SCHEDULE OF OFFICIALS
INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF THE RIVER FOREST COMMUNITY
    SCHOOL CORPORATION, LAKE COUNTY, INDIANA

Report on the Financial Statement

We have audited the accompanying financial statement of the River Forest Community School Corporation (School Corporation), which comprises the financial position and results of operations for the period of July 1, 2013 to June 30, 2015, and the related notes to the financial statement as listed in the Table of Contents.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the financial reporting provisions of the Indiana State Board of Accounts as allowed by state statute (IC 5-11-1-6). Management is responsible for and has determined that the regulatory basis of accounting, as established by the Indiana State Board of Accounts, is an acceptable basis of presentation. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School Corporation's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School Corporation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
INDEPENDENT AUDITOR’S REPORT
(Continued)

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As discussed in Note 1 of the financial statement, the School Corporation prepares its financial statement on the prescribed basis of accounting that demonstrates compliance with the reporting requirements established by the Indiana State Board of Accounts as allowed by state statute (IC 5-11-1-6), which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statement of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the financial statement referred to above does not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position and results of operations of the School Corporation for the period of July 1, 2013 to June 30, 2015.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position and results of operations of the School Corporation for the period of July 1, 2013 to June 30, 2015, in accordance with the financial reporting provisions of the Indiana State Board of Accounts described in Note 1.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the School Corporation’s financial statement. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statement. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statement. The information has been subjected to the auditing procedures applied in the audit of the financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement or to the financial statement itself, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the financial statement taken as a whole.

Other Information

Our audit was conducted for the purpose of forming an opinion on the School Corporation’s financial statement. The Combining Schedules of Receipts, Disbursements, Other Financing Sources (Uses), and Cash and Investment Balances - Regulatory Basis, Schedule of Leases and Debt, and Schedule of Capital Assets, as listed in the Table of Contents, are presented for additional analysis and are not required parts of the financial statement. They have not been subjected to the auditing procedures applied by us in the audit of the financial statement and, accordingly, we express no opinion on them.
Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued a report dated March 28, 2016, on our consideration of the School Corporation's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the School Corporation's internal control over financial reporting and compliance.

State Examiner

March 28, 2016
INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL
STATEMENT PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

TO: THE OFFICIALS OF THE RIVER FOREST COMMUNITY
SCHOOL CORPORATION, LAKE COUNTY, INDIANA

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statement of the River Forest Community School Corporation (School Corporation), which comprises the financial position and results of operations for the period of July 1, 2013 to June 30, 2015, and the related notes to the financial statement, and have issued our report thereon dated March 28, 2016, wherein we noted the School Corporation followed accounting practices the Indiana State Board of Accounts prescribes rather than accounting principles generally accepted in the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statement, we considered the School Corporation's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the School Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Corporation's internal control.

Our consideration of the internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statement will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs as items 2015-001 and 2015-002 to be material weaknesses.
Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Corporation's financial statement is free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and which are described in the accompanying Schedule of Findings and Questioned Costs as item 2015-002.

River Forest Community School Corporation's Response to Findings

The School Corporation’s response to the findings identified in our audit is described in the accompanying Corrective Action Plan. The School Corporation’s response was not subjected to the auditing procedures applied in the audit of the financial statement and, accordingly, we express no opinion on it.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Corporation’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the School Corporation's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Paul D. Joyce, CPA  
State Examiner  

March 28, 2016
FINANCIAL STATEMENT AND ACCOMPANYING NOTES

The financial statement and accompanying notes were approved by management of the School Corporation. The financial statement and notes are presented as intended by the School Corporation.

The notes to the financial statement are an integral part of this statement.
Note 1. Summary of Significant Accounting Policies

A. Reporting Entity

School Corporation, as used herein, shall include, but is not limited to, school townships, school towns, school cities, consolidated school corporations, joint schools, metropolitan school districts, township school districts, county schools, united schools, school districts, cooperatives, educational service centers, community schools, community school corporations, and charter schools.

The School Corporation was established under the laws of the State of Indiana. The School Corporation operates under a Board of School Trustees form of government and provides educational services.

