Board of Directors
Good Samaritan Hospital
520 South Seventh Street
Vincennes, IN 47591

We have reviewed the audit report prepared by BKD, LLP, Independent Public Accountants, for the period January 1, 2010 to December 31, 2010. In our opinion, the audit report was prepared in accordance with the guidelines established by the State Board of Accounts. Per the Independent Public Accountants' opinion, the financial statements included in the report present fairly the financial condition of the Good Samaritan Hospital, as of December 31, 2010 and the results of its operations for the period then ended, on the basis of accounting described in the report.

The Independent Public Accountants' report is filed with this letter in our office as a matter of public record.

Independent Accountants' Report on Financial Statements and Supplementary Information

Board of Governors
Good Samaritan Hospital
Vincennes, Indiana

We have audited the accompanying balance sheets of Good Samaritan Hospital (Hospital) as of December 31, 2010 and 2009, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the Hospital's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Good Samaritan Hospital as of December 31, 2010, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying management's discussion and analysis as listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Good Samaritan Hospital
A Component Unit of Knox County, Indiana
Management's Discussion and Analysis
December 31, 2010 and 2009

Introduction

This management's discussion and analysis of the financial performance of Good Samaritan Hospital (Hospital) provides an overview of the Hospital's financial activities for the years ended December 31, 2010 and 2009. It should be read in conjunction with the accompanying financial statements of the Hospital.

Financial Highlights

- Cash and investments increased in 2010 and 2009 by \$6,478,851 (7%) and \$11,894,399 (16%), respectively, as a result of continuing strong operations.
- The Hospital reported operating income in 2010 and 2009 of \$3,881,486 and \$1,526,337, respectively. The operating income in 2010 increased by 154% over the operating income reported in 2009, and 2009 decreased by 70% compared to 2008. In 2010, the Hospital experienced significant growth in Emergency Services, Oncology, Laboratory, Radiology and Physician services.
- Net nonoperating revenues decreased by \$2,084,989 in 2010 compared to 2009, primarily attributable to decreased market returns on investments. In 2009, nonoperating revenues increased by \$16,604,239 compared to 2008 as a result of significant investment gains.

The total change in net assets in 2010 is an increase of \$10,042,695 compared to an increase of \$9,772,535 in 2009.

Using This Annual Report

The Hospital's financial statements consist of three statements—a balance sheet; a statement of revenues, expenses and changes in net assets; and a statement of cash flows. These statements provide information about the activities of the Hospital, including resources held by the Hospital, but restricted for specific purposes by creditors, contributors, grantors or enabling legislation. The Hospital is accounted for as a business-type activity and presents its financial statements using the economic resources measurement focus and the accrual basis of accounting.

The Balance Sheet and Statement of Revenues, Expenses and Changes in Net Assets

One of the most important questions asked about any Hospital's finances is "Is the Hospital as a whole better or worse off as a result of the year's activities?" The Balance Sheet and the Statement of Revenues, Expenses and Changes in Net Assets report information about the Hospital's resources and its activities in a way that helps answer this question. These statements include all restricted and unrestricted assets and all liabilities using the accrual basis of accounting. Using the accrual basis of accounting means that all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Hospital's net assets and changes in them. The Hospital's total net assets—the difference between assets and liabilities—is one measure of the Hospital's financial health or financial position. Over time, increases or decreases in the Hospital's net assets are an indicator of whether its financial health is improving or deteriorating. Other nonfinancial factors, such as changes in the Hospital's patient base, changes in legislation and regulations, measures of the quantity and quality of services provided to its patients and local economic factors should also be considered to assess the overall financial health of the Hospital.

The Statement of Cash Flows

The Statement of Cash Flows reports cash receipts, cash payments and net changes in cash and cash equivalents resulting from four defined types of activities. It provides answers to such questions as where did cash come from, what was cash used for and what was the change in cash and cash equivalents during the reporting period.

The Hospital's Net Assets

The Hospital's net assets are the difference between its assets and liabilities reported in the Balance Sheet. The Hospital's net assets increased by \$10,042,695 in 2010 over 2009 and net assets increased by \$9,772,535 in 2009 over 2008 as shown in Table 1.

