REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

TO: THE OFFICIALS OF THE UNIVERSITY OF SOUTHERN INDIANA, EVANSVILLE, INDIANA

We have audited the financial statements of the University of Southern Indiana (University), as of and for the year ended June 30, 2010, and have issued our report thereon dated October 28, 2010. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the discretely presented component unit, as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the University's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS
(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the University's Board of Trustees, management, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. In accordance with Indiana Code 5-11-5-1, this report is a part of the public records of the State Board of Accounts and of the office examined.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

TO: THE OFFICIALS OF THE UNIVERSITY OF SOUTHERN INDIANA, EVANSVILLE, INDIANA

Compliance

We have audited the compliance of the University of Southern Indiana (University) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2010. The University's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University of Southern Indiana's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the University's compliance with those requirements.

This report is replacing a previously issued report, so that the State Fiscal Stabilization Cluster would be added to the Schedule of Expenditures of Federal Awards and be audited as a major federal program.

In our opinion, the University of Southern Indiana complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT
COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133
(Continued)

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of the University of Southern Indiana as of and for the year ended June 30, 2010, and have issued our report thereon dated October 28, 2010. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, Audit/Finance Committee, Board of Trustees, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. In accordance with Indiana Code 5-11-5-1, this report is a part of the public records of the State Board of Accounts and of the office examined.

UNIVERSITY OF SOUTHERN INDIANA
EVANSVILLE, INDIANA
NOTES TO SCHEDULE OF FEDERAL AWARDS
June 30, 2010

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the University of Southern Indiana and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the general-purpose financial statements.

Note 2. Federal Family Educational Loans

The number of guaranteed student loans and total amount for each program for University of Southern Indiana students for the year ended June 30, 2010, were as follows:

	<u>No. of Students</u>	<u>Amount</u>
Stafford Student Loan Program	5,766	\$ 37,758,107
Parents Loans for Undergraduate Students	<u>545</u>	<u>3,510,473</u>
Totals	<u><u>6,311</u></u>	<u><u>\$ 41,268,580</u></u>

In prior years, the amounts of loans received by students were not included as federal expenditures in the Schedule of Expenditures of Federal Awards, as allowed by OMB Circular A-133.

The above is presented as additional information and is not included in the Schedule of Expenditures of Federal Awards.

UNIVERSITY OF SOUTHERN INDIANA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Section I – Summary of Auditor's Results

Financial Statements:

Type of auditor's report issued:	Unqualified
Internal control over financial reporting:	
Material weaknesses identified?	no
Significant deficiencies identified?	none reported
Noncompliance material to financial statements noted?	no

Federal Awards:

Internal control over major programs:	
Material weaknesses identified?	no
Significant deficiencies identified that are not considered to be material weaknesses?	none reported
Type of auditor's report issued on compliance for major programs:	Unqualified
Any audit findings disclosed that are required to be reported in accordance with section 510(a) of OMB Circular A-133?	no

Identification of Major Programs:

CFDA Number	Name of Federal Program or Cluster
N/A	Student Financial Aid Cluster
81.049	Office of Science Financial Assistance Program
N/A	State Fiscal Stabilization Fund Cluster

Dollar threshold used to distinguish between Type A and Type B programs: \$447,056

Auditee qualified as low-risk auditee?	yes

Message from the President

Dr. Linda L. M. Bennett
President

The 2009–2010 year began with campus-wide participation in the University's first strategic planning process. Throughout the year, in large and small sessions with faculty, staff, and students, the final plan took shape and by the end of spring 2010 new mission and vision statements had been crafted along with six major goals to move USI forward. The plan was approved by the Board of Trustees in July 2010. During the next five years, we will focus on enhancing experiential learning, improving student success in degree attainment, nurturing a vibrant campus community, providing leadership to the surrounding region and state, increasing diversity, and becoming a 24/7 campus with activities and learning opportunities beyond classroom walls. You can learn more about the Strategic Plan at www.usi.edu/strategicplan.

Also notable during 2009–2010 was increasing recognition of the accomplishments and academic excellence demonstrated by our students and faculty. Among the accolades and awards: Accounting students won first place in a national case competition for the third consecutive year; Fulbright fellowships were awarded to a faculty member, a student, and an alumna; the Center for Applied Research received national recognition for an innovation process in collaboration with Crane Division Naval Surface Warfare Center; and associate professor of art education Dr. Joseph Uduehi was named Art Educator of the Year by the Arts

Council of Southwestern Indiana. USI also hosted a new program in the National Writing Project, bringing teachers of reading and writing together to expand their creative teaching talents.

The physical appearance of campus changed markedly with the completion of the Robert M. Kent Family Fountain at the campus entry. The traffic roundabout is highlighted by a fountain and landscaping that offer both beauty and function in slowing traffic onto the University Boulevard. Progress on the Business and Engineering Center allowed faculty to move into the new building in readiness for the 2010–2011 year. Expansion of the University Center also continued on schedule with an opening slated for early 2011.

Two of the most memorable events came at the end of the 2009–2010 year. The men's baseball team won the NCAA Division II National Championship, the first baseball national championship for any university in Indiana and USI's second national championship. Then, in July, 23 students from Iraq visited campus for a month through the Young Iraqi Leaders Exchange for Undergraduate Students. USI was one of only two universities nationwide selected to host Iraqi students during the year. Their presence was transformative for the campus and helped to mobilize energy behind more intensive international exchange opportunities.

The troubling economic picture in the nation and state continued to affect the University's finances, as higher education budgets were reduced by \$150 million for 2010–2011 in December 2009. The impact for USI resulted in a one-time reduction of more than \$1 million in its operating appropriation. It is admirable that faculty and staff pulled together to continue offering the kinds of student services and academic programs that make USI a distinctive and successful comprehensive university.

In sum, it was a productive year with many developments that will set the pace and direction for our University for years to come. We look forward to improved economic times and remain committed to working with each of you in providing high-quality education services to help achieve the goals of the State and the region.

Linda L. M. Bennett
President

Message From The Vice President and Treasurer

Mark Rozewski
Vice President for
Business Affairs
and Treasurer

To the President and the Board of Trustees of the University of Southern Indiana:

I am pleased to present the University of Southern Indiana's audited financial report for the fiscal year ended June 30, 2010. The financial report has been prepared and presented in accordance with generally accepted accounting principles established by the Governmental Accounting Standards Board (GASB) for public colleges and universities. The University is regarded as a special-purpose government entity engaged only in business-type activities. As such, the financial report consists of the following basic statements: Management's Discussion and Analysis (MD&A); the Statement of Net Assets; the Statement of Revenues, Expenses, and Changes in Net Assets; the Statement of Cash Flows; and the Notes to the

Financial Statements. The report also contains the Statement of Financial Position and the Statement of Activities of the USI Foundation, a component unit of the University of Southern Indiana.

The financial statements provide a summary of the flow of economic resources during the fiscal year, the University's financial position at fiscal year end, comparative data from the previous fiscal year, and the net assets available for future use. The statements and the accompanying notes have been audited by the Indiana State Board of Accounts. Their opinion appears on the following page.

This report is a complete and permanent record of the financial status of the University of Southern Indiana for the period stated therein.

INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF UNIVERSITY OF SOUTHERN INDIANA, EVANSVILLE, INDIANA

We have audited the accompanying basic financial statements of University of Southern Indiana (University), a component unit of the State of Indiana, as of and for the years ended June 30, 2010 and 2009. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of the component unit of the University as discussed in Note 2, which represents 100% of the assets and revenues of the discretely presented component unit. The financial statements of this component unit were audited by another auditor whose report thereon has been furnished to us and our opinion, insofar as it relates to this unit, is based upon the report of the other auditor.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of the other auditor, the financial statements referred to above present fairly, in all material respects, the financial position of University of Southern Indiana, as of June 30, 2010 and 2009, and the changes in its financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated October 28, 2010, on our consideration of University's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis (MD&A) is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

October 28, 2010

STATE BOARD OF ACCOUNTS
State Board of Accounts

Management's Discussion and Analysis

Management's discussion and analysis reviews the financial performance of the University during the fiscal year ended June 30, 2010, and compares that performance with data from prior fiscal periods. It is designed to focus on current activities, resulting changes, and currently known facts. It is intended to answer questions that may result from the review of the information presented in the financial statements and to better explain the financial position of the University. The information presented in the financial statements, the notes to the financial statements, and the discussion and analysis are the responsibility of management.

Using the Annual Report

This annual report consists of a series of financial statements prepared from an entity-wide focus in accordance with the Governmental Accounting Standards Board Statement No. 35, *Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities*. These statements focus on the financial condition, the results of operations, and the cash flows of the University as a whole.

A key question to ask about the University's finances is whether the institution as a whole improved or declined as a result of the financial activities from the fiscal year. The answer is found in the Statement of Net Assets; the Statement of Revenues, Expenses, and Changes in Net Assets; and the Statement of Cash Flows. Discussion and analysis of each of these statements are presented in the following pages.

Statement of Net Assets

The Statement of Net Assets presents the value of the assets, liabilities, and net assets at the end of the fiscal year. It is prepared under the accrual basis of accounting; revenues and expenses, and their impact on assets and liabilities, are recognized when service is provided or received by the University, regardless of when cash is exchanged. Assets and liabilities are classified as current (accessible or payable in one year or less) or non-current (accessible or payable beyond one year); net assets are invested in capital assets, restricted for specific purposes, or unrestricted.

Net assets are one indicator of current financial health.

The increases or decreases in net assets that occur over time indicate improvements or deterioration of the University's financial condition.

Assets

Current assets at June 30, 2010, consist predominantly of cash and cash equivalents, short-term investments, receivables net of allowances for bad debt, and deposit with bond trustee. Also included are prepaid expenses, inventory, and accrued interest. Non-current assets include capital assets net of depreciation, long-term investments, and deferred outflow of resources related to the series 2006 and Series 2008A hedgeable financial derivatives. Both current and non-current assets include notes receivables and lesser-valued resources that are grouped together and listed under the term "Other".

STATEMENT OF NET ASSETS			
June 30 (in thousands)	2010	2009	2008
Current assets	\$ 68,254	\$ 102,541	\$ 69,350
Non-current assets:			
Capital assets, net of depreciation	180,872	153,764	133,349
Other non-current	40,196	31,137	36,338
Total Assets	\$289,322	\$287,442	\$239,037
Current liabilities	\$22,157	\$21,262	\$ 17,602
Non-current liabilities	146,867	155,402	119,821
Total Liabilities	\$169,024	\$176,664	\$137,423
Net assets:			
Invested in capital assets, net of debt	\$ 51,311	\$ 33,492	\$ 15,791
Restricted—expendable	44	28	850
Unrestricted	68,943	77,258	84,973
Total Net Assets	\$120,298	\$110,778	\$101,614

Total assets increased \$1.9 million (.7 percent) in 2010 compared to a \$48.4 million (20.3 percent) increase in 2009 and a \$15 million (6.7 percent) increase in 2008. The current year increase is explained by the following fiscal year events:

- Cash and investments decreased \$10.2 million in 2010 compared to a \$16.4 million increase in 2009, and a \$17.1 million increase in 2008 reflecting the University's commitment to improve campus facilities using institutional resources.
- Student receivables comprise 49 percent of the total accounts receivable amount and increased \$215,809 in 2010 compared to a \$145,480 increase in 2009 and a \$2.4 million decrease in 2008. Non-student receivables increased 1.9 million in 2010 with a \$300,000 increase in Bookstore credits due to the University, a \$560,000 repair and rehabilitation receivable due to the University from the State of Indiana, and a \$100,000 increase in grant billing reimbursements due to the University. The largest reasons for this increase are:
 - Fiscal year 2007 marked the implementation of a change in summer billing. In contrast to previous years, when each summer session was billed separately over three months, all 2007 summer sessions were billed before the fiscal year end. In fiscal year 2008, the third summer billings were identified and removed from receivables and income, bringing the total student receivables more in line and more comparable to previous years.
 - Fiscal year 2010 student receivables are 5.74 percent higher than those of fiscal year 2009, reflecting a combination of enrollment increases and student fee increases.
- Deposits with Bond Trustee decreased by \$16.6 million in 2010. The decrease primarily results from construction payments for the Business and Engineering Center and University Center renovation which were funded through the issuance of \$50.2 million in Series J bonds issued in February 2009 and held by the bond trustee until required for contractor payments.
- Gross capital assets increased by \$36.8 million in fiscal year 2010. Completion of the Recreation, Fitness, and Wellness Center expansion, parking lot improvements, purchases of rental property, capital equipment, and library materials accounted for \$14.2 million of the increase; work in progress on projects described in Note 16 of the *Notes to Financial Statements* created the remaining increase of \$22.6 million. These increases were offset by an increase in accumulated depreciation of \$9.7 million for a net capital asset increase of \$27.1 million in fiscal year 2010.

Liabilities

Current liabilities at June 30, 2010, are primarily composed of accrued payroll and related benefits and deductions and the current portion of bonds payable. Also included are accounts payable, debt interest payable, and other miscellaneous liabilities. Non-current liabilities are predominately bonds payable. Also included are derivative instruments-interest rate swap for Series 2006 and Series 2008A hedgeable financial derivatives, compensated absences, termination and postemployment benefits, an unamortized bond premium, and miscellaneous other long-term liabilities. Total liabilities decreased \$7.6 million (4.3 percent) in 2010 compared to an increase of \$37.7 million (27.4 percent) in 2009 and an increase of \$2.4 million (1.8 percent) in 2008. Activities that influenced this change include the following:

- Accrued payroll, related benefits, and deductions increased \$39,291 in 2010 compared to a \$524,024 increase in 2009 and a \$281,000 decrease in 2008.
 - Recognition of voluntary termination benefits decreased \$34,706 for 2010.
 - Benefit withholdings increased \$62,917 for the 2010 fiscal year.
 - Fiscal year-end withholding liabilities increased \$159,263 and wages payable decreased \$296,661.
 - In 2008, excess collections, which had accumulated over a three-year period, were removed from the benefits liability account to establish a holding fund of \$1 million to cover claims exceeding medical premiums collected during the year. This one-time change created a \$115,501 change for that fiscal period.
 - The liability for post retirement benefits increased by \$1.3 million in 2010.
 - Other minor changes in compensated absences and in miscellaneous deductions explain the remaining 2010 changes.
- The 2010 net change to notes and bonds payable equals a \$9.5 million decrease.
 - Paying down the existing debt decreased bonds payable by \$9.5 million.
 - See Note 7 in *Notes to Financial Statements* for more information on notes and bonds payable.

Net Assets

Net assets at June 30, 2010, are \$9.5 million greater than on June 30, 2009. Capital assets, net of related debt, increased \$17.8 million; restricted expendable assets increased \$15,055; and unrestricted assets decreased \$8.3 million. Unrestricted assets equal \$68.9 million and comprise 57.3 percent of total net assets. Of the total unrestricted amount, \$65.4 million have been internally designated as follows:

- \$21.2 million reserve for equipment and facilities maintenance and replacement
- \$13.5 million reserve for University benefits
- \$12.2 million reserve for auxiliary systems
- \$3.9 million reserve for working capital and outstanding encumbrances
- \$7.7 million reserve for academic operations and initiatives
- \$2.8 million reserve for insurance and equipment
- \$4.1 million reserve for medical premiums

ANALYSIS OF NET ASSETS (in millions)

Statement of Revenues, Expenses, and Changes in Net Assets

The Statement of Revenues, Expenses, and Changes in Net Assets presents the revenues earned and the expenses incurred during the fiscal year. This statement tells the reader to what extent the results of operations, non-operating revenues, and capital funding have had on the net assets of the University.

