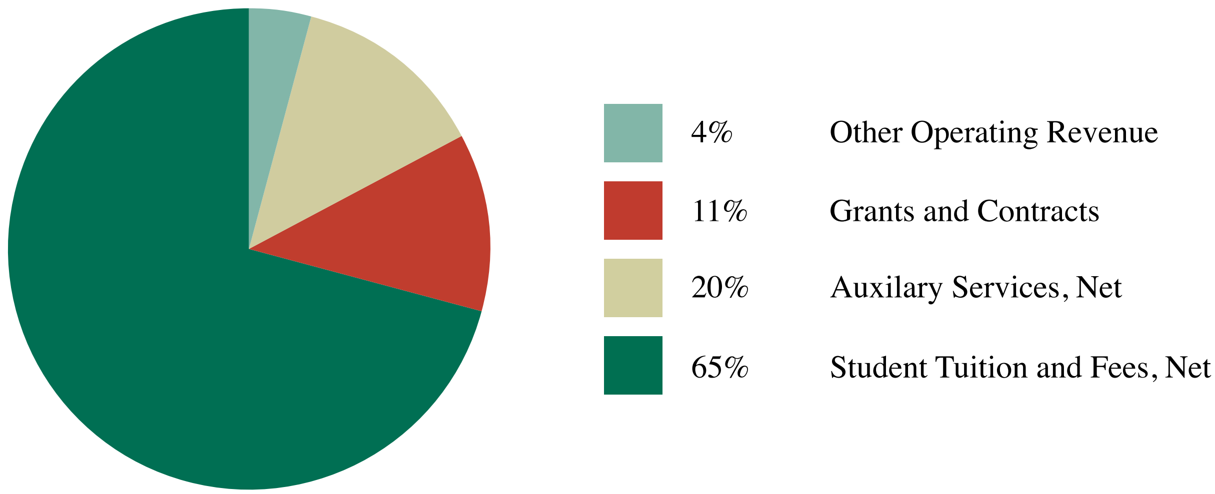
Net assets - end of year	**$269,293,670**	**$258,670,560**	**4.1**

Revenues

Operating Revenues

Total operating revenues for fiscal year 2007-08 were $178 million, representing a 12.6% increase compared to the prior year. The following chart and analysis illustrate the details.



Tuition and Fees

Student tuition and fees include all fees assessed for educational purposes. Scholarship discounts and allowances represent the difference between the stated fee rates and the amount that is paid by the students and/or third party payers. The vast majority of the scholarship discounts is paid to the College in the form of Federal and State student financial aid. Net student fee revenue shows a 13.9% increase over 2006-07 due to a full-time equivalent enrollment increase of 6.4%, student fee increases of 3.9%, increases in incidental fees, and increases in non-credit instruction.

Grants and Contracts

Grants and contracts include restricted revenues made available by federal, state, local, and nongovernmental grants and contracts. In total, this revenue increased 9.5% from 2006-07. Federal sources increased 14.3%, state sources increased 1.8%, and private sources decreased 9.0%.

	2007-08	2006-07	Percent Change
Federal sources			
Financial aid	$80,204,774	$70,001,493	14.6%
Other federal agencies	2,211,273	2,076,242	6.5%
Total federal sources	82,416,047	72,077,735	14.3%
State sources			
Financial aid	13,942,975	12,251,322	13.8%
Grants and Contracts	8,455,045	9,757,335	(13.3)%
Total state sources	22,398,020	22,008,657	1.8%
Private sources	8,952,311	9,841,301	(9.0)%
Total all sources	**$113,766,378**	**$103,927,693**	**9.5%**

Auxiliary Enterprises

Auxiliary enterprises are intended to be self-supporting and supplement the operations of the College. Bookstore, Parking lot, and insurance stabilization are the auxiliary enterprises for Ivy Tech Community College. The total auxiliary enterprise revenue was $39.2 million with a scholarship allowance of $4.4 million. The vast majority of the scholarship allowance is paid to the bookstores in the form of Federal student financial aid. Net auxiliary enterprise revenue increased 19.8% over prior years, which was due in part to the enrollment increase.

An agreement was entered into between the College and Follett Higher Education Group, Inc. (Follett) effective in June 2008. This agreement allows for the operation of the College's bookstores by Follett. The term of the agreement is through June 30, 2016, with an automatic renewal for one (1) two-year renewal term of July 1, 2016 through June 30, 2018. In return for the right to operate the bookstores, the College received a one time payment spread out over the term of the agreement, rent payments based on a percentage of gross revenue and a commitment for store improvements.

Operating Expenses

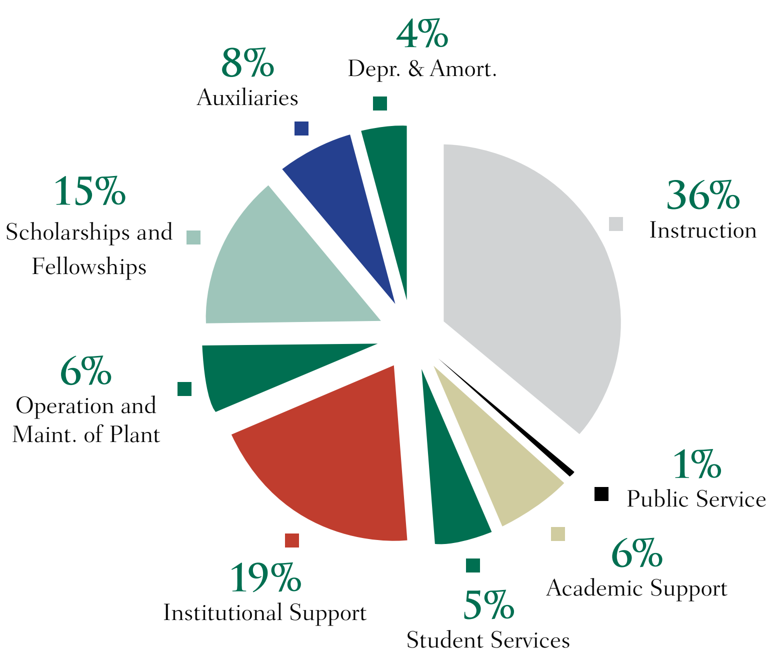
The operating expenses are presented on the financial statements using natural classifications: salaries and wages, benefits, scholarships and fellowships, utilities, supplies and other services, and depreciation. The following schedule shows expenses based on College functional categories.