Table 1: Assets, Liabilities and Net Assets

	2010	2009	2008
Assets			
Patient accounts receivable, net	\$ 21,688,663	\$ 19,873,300	\$ 21,061,372
Other current assets	76,178,988	73,999,051	65,723,896
Capital assets, net	75,372,029	77,528,192	81,126,736
Other noncurrent assets	28,299,394	21,476,709	18,680,392
Total assets	\$ 201,539,074	\$ 192,877,252	\$ 186,592,396
Liabilities			
Long-term debt	\$ 25,242,657	\$ 28,355,054	\$ 31,670,882
Other current and long-term liabilities	14,387,466	12,655,942	12,827,793
Total liabilities	39,630,123	41,010,996	44,498,675
Net Assets			
Invested in capital assets, net of related debt	50,129,372	49,173,138	49,455,854
Restricted expendable	2,563,680	2,517,632	2,451,478
Unrestricted	109,215,899	100,175,486	90,186,389
Total net assets	161,908,951	151,866,256	142,093,721
Total liabilities and net assets	\$ 201,539,074	\$ 192,877,252	\$ 186,592,396

A significant change in the Hospital's assets in 2010 is the increase in cash and investments of \$6,478,851 (7%) as compared to an increase in 2008 of \$11,894,399 (16%). This increase in cash and investments resulted from successful operations as well as recovery of market gains.

Net patient service revenues increased in 2010 by \$12,762,748 (9%) as compared to 2009, while net patient accounts receivable increased by \$1,815,363 (9%), or four days of revenue at December 31, 2010 versus December 31, 2009. In 2009, patient accounts receivable decreased by \$1,188,072 (6%) and net patient service revenues decreased in 2009 by \$1,969,655 (1%).

Operating Results and Changes in the Hospital's Net Assets

In 2010, the Hospital's net assets increased by \$10,042,695 (7%) compared to an increase in net assets during 2009 of \$9,772,535 (7%), as shown in Table 2.

Interest expense	(1,175,422)	(1,324,174)	(1,323,191)
Total nonoperating revenue (expense)	<u>6,161,209</u>	<u>8,246,198</u>	<u>(8,358,041)</u>
Increase (Decrease) in Net Assets	<u>\$ 10,042,695</u>	<u>\$ 9,772,535</u>	<u>\$ (3,230,459)</u>

Operating Income

The first component of the overall change in the Hospital's net assets is its operating income—generally, the difference between net patient service and other operating revenues and the expenses incurred to perform those services. In each of the past three years, the Hospital has reported operating income. This is consistent with the Hospital's recent operating history as the Hospital was formed and is operated primarily to serve residents of Knox County and the surrounding area. The Hospital implements strong cost controls to provide sufficient resources to enable the facility to serve lower income and other residents.

The operating income for 2010 increased by \$2,355,149 (154%) as compared to 2009. Operating income for 2009 decreased by \$3,601,245 (70%) as compared to 2008. The primary components of the fluctuation in operating income are:

- An increase in salaries, benefits and wages for the Hospital's employees of \$5,525,379 (6%) in 2010 compared to an increase in 2009 of \$2,462,780 (3%).
- An increase in purchased services and professional fees of \$2,093,860 (9%) in 2010 compared to a decrease of \$422,115 (2%) in 2009.
- These increases in expenses were offset by an increase in net patient service revenue of \$12,762,748 (9%) for 2010.

Net patient service revenue increased because the hospital expanded services by employing a large number of physicians beginning in 2010. Also, overall rate increases of approximately 5% were applied to most charges at the beginning of 2010.

Employee salaries and wages and benefits increased in 2010 and 2009 in connection with the Hospital's retention and recruitment efforts. These efforts result primarily from the shortage of physicians, nurses and other health care professionals in the United States. Also, the Hospital recruited and hired a significant number of physicians during 2010.

The rate of health care inflation has a direct effect on the cost of services provided by the Hospital. Expenditures for medical supplies and prescription drugs are a major component of the Hospital's costs. In 2010, medical supplies and prescription drug costs totaled \$25,880,170 (17%) of total operating expenses. In 2009, they totaled \$23,189,820 (16%) of total operating expenses, an increase of \$2,690,350 (12%) over 2009. Some of the major factors contributing to medical supply and drug costs include an aging population, the introduction of new drugs that cannot be obtained in generic form, changes in therapeutic mix and pharmaceutical marketing.

Nonoperating Revenues and Expenses

Nonoperating revenues and expenses consist primarily of investment, contribution and grant income along with interest expense, all of which remained relatively constant in 2010 as compared to 2009 and 2008, except investment income. The Hospital recognized a decrease in its investment return in 2010 compared to 2009, resulting primarily from a significant recovery of investments during 2009. Total investment return for 2010 was a positive return of \$4,871,387 compared to a positive return in 2009 of \$7,558,090. Contribution and grant income in 2010 was \$2,465,244 compared to \$2,012,282 in 2009.