Activities are reported as either operating or non-operating. Student fees and revenues from auxiliary enterprises are the major sources of operating income. Operating income is reduced by discounts and allowances for scholarships,

room, and board. Discounts and allowances are institutional resources provided to students as financial aid up to and equal the amounts owed by the students to the institution.

An important point to recognize on this financial statement is that state appropriations and non-exchange governmental and corporate grants are required to be classified as non-operating revenues. This creates large operating deficits for public universities which rely heavily on state funding and governmental grants to meet their missions and goals. A truer measure of fiscal year net income is the amount shown on the statement as "Income before other revenues, expenses, gains, or losses".

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET ASSETS

Year Ended June 30 (in thousands)	2010	2009	2008
Total operating revenues	\$ 66,704	\$ 64,811	\$ 58,498
Total operating expenses	(127,562)	(120,779)	(109,392)
Operating losses	(60,858)	(55,968)	(50,894)
Net non-operating revenues/(expenses)	70,333	65,102	62,697
Income before other revenues, expenses, gains, or losses	9,475	9,134	11,803
Capital gifts, grants, and appropriations	45	30	801
Increase / (decrease) in net assets	\$ 9,520	\$ 9,164	\$ 12,604

Revenues

Operating revenues increased \$1.9 million (2.9 percent) in 2010 compared to \$6.3 million (10.8 percent) in 2009 and \$1.4 million (2.4 percent) in 2008. The increases are explained by the following significant fiscal year activities:

- Net student fee revenue increased from \$39.3 million in 2009 to \$40.5 million in 2010. This change was due principally to a fee increase of 5 percent and an enrollment increase of 3.9 percent.
- Auxiliary income increased from \$23.2 million in 2009 to \$23.8 million in 2010. The increase stemmed primarily from a 6 percent increase in housing income and an 11.6 percent increase in dining revenues.

Non-operating revenues experienced a net increase of 8.5 percent for the fiscal year ended June 30, 2010, compared to a 3.4 percent increase in 2009.

- State appropriations increased 4.2 percent from \$49.9 million in 2009 to \$52 million in 2010. The additional funding was comprised of \$1.6 million for general operating support and \$561,000 for repair and rehabilitation projects.

- Federal grants and contracts increased more than \$5.1 million (58.7 percent) compared to an increase of \$1.2 million (16.1 percent) in 2009. Federal student financial assistance accounted for \$4.5 million of the increase.

Total revenues (operating, non-operating, and other) increased \$7.9 million in fiscal year 2010 just as they did in 2009. The charts below show the composition of the University's revenue for fiscal years 2008–2010.

REVENUE CHARTS

State Appropriations Auxiliary Enterprises Net Student Fees Grants & Contracts All Other Revenue

Expenses

Operating expenses increased \$6.7 million (5.6 percent) this fiscal year compared to an \$11.4 million (10.4 percent) increase in 2009. The growth in operating expenses was driven by an increase in scholarship and fellowship awards during the fiscal year. Changes in expense categories were as follows:

- Compensation (salaries, wages, and benefits) comprised 56.3 percent of total operating expenses and increased 4.8 percent over 2009. Salaries and wages increased \$1.4 million and benefit expenses increased \$2 million. Instructional salary expenses increased by more than \$562,000 (3 percent) while administrative salaries increased by just over \$217,000 (1 percent). Other post retirement benefit costs accounted for just under \$1.1 million of the benefit increase, and medical insurance costs increased by more than \$754,000.
- Student financial aid increased by \$2.3 million for a 30.2 percent increase. Federal Pell grants increased by over \$4 million and helped to offset the \$3.5 million increase in scholarship discounts and allowances.
- Utilities increased \$347,000 (6.6 percent) compared to the prior year's increase of \$784,000 (17.6 percent). The increases were driven by a \$232,000 increase in electricity costs and a nearly \$54,000 increase in sewage costs.
- Supplies and other services expense increased by \$529,000 (1.8 percent) in 2010 compared to \$2.6 million (9.4 percent) in 2009. Expenses declined in legal fees (\$103,000 decrease), office supplies (\$115,000 decrease), general telephone (\$106,000 decrease), and purchases for resale (\$820,000 decrease) among other areas.

- Depreciation increased \$303,000, or 3.2 percent, in fiscal year 2010 compared to an increase of \$527,000, or 5.9 percent, in fiscal year 2009.

Non-operating expenses consist of interest on capital asset-related debt and other costs associated with issuing bonds and refinancing debt. These expenditures increased \$787,000 this year compared to a \$48,000 decrease in 2009. The change in fiscal year 2010 resulted from greater interest on capital debt expense, the majority of which related to the construction of the Business and Engineering Center. See Note 7 of the *Notes to Financial Statements* for more information.

Total expenses (operating and non-operating) increased \$7.6 million in fiscal year 2010 compared to an \$11.3 million increase in 2009 and a \$2.7 million increase in 2008. The composition of total expenses for all three years is depicted by major categories in the charts below.

Change in Net Assets

The difference between annual revenues and expenses causes an increase or decrease to net assets. For fiscal year ending June 30, 2010, net assets increased \$9.5 million compared to a \$9.2 million increase for fiscal year ending June 30, 2009. Total revenues increased more than total expenses during fiscal year 2010.

 ■ Non-operating Expenses

Statement of Cash Flows

The Statement of Cash Flows provides additional information about the financial health of the University by helping the user assess the ability to generate future cash flows, the ability to meet obligations as they come due, and the need for external financing.

This statement identifies the sources and uses of cash and equivalents throughout the fiscal year and informs the user how much cash was used by or provided by the following activities: operating, noncapital financing, capital financing, and investing. The chart below shows the University's sources, uses, and changes in cash and cash equivalents for fiscal years 2008–2010.

STATEMENT OF CASH FLOWS			
Year ended June 30 (in thousands)	2010	2009	2008
Net cash (used) / provided by			
Operating activities	(\$51,013)	(\$45,646)	(\$39,759)
Noncapital financing activities	75,019	69,172	65,466
Capital financing activities	(53,292)	890	(13,130)
Investing activities	19,356	(26,634)	(6,061)
Net increase / (decrease) in cash	(\$ 9,930)	(\$ 2,218)	\$ 6,516

Operating activities

- Cash used by operating activities increased \$5.4 million in 2010 compared to a \$5.9 million increase from 2008 to 2009.
- Student fees and auxiliary enterprises provided the largest inflow in cash for all fiscal years.
- Payments to employees (wages and benefits) and suppliers caused the largest outflow of cash for all fiscal years.

Noncapital financing activities

- Cash provided by noncapital financing activities increased \$5.8 million in 2010 compared to a \$3.7 million increase from 2008 to 2009.
- State appropriations provided the largest cash inflow in all fiscal years.

Capital financing activities

- Cash used by capital financing activities increased \$54.2 million in 2010 compared to a \$14 million decrease in 2009. The 2010 increase stemmed predominantly from the expenditure of proceeds from Series J Bonds for the Business and Engineering Center.
- Capital gifts and grants generated the largest cash inflow in 2010; proceeds from capital debt generated the largest cash inflow in 2008 and 2009.
- Purchases of capital assets generated the largest cash outflow in 2009 and 2010 while principal and interest paid on capital debt generated the largest cash outflow in 2008.