EXPENSES BY FUNCTION

	2007-08	2006-07
Instruction	$157,057,310	$139,611,759
Public service	2,087,844	2,803,921
Academic support	26,323,244	26,209,878
Student services	23,362,048	21,368,176
Institutional support	86,381,322	73,336,435
Operation and maintenance of plant	24,413,854	24,246,407
Scholarships and fellowships	63,822,228	54,439,359
Auxiliaries	34,545,553	27,259,681
Depreciation and Amortization	19,120,282	15,960,440
Total	**$437,113,685**	**$385,236,056**

As a percentage of total expenses Academic Support and Student Services decreased slightly and Scholarships and Fellowships and Auxiliaries increased slightly as compared to the prior year. All other categories remained relatively flat as a percentage of the total.

2008 FUNCTIONAL EXPENSES



Nonoperating Revenue And Expense

The State of Indiana provides appropriations based on a biennial budget for higher education. The College recognized $175.4 million of State Appropriations for fiscal year 2007-08. This is an increase of 11.3% from the previous year. Due to an accounting principal change restricted governmental grants and contracts are considered nonoperating revenue instead of operating revenue. This category increased by $12.5 million. Investment income, which is the earnings from pooled cash and plant investments, decreased from 2006-07 by $1.8 million. Interest expense on capital asset-related debt is the interest paid on bond debt and interim financing. Student government support is the College's designated amount to support student government.

Other Revenues, Expenses, Gains, or Losses

Capital Appropriations decreased by $2.5 million, mainly due to receiving construction planning money in the prior year and none in the current year.

Statement of Cash Flows

Another way to assess the financial condition of an institution is to look at the statement of Cash Flows. Its primary purpose is to provide relevant information about the cash receipts and cash payments of an entity during a period. The Statement of Cash Flows also helps users assess:

- an entity's ability to generate future net cash flows
- it's ability to meet its obligations as they come due
- it's need for external financing

CONDENSED STATEMENT OF CASH FLOWS

Year Ended June 30	2008	Restated 2007
Cash provided (used) by:		
Operating activities	$(232,094,634)	$(208,575,587)
Noncapital financing activities	283,323,339	244,519,188
Capital and related financing activities	(42,825,855)	(33,673,587)
Investing activities	(34,219,171)	(3,832,573)
Net increase (decrease) in cash	(25,816,321)	(1,562,559)
Cash and cash equivalents, beginning of the year	44,526,445	46,089,004
Cash and cash equivalents, end of the year	**$ 18,710,124**	**$44,526,445**

For the College's financial statement purposes, cash and cash equivalents includes cash plus investments with maturity dates less than 90 days. Cash and cash equivalents decreased by 58% this fiscal year. This was due to an increase in long term investments.

According to the authoritative guidance from the Governmental Accounting Standards Board, state appropriations are to be shown as a non-capital financing activity and not as cash provided by operating activities. This will always result in showing more cash being used for operating activities than cash being provided.

Factors Impacting Future Periods

As an open-access public institution with a goal of keeping the cost of higher education affordable, the economic health of the College is closely tied to the State of Indiana. Although the national economy has begun to slow, the State of Indiana's financial position continued to improve in 2007-08. Revenues exceeded expenditures and the State of Indiana General Fund and Property Tax Replacement Fund Combined Statement of Estimated Unappropriated Reserve grew to $1.382 billion after deducting the remaining Payment Delay Liability. Standard and Poor's followed with an increase in the State's credit rating to AAA, the highest level possible. Despite this favorable economic performance, the State of Indiana still faces significant challenges as it transitions to a more knowledge based economy.

Total State funding for Ivy Tech Community College again increased as compared to the previous year. State operating appropriations grew by $9.1 million. The College also received the total amount appropriated for General Repair and Rehabilitation (R & R) in 2007-08. Total state appropriations including debt service funding grew by $17.1 million to a total of $175.4 million. In addition, the State continued to repay funds that had been deferred since the 2001-03 biennium. That biennial budget had authorized the State Budget Agency to distribute eleven-twelfths of the budgeted amount for the 2001-02 fiscal year. Similar language in the 2003-05 and 2005-07 budget bills allowed this deferral to be carried forward. In 2006-07, the General Assembly appropriated $40 million to the State's public colleges and universities for general repair and rehabilitation needs. By statute, distribution of those funds reduced the one-month appropriation delay. Ivy Tech's share of this $40 million was $4.6 million. In 2007-08, Ivy Tech received an additional $3.1 million of Payment Delay R & R funds. The College is scheduled to receive the final $3.1 million owed by the State in 2008-09.

Across the State, 2007-08 was another record setting year for Ivy Tech Community College enrollment. Once again, both headcount and fulltime equivalent (FTE) enrollment grew in all regions across the State. Preliminary estimates indicate a total enrollment of over 119,000 students. Full time equivalent enrollment is expected to top 49,000 when final count is completed. 2007-08 marks the twelfth consecutive year that the College's full time equivalent enrollment has grown. This led to an increase in student fee revenue of $19.0 million despite a fee rate increase that was lowest of the seven Indiana public higher education institutions. Early indications are that strong enrollment growth has continued during the 2008 fall semester.