The accompanying financial statement presents the financial information for the School Corporation.

B. Basis of Accounting

The financial statement is reported on a regulatory basis of accounting prescribed by the Indiana State Board of Accounts in accordance with state statute (IC 5-11-1-6), which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The basis of accounting involves the reporting of only cash and investments and the changes therein resulting from cash inflows (receipts) and cash outflows (disbursements) reported in the period in which they occurred.

The regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, in that receipts are recognized when received in cash, rather than when earned, and disbursements are recognized when paid, rather than when a liability is incurred.

C. Cash and Investments

Investments are stated at cost. Any changes in fair value of the investments are reported as receipts in the year of the sale of the investment.

D. Receipts

Receipts are presented in the aggregate on the face of the financial statement. The aggregate receipts include the following sources:

Local sources which include taxes, revenue from local governmental units other than School Corporations, transfer tuition, transportation fees, investment income, food services, School Corporation activities, revenue from community services activities, and other revenue from local sources.

Intermediate sources which include distributions from the County for fees collected for or on behalf of the School Corporation including educational license plate fees, congressional interest, riverboat distributions, and other similar fees.
State sources include distributions from the State of Indiana and are to be used by the School Corporation for various purposes. Included in state sources are unrestricted grants, restricted grants, revenue in lieu of taxes, and revenue for or on behalf of the School Corporation.

Federal sources include distributions from the federal government and are to be used by the School Corporation for various purposes. Included in federal sources are unrestricted grants, restricted grants, revenue in lieu of taxes, and revenue for or on behalf of the School Corporation.

Other receipts which include amounts received from various sources which include return of petty cash, return of cash change, insurance claims for losses, sale of securities, and other receipts not listed in another category above.

E. Disbursements

Disbursements are presented in the aggregate on the face of the financial statement. The aggregate disbursements include the following uses:

Instruction which includes outflows for regular programs, special programs, adult and continuing education programs, summer school programs, enrichment programs, remediation, and payments to other governmental units.

Support services which include outflows for support services related to students, instruction, general administration, and school administration. It also includes outflows for central services, operation and maintenance of plant services, and student transportation.

Noninstructional services which include outflows for food service operations and community service operations.

Facilities acquisition and construction which includes outflows for the acquisition, development, construction, and improvement of new and existing facilities.

Debt services which include fixed obligations resulting from financial transactions previously entered into by the School Corporation. It includes all expenditures for the reduction of the principal and interest of the School Corporation’s general obligation indebtedness.

Nonprogrammed charges which include outflows for donations to foundations, securities purchased, indirect costs, scholarships, and self-insurance payments.

F. Other Financing Sources and Uses

Other financing sources and uses are presented in the aggregate on the face of the financial statement. The aggregate other financing sources and uses include the following:

Proceeds of long-term debt which includes money received in relation to the issuance of bonds or other long-term debt issues.

Transfers in which includes money received by one fund as a result of transferring money from another fund. The transfers are used for cash flow purposes as provided by various statutory provisions.
Transfers out which includes money paid by one fund to another fund. The transfers are used for cash flow purposes as provided by various statutory provisions.

G. Fund Accounting

Separate funds are established, maintained, and reported by the School Corporation. Each fund is used to account for money received from and used for specific sources and uses as determined by various regulations. Restrictions on some funds are set by statute while other funds are internally restricted by the School Corporation. The money accounted for in a specific fund may only be available for use for certain, legally restricted purposes. Additionally, some funds are used to account for assets held by the School Corporation in a trustee capacity as an agent of individuals, private organizations, other funds, or other governmental units and therefore the funds cannot be used for any expenditures of the unit itself.

Note 2. Budgets

The operating budget is initially prepared and approved at the local level. The fiscal officer of the School Corporation submits a proposed operating budget to the governing board for the following calendar year. The budget is advertised as required by law. Prior to adopting the budget, the governing board conducts public hearings and obtains taxpayer comments. Prior to November 1, the governing board approves the budget for the next year. The budget for funds for which property taxes are levied or highway use taxes are received is subject to final approval by the Indiana Department of Local Government Finance.