Investing activities

- Cash provided by investing activities increased \$46 million during 2010 compared to a \$20.6 million decrease in 2009. The 2010 increase resulted principally from a change in the amount on deposit with the bond trustee for the Series J Bonds.
- Proceeds from sales and maturities of investments decreased \$16.8 million in 2010 compared to an \$11.8 million increase in 2009.
- Cash used for purchases of investments decreased \$2.9 million in 2010 following a \$12.7 million decrease from 2008 to 2009.

Summary of Statement of Cash Flows

For the year ended June 30, 2010, more cash was used for operating activities, more cash was provided by noncapital financing activities, more cash was used by capital financing activities, and more cash was provided by investing activities than in the previous fiscal year. As a result of these activities, the University decreased its cash position by \$9.9 million, ending the fiscal year with a cash balance of \$9.8 million.

Factors Impacting Future Periods

The 2009 Indiana General Assembly approved \$15 million in bonding authority for the construction of a 16.5 million, 350-seat Teaching Theatre on the USI campus to replace the current theatre, costume shop, and scene shop located four miles from campus. The project must be reviewed by the Commission for Higher Education and the State Budget Committee before construction. The Commission for Higher Education review is underway and the State Budget Committee review is anticipated in December 2010. The University intends to avail itself of only \$13 million of the \$15 million legislatively authorized and fund the balance of the \$16.5 million project from \$2 million in private gifts currently being solicited, and \$1.5 million of University resources, much of which has already been expended to fund the design.

The University is dependent upon resources provided by the State of Indiana and as such continues to monitor the financial position of the State very closely. USI maintains its reputation as a great value in higher education with the lowest tuition and lowest total cost of attendance of any baccalaureate degree granting state supported institution of higher education in Indiana. The University's market position, value, quality, and pricing have helped it continue to grow enrollment and broaden the catchment area for prospective students while maintaining student quality during a period of challenging economic times.

The University's 2011–2013 biennial budget request was prepared under new performance-based funding incentives identified by the Indiana Commission for Higher Education. The University performed well under these new funding criteria which measure such items as on-time degree completion, low income degree completion, and successful completion of credit hours. It is unclear whether the state's fiscal condition will allow full funding of University's computed allocations under the new funding criteria.

The University of Southern Indiana is maturing. Its rate of growth is consistent, but leveling, as it continues to develop into a residential campus and gains prominence not only locally and regionally but also nationally and internationally. Total enrollment for academic years ending 2006 through 2010 reflects an increase of 5.12 percent; full-time equivalents for the same period increased 3.13 percent. Full-time students represent 83.6 percent of the total student population. Housing occupancy has stabilized with an occupancy rate averaging in excess of 90 percent over the past five-year period. The following graph illustrates enrollment and housing occupancy for the five-year period 2006 to 2010.

Notes to Financial Statements

NOTE 1 – Summary of Significant Accounting Policies

The University of Southern Indiana was established in 1985 as described in the Indiana Code (IC 21-24-1 through IC 21-24-4-1). The University is managed by a nine-member board of trustees whose members are appointed by the governor. The board must include at least one alumnus, one resident of Vanderburgh County, and one full-time student in good standing. Each member must be a citizen of the United States and a resident of the State of Indiana. Trustees serve four-year terms with varying expiration dates with the exception of the student trustee, who serves a term of two years.

The University is a special-purpose governmental entity which has elected to report as a business-type activity using proprietary fund accounting, following standards set forth by the Governmental Accounting Standards Board (GASB). The financial reporting emphasizes the entity as a whole rather than the individual fund groups—unrestricted, designated, auxiliary, restricted, loans, agency, and plant funds—that comprise the whole.

The University also is considered a component unit of the State of Indiana. As such, the University is financially integrated with the State and depends on annual appropriations from the State to maintain quality service to students and to deliver quality programs. The University must receive authorization from the State before undertaking major capital projects. As a component unit, public higher education institutions, as a group, will be discretely presented on the Comprehensive Annual Financial Report issued annually by the State of Indiana.

The University includes the University of Southern Indiana Foundation, Inc. as a component unit as defined by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*. The Foundation is a private nonprofit organization that reports under the standards of the Financial Accounting Standards Board (FASB). As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the University's financial report for these differences.

Accounting Methods and Policies

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting.

- Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

- Restricted revenues and receivables resulting from non-exchange transactions are recognized when all applicable eligibility requirements are met. Resources received before eligibility requirements are met are recorded as deferred revenues.
- Revenue from major sources is susceptible to accrual if the amount is measurable.
- Internal service activity, referred to as chargeback income/expense, has been eliminated from the Statement of Revenues, Expenses, and Changes in Net Assets to prevent the double-counting of expenses and the recognition of self-generated revenue.

Capital Assets Accounting Policies

The University established a capitalization threshold of \$5,000 and a useful life greater than two years. The University records depreciation for all capital assets with the exception of land and historical sites. Depreciation is calculated on a straight-line basis over the estimated useful life of the asset. The estimated useful life of each capital asset group is as follows:

- Building components (shell, roof, utilities, and internal) – 8 to 50 years
- Equipment – 5 to 15 years
- Land improvements – 15 years
- Infrastructure – 25 years
- Library materials – 10 years

Plant assets are removed from the records at the time of disposal. See Note 17 in the *Notes to Financial Statements* for current-year activity and accumulated depreciation on the various classes of assets.

The University owns a collection of museum exhibit items located in Historic New Harmony. The collection consists of 2,800 objects that are primarily 19th century decorative arts, furniture, prints, medical equipment, and textiles. The collection consists of both donated and purchased items. Per the code of ethics for museums, Historic New Harmony does not place a monetary value on the collection. Museums are organized as public trusts that act as stewards for the public in collecting, protecting, preserving, and interpreting objects. A well-documented inventory is maintained, but the value is unknown and therefore not included in the capitalized asset value at June 30, 2010.

The University owns a permanent art collection whose primary function and aim is education in accordance with one element of the University's mission: to enhance the cultural awareness of its students, faculty, staff, and the citizens of southwestern Indiana. The collection consists of both donated and purchased items. Many of the donated pieces were received without

appraised values. Collection pieces which have been appraised or purchased are valued at \$1,463,031. Appraised values for the remaining collection will be obtained over future periods. The currently-known value is not included in the capitalized asset value at June 30, 2010.

Operating Revenues and Expenses

Operating revenues of the University consist of student fee income, operating grants and contracts, collections of loans to students, sales and services of educational activities, and auxiliary enterprise revenues. Operating expenses include payments to suppliers for goods and services, employee wages and benefits, and payments for scholarships.

Non-operating Revenues and Expenses

Non-operating revenues of the University consist of state appropriations, gifts, non-exchange grants, and investment income. Non-operating expenses include interest on capital asset related debt, bond issuance costs, and annual bond management fees.

Other Disclosures

The Statement of Cash Flows is presented using the direct method, and it identifies the sources and uses of both cash and cash equivalents during the fiscal year. Cash equivalents are investment instruments, typically certificates of deposits and repurchase agreements, which have an original maturity date of 90 days or less.

Investments are recognized in the accounting records at cost on the date of purchase. For financial statement presentation, they are reported at the market value in effect on June 30 of the current fiscal year. Unrealized gain or loss is included with interest income on the Statement of Revenues, Expenses, and Changes in Net Assets.

Prepaid expenses and inventories of materials and supplies are considered expenditures when used. The inventory on hand at the end of the fiscal year is valued using a perpetual system, and cost is determined using the first-in, first-out method of inventory accounting.

Inventories of retail merchandise are considered expenditures when purchased. The value of the inventory on hand at the end of the fiscal year is based on a physical count. Cost is determined using the retail or weighted average method of accounting.

The University prepares its financial statements according to the standards set by the Governmental Accounting Standards Board (GASB). To the best of the University's knowledge, it has not adopted any Financial Accounting Standard Board (FASB) statements issued after November 30, 1989.