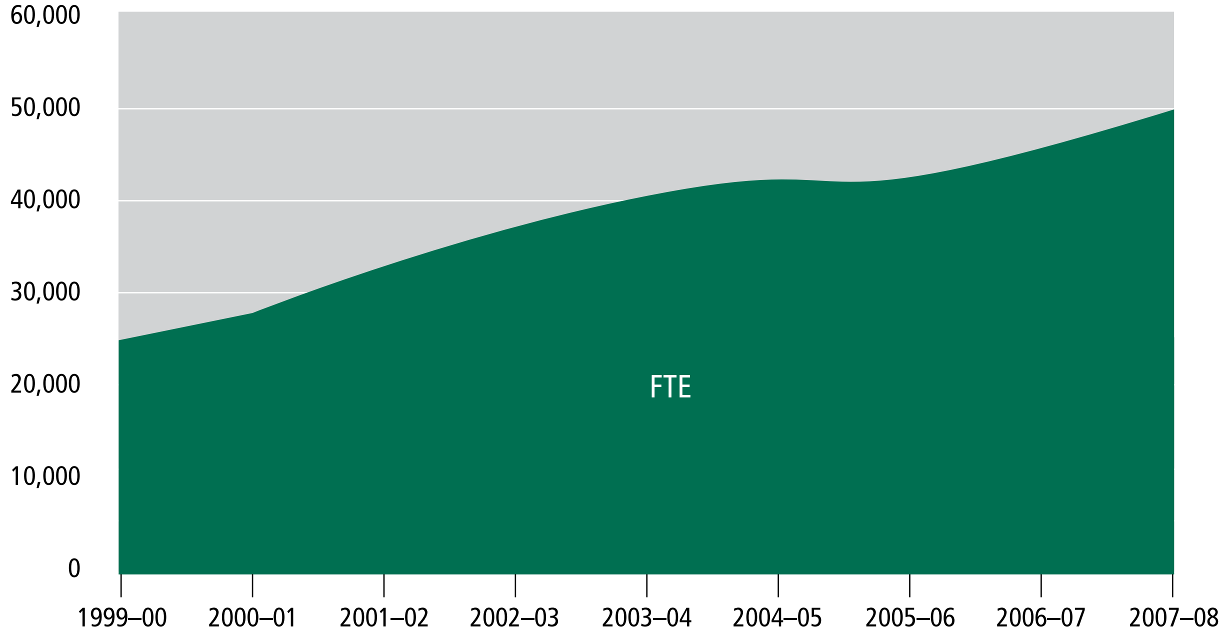
At the College's request, in 2007-08 the Commission for Higher Education recommended and the State Budget Committee and Governor approved the release of bonding authority appropriated by the General Assembly for new capital projects in Fort Wayne, Logansport, and Greencastle. Planning and construction of these projects has begun and bonds (Series L) were sold in early 2008-09. When the three projects noted above are completed, the College's academic facilities in those communities will be greatly improved.

About the time of the Series L bond sale in 2008-09, the Commission for Higher Education recommended and the State Budget Committee and Governor approved the release of bonding authority for additional projects in Elkhart and Sellersburg. Upon completion, these new facilities will further enhance the College's ability to serve the educational needs of Hoosiers.

Also it should be noted, that in June 2008, the college entered into a partnership with Follett Higher Education Group, Inc. whereby Follett will operate the College's bookstores. In return, the College will receive a sliding percentage of gross sales. This will have the advantage of freeing up College resources that were previously dedicated to the operation of the bookstores.

In conclusion, the College's financial position continues to be strong. This strength was recognized in early 2008-09 when Standard and Poor's upgraded the College's bond rating to "AA-" with a "Stable" outlook. Fitch Ratings reaffirmed its "AA-" rating and continued the "Stable" outlook.

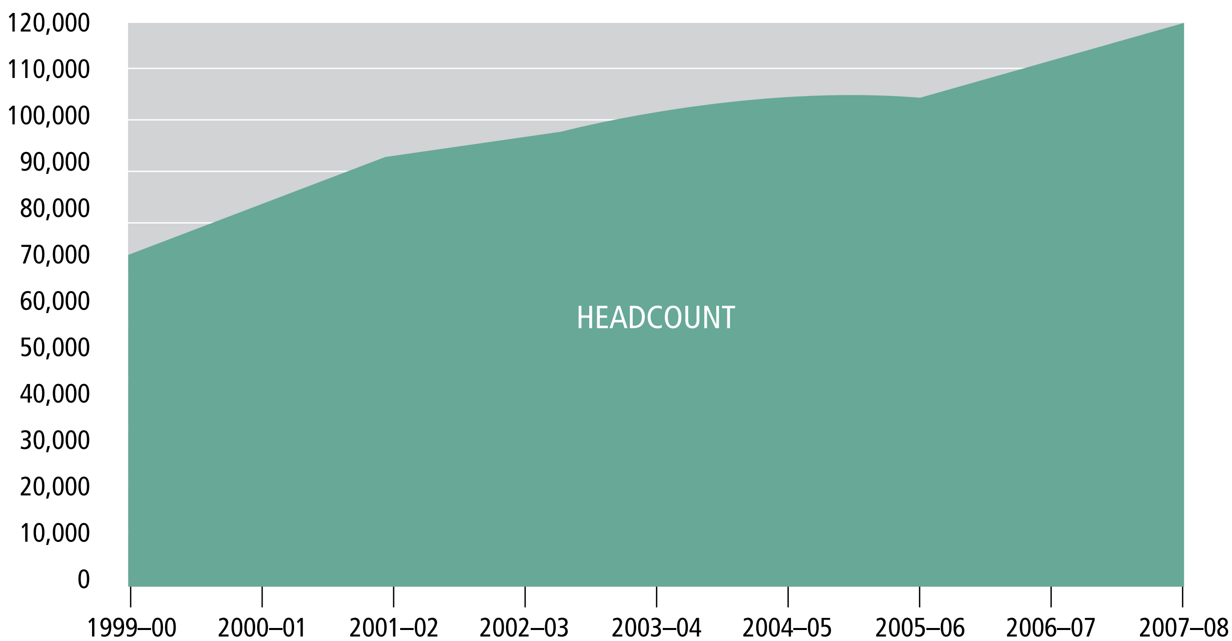
ANNUALIZED STUDENT ENROLLMENT TREND



Since 1999-2000, FTE Enrollment has grown by 96%.