Note 3. Property Taxes

Property taxes levied are collected by the County Treasurer and are scheduled to be distributed to the School Corporation in June and December; however, situations can arise which would delay the distributions. State statute (IC 6-1.1-17-16) requires the Indiana Department of Local Government Finance to establish property tax rates and levies by February 15. These rates were based upon the preceding year's March 1 (lien date) assessed valuations adjusted for various tax credits. Taxable property is assessed at 100 percent of the true tax value (determined in accordance with rules and regulations adopted by the Indiana Department of Local Government Finance). Taxes may be paid in two equal installments which normally become delinquent if not paid by May 10 and November 10, respectively.

Note 4. Deposits and Investments

Deposits, made in accordance with state statute (IC 5-13), with financial institutions in the State of Indiana at year end should be entirely insured by the Federal Depository Insurance Corporation or by the Indiana Public Deposit Insurance Fund. This includes any deposit accounts issued or offered by a qualifying financial institution.

State statutes authorize the School Corporation to invest in securities including, but not limited to, federal government securities, repurchase agreements, and certain money market mutual funds. Certain other statutory restrictions apply to all investments made by local governmental units.
Note 5. Risk Management

The School Corporation may be exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; medical benefits to employees, retirees, and dependents; and natural disasters.

These risks can be mitigated through the purchase of insurance, establishment of a self-insurance fund, and/or participation in a risk pool. The purchase of insurance transfers the risk to an independent third party. The establishment of a self-insurance fund allows the School Corporation to set aside money for claim settlements. The self-insurance fund would be included in the financial statement. The purpose of participation in a risk pool is to provide a medium for the funding and administration of the risks.

Note 6. Pension Plans

A. Public Employees' Retirement Fund

Plan Description

The Indiana Public Employees' Retirement Fund (PERF) is a defined benefit pension plan. PERF is a cost-sharing multiple-employer public employee retirement system, which provides retirement benefits to plan members and beneficiaries. All full-time employees are eligible to participate in this defined benefit plan. State statutes (IC 5-10.2 and 5-10.3) govern, through the Indiana Public Retirement System (INPRS) Board, most requirements of the system, and give the School Corporation authority to contribute to the plan. The PERF retirement benefit consists of the pension provided by employer contributions plus an annuity provided by the member's annuity savings account. The annuity savings account consists of members' contributions, set by state statute at 3 percent of compensation, plus the interest credited to the member's account. The employer may elect to make the contributions on behalf of the member.

INPRS administers the plan and issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. That report may be obtained by contacting:

Indiana Public Retirement System
One North Capitol, Suite 001
Indianapolis, IN 46204
Ph. (888) 526-1687

Funding Policy and Annual Pension Cost

The contribution requirements of the plan members for PERF are established by the Board of Trustees of INPRS.
B. Teachers’ Retirement Fund

Plan Description

The Indiana Teachers’ Retirement Fund (TRF) is a defined benefit pension plan. TRF is a cost-sharing multiple-employer public employee retirement system, which provides retirement benefits to plan members and beneficiaries. All employees engaged in teaching or in the supervision of teaching in the public schools of the State of Indiana are eligible to participate in TRF. State statute (IC 5-10.2) governs, through the Indiana Public Retirement System (INPRS) Board, most requirements of the system, and gives the School Corporation authority to contribute to the plan. The TRF retirement benefit consists of the pension provided by employer contributions plus an annuity provided by the member's annuity savings account. The annuity savings account consists of members' contributions, set by state statute at 3 percent of compensation, plus the interest credited to the member's account. The School Corporation may elect to make the contributions on behalf of the member.

INPRS issues a publicly available financial report that includes financial statements and required supplementary information for the TRF plan as a whole and for its participants. That report may be obtained by contacting:

Indiana Public Retirement System
One North Capitol, Suite 001
Indianapolis, IN 46204
Ph. (888) 286-3544

Funding Policy and Annual Pension Cost

The School Corporation contributes the employer's share to TRF for certified employees employed under a federally funded program and all the certified employees hired after July 1, 1995. The School Corporation currently receives partial funding, through the school funding formula, from the State of Indiana for this contribution. The employer's share of contributions for certified personnel who are not employed under a federally funded program and were hired before July 1, 1995, is considered to be an obligation of, and is paid by, the State of Indiana.