NOTE 2 – Component Units

The University of Southern Indiana Foundation is a legally separate, tax-exempt entity formed in 1969 to provide support for the University of Southern Indiana, its faculty and students, and to promote educational, scientific, charitable, and related activities and programs exclusively for the benefit of the University. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the University in support of its programs. During the year ended June 30, 2010, the USI Foundation distributed \$2,969,069 in direct and indirect support to the University for both restricted and unrestricted purposes.

The majority of the resources that the Foundation holds and invests, and the income generated by those resources, are restricted to the activities of the University by the donors. Because these resources can only be used by or for the benefit of the University, the USI Foundation is considered a component unit of the University, and its audited financial statements are discretely presented in the University's financial statements.

The USI Foundation maintains its accounts in accordance with the principles and practices of fund accounting. Resources are classified in accordance with activities or objectives specified by donors. The Statement of Activities displays revenues, expenses, and changes in net assets as permanently restricted, temporarily restricted, and unrestricted. Complete financial statements, including explanatory notes, for the USI Foundation can be obtained from the Office of the Vice President for Business Affairs at 8600 University Boulevard, Evansville, Indiana 47712.

NOTE 3 – Interrelated Organization

The University of Southern Indiana/New Harmony Foundation, Inc. was formed in 1986 to assist in supporting and developing Historic New Harmony, an auxiliary enterprise of USI which operates in New Harmony, an historic town in southwestern Indiana thirty miles from campus. During fiscal year 2009–10, this foundation contributed \$70,891 to Historic New Harmony operations. At June 30, 2010, the stated value of the USI/NH Foundation's net assets was \$509,451. These assets are not included in the financial statements of the University.

NOTE 4 – Deposit and Investment Risk Disclosures

It is the policy of the University of Southern Indiana to manage the investment portfolio of the University in a manner described in IC 30-4-3-3. Authorized investments include obligations of the U.S. Treasury and U.S. government agencies, certificates of deposit, repurchase agreements, money market mutual funds, savings, and negotiable order-of-withdrawal accounts. Investments with Indiana institutions are limited to those banks, savings banks, and savings and loan institutions that provide deposit insurance for university funds under Indiana statutes by the Public Deposit Insurance Fund, in addition to the amounts insured by agencies of the United States government—Federal Deposit Insurance Corporation/Savings Association Insurance Fund (FDIC/SAIF). Investments with non-Indiana institutions must be insured by agencies of the U.S. government to the maximum statutory amount of \$250,000.

Deposits – At June 30, 2010, the bank balances of the University's operating demand deposit accounts were \$6,040,315, of which \$448,941 was covered by federal depository insurance. The remaining balance was insured by the Public Deposit Insurance Fund, which covers all public funds held in approved Indiana depositories. None of these funds were exposed to custodial credit risk, which is the risk that, in the event of the failure of a depository financial institution, the University will not be able to recover deposits or collateral securities that are in the possession of an outside party.

Investments – The University's investments at June 30, 2010, are identified in the table below.

INVESTMENTS

Investment Type	Market Value	Type %	Investment Maturities (in Years)			
			Less than 1 year	1–5 years	6–10 years	More than 10 years
Money market accounts	\$4,742,429	7%	\$4,742,429			
Repurchase agreements	5,048,249	7%	5,048,249			
Certificates of deposit	24,049,743	36%	16,499,397	7,450,084	100,262	
U.S. Treasury & agency securities *	33,960,976	50%	4,219,743	17,327,877	11,553,459	859,896
Totals	\$67,801,397	100%	\$30,509,818	\$24,777,961	\$11,653,721	\$859,896
Maturity %	100%		45%	37%	17%	1%

*U.S. Treasury and agency securities carry an AAA rating from both Moody's and Standard and Poor's.

Investment custodial credit risk – This is the risk that, in the event of the failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the \$68 million invested, \$33.9 million in U.S. government securities are held in the name of the nominee bank and insured by policies of the financial institution or guarantees of the U.S. government. There are \$5 million in repurchase agreements registered in the University's name and backed by the implicit guarantee of the U.S. government. All cash in the money market accounts and the certificates of deposit are insured by FDIC/SAIF, the Public Deposit Insurance Fund, or collateral as required by federal regulations.

Interest rate risk – This is the risk that changes in interest rates will adversely affect the fair value of an investment. The University's investment policy does not address exposure to fair value losses arising from changes in interest rates, but the investment objective is to obtain the highest revenue while maintaining safety and insuring adequate liquidity for institutional needs. To that end, management maintained 45 percent of investments in cash equivalents and short-term investments to be in a position to take advantage of the best rates in a timely fashion as well as sustaining adequate cash flow for operating needs.

Credit risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Of the total U.S. government securities listed in the table above, \$33.1 million are invested in government-sponsored enterprises that are neither guaranteed or insured by the full faith and credit of the U.S. Treasury, and, therefore have more credit risk than any direct obligation of the U.S. Treasury.

Concentration of credit risk – This is the risk of loss attributed to the magnitude of the University's investment in a single issuer. The University's policy limits the investments in any one Indiana institution to 25 percent of the total portfolio of cash, certificate of deposits, and repurchase agreements as valued at the end of the preceding month. Operating funds which are invested in overnight repurchase agreements as part of the cash management program are excluded from the 25 percent limit. At June 30, 2010, the University was in compliance with that policy. The University has more than 5 percent of investments with one institution but mitigates this risk with FDIC and Indiana Public Depository insurance protection.

Foreign currency risk – This is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The University does not have any global investments and, therefore, is not exposed to foreign currency risk.

NOTE 5 – Accounts Receivable

Accounts receivable are recorded net of allowance for uncollectible student fees of \$560,330 and auxiliary services fees of \$286,429. Prior-year allowances were \$516,265 for

student fee receivables and \$262,037 for auxiliary services receivables. The accounts receivable balance for the 2009–10 fiscal year includes \$3,975,575 in net student receivables and \$4,129,979 in external receivables.

NOTE 6 – Derivative Instruments

The fair value balances and notional amounts of the derivative instruments outstanding at June 30, 2010, classified by type and the fair value changes of those derivative instruments are as follows.

As of June 30, 2010, the University determined that both pay-fixed interest rate swaps met the criteria for effectiveness. The pay-fixed, receive-variable interest rate swaps are designed to synthetically fix the cash flows on the variable rate bonds. The fair value of the interest rate swaps was estimated based on the present value of their estimated future cash flows.

CHANGE IN FAIR VALUE				FAIR VALUE AT JUNE 30, 2010	
Derivative Instrument	Type	Amount	Classification	Amount	Current Notional
Series 2006	Cash flow hedge: Pay-fixed interest rate swap	\$(241,102)	Derivative Instrument Interest Rate Swap	\$(1,126,132)	\$6,723,702
Series 2008A	Cash flow hedge: Pay-fixed interest rate swap	\$(386,235)	Derivative Instrument Interest Rate Swap	\$(1,039,298)	\$9,450,000

The following table displays the objectives and terms of the University's hedging derivative instruments outstanding at June 30, 2010, along with the credit rating of the associated counterparty.

Type	Objective	Current Notional	Effective Date	Maturity Date	Terms	Counterparty Credit Rating
Pay-fixed interest rate swap	Hedge of changes in cash flows on the Series 2006 Bonds	\$6,723,702	1/01/2008	1/01/2028	65% of 3 mo. USD-LIBOR-BBA	A1
Pay-fixed interest rate swap	Hedge of changes in cash flows on the Series 2008 Bonds	\$9,450,000	7/01/2008	10/01/2021	65% of 3 mo. USD-LIBOR-BBA w/- 1 day look back, 79.0 bps	A1

Credit Risk – The fair value of the hedging derivative instruments is in a liability position as of June 30, 2010, with Series 2006 having a balance of \$1,126,132 and Series 2008A having a balance of \$1,039,298. Since both of the derivative instruments and the debts being hedged are with the same counterparty, there is no credit risk exposure. The fair value of the derivative instruments would simply be netted against the payoff of the debts.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely impact the fair market value of the derivative instruments. On a pay-fixed, receive-variable interest rate swap, the University will be negatively impacted by the lower rate environment, which will decrease the fair market values of its derivative instrument. The derivative instrument for Series 2006 fixes the hedged debt at 4.67 percent and Series 2008A is fixed at 3.97 percent.