The Hospital's Cash Flows

Changes in the Hospital's cash flows are consistent with changes in operating income and nonoperating revenues and expenses for 2010 and 2009, discussed earlier.

Capital Asset and Debt Administration

Capital Assets

At the end of 2010 and 2009, the Hospital had \$75,372,029 and \$77,528,192, respectively, invested in capital assets, net of accumulated depreciation, as detailed in Note 5 to the financial statements. In 2010 and 2009, the Hospital purchased new capital assets costing \$7,771,419 and \$6,614,645, respectively.

Debt

At December 31, 2010 and 2009, the Hospital had \$25,242,657 and \$28,355,054, respectively, in revenue bonds, notes payable and capital lease obligations outstanding. Except for new capital leases of \$60,100 initiated in 2010 and \$98,580 initiated in 2009, the Hospital issued no new debt in 2010 or 2009. The Hospital's formal debt issuances, revenue bonds, are subject to limitations imposed by state law. There have been no changes in the Hospital's debt ratings in the past three years. The ratings have remained positive in the range of A to AA during this period of time.

Other Economic Factors

Duke Energy has made significant progress in building a two and a half billion dollar coal gasification plant, which has created 1,000 jobs over a two-year period and 125 full time jobs at time of completion. Economic stability has remained strong in Knox County as it ranks 2nd in the state of Indiana for lowest unemployment.

Contacting the Hospital's Financial Management

This financial report is designed to provide our patients, suppliers, taxpayers and creditors with a general overview of the Hospital's finances and to show the Hospital's accountability for the money it receives. Questions about this report and requests for additional financial information should be directed to the Hospital's CFO by telephoning (812) 885-3891.

Good Samaritan Hospital
A Component Unit of Knox County, Indiana
Notes to Financial Statements
December 31, 2010 and 2009

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations and Reporting Entity

Good Samaritan Hospital (Hospital) is an acute care hospital located in Vincennes, Indiana. The Hospital is a component unit of Knox County, Indiana (County) and the Board of County Commissioners appoints members to the Board of Governors of the Hospital. The Hospital primarily earns revenues by providing inpatient, outpatient and emergency care services to patients in the Knox County area.

The Good Samaritan Hospital Foundation (Foundation) is a significant blended component unit of the Hospital. The primary government appoints a voting majority of the Foundation's board and a financial benefit/burden relationship exists between the Hospital and the Foundation. Although it is legally separate from the Hospital, the Foundation is reported as if it were a part of the Hospital because it provides services entirely or almost entirely to the Hospital.

Good Samaritan Hospital Physician Services, Inc. (Physician Services) is also a blended component unit of the Hospital. The primary government appoints a voting majority of Physician Service's board and a financial benefit/burden relationship exists between the Hospital and Physician Services. Although it is legally separate from the Hospital, Physician Services is reported as if it were a part of the Hospital because it provides services entirely or almost entirely to the Hospital.

Basis of Accounting and Presentation

The financial statements of the Hospital have been prepared on the accrual basis of accounting using the economic resources measurement focus. Revenues, expenses, gains, losses, assets and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated nonexchange transactions, principally federal and state grants, are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions and program-specific, government-mandated nonexchange transactions. Government-mandated nonexchange transactions that are not program specific, investment income and interest on capital assets-related debt are included in nonoperating revenues and expenses. The Hospital first applies restricted net assets when an expense or outlay is incurred for purposes for which both restricted and unrestricted net assets are available.

The Hospital prepares its financial statements as a business-type activity in conformity with applicable pronouncements of the Governmental Accounting Standards Board (GASB). Pursuant to GASB Statement No. 20, the Hospital has elected to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB) that were issued on or before November 30, 1989, and do not conflict with or contradict GASB pronouncements.

Good Samaritan Hospital

Notes to Financial Statements December 31, 2010 and 2009

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

The Hospital considers all liquid investments with original maturities of three months or less to be cash equivalents. At December 31, 2010 and 2009, cash equivalents consisted primarily of money market accounts with brokers.

Risk Management

The Hospital is exposed to various risks of loss from torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; medical malpractice; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than employee health claims. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The Hospital is self-insured for a portion of its exposure to risk of loss from employee health claims. Annual estimated provisions are accrued for the self-insured portion of employee health claims and include an estimate of the ultimate costs for both reported claims and claims incurred but not yet reported.