*Note: the annualized FTE number for the 2007-08 fiscal year is an estimate as of the publishing of these financial satements

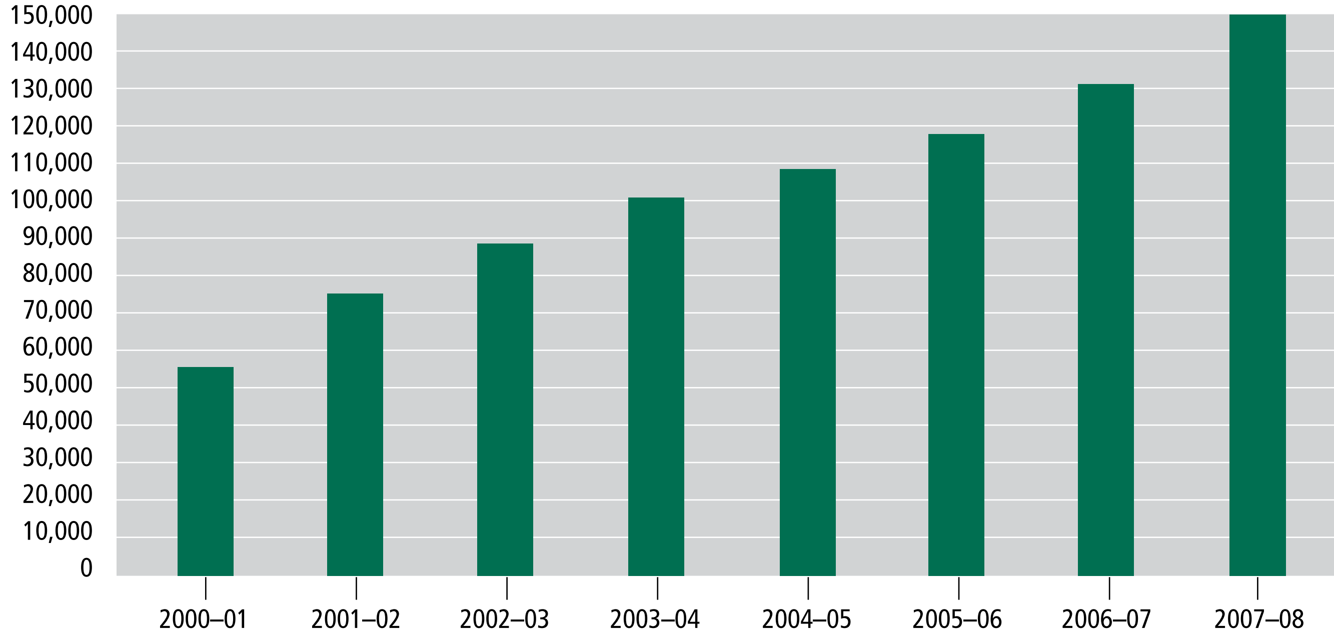
ANNUALIZED STUDENT ENROLLMENT TREND



Since 1999-2000, Unduplicated Headcount Enrollment has grown by 67%.

*Note: the annualized Headcount number for the 2007-08 fiscal year is an estimate as of the publishing of these financial satements

GROSS STUDENT FEE REVENUE



Gross Student Fee Revenue has increased 166% since 200-2001.

Authorized Facilities

During the 2007 General Assembly, the College received bonding authority totaling $162,870,000 and cash appropriations of $350,000 for new capital facilities. Projects receiving bonding authority include Elkhart ($16,000,000), Warsaw A & E ($1,000,000), Fort Wayne Technology Center and Demolition Costs ($26,700,000), Logansport ($16,000,000), Muncie/Anderson A & E ($4,800,000), Greencastle ($8,000,000), Indianapolis Fall Creek Expansion ($69,370,000), Lamkin Center ($1,000,000), and Sellersburg ($20,000,000). In addition, the College received a cash appropriation of $350,000 for Bloomington A & E. Prior to proceeding with any of these projects, the College must receive further authorization from the Commission for Higher Education, the State Budget Committee, and the Governor. Consequently the timing for the financing and construction of these projects is not known at this time.

The accompanying notes to the financial statements are an integral part of this statement.

IVY TECH COMMUNITY COLLEGE
NOTES TO FINANCIAL STATEMENTS

June 30, 2008

I. Summary of Significant Accounting Policies

A. General Information

Ivy Tech Community College of Indiana is a statewide open-access, community college that provides residents of Indiana with professional, technical, transfer, and lifelong education for successful careers, personal development, and citizenship. Through its affordable, quality educational programs and services, the College strengthens Indiana's economy and enhances its cultural development. The Indiana General Assembly (by IC 20-12-61-2) established Ivy Tech State College in 1963. In 2005 the General Assembly adopted Senate Bill 296 which broadened the institution's mission to include serving as the state's community college system. Ivy Tech's official name changed to "Ivy Tech Community College of Indiana". Ivy Tech is governed by a board of trustees, composed of fourteen (14) members, appointed by the governor. Each member of the state board must have knowledge or experience in one (1) or more of the following areas; manufacturing; commerce; labor; agriculture; state and regional economic development needs; or Indiana's educational delivery system. At least one (1) trustee must reside in each College region. Appointments are made for three (3) year terms, on a staggered basis. Ivy Tech Community College has fourteen main regional sites located across the State of Indiana. The President's office and other statewide administrative offices are located in Indianapolis, Indiana.

Ivy Tech Foundation (the Foundation) was incorporated on June 9, 1969, under the Indiana Foundations and Holding Companies Act of 1921 as a corporation organized exclusively for charitable, educational and scientific purposes. The Foundation, whose principal activity is to promote educational, scientific and charitable purposes in connection with or at the request of Ivy Tech Community College (the College), commenced its financial activities with the receipt of various unrestricted contributions in October 1970 and provided $7.3 million to assist the College during fiscal year 2007-08. The Foundation currently operates under the Indiana Nonprofit Corporations Law of 1971 as amended, which is codified as IC 23-17. As required by the Governmental Accounting Standards Board (GASB) number 39, the audited financial statements of the Foundation are discretely presented with the College's financial statements. The Foundation's fiscal year reporting period is from July 1 through June 30. It is important to note for comparison purposes that the Foundation's statements are prepared using the modified cash basis of accounting, while the College uses the accrual basis of accounting. The modified cash basis differs from the cash basis primarily because the Foundation reflects investments and property and equipment purchased as assets on its Statements of Assets, Liabilities, and Fund Balances. Additionally, the Foundation reports notes payable for the purchase of property and annuities payable as liabilities in its Statements of Assets, Liabilities and Fund Balances. Gains and losses on investments are recorded when realized. In addition to receiving cash contributions, the Foundation receives non-cash contributions including gifts of real estate.