Note 7. Negative Receipts and Disbursements

The financial statement contains some receipts and/or disbursements that appear as negative entries. This is a result of corrections to errors from prior accounting periods; the corrections include both positive and negative journal entries to equal zero.

Note 8. Cash Balance Deficits

The financial statement contains some funds with deficits in cash. This is a result of some funds being set up for reimbursable grants. The reimbursements for expenditures made by the School Corporation were not received by June 30, 2014 or 2015. The cash deficit in the School Technology fund was the result of disbursements in excess of the receipts for that fund. This was corrected with adjustment entries in the following accounting year.
Note 9. Holding Corporation

The School Corporation has entered into a capital lease with the Meister School Building Corporation (the lessor). The lessor was organized as a not-for-profit corporation pursuant to state statute for the purpose of financing and constructing or reconstructing facilities for lease to the School Corporation. The lessor has been determined to be a related-party of the School Corporation. Lease payments during the years 2014 and 2015 totaled $204,000 and $204,000, respectively.

Note 10. Subsequent Event

The School Corporation successfully passed a General Fund Referendum in the Spring of 2015. The School Corporation will use these funds to maintain and supplement educational programs that would otherwise be reduced or eliminated due to cuts in State funding.

Note 11. Other Postemployment Benefits

The School Corporation provides to eligible retirees and their spouses the following benefit: health insurance at the employee rate until age 65. This benefit poses a liability to the School Corporation for this year and in future years. Information regarding this benefit can be obtained by contacting the School Corporation.
(This page intentionally left blank.)
The School Corporation's Financial Reports can be found on the Indiana Department of Education website: http://mustang.doe.state.in.us/TRENDS/fin.cfm. This website is maintained by the Indiana Department of Education. More current financial information is available from the School Corporation Treasurer's Office. Additionally, some financial information of the School Corporation can be found on the Gateway website: https://gateway.ifionline.org/.

Differences may be noted between the financial information presented in the financial statement contained in this report and the financial information presented in the Financial Reports of the School Corporation which are referenced above. These differences, if any, are due to adjustments made to the financial information during the course of the audit. This is a common occurrence in any financial statement audit. The financial information presented in this report is audited information, and the accuracy of such information can be determined by reading the opinion given in the Independent Auditor's Report.

The other information presented was approved by management of the School Corporation. It is presented as intended by the School Corporation.

SUPPLEMENTAL AUDIT OF
FEDERAL AWARDS
INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE

TO: THE OFFICIALS OF THE RIVER FOREST COMMUNITY SCHOOL CORPORATION, LAKE COUNTY, INDIANA

Report on Compliance for Each Major Federal Program

We have audited the River Forest Community School Corporation's (School Corporation) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of its major federal programs for the period of July 1, 2013 to June 30, 2015. The School Corporation's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School Corporation's major federal programs based on our audit of the types of compliance requirements referred to above. Except as discussed in the following paragraph, we conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Corporation's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School Corporation's compliance.

Basis for Qualified Opinion on Child Nutrition Cluster

As described in items 2015-004 and 2015-005 in the accompanying Schedule of Findings and Questioned Costs, we were unable to obtain sufficient appropriate audit evidence supporting the compliance of the School Corporation with the Child Nutrition Cluster regarding Eligibility and Special Tests and Provisions - Paid Lunch Equity. Consequently, we were unable to determine whether the School Corporation complied with these requirements applicable to the program.
As described in items 2015-003, 2015-006, and 2015-008 in the accompanying Schedule of Findings and Questioned Costs, the School Corporation did not comply with requirements regarding Activities Allowed, Allowable Costs/Cost Principles, Special Tests and Provisions - School Food Accounts, Equipment and Real Property Management, Program Income, and Reporting that are applicable to its Child Nutrition Cluster. Compliance with such requirements is necessary, in our opinion, for the School Corporation to comply with requirements applicable to that program.