Investments and Investment Income

Investments in U.S. Treasury, agency and instrumentality obligations with a remaining maturity of one year or less at time of acquisition and in nonnegotiable certificates of deposit are carried at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market prices.

Investment income includes dividend and interest income, realized gains and losses on investments and the net change for the year in the fair value of investments carried at fair value.

Patient Accounts Receivable

The Hospital reports patient accounts receivable for services rendered at net realizable amounts from third-party payers, patients and others. The Hospital provides an allowance for uncollectible accounts based upon a review of outstanding receivables, historical collection information and existing economic conditions.

Good Samaritan Hospital
A Component Unit of Knox County, Indiana
Notes to Financial Statements
December 31, 2010 and 2009

Supplies

Supply inventories are stated at the lower of cost, determined using the first-in, first-out method (FIFO) or market.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or fair value at the date of donation if acquired by gift. Depreciation is computed using the straight-line method over the estimated useful life of each asset. Assets under capital lease obligations and leasehold improvements are depreciated over the shorter of the lease term or their respective estimated useful lives. The following estimated useful lives are being used by the Hospital:

	<u>Years</u>
Land improvements	5 - 25
Buildings and leasehold improvements	5 - 40
Equipment	5 - 20

Intangible Assets

Intangible assets represent assets recognized during business purchases during 2010 and 2009. The intangible assets are subject to amortization and are deemed to have a weighted-average useful life of approximately five to ten years. The amortized cost of the assets was \$1,561,280 and \$894,867 at December 31, 2010 and 2009, respectively. The Hospital recognized amortization expense of \$99,430 during 2010 and 2009.

Deferred Financing Costs

Deferred financing costs represent costs incurred in connection with the issuance of long-term debt. Such costs are being amortized over the term of the respective debt using the straight-line method.

Compensated Absences

Hospital policies permit most employees to accumulate vacation and sick leave benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability are recognized as vacation benefits are earned whether the employee is expected to realize the benefit as time off or in cash. Expense and the related liability for sick leave benefits are recognized when earned to the extent the employee is expected to realize the benefit in cash determined using the termination payment method. Sick leave benefits expected to be realized as paid time off are recognized as expense when the time off occurs and no liability is accrued for such benefits employees have earned but not yet realized. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the balance sheet date plus an additional amount for compensation-related payments such as social security and Medicare taxes computed using rates in effect at that date.

Good Samaritan Hospital

A Component Unit of Knox County, Indiana

Notes to Financial Statements
December 31, 2010 and 2009

Net Assets

Net assets of the Hospital are classified in three components. Net assets invested in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation and reduced by the outstanding balances of borrowings used to finance the purchase or construction of those assets. Restricted expendable net assets are noncapital assets that must be used for a particular purpose as specified by creditors, grantors or donors external to the Hospital, including amounts deposited with trustees as required by bond indentures, reduced by the outstanding balances of any related borrowings. Unrestricted net assets are remaining assets less remaining liabilities that do not meet the definition of invested in capital assets, net of related debt or restricted expendable.

Net Patient Service Revenue

The Hospital has agreements with third-party payers that provide for payments to the Hospital at amounts different from its established rates. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments and a provision for uncollectible accounts. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such estimated amounts are revised in future periods as adjustments become known.

Charity Care

The Hospital provides care without charge or at amounts less than its established rates to patients meeting certain criteria under its charity care policy. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, these amounts are not reported as net patient service revenue. Foregone charges for charity care approximated \$12,950,000 for 2010 and \$11,630,000 for 2009.

Income Taxes

As an essential government function of the County, the Hospital is generally exempt from federal and state income taxes under Section 115 of the Internal Revenue Code and a similar provision of state law. However, the Hospital is subject to federal income tax on any unrelated business taxable income.

The Foundation is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and a similar provision of state law. However, the Foundation is subject to federal income tax on any unrelated business taxable income.

Physician Services is exempt from income taxes under Section 509(a)(3) of the Internal Revenue Code and a similar provision of state law. Physician Services is subject to federal income tax on any unrelated business taxable income.

Good Samaritan Hospital

A Component Unit of Knox County, Indiana

Notes to Financial Statements December 31, 2010 and 2009

Subsequent Events

Subsequent events have been evaluated through April 21, 2011, which is the date the financial statements were available to be issued.