The Foundation believes that modified cash-basis statements present the financial information in a more meaningful manner than accrual-basis statements and, accordingly is continuing its policy of presenting its financial statements on the modified cash basis of accounting. Further information regarding the Foundation may be obtained at Ivy Tech Foundation, 50 West Fall Creek Parkway Drive North, Indianapolis, IN 46208-5752 or http://ivytech.edu/giving.

With the implementation of Governmental Accounting Standards Boards (GASB) Statement No. 35, Ivy Tech Community College is considered a special purpose government. The College has elected to report as a business type activity using proprietary fund accounting and financial reporting model. The College is considered to be a component unit of the State of Indiana.

As such there is a close relationship between the College and the State of Indiana. The College receives appropriations, program approvals and grants from the State.

The financial statements have been prepared to incorporate all fund groups utilized internally by Ivy Tech Community College. These statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by GASB Statements No. 34 & 35. These Statements require the College to report revenues net of discounts and allowances. The following components of the College's financial statements are also required by GASB 34/35:

- Management's Discussion and Analysis
- Basic financial statements including a Statement of Net Assets, Statement of Revenues, Expenses and Changes in Net Assets, and Statement of Cash Flows for the College as a whole
- Notes to the financial statements

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The College's financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Eliminations have been made to prevent the double counting of internal activities.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The College utilizes the accounting standard of the establishment of an allowance for bad debt in the Statement of Net Assets to reflect receivables that are likely to be uncollectible.

Operating revenues of the College consist of tuition and fees, non-financial aid grants and contracts, sales and services of educational activities and auxiliary enterprise revenues. Transactions related to financial aid grants, capital and related financing activities, non-capital financing activities, investing activities, and State appropriations are components of non-operating income. The prior bookstore inventories were valued based on a perpetual inventory or physical count system, with the majority utilizing the perpetual inventory method. The current year inventory was sold to Follett Higher Education Group, Inc. (Follett) effective June 2008 in accordance with an agreement allowing for the operation of the College's bookstores by Follett.

C. Capital Assets Accounting Policy Disclosure

The College's capitalization threshold is defined as any non-expendable item, or group of items making up one unit, with a useful life of more than one year, and a unit acquisition cost of $3,000 or more. Library books costing $35 or more are generally capitalized as a group, with the detail maintained and updated periodically as new acquisitions are made or other items are removed.

College capital equipment and facilities are depreciated on a "Straight Line" basis dividing the cost of the asset by the appropriate useful life. Building improvements are depreciated over the remaining life of the facilities to which they pertain. Leasehold improvements are depreciated over the remaining life of the asset for capital leases and over the remaining life of the lease for operating leases.

Land Improvements	10 years
Buildings	40 years
Building Improvements	Remaining life of the building
Furniture, fixtures, and equipment	3-8 years
Library Books and Materials	5 years

Ivy Tech has a minimal amount of infrastructure assets that are components of buildings or land improvements and are depreciated accordingly.

If both restricted and unrestricted resources are to be expended for the same purpose or project the determination of the portion of the expenses paid from the restricted sources are made on a case-by-case basis.

D. Prepaid Assets

Prepaid Assets are paid when due and the remaining value is reported as prepaid and consists of the following.

1. Bond principal and interest payments	$13,986,460
2. Advance payments to health insurance providers	$ 336,034
3. Other	$ 193,037

II. Accrual of Loss Contingency

The College has been named a party in two matters of litigation in the state courts, three matters of litigation in the federal court, four matters with the Indiana Civil Rights Commission, and four matters with the Equal Employment Opportunity Commission. In the opinion of management, an unfavorable outcome in these matters will not have a material adverse affect on the balance sheet of the institution. Management is currently unable to assess the probability of an unfavorable outcome.

III. Lease Obligations

The College has entered into certain operating leases for facilities, office furniture and equipment, vehicles, computing equipment, etc. Many of these leases require payments in excess of one year from the date of initiation. The schedule on page 54 provides the minimum future annual payments for those leases, which were in effect on June 30, 2008.

The College has several lease obligations with Ivy Tech Foundation, Inc. which were determined to meet the requirements necessary to be recognized as capital leases, which are reflected in the College's Statement of Net Assets.

IV. Investments

Investment policies, as set forth by the State Board of Trustees, authorize Certificates of Deposits to be established not longer than five years. The bank must be insured by Public Deposit Insurance Fund (PDIF) or Federal Deposit Insured Fund (FDIC). One bank's deposits must not exceed thirty percent (30%) of the College's total investment portfolio, and the total invested must not be more than fifty percent (50%) of the combined capital, surplus, and undivided profits of that bank. US Government Treasury Bills, Notes, Bonds and Agencies maturity dates cannot exceed five years or more. Repurchase Agreement's maximum maturity allowed is thirteen (13) days. Bankers' Acceptances cannot exceed one million dollars ($1,000,000) and have a maturity date longer than one hundred eighty days (180). Commercial Paper's maximum maturity is two hundred seventy (270) days, must be rated at least A-1 or P-1 by the bond rating agencies, may not exceed fifty (50%) of the College total investments, no more than one million ($1,000,000) or ten percent (10%) of the College's total investment, whichever is less, may be in vested in any one company at one time, and no more than twenty five percent (25%) of the total Commercial Paper portfolio may be invested in a single industry. Money Market Accounts are limited to funds with assets totaling at least two hundred fifty million ($250,000,000) or funds managed by Indiana banks insured by Public Deposit Insurance fund (PDIF). All investments are unrated at June 30, 2008.

All investments owned by the College are held in safekeeping by the issuing or selling bank. Safekeeping receipts are held by the College.

The College's policy regarding the Endowment investments are the same as the College's investment policy, unless restricted by the Endowment Trustee.