Basis Risk – Basis risk is the risk that the University may lose cash flows because of the differences in the indexes upon

which the derivative instrument and the item it hedges are based. The University is not exposed to basis risk since both derivative instruments and the associated debts being hedged are based on the three-month LIBOR index.

Termination Risk – The University or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. The University is also exposed to termination risk if the student fee or auxiliary bonds are prepaid or partially prepaid. This risk is only to the extent the notional amount of the swap transactions exceeds the remaining amount after the prepayment.

Rollover Risk – Rollover risk is the risk that the maturity of the derivative instrument is shorter than the maturity of the associated debt. Since both the derivative instruments and the debt being hedged have identical maturity dates, there is no rollover risk to the University.

NOTE 7 – Debt Related to Capital Assets

Bonds Payable – Outstanding bonds payable at June 30, 2010, total \$149,425,826 and are identified in the following schedule.

SCHEDULE OF BONDS AND NOTES PAYABLE

	Issue Date	Interest Rate	Current Year Rate	Maturity Date	Original Issue Amount	Principal Outstanding	June 30, 2010 Interest Outstanding	Total Outstanding

*This bond is a variable interest bond with weekly rates. The rate listed above is the average rate paid during the fiscal year.

The University of Southern Indiana Student Fee Bonds Series D of 1993, Series F of 1998, Series G of 1999, Series H of 2001, Series I of 2004, and Series J of 2009 are secured by a pledge of and first lien on student fees. Student Fee Bonds Series 2006 are secured by a pledge of and junior lien on student fees.

The University of Southern Indiana Auxiliary System Revenue Bonds, Series 2001A; Auxiliary System Revenue Bonds, Series 2003; and Auxiliary System Revenue Bonds, Series 2008A are secured by a pledge of and parity first lien on the net income from the Auxiliary System (student housing, parking facilities,

and dining services), any insurance proceeds, amounts held in the debt service funds or project funds, and investment income thereon.

Student fee bond Series G is a variable rate bond currently bearing interest at weekly rates ranging between zero and 10 percent. The rate in effect at June 30, and the rate used to calculate the future debt service requirements, was .60 percent. All the other bonds are term or serial with fixed annual rates as identified in the preceding table. Annual debt service requirements through maturity for bonds and notes payable are presented in the following chart.

ANNUAL DEBT SERVICE REQUIREMENTS

Fiscal Year	Bonds	Notes	Total Principal	Total Interest	Total Debt Service
2010–11	9,021,775		9,021,775	7,451,906	16,473,681
2011–12	9,393,392		9,393,392	7,066,033	16,459,425
2012–13	9,819,160		9,819,160	6,631,964	16,451,124
2013–14	9,273,825		9,273,825	6,192,199	15,466,024

2025–29	15,752,482		15,752,482	1,808,248	17,560,730
Total	\$ 149,425,826	\$0	\$ 149,425,826	\$ 63,353,474	\$ 212,779,300

NOTE 8 – Operating Leases

For the fiscal year ended June 30, 2010, the University spent \$367,060 on operating leases which are included in supplies and other services in the Statement of Revenue, Expenses,

and Changes in Net Assets of which \$85,130 was spent on leasing off campus classroom and office space, \$273,943 was spent on equipment, and \$7,987 was spent on vehicle leases.

NOTE 9 – Compensated Absence Liability

Vacation leave and similar compensated absences (such as sick leave) based on past service are accrued as a liability as earned. The liability is measured at the salary rate in effect at the balance sheet date, and additional amounts are accrued for all required salary-related payments due a terminating or retiring employee. The salary-related payments subject to this accrual include the University's share of Social Security and Medicare taxes, as well as the University's contributions to a defined benefit pension plan.

The total cumulative compensated absence liability reflected in the Statement of Net Assets is \$2,173,822 and \$2,312,609 for June 30, 2010 and 2009 respectively. The current year change represents \$104,398 decrease in accrued vacation; \$21,133 decrease in sick leave liability; \$9,603 decrease in Social Security and Medicare taxes; and \$3,653 decrease in Public Employees' Retirement Fund (PERF) contributions. During the fiscal year, \$155,770 was paid out to terminating employees. Payout for terminating employees in fiscal year 2010–11 is expected to increase approximately 85 percent because of the number who will have reached the requisite retirement age and years of service. For that reason, \$288,116 of the total compensated absence liability is classified as a current liability and the remaining \$1,885,706 is classified as a noncurrent liability.

NOTE 10 – Termination Benefits Liability

GASB Statement No. 47, *Accounting for Termination Benefits*, requires the University to recognize a liability and an expense for voluntary termination benefits, such as early-retirement incentives, when the offer is accepted and the amount can be estimated. Members of USI's regular full-time faculty and administrative staff who have been employed in an eligible position prior to January 1, 1999, who have 15 or more consecutive years of service, and who are age 60 or older may receive early-retirement benefits upon request. These benefits include a lump-sum retirement service pay calculated as a percent of final-year salary based on length of service, not to exceed 25 percent, and continued contribution to retirement annuity contracts through the end of the fiscal year in which the retiree reaches age 66. Salaries are assumed to increase at a rate of 3.1 percent annually for purposes of calculating this liability.

USI has 17 retirees currently receiving early-retirement benefits, seven of whose benefits stop after this fiscal year, and 14 more who have arranged to begin receiving benefits within the next three years. The liability for these benefits totals \$888,542 at June 30, 2010. Of that amount, \$190,171 is expected to be paid out during the following fiscal year, and the remaining \$698,371 has been classified as noncurrent. This liability will change annually as more employees elect this benefit and as benefits for current retirees end.

NOTE 11 – Retirement Plans

Substantially all regular employees of the University are covered by either the *Teachers Insurance and Annuity Association-College Retirement Equities Fund Retirement Plan* (TIAA-CREF) or the *State of Indiana Public Employees' Retirement Fund* (PERF). The TIAA-CREF plan is an IRC 403(b) defined contribution plan; PERF is a defined benefit plan under IRC 401(a) and a state plan described in IC 5-10.2 and 5-10.3. The University contributed \$5,511,869 to these programs in fiscal year 2009–10, which represents approximately 11 percent of the total University payroll and 13 percent of the benefit-eligible employees' payroll for the same period.

Faculty and Administrative Staff Eligible employees may participate in the TIAA-CREF Retirement Plan upon the completion of one year of employment. Participation may begin sooner if the employee was a participant in TIAA-CREF, or another university-sponsored retirement plan, for at least one year prior to eligible employment at USI. The University contributes 11 percent of each participating employee's base appointment salary up to \$10,800 and 15 percent of the base appointment salary above \$10,800. The University contributed \$4,671,645 to this plan for 582 participating employees for fiscal year ending June 30, 2010, and \$4,476,885 for 557 participating employees for fiscal year ending June 30, 2009. The annual payroll for this group totaled \$34,472,823 and \$33,693,343 for fiscal years ending June 30, 2010 and 2009 respectively.

TIAA-CREF issues an annual financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. That report may be obtained by writing Teachers Insurance and Annuity Association-College Retirement Equities Fund, 730 3rd Avenue, New York, NY 10017-3206, or via its web site at www.tiaa-cref.org.