*Basis for Qualified Opinion on Title I Grants to Local Educational Agencies*

As described in items 2015-011 and 2015-012 in the accompanying Schedule of Findings and Questioned Costs, we were unable to obtain sufficient appropriate audit evidence supporting the compliance of the School Corporation with Title I Grants to Local Educational Agencies regarding Eligibility and Special Tests and Provisions - School Wide Programs. Consequently, we were unable to determine whether the School Corporation complied with these requirements applicable to the program.

*Qualified Opinion on Child Nutrition Cluster*

In our opinion, except for the effects of such noncompliance, if any, as might have been determined had we been able to examine sufficient evidence regarding the School Corporation's compliance with the requirements of the Child Nutrition Cluster regarding Eligibility and Special Tests and Provisions - Paid Lunch Equity, and except for the noncompliance described in the Basis for Qualified Opinion on Child Nutrition Cluster paragraphs the School Corporation complied, in all material respects, with the requirements referred to above that could have a direct and material effect on the Child Nutrition Cluster for the period of July 1, 2013 to June 30, 2015.

*Qualified Opinion on Title I Grants to Local Educational Agencies*

In our opinion, except for the effects of such noncompliance, if any, as might have been determined had we been able to examine sufficient evidence regarding the School Corporation's compliance with the requirements of Title I Grants to Local Educational Agencies regarding Eligibility and Special Tests and Provisions - School Wide Programs, described in the Basis for Qualified Opinion on Title I Grants to Local Educational Agencies paragraph the School Corporation complied, in all material respects, with the requirements referred to above that could have a direct and material effect on Title I Grants to Local Educational Agencies for the period of July 1, 2013 to June 30, 2015.

*Unmodified Opinion on Each of the Other Major Federal Programs*

In our opinion, the School Corporation complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs for the period of July 1, 2013 to June 30, 2015.

*Other Matters*

The School Corporation's response to the noncompliance findings identified in our audit is described in the accompanying Corrective Action Plan. The School Corporation's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.
INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
(Continued)

Report on Internal Control Over Compliance

Management of the School Corporation is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School Corporation's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School Corporation's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as items 2015-003, 2015-004, 2015-005, 2015-006, 2015-007, 2015-008, 2015-009, 2015-010, 2015-011, and 2015-012 to be material weaknesses.

The School Corporation's response to the internal control over compliance findings identified in our audit is described in the accompanying Corrective Action Plan. The School Corporation's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Paul D. Joyce, CPA
State Examiner

March 28, 2016
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND ACCOMPANYING NOTES

The Schedule of Expenditures of Federal Awards and accompanying notes presented were approved by management of the School Corporation. The schedule and notes are presented as intended by the School Corporation.

</tbody>
</table>

The accompanying notes are an integral part of the Schedule of Expenditures of Federal Awards.
Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal grant activity of the School Corporation and is presented in accordance with the cash and investment basis of accounting used in the preparation of the financial statement. Accordingly, the amount of federal awards expended is based on when the disbursement related to the award occurs except when the federal award is received on a reimbursement basis. In these instances the federal awards are considered expended when the reimbursement is received.

Circular A-133 requires an annual audit of nonfederal entities expending a total amount of federal awards equal to or in excess of $500,000 in any fiscal year unless by constitution or statute a less frequent audit is required. In accordance with Indiana Code (IC 5-11-1-25), audits of school corporations shall be conducted biennially. Such audits shall include both years within the biennial period.

Note 2. Noncash Assistance

The School Corporation expended the following amount of noncash assistance for the years ending June 30, 2014 and 2015. This noncash assistance is also included in the federal expenditures presented in the SEFA.