Types of investments held by the College's Foundation, a component unit, are authorized by the Foundation's Board of Trustees. They include a broader selection of investments including domestic equities, Certificates of Deposit, Money Market Accounts, interest bearing demand deposits insured by FDIC, US Government Notes, Bills, Bonds, Agencies, Commercial Paper and donated real and personal property.

Investments held in the name of the College at June 30, 2008 consist of the following:

			Investment Maturities (Years)		
Investment Type	**Rating**	**Fair Market Value**	**Less Than 1**	**1-2**	**More Than 2**
Deposits:	N/A				
Certificate of Deposits		$ 90,500,000	$32,500,000	$7,995,310	$50,004,690
Investment:					
US Government Agencies Securities	N/A	2,013,750	1,009,060	1,004,690	
Money Market	N/A	13,534,390	13,534,390		
Total		$106,048,140	$ 47,043,450	$9,000,000	$50,004,690

A. Credit Risk

The College's investment policy requires that all bond investments have a Standard and Poor's rating of A-1 or better or a Moody's Investors Service rating of P-1.

B. Interest Rate Risk

Interest rate risk refers to the fact that changes in market interest rates may adversely affect the fair value of an investment. Generally the longer the maturity of the investment, the greater the sensitivity of its fair value to changes in market interest rate; one of the ways that the College manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The College's policy for Certificates of Deposits, US Government Treasury Bills, Notes, Bonds, and Agency limit the maximum maturity to five years or less, thus limiting exposure to fair value losses arising from increasing interest rates. Additionally it has been College practice to hold the investment instrument to maturity.

C. Concentration of Credit Risk

In the allocation of assets, diversification of investments among asset classes that are not similarly affected by economic, political or social developments is a highly desirable objective of credit risk. Thus to avoid undue risk concentrations in any single asset class or investment category, the College's policy requires that Certificates of Deposit at any one bank do not exceed thirty (30%) of the College's total investment portfolio, the amount invested must not be more than fifty percent (50%) of the combined capital, surplus, and undivided profits of that bank, as determined from its last published report of condition, Commercial Paper may not exceed fifty (50%) of total investments, no more than one million ($1,000,000) or ten percent (10%) of the College's total investment, whichever is less, may be invested in any one company at one time, and no more than twenty-five percent (25%) of the total Commercial Paper portfolio may be invested in a single industry.

The financial institutions that hold five (5%) or more of the College's investments at June 30, 2008 are listed below:

Institutions	**Cost**	**Percent of Total Invested**
National City Bank	$33,025,696	31.15%
Huntington Capital	18,000,000	16.98%
Lake City Bank	17,000,000	16.03%
Federated Investors	13,508,694	12.74%
Irwin Union Bank	9,000,000	8.49%
Key Bank	6,000,000	5.66%

D. Foreign Currency Risk

The College does not hold foreign currency.

E. Custodial Credit Risk

The College Certificates of Deposits are all insured by Public Deposit Insurance Fund (PDIF) or Federal Deposit Insurance Fund (FDIC) and Money Market Accounts are limited to funds with assets totaling at least two hundred and fifty million ($250,000,000) or funds managed by Indiana banks insured by the Public Deposit Insurance Fund (PDIF).

V. Line Of Credit

The College has a line of credit in the amount of $3,000,000 with an Indiana financial institution. The College can draw against this agreement to meet certain working capital provisions. As of June 30, 2008, the College had not drawn against this line of credit.

VI. Post-Employment Benefits

All employees who retire between the age of 55 and up to but not including 65 with ten years of benefits-eligible service with the College or at the age of 65 or later with five years of benefits-eligible service with the College may continue participation in College group medical benefits. The entire cost of the post-employment benefits is the responsibility of the retiree and the College has no funding or costs incurred.

In addition, all employees who retire between the age of 55 and 65, and whose combined age and years of continuous benefit-eligible service equal at least 75, may elect to remain in the College group medical and dental programs. Those who meet the above requirements and remain in the programs pay only 20% of the full premium expense. The College pays the remaining 80% of the premium, and the expenditure is recognized when paid. During fiscal year 2007-08, expenditures of $361,074 were recognized for 50 employees who participated in the post-retirement health and dental care program.

To enable employees to have paid time off as needed, College policy provides for the accrual of sick leave and vacation time for benefits-eligible employees. The College will pay to each eligible full-time employee a benefit at retirement equal to 50% of the employee's unused sick leave accrual up to 100 days. An employee is eligible for this benefit if he is at least 55 years old and his age plus years of service equal 75 or more at retirement. There is no maximum age limit. Accrued benefit for Sick leave is $3.6 million.

Annual OPEB Cost and Net OPEB Obligation

The College's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of the Governmental Accounting Standards Board Statement 45 Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the College's annual OPEB cost for the fiscal year, the amount actually contributed to the plan, and changes in the College's net OPEB obligation to the plan:

IVY TECH COMMUNITY COLLEGE

JULY 1, 2007 TO JUNE 30, 2008

Annual required contribution	$3,568,508
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-
Annual OPEB cost	3,568,508
Contributions made	361,074
Increase (decrease) in net OPEB obligation	3,207,434
Net OPEB obligation, beginning of year	-
Net OPEB obligation, end of year	$3,207,434

The College's annual OPEB cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation for 2008 and the two preceding years were as follows:

Year Ending	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
06-30-06	$ -	N/A	$ N/A
06-30-07	-	N/A	N/A
06-30-08	3,568,508	10%	3,207,434

Funded Status and Funding Progress

As of June 30, 2008, the most recent actuarial valuation date, the plan was 0% funded. The actuarial accrued liability for benefits was $28,693,409, and the actuarial value of assets was $0.00 resulting in an unfunded actuarial accrued liability (UAAL) of $28,693,409.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Valuation Date	Accrued Liability	Unfunded Accrued Liability	Funded Ratio
7/1/07	$28,693,409	$28,693,409	0.0%

Actuarial Methods and Assumption

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of asset, consistent with the long-term perspective of the calculations.

In the June 30, 2008 actuarial valuation, the Unit Credit actuarial cost method was used. The actuarial assumptions included a 5% investment rate of return (net of administrative expenses), which is the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 10% initially, reduced by 1% decrements to an ultimate rate of 5% after 5 years. Both rates included a 3% inflation assumption. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2008 was 30 years.