Support Staff Employees in eligible positions and who work at least half-time participate in PERF, a retirement program administered by an agency of the State of Indiana. PERF is an agent multiple-employer public employee retirement system, which provides retirement benefits to plan members and beneficiaries. Benefit provisions are established and/or amended by the State of Indiana. There are two parts to this plan: an annuity savings plan to which the University contributes 3 percent of the employee's salary, and a defined benefit agent multi-employer plan to which the University contributed 6.5 percent of the employee's salary this fiscal year. Employees are eligible to participate in this plan immediately upon employment and are fully vested in the defined benefit part of the plan after ten years of employment. The University contributed \$828,829 for 404 employees participating in PERF during the 2009–10 fiscal year and \$818,387 for 397 employees participating during 2008–09.

The contribution requirements for plan members of PERF are set by the PERF Board of Trustees. Actuarial information related to the University's participation in the plan is disclosed in the tables below for three past fiscal years.

PERF—SCHEDULE OF FUNDING PROGRESS

(dollars in thousands)

Fiscal Year Ending June 30	Actuarial Value of Plan Assets (A)	Actuarial Accrued Liability (B)	Unfunded (Overfunded) Accrued Liability (C)	Funded Ratio (A/B)	Actual Covered Payroll (D)	Unfunded Liability as % of Payroll (C/D)
2007	7,306	7,185	(121)	101.7%	7,919	(1.5%)
2008	7,678	7,816	138	98.2%	8,298	1.7%
2009	7,347	8,461	1,114	86.8%	8,800	12.7%

PERF—DEVELOPMENT OF NET PENSION OBLIGATION

	2007	2008	2009
Annual Required contribution (ARC) *	\$434,300	\$435,911	\$493,983
Interest on Net Pension Obligation @ 7.25%	(36,140)	(34,401)	(38,466)
Adjustments to ARC **	(41,184)	(39,203)	(43,834)
Annual Pension Cost (APC)	356,976	362,307	411,683
Contributions made by USI ***	415,360	496,772	543,200
Decrease in Net Pension Obligation	(58,384)	(134,465)	(131,517)
Net Pension Obligation, Beginning of Year	(663,398)	(721,782)	(856,247)
Net Pension Obligation, End of Year	(\$721,782)	(\$856,247)	(\$987,764)

* Determined to be equal to the same percent of salary as the entire State of Indiana

** Net Pension Obligation at beginning of year divided by amortization factor of 12.1037

*** Percentage of APC contributed: 2007 at 116.4%; 2008 at 137.1%; and 2009 at 131.9%

The required contribution was determined as part of the actuarial valuation as of July 1, 2008, using the Entry Age Normal Cost Method. The actuarial assumptions included: (a) 7.25 percent investment rate of return (net of administrative services); (b) projected salary increases of 4 percent per year; and (c) 1.5 percent per year cost-of-living adjustments. Current-year information concerning funding and obligation was not available at the time of this report.

PERF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. That report may be obtained by writing the Public Employees' Retirement Fund, Harrison Building, Suite 800, 143 West Market Street, Indianapolis, IN 46204, or by calling (317) 232-4162.

NOTE 12 – Risk Management

The University is exposed to various risks of loss: torts; errors or omissions; theft, damage, or destruction of assets; job-related illness or injuries to employees; and natural disasters. The University manages these risks of loss through combinations of risk retention and commercial insurance. Property insurance for buildings and contents and other special form coverage is subject to a self-insured retention of \$25,000 per occurrence. Earthquake and flood have a minimum deductible of \$100,000 each loss. Educators' legal liability has a \$50,000 deductible for each wrongful acts claim. General liability, commercial crime, workers' compensation, commercial auto, and medical malpractice, as well as life and disability insurance, are insured by commercial insurance subject to various deductibles. No liability exists at the balance sheet date for unpaid claims.

The University has three health care plans for full-time benefit-eligible employees and three plans for retirees. One plan for employees and retirees is fully insured. Two plans for employees and two for retirees are funded under a cost-plus arrangement whereby the University is billed for actual claims paid by the insurer on behalf of the covered participants plus an administrative fee. The majority of employees and retirees, 73 percent and 93 percent respectively, participate in the fully-funded cost-plus plan. For fiscal year ended on June 30, 2010, the University's contribution to these health care plans totaled \$6,264,984

for 1,088 employees and \$879,580 for 217 retirees. For the same period, employees and retirees made contributions totaling \$1,796,801 and \$292,861 respectively.

The University assumes the risk for medical claims exceeding the maximum expected cost but has mitigated the additional risk by purchasing specific and aggregate stop loss coverage at 125 percent of the expected claims liability. The University also has established a reserve to cover any unpaid liability beyond 125 percent. The liability for medical claims incurred but not reported at June 30, 2010, is based on an average monthly claim multiplied by the plan provider's average turnaround time from when claims are incurred to when claims are submitted to USI for payment. Changes in the balance of claims liabilities during the 2010 fiscal year are as follows.

Beginning liability, June 30, 2009	\$1,435,511
Claims incurred	6,400,146
Claims paid	(6,278,725)
Ending liability, June 30, 2010	\$1,556,932

NOTE 13 – VEBA Trust

The University established a Voluntary Employees' Benefit Association (VEBA) trust for the purpose of providing medical, dental, and life insurance benefits to employees who retire after attaining age 60 with at least ten years of service and to those retiring under the Rule of 85. The trust is funded from three sources: University contributions and reserves designated by the Board of Trustees for this purpose, employee payroll deductions for post-retirement benefits, and retiree contributions for medical insurance premiums. Funds will accumulate in the trust for several years before any disbursements are made. The University does not anticipate that the trust will pay for all post-retirement benefits, but rather be used to reduce the increasing burden of such expenses on the current operating funds. A summary of the activity in the trust for the year ending June 30, 2010, is as follows.

VEBA TRUST	
	MARKET
Fund balance at July 1, 2009	\$8,022,197
Transfer from University reserves	900,000
Employee/employer contributions	162,762
Retiree/employer contributions	23,518
Reinvested net earnings	213,945
Net gain/(loss) on sales of trust investments	(39,727)
Less: Management fees and taxes	(28,849)
Net change in market value	727,215
Fund balance at June 30, 2010	\$9,981,061

Funds that are placed into the trust cannot revert to the University under any circumstances; therefore, the financial statements of the University do not include the value of these assets.

NOTE 14 – Other Postemployment Benefits (OPEB)

Plan Description. The USI Voluntary Employees' Benefit Association (VEBA) Trust is a single-employer defined benefit healthcare plan administered by the Old National Trust Company. The VEBA Trust was established for the purpose of providing medical and dental benefits to eligible retirees and their spouses. The USI Board of Trustees has the authority to establish or amend the benefit provisions of the plan. Old National Trust Co. does not provide a stand-alone financial report of the USI VEBA Trust, but the plan assets and financial activity are included as part of its publicly-available audited financial report. That report may be obtained by writing to Old National Bancorp, One Main Street, PO Box 718, Evansville, IN 47705, or by calling (800) 731-2265.

Funding Policy. The contribution requirements are established and may be amended by the USI Board of Trustees. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the governing board. For the fiscal year ended June 30, 2010, USI contributed \$1,962,924 to the plan, including \$1,062,924 for current premiums (approximately 82 percent of total premiums), and \$900,000 to prefund benefits. Plan members receiving benefits contributed \$239,087, or approximately 18 percent of the total premiums, through their required contributions for medical insurance coverage.

Annual OPEB Cost and Net OPEB Obligation. The University's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the USI VEBA Trust's annual OPEB cost for the last three fiscal years, the amount actually contributed to the plan, and changes in the net OPEB obligation to the plan.