Note 2: Net Patient Service Revenue

The Hospital has agreements with third-party payers that provide for payments to the Hospital at amounts different from its established rates. These payment arrangements include:

Medicare. Inpatient acute care services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Certain inpatient non-acute services are paid based on a cost reimbursement methodology. The Hospital is reimbursed for certain services at tentative rates with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicare administrative contractor.

Medicaid. Inpatient and outpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. The payment methodologies are similar to those prescribed by the Medicare program more fully described above.

The Hospital qualifies as a Medicaid Disproportionate Share Hospital (DSH) provider under Indiana Law (HEA 1095, Public Law 27-1992) and, as such, is eligible to receive supplemental Medicaid payments. The amounts of these supplemental payments are dependent on regulatory approval by agencies of the federal and state governments and is determined by level, extent and cost of uncompensated care (as defined) and various other factors. Supplemental payments have been made by the State of Indiana, and the Hospital records such amounts as revenue when reasonably determined that the funds will be received. The Hospital recognized approximately \$3,400,000 of net patient service revenue related to the supplemental payment program for the year ended December 31, 2010 and approximately \$3,500,000 for the year ended December 31, 2009.

Effective January 1, 2008, the State of Indiana began operating an insurance plan for the benefit of Indiana residents without health insurance. The plan, referred to as the Healthy Indiana Plan (HIP), will be funded through an additional state cigarette tax and with the use of a portion of the DSH funds described above. As such, the level of future DSH payments may also be negatively affected.

Good Samaritan Hospital

A Component Unit of Knox County, Indiana

Notes to Financial Statements December 31, 2010 and 2009

Approximately 46% and 49% for 2010 and 2009, respectively, of net patient service revenue is from participation in the Medicare and state-sponsored Medicaid programs. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates will change materially in the near term.

The Hospital has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

Note 3: Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Hospital's deposit policy for custodial credit risk requires compliance with the provisions of state law.

Indiana state law requires the Hospital to deposit money with any financial institution designated by the state board of finance as depositories for state deposits. The Hospital's funds exceeding the FDIC insurance amount are covered by the Public Deposit Insurance Fund (PDIF). The PDIF insures those state and local public funds that are deposited in approved financial institutions in the event of financial institution failures.

Investments

The Hospital may legally invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agencies and instrumentalities and in bank repurchase agreements. It may also invest to a limited extent in corporate bonds and equity securities.

Good Samaritan Hospital
A Component Unit of Knox County, Indiana
Notes to Financial Statements
December 31, 2010 and 2009

At December 31, 2010 and 2009, the Hospital had the following investments and maturities:

Type	2010		
	Fair Value	Maturities in Years	
		Less Than 1	1-5
Mutual funds	\$ 32,387,416	\$ 32,387,416	\$ -
Money market mutual funds	14,382,207	14,382,207	-
U.S. treasury obligations	3,144,288	1,727,676	1,416,612
U.S. agencies obligations	6,750,937	4,827,821	1,923,116
	<u>\$ 56,664,848</u>	<u>\$ 53,325,120</u>	<u>\$ 3,339,728</u>

Type	2009		
	Fair Value	Maturities in Years	
		Less Than 1	1-5
Mutual funds	\$ 29,164,583	\$ 29,164,583	\$ -
Money market mutual funds	5,797,273	5,797,273	-
U.S. treasury obligations	774,080	509,265	264,815
U.S. agencies obligations	1,743,659	514,892	1,228,767
	<u>\$ 37,479,595</u>	<u>\$ 35,986,013</u>	<u>\$ 1,493,582</u>

Interest Rate Risk - As a means of limiting its exposure to fair value losses arising from rising interest rates, the Hospital's investment policy provides guidance to invest approximately 70% of its investment portfolio in fixed income securities. The money market mutual funds are presented as an investment with a maturity of less than one year because they are redeemable in full immediately.

Credit Risk - Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. The Hospital's policy provides guidance to invest in fixed income investments in U.S. Government bonds, bank certificates of deposits, and U.S. Treasury bonds among other government agencies. Such investments are to be insured by the U.S. Government or covered by applicable Federal and State Insurance programs.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Hospital will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Hospital's investment policy provides investments are to be maintained in insured deposits.

Concentration of Credit Risk - The Hospital places no limit on the amount that may be invested in any one issuer, however, the PDIF described above mitigates the concentration of credit risk.