VII. Accrued Vacation and Special Holiday

Accrued time for vacation vests to a maximum. That maximum is equal to the amount accrued during the preceding 18 months. Unused vacation time is paid out upon termination regardless of age or years of service. The computed College current portion of the liability for accumulated unused vacation pay as of June 30, 2008 is $5.1 million.

Because the College does not observe certain legal holidays available to employees of other Indiana state agencies, the College offers benefits-eligible Administrative and Support staff employees one Special Holiday per calendar quarter. The College has recently adopted a new Special Holiday Policy. Special Holiday hours are now included with vacation hours earned. Beginning in fiscal year 2003-04, College policy was established to pay out unused accrued Special Holiday hours upon termination of an employee. As of June 30, 2008 the current portion of the liability was $1.1 million.

VIII. Retirement Plans

Ivy Tech Community College's State Board of Trustees has the authority to determine employee benefits and personnel policies. The following describes the retirement plans authorized by the College's State Board of Trustees.

A. Teachers Insurance Annuity Association/College Retirement Equities Fund

Full-time faculty, professional, and administrative staff are eligible for participation in a retirement program with Teachers Insurance Annuity Association (TIAA) and College Retirement Equities Fund (CREF), defined contributions plan. This program is fully funded by the College.

The participation date for eligible employees is determined by their personnel position classification. Members of TIAA and CREF may elect to allocate contributions to their account under several options. The allocation may be designated in whole or prescribed ratios to the fixed-dollar fund (TIAA) or to a diversified common stock fund(s) (CREF). During the fiscal year ended June 30, 2008, Ivy Tech Community College paid $12,721,897 to TIAA/CREF, representing $84,812,646 in total salaries.

On June 30, 2008, there were 1,491 employees participating in this retirement program. Further information may be obtained from TIAA/CREF by contacting them at 730 3rd Avenue, New York, New York 10017-3206.

B. American United Life Retirement Option

In fiscal year 2002 the Ivy Tech State Board of Trustees approved the addition of new options to the College's retirement plan offerings. The adoption of these options creates a greater opportunity for employees to diversify their investments. The new retirement plan, American United Life Insurance Company (AUL), was added as an alternate direct vendor to receive College contributions to the Defined Contribution Retirement Annuity (RA) plan for eligible faculty and administrative employees. The Plan became effective on October 1, 2002; employees must choose between TIAA/CREF and AUL. During fiscal year ended June 30, 2008, Ivy Tech Community College paid $1,185,999 to AUL, representing $7,906,663 in total salaries. On June 30, 2008, there were 120 employees participating in this retirement program. Further information may be obtained from AUL by contacting them at One American Square, P.O. Box 368, Indianapolis, IN 46206-0368.

C. Public Employees' Retirement Fund

1. Plan Description

Ivy Tech Community College contributes to the Public Employees' Retirement Fund (PERF), a defined benefit pension plan for certain employees of the State of Indiana. Full-time non-exempt employees are eligible to participate in the defined benefit plan. On June 30, 2008, 840 employees of Ivy Tech Community College were members of this retirement plan. State statutes (IC 5-10.2 and 5-10.3) govern most requirements of the system and give Ivy Tech authority to contribute to the plan.

The PERF retirement benefit consists of the pension provided by employer contributions plus an annuity provided by the member's annuity savings account. The annuity savings account consists of member's contributions set by state statute at three percent of compensation, plus the interest credited to the member's account. Ivy Tech Community College has elected to make the contributions on behalf of the eligible members. The College contributed $689,341 to individual employee annuity accounts in the Indiana Public Employees' Retirement Fund (PERF) for the year ended June 30, 2008.

PERF administers the plan and issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. The report may be obtained by writing the Public Employees Retirement Fund, Harrison Building, Room 800, 143 West Market Street, Indianapolis, IN 46204, or by calling (317) 233-4162.

2. Funding Policy and Annual Pension Cost

The Board of Trustees of PERF establishes the contribution requirements of plan members. Ivy Tech Community College's annual pension cost for the 2008 fiscal year and related information, as provided by the actuary is presented in this note. The amount of retirement costs associated with the employee share, $689,341, is not included in the following information.

IVY TECH COMMUNITY COLLEGE

PERF

Annual Required Contribution	$1,126,256	Increase (Decrease) in Net Pension Obligation	$25,411

D. Federal Social Security Act

All employees (except work-study students) are members of and are covered upon employment by the Old Age and Survivors Insurance and Medical Insurance Provisions of the Federal Social Security Act.

IX. Capital Assets

Property, buildings, and equipment are stated at cost on the date of acquisition or at fair market value at the time of donation. Assets used by the College which are subject to capital lease obligations are recorded at the net present value of the minimum lease payments of the asset at inception of the lease. The College has adopted the provisions of Statement of Financial Accounting Standards No. 93, which requires the recording of depreciation on long-lived tangible assets.

Capital asset activity for the year .ended June 30, 2008 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance
Land	$ 18,988,696	$ 438,666	$ -	$ 19,427,362
Construction work in progress	40,496,562	8,158,138	38,054,085	10,600,615

A. Notes Payable

The College has issued interim financing notes as a means of providing funds for acquisition and/or construction of facilities as more fully described below. On July 1, 2007 interim financing agreements totaling $18,215,000 were outstanding. During 2007-08, the College made principal payments totaling $1,080,000 which was $59,000 greater than the scheduled payment of $1,021,000. The June 30, 2008 principal balance was $17,135,000.

Location	Balance 6-30-07	Principal Paid 2007-08	New Debt 2007-08	Balance 6-30-08
Lafayette	$7,770,000	$503,000	$ -	$7,267,000
Indianapolis	10,445,000	577,000	-	9,868,000
Totals	**$18,215,000**	**$1,080,000**	**$ -**	**$17,135,000**

Indianapolis. In October 2003, the College entered into an interim financing agreement in the amount of $11,000,000 with a maturity of November 3, 2008 for the acquisition and partial renovation of the Fairbanks Center in Lawrence, Indiana. The interest rate is fixed at 3.48% per annum for the entire term of the loan. The interest expense is paid quarterly. At the November 3, 2008 maturity, the loan will be refinanced with proceeds from the series L Bond Issue.