	2008	2009	2010
Annual required contribution	\$2,146,904	\$2,146,904	\$3,243,885
Interest on net OPEB obligation	0	17,942	32,080
Adjustment to annual required contribution	0	(19,304)	(37,644)
Annual OPEB cost	2,146,904	2,145,542	3,238,321
Contributions made	(1,890,588)	(1,943,575)	(1,925,511)
Increase (decrease) in net OPEB obligation	256,316	201,967	1,312,810
Net OPEB obligation, beginning of year	0	256,316	458,283
Net OPEB obligation, end of year	\$ 256,316	\$ 458,283	\$1,771,093

Because the requirements of GASB 45 were implemented in the 2008 fiscal year, the beginning of year net OPEB obligation for that fiscal year was set to zero, and the measurements and recognition requirements are being applied prospectively.

The USI VEBA's annual OPEB cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation for the last three fiscal years are as follows.

Year Ending	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6-30-2008	\$2,146,904	88.1%	\$256,316
6-30-2009	\$2,145,542	90.6%	\$458,283
6-30-2010	\$3,238,321	59.5%	\$1,771,093

Funded Status and Funding Progress. As of June 30, 2010, the plan was 25.1 percent funded. The actuarial accrued liability (AAL) for benefits was \$31,590,331, and the actuarial value of assets was \$7,940,404, resulting in an unfunded actuarial accrued liability (UAAL) of \$23,649,927. The covered payroll (annual payroll of active employees covered by the plan) was \$45,316,205, and the ratio of the UAAL to covered payroll was 52.2 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost

trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the

SCHEDULE OF FUNDING PROGRESS FOR THE USI VEBA TRUST RETIREE HEALTHCARE BENEFIT PLAN

Actuarial Valuation Date	Actuarial Value of Assets (A)	Actuarial Accrued Liability (AAL) – Projected Unit Credit Method (B)	Unfunded AAL (UAAL) (B – A)	Funded Ratio (A/B)	Covered Payroll (C)	UAAL as a Percentage of Covered Payroll ((B-A)/C)
6/30/2008	\$8,103,990	\$21,861,558	\$13,757,568	37.07%	\$41,286,734	33.32%
6/30/2009	\$8,022,197	\$21,861,558	\$13,839,361	36.70%	\$44,510,381	31.09%
6/30/2010	\$7,940,404	\$31,590,331	\$23,649,927	25.14%	\$45,316,205	52.19%

future. The Schedule of Funding Progress presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumption. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the most recent actuarial study evaluation, which was June 30, 2010, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 7 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on the asset classes held in the VEBA Trust, and an annual healthcare cost trend rate for each medical plan. In general, the trend rates start at 8 percent initially, reducing each year until reaching an ultimate rate of 5.7 percent in 2020. The actuarial value of assets for the purposes of determining the annual recommended contribution is the market value of the assets. The UAAL is being amortized as a level dollar amount on an open basis over a 30 year period.

NOTE 15 – Functional Expenditures

Operating expenses are reported by natural classification on the face of the Statement of Revenue, Expenses, and Changes in Net Assets. Some users of the financial statements have a

need to know expenses by functional classification, either for trend analysis or for comparison to other higher education institutions. This information is presented in the table below.

FUNCTIONAL EXPENDITURES

FUNCTION	SALARIES and WAGES	BENEFITS	SCHOLAR-SHIPS	UTILITIES	SUPPLIES and OTHER SVCS	DEPRECIATION	2010 TOTAL	2009 TOTAL
Instruction	\$26,788,476	\$ 9,782,649			\$ 2,033,851		\$ 38,604,976	\$ 36,502,625
Academic Support	5,054,113	1,947,286			4,544,734		11,546,133	11,675,968
Student Services	3,890,617	1,758,917			1,730,263		7,379,797	7,311,768
Institutional Support	7,567,887	2,073,694			3,160,268		12,801,849	11,715,202
Operation and Maintenance of Plant	3,096,017	1,633,920		4,593,482	3,351,851	7,072,819	19,748,089	19,525,928
Student Aid	320,482	765,783	9,484,020		17,838		10,588,123	7,914,622

Research	47,755	10,747			141,412		199,914	162,937
Auxiliary Enterprises	4,144,124	1,480,012	392,578	991,189	14,564,077	2,637,874	24,209,854	23,884,215
TOTAL	\$52,022,426	\$19,809,535	\$9,876,598	\$5,584,671	\$30,557,659	\$9,710,693	\$127,561,582	\$120,779,928

NOTE 16 – Construction in Progress

Construction in progress at year-end totals \$49.2 million (see capital assets table below). Projects soon to be completed include the Business and Engineering Center, University Center expansion, Physical Plant addition, campus loop road phase 1b, a project to improve baseball and soccer fields, additional parking for the Recreation, Fitness, and Wellness Center and athletic fields, emergency power for the housing community center, and the Burdette Park—USI bike path project.

Design work has begun on an advanced manufacturing teaching facility. The project scheduled for completion in March 2011 has an estimated cost of completion of

\$1,375,000. Additional projects, including a walking path and a renovation for Innovation Point, are also in progress. Those projects should be completed within the next fiscal year and have a total estimated remaining cost of approximately \$550,000.

Another project which completes the balance of construction in progress involves architectural planning for a professional theatre on campus. To date, \$772,000 has been spent for project planning. The design phase began in fall 2009 with an estimated cost of completion expected to be \$17 million. The start of construction will be contingent upon receiving final state approvals.

NOTE 17 – Capital Assets, Net of Accumulated Depreciation

The table below displays the increase in total capital assets from \$262 million at July 1, 2009, to \$299 million on June 30, 2010. Gross capital assets, less accumulated depreciation of \$117.9 million, equal net capital assets of \$180.9 million at June 30, 2010.

**NOTE 18 – Restatement 2009 Financial Information**

A new Governmental Accounting Standard, GASB 53, addresses the recognition, measurement, and disclosure of information regarding derivative instruments. The standard requires that derivative instruments be reported at fair value. Derivatives associated with hedgeable items that are determined to be effective in reducing exposure to identified risks are considered hedging derivative instruments. Under hedge accounting, the changes in fair values of the hedging derivative instrument are reported as either deferred inflows or deferred outflows on the statement of net assets. The implementation of this new accounting standard requires a restatement to be made to the Statement of Net Assets so that the 2009 financial information is comparable and consistent with the 2010 financial statement presentation.

- A line item has been added to the noncurrent asset section of the Statement of Net Assets, Deferred Outflow of Resources.
- A line has been added to the noncurrent liabilities section of the Statement of Net Assets, Derivative Instrument-Interest Rate Swap.
- The above changes increased noncurrent assets and noncurrent liabilities by \$1,538,093 for 2009.

There was no change in total revenues, expenses, or net assets as a result of this restatement.

CAPITAL ASSETS, NET OF ACCUMULATED DEPRECIATION

Total Enrollment 10,516

It is the policy of the University of Southern Indiana to be in full compliance with all federal and state non-discrimination and Equal Opportunity laws, orders, and regulations relating to race, sex, religion, disability, age, national origin, sexual orientation, or status as a disabled veteran or veteran of the Vietnam era. Questions or concerns should be directed to the Affirmative Action Officer, USI Human Resources Department, University of Southern Indiana, 8600 University Boulevard, Evansville, Indiana 47712.

The Disabled Student Services program is provided to help students overcome or compensate for obstacles related to a physical, emotional, or learning disability. Resources include a reader/taping service, test accommodations service, tutors, sign language interpreter service, notetaker supplies, literature, and personal assistance. Program staff work with all offices to insure that reasonable and appropriate accommodations are provided to students with disabilities. A detailed brochure is available from the Counseling Center. Students requesting services must register with the Disabled Student Services program in the Counseling Center at least 60 days prior to date needed.