Notes to Financial Statements
December 31, 2010 and 2009

Summary of Carrying Values

The carrying values of deposits and investments shown above are included in the balance sheets as follows:

	2010	2009
Carrying value		
Deposits	\$ 38,418,641	\$ 51,125,043
Investments	56,664,848	37,479,595
	<u>\$ 95,083,489</u>	<u>\$ 88,604,638</u>
Included in the following balance sheet captions		
Cash and cash equivalents	\$ 15,058,439	\$ 7,607,683
Short-term investments	51,860,516	59,165,607
Restricted cash - current	2,563,680	2,517,632
Internally designated	10,209,452	9,361,900
Other long-term investments	15,391,402	9,951,816
	<u>\$ 95,083,489</u>	<u>\$ 88,604,638</u>

Investment Return

Investment return for the years ended December 31, 2010 and 2009 consisted of:

	2010	2009
Interest and dividend income	\$ 1,938,372	\$ 2,138,425
Realized gains (losses) from sales of investments	182,673	(619,910)
Net increase in fair value of investments	2,750,342	6,039,575
	<u>\$ 4,871,387</u>	<u>\$ 7,558,090</u>

Notes to Financial Statements
December 31, 2010 and 2009

Note 4: Patient Accounts Receivable

The Hospital grants credit without collateral to its patients, many of whom are area residents and are insured under third-party payer agreements. Patient accounts receivable at December 31, 2010 and 2009 consisted of:

	2010	2009
Medicare	\$ 7,325,469	\$ 5,141,478
Medicaid	959,287	1,678,038
Other third-party payers	9,277,905	8,644,929
Patients	14,445,002	12,648,855
	<u>32,007,663</u>	<u>28,113,300</u>
Less allowance for uncollectible accounts	<u>10,319,000</u>	<u>8,240,000</u>
	<u><u>\$ 21,688,663</u></u>	<u><u>\$ 19,873,300</u></u>

Note 5: Capital Assets

Capital assets activity for the years ended December 31 was:

	2010				
	Beginning Balance	Additions	Disposals	Transfers	Ending Balance
Land	\$ 5,728,852	\$ -	\$ -	\$ -	\$ 5,728,852

Construction in progress includes the renovation costs of a patient tower, among other projects.

Note 6: Operating Leases

The Hospital leases various facilities and equipment under operating leases expiring at various dates through 2018. Total rental expense in 2010 and 2009 for these operating leases was approximately \$308,081 and \$188,839, respectively.

Future minimum lease payments under operating leases as of December 31, 2010 were:

2011	\$ 709,220
2012	714,865
2013	694,423
2014	299,549
2015	305,540
2016 - 2018	<u>871,505</u>
	<u>\$ 3,595,102</u>

Good Samaritan Hospital
A Component Unit of Knox County, Indiana
Notes to Financial Statements
December 31, 2010 and 2009

Note 7: Medical Malpractice Claims

The Hospital purchases medical malpractice insurance under a claims-made policy on a fixed premium basis. In addition, the Hospital is a qualified health care provider under the Indiana Medical Malpractice Act and is fully insured under a claims-made policy on a fixed premium basis. The Indiana Medical Malpractice Act limits a qualified provider's liability for an occurrence to the amount of required insurance. The Indiana patient compensation fund is liable for the excess up to an overall damage cap. Accounting principles generally accepted in the United States of America require a health care provider to accrue the expense of its share of malpractice claim costs, if any, for any reported and unreported incidents of potential improper professional service occurring during the year by estimating the probable ultimate costs of the incidents. Based upon the Hospital's claims experience, no such accrual has been made. It is reasonably possible that this estimate could change materially in the near term.

Note 8: Employee Health Claims

Substantially all of the Hospital's employees and their dependents are eligible to participate in the Hospital's employee health insurance plan. The Hospital is self-insured for health claims of participating employees and dependents up to an annual aggregate amount of \$200,000. Commercial stop-loss insurance coverage is purchased for claims in excess of the aggregate annual amount. A provision is accrued for self-insured employee health claims including both claims reported and claims incurred but not yet reported. The accrual is estimated based on consideration of prior claims experience, recently settled claims, frequency of claims and other economic and social factors. It is reasonably possible that the Hospital's estimate will change by a material amount in the near term.