Year Ending June 30	Principal	Interest	Total	Outstanding Principal Balance
2009	9,868,000	177,427	10,045,427	$ -
Totals	**$9,868,000**	**$177,427**	**$10,045,427**	

Lafayette Phase III. In January 2007, the College entered into an interim financing agreement in the amount of $7,960,000 with a maturity of January 05, 2012, for the refinancing of a major campus expansion and renovation in Lafayette, Indiana. Upon maturity the loan will be refinanced by the issuance of permanent financing or additional junior lien financing or repaid from student fees. Under the terms of the loan agreement, the College pays a fixed interest rate of 3.75% per annum for the entire term of the loan. The interest expense is paid semi-annually. The College will make principal payments annually according to the following schedule.

IVY TECH COMMUNITY COLLEGE

SCHEDULE OF ANNUAL REQUIREMENTS FOR PRINCIPAL AND INTEREST

Lafayette Phase III Interim Financing Agreement –
$7,960,000 Original Loan Amount

Year Ending June 30	Principal	Interest	Total	Outstanding Principal Balance
2009	521,000	272,513	793,513	6,746,000
2010	541,000	252,975	793,975	6,205,000
2011	561,000	232,688	793,688	5,644,000
2012	5,644,000	125,814	5,769,814	
Totals	**$7,267,000**	**$883,990**	**$8,150,990**	

B. Refunded Bond Issues

In prior years, the College defeased certain serial bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust accounts and the liability for the defeased bonds are not included in the College's financial statements. At June 30, 2008, $22,230,000 of bonds outstanding is considered defeased.

C. Premium On Bonds

The June 30, 2007 Premium on Bonds of $6,339,046 is the remaining balance from the sale of Series H, I, J, and Student Fee Bonds. The ending balance of $5,912,595 is being amortized over the remaining life of the related bonds.

D. Bond Schedules

Totals	**$181,720,000.00**	**$75,651,790.51**	**$257,371,790.51**	

XI. Property Subject To Capital Leases

The College has several lease obligations with Ivy Tech Foundation, Inc, which were determined to meet the requirements necessary to be recognized as capital leases; thus requiring the recognition of long-term debt and capital assets on the College's Statement of Net Assets. Ivy Tech Foundation, Inc. believes these leases are operating leases and that they own the property and therefore reports the assets in their financial statements. Therefore, the Foundation also shows these assets in their Statements of Assets, Liabilities, and Fund Balance, which are incorporated herein. Consequently, the College and the Foundation have reported the same capital assets on their respective financial statements.

XII. Restatement of Prior Year Balances – Note Disclosure

There was an accounting principal change effective June 30, 2008. Therefore, the prior year 2007 balances were adjusted for comparison purposes. There were two changes, restricted financial aid revenue was moved from operating to non-operating revenue and expenses related to uncollectable accounts were moved from an expense category to a reduction of revenue. Additionally when the College's fixed assets were converted to our new fixed assets accounting system there was a reclassification between noncurrent assets and noncurrent liabilities relating to prior periods that affected the net asset statement only.

ADJUSTMENTS TO STATEMENT OF NET ASSETS

Category	Beginning Balance	Adjustments	Adjusted Beginning Balance
Capital Assets, Net	$341,092,367	$(1,396,603)	$339,695,764
Total Noncurrent Assets	$362,130,916	$(1,396,603)	$360,734,313
Total Assets	$521,710,827	$(1,396,603)	$520,314,224
Long Term Debt and other Obligations	$216,098,924	$(1,396,603)	$214,702,321
Total Noncurrent Liabilities	$219,043,155	$(1,396,603)	$217,646,552
Total Liabilities	**$263,040,267**	**$(1,396,603)**	**$261,643,664**

The affect of this entry was a reduction in total assets of .3% and a reduction in total liabilities of .5%. There was no change in total net assets.

ADJUSTMENTS TO STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET ASSETS

Category	Beginning Balance	Adjustments	Adjusted Beginning Balance
Operating Revenues: Student Tuition and Fees	$133,622,079	$(2,261,174)	$131,360,905
Net Student Tuition and Fees	$104,766,487	$(2,261,174)	$102,505,313
Federal Grants and Contracts	$72,077,735	$(69,006,826)	$3,070,909
State and Local Grants and Contracts	$22,008,657	$(12,227,873)	$9,780,784
Total Operating Revenues	$241,961,260	$(83,495,873)	$158,465,387
Operating Expenses: Supplies and Other Services	$102,920,871	$(2,261,174)	$100,659,697
Total Operating Expenses	$387,497,230	$(2,261,174)	$385,236,056
Operating Loss	$(145,535,970)	$(81,234,699)	$(226,770,669)
Non-operating Revenue: Governmental Grants and Contracts – Federal	$0.00	$69,006,826	$69,006,826
Non-operating Revenue: Governmental Grants and Contracts – State	$0.00	$12,227,873	$12,227,873
Net Operating Revenues	$157,636,104	$81,234,699	$238,870,803

The changes on this statement were related to the change in accounting policies of moving restricted financial aid from operating to non-operating revenues and expenses and the movement of the expenses related to uncollectable accounts from an expense to a reduction of revenue.

ADJUSTMENTS TO STATEMENT OF CASH FLOWS

Category	Beginning Balance	Adjustments	Adjusted Beginning Balance
Cash Flows from (For) Operating Activities – Gifts, Grants and Contracts	$106,189,142	$(81,234,699)	$24,954,443

*Estimated

Credit Students

The above information reports students on an "unduplicated" basis for Full Time, Part Time, and the Total categories. FTE reports these students on a "full-time equivalent" basis. For purposes of student count, the above full time data includes individuals who enrolled in 12 or more credit hours for a single term, or 24 or more credit hours for two or more terms.

Non-Credit Students

The above information for non-credit students represents total unduplicated non-credit registrations during the fiscal year. This includes custom training courses as well as open enrollment in both professional development and personal enrichment courses.