Activity in the Hospital's accrued employee health claims liability during 2010 and 2009 is summarized as follows:

	2010	2009
Balance, beginning of year	\$ 1,207,778	\$ 1,177,350
Current year claims incurred and changes in estimates for		
claims incurred in prior years	15,101,185	11,815,904
Claims and expenses paid	<u>(14,879,981)</u>	<u>(11,785,476)</u>
Balance, end of year	<u>\$ 1,428,982</u>	<u>\$ 1,207,778</u>

Good Samaritan Hospital

A Component Unit of Knox County, Indiana

Notes to Financial Statements December 31, 2010 and 2009

Note 9: Long-Term Obligations

The following is a summary of long-term obligation transactions for the Hospital for the years ended December 31:

	Beginning Balance	Additions	2010		Ending Balance	Current Portion
			Deductions			
Long-term debt						
Lease revenue refunding bonds payable, 2002 (a)	\$ 11,496,667	\$ -	\$ 1,333,959		\$ 10,162,708	\$ 1,455,000
Lease revenue bonds payable, 2004 (b)	14,457,099	-	747,871		13,709,228	755,000
Capital lease obligations	2,401,288	60,100	1,090,667		1,370,721	941,735
Total long-term debt	<u>\$ 28,355,054</u>	<u>\$ 60,100</u>	<u>\$ 3,172,497</u>		<u>\$ 25,242,657</u>	<u>\$ 3,151,735</u>

	Beginning Balance	Additions	2009		Ending Balance	Current Portion
			Deductions			
Long-term debt						
Lease revenue refunding bonds payable, 2002 (a)	\$ 12,780,625	\$ -	\$ 1,283,958		\$ 11,496,667	\$ 1,400,000
Lease revenue bonds payable, 2004 (b)	15,189,970	-	732,871		14,457,099	725,000
Capital lease obligations	3,700,287	98,580	1,397,579		2,401,288	1,068,090
Total long-term debt	<u>\$ 31,670,882</u>	<u>\$ 98,580</u>	<u>\$ 3,414,408</u>		<u>\$ 28,355,054</u>	<u>\$ 3,193,090</u>

- (a) The lease revenue refunding bonds payable consist of Health Facilities Revenue Bonds (Bonds) in the original amount of \$21,270,000 dated September 1, 2002, which bear interest at 1.40% to 5.25%. The Bonds are payable in semi-annual installments through July 1, 2017. The Hospital is required to make semi-annual deposits to the debt service fund held by the trustee. The Bonds are secured by the net revenues and accounts receivable of the Hospital and the assets restricted under the bond indenture agreement. Payments of bond principal are also secured by an insurance policy issued by a commercial insurer.

The indenture agreement requires that certain funds be established with the trustee. Accordingly, these funds are included as restricted cash in the balance sheets.

Good Samaritan Hospital

A Component Unit of Knox County, Indiana

Notes to Financial Statements December 31, 2010 and 2009

Upon issuance and delivery of the Bonds, the Hospital defeased its outstanding 1993 bonds in the total principal amount of \$18,675,000. Proceeds from the Bonds were used to purchase securities that were deposited in trust under an escrow agreement sufficient in amount to pay future principal, interest and redemption premiums on the defeased bonds. This advance refunding transaction resulted in an extinguishment of debt since the Hospital was legally released from its obligation on the 1993 bonds at the time of the defeasance. Accordingly, the 1993 bonds, aggregating \$10,640,000 at December 31, 2010 and \$11,850,000 at December 31, 2009, remain outstanding, but are excluded from the Hospital's balance sheets.

The debt service requirements as of December 31, 2010, are as follows:

Year Ending December 31,	Total to be Paid	Principal	Interest
2011	\$ 1,897,405	\$ 1,455,000	\$ 442,405
2012	1,900,165	1,515,000	385,165
2013	1,898,185	1,575,000	323,185
2014	1,896,795	1,640,000	256,795
2015	1,902,683	1,720,000	182,683
2016-2017	<u>2,844,784</u>	<u>2,257,708</u>	<u>587,076</u>
	<u>\$ 12,340,017</u>	<u>\$ 10,162,708</u>	<u>\$ 2,177,309</u>

- (b) The lease revenue bonds payable consist of Health Facilities Revenue Bonds (Bonds) in the original amount of \$17,210,000 dated February 1, 2004, which bear interest at 2.00% to 5.00%. The Bonds are payable in semi-annual installments through January 15, 2024. The Hospital is required to make semi-annual deposits to the debt service fund held by the trustee. The Bonds are secured by the net revenues and accounts receivable of the Hospital and the assets restricted under the bond indenture agreement. Payments of bond principal are also secured by an insurance policy issued by a commercial insurer.

The indenture agreement requires that certain funds be established with the trustee. Accordingly, these funds are included as assets held by trustee for debt service and capital acquisitions in the balance sheet.

Good Samaritan Hospital

A Component Unit of Knox County, Indiana

Notes to Financial Statements December 31, 2010 and 2009

The debt service requirements as of December 31, 2010, are as follows:

Year Ending December 31,	Total to be Paid	Principal	Interest
2011	\$ 1,357,469	\$ 755,000	\$ 602,469
2012	1,347,375	770,000	577,375
2013	1,354,575	805,000	549,575
2014	1,364,106	845,000	519,106
2015	1,344,700	860,000	484,700
2016 - 2020	6,773,250	5,055,000	1,718,250
2021 - 2024	4,721,738	4,619,228	102,510
	<u>\$ 18,263,213</u>	<u>\$ 13,709,228</u>	<u>\$ 4,553,985</u>

Capital Lease Obligations

The Hospital is obligated under leases for buildings and equipment that are accounted for as capital leases. Assets under capital leases at December 31, 2010 totaled \$5,986,437, net of accumulated depreciation of \$5,147,253. Assets under capital leases at December 31, 2009 totaled \$6,695,190, net of accumulated depreciation of \$4,385,969. The following is a schedule by year of future minimum lease payments under the capital lease including interest at rates of 3.20% to 8.75% together with the present value of the future minimum lease payments as of December 31, 2010:

Year Ending December 31,

2011	\$ 968,333
2012	396,394
2013	22,707
2014	21,716
2015	1,127
Total minimum lease payments	<u>1,410,277</u>
Less amount representing interest	<u>39,556</u>
Present value of future minimum lease payments	<u>\$ 1,370,721</u>

Good Samaritan Hospital
A Component Unit of Knox County, Indiana
Notes to Financial Statements
December 31, 2010 and 2009

Note 10: Restricted Net Assets

At December 31, restricted expendable net assets were available for the following purposes:

	2010	2009
Debt service	\$ 2,563,680	\$ 2,517,632

At December 31, 2010, approximately \$10,200,000 of unrestricted net assets has been designated by the Hospital's Board of Governors for capital acquisitions. Designated net assets remain under the control of the Board of Governors, which may at its discretion, later use these net assets for other purposes.

Note 11: Pension Plan

The Hospital contributes to a defined-contribution pension plan covering substantially all employees. Pension expense is recorded for the amount of the Hospital's required contributions, determined in accordance with the terms of the plan. The plan is administered by a board of trustees appointed by the Hospital. The plan provides retirement and death benefits to plan members and their beneficiaries. Benefit provisions are contained in the plan document and were established and can be amended by action of the Hospital's Board of Governors. The current contributions rate is 7% of the first \$9,999 and 10% thereafter of annual covered payroll for employees hired prior to January 1, 2002. Employees hired January 1, 2002 or later will receive 7% of annual earnings (annual earnings exclude overtime and bonus payments). Employer contributions to the plan in 2010 and 2009 was \$4,242,645 and \$4,275,472, respectively.

Note 12: Contingencies

Litigation

In the normal course of business, the Hospital is, from time to time, subject to allegations that may or do result in litigation. Some of these allegations are in areas not covered by the Hospital's self-insurance program (discussed elsewhere in these notes) or by commercial insurance; for example, allegations regarding employment practices or performance of contracts. The Hospital evaluates such allegations by conducting investigations to determine the validity of each potential claim. Based upon the advice of legal counsel, management records an estimate of the amount of ultimate expected loss, if any, for each. The Hospital currently has certain cases outstanding and management believes that the financial statements will not be materially affected, in the event of an adverse outcome. Events could occur that would cause the estimate of ultimate loss to differ materially in the near term.

December 31, 2010 and 2009

Note 13: Current Economic Conditions

The current protracted economic decline continues to present hospitals with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments and other assets, large declines in contributions, constraints on liquidity and difficulty obtaining financing. The financial statements have been prepared using values and information currently available to the Hospital.

Current economic conditions, including the rising unemployment rate, have made it difficult for certain of our patients to pay for services rendered. As employers make adjustments to health insurance plans or more patients become unemployed, services provided to self-pay and other payers may significantly impact net patient service revenue, which could have an adverse impact on the Hospital's future operating results. Further, the effect of economic conditions on the state may have an adverse effect on cash flows related to the Medicaid program.

Given the volatility of current economic conditions, the values of assets and liabilities recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values and allowances for accounts that could negatively impact the Hospital's ability to maintain sufficient liquidity.