</tbody>
</table>

Note 3. Special Education Cooperative

The School Corporation is a member of a Special Education Cooperative. As a result, some activity for the Special Education Cluster that is presented as federal awards expended in the SEFA is not presented as receipts and disbursements in the financial statement for the School Corporation. This activity is reported on the financial statement of the Special Education Cooperative.
Section I - Summary of Auditor's Results

Financial Statement:

Type of auditor's report issued: Adverse as to GAAP; Unmodified as to Regulatory Basis

Internal control over financial reporting:
- Material weaknesses identified? yes
- Significant deficiencies identified? none reported
- Noncompliance material to financial statement noted? yes

Federal Awards:

Internal control over major programs:
- Material weaknesses identified? yes
- Significant deficiencies identified? none reported

Type of auditor's report issued on compliance for major programs: Qualified for Child Nutrition Cluster and Title I Grants to Local Educational Agencies and Unmodified for Special Education Cluster

Any audit findings disclosed that are required to be reported in accordance with section .510(a) of OMB Circular A-133? yes

Identification of Major Programs:

Dollar threshold used to distinguish between Type A and Type B programs: $300,000

Auditee qualified as low-risk auditee? no
Section II - Financial Statement Findings

FINDING 2015-001 - FINANCIAL TRANSACTIONS AND REPORTING

There were several deficiencies in the internal control system of the School Corporation related to financial transactions and reporting that constitute material weaknesses.

1. Lack of Segregation of Duties: The School Corporation had not separated incompatible activities related to receipts. The failure to establish these controls could enable material misstatements or irregularities to remain undetected.

   One employee is responsible for issuing, recording, reporting, and depositing receipts without evidence of oversight, review, or approval. Segregation of duties was not evident; nor was there adequate oversight, review, or approval of the transactions or reports generated based on the transactions.

2. Preparing Financial Statement: The School Corporation had not identified risks to the preparation of a reliable financial statement and as a result had failed to design effective controls over the preparation of the financial statement to prevent, or detect and correct, material misstatements.

   The Form 9, Financial Activity Reports, which include financial activity of all funds and are the basis for the financial statement, were signed by the Treasurer, Superintendent of Schools, and President of the School Board. Although the reports contained all required certifications, there was no evidence of an adequate oversight or review process prior to submission.

3. Monitoring of Controls: An evaluation of the School Corporation's system of internal controls had not been conducted. The failure to monitor the internal control system places the School Corporation at risk that controls may not be designed properly or operating effectively to provide reasonable assurance that controls will prevent, or detect and correct, material misstatements in a timely manner. Additionally, the School Corporation had no process to identify or communicate corrective actions to improve controls.

   While the payroll disbursement process had separated the duties for initiating, approving, recording, and reconciling payroll, the process lacked adequate oversight and approval of the transactions or reports generated based on the transactions.

Governmental units should have internal controls in effect which provide reasonable assurance regarding the reliability of financial information and records, effectiveness and efficiency of operations, proper execution of management's objectives, and compliance with laws and regulations. Among other things, segregation of duties, safeguarding controls over cash and all other assets, and all forms of information processing are necessary for proper internal control.

Controls over the receipting, disbursing, recording, and accounting for the financial activities are necessary to avoid substantial risk of invalid transactions, inaccurate records and financial statements, and incorrect decision making. (Accounting and Uniform Compliance Guidelines Manual for Indiana Public School Corporations, Chapter 9)
FINDING 2015-002 - PREPARATION OF THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The School Corporation did not have a proper system of internal control in place to prevent, or detect and correct, errors on the Schedule of Expenditures of Federal Awards (SEFA). The School Corporation should have proper controls in place over the preparation of the SEFA to ensure accurate reporting of federal awards. Without a proper system of internal control in place that operates effectively, material misstatements of the SEFA could remain undetected.

The internal controls established by the School Corporation over the preparation and review of the SEFA were not properly implemented. The SEFA was not reviewed by someone other than the preparer. A proper system of internal controls would include segregation of duties by having a proper oversight, review, or approval process and would allow the School Corporation to prevent, or detect, and correct errors on the SEFA in a timely manner.

During the audit of the SEFA, we noted the following deficiencies:

1. The following grant activity was not properly reported:
   a. Child Nutrition Cluster expenditures were understated by $723,905 and $532,458 for 2013-2014 and 2014-2015 school years, respectively.
   b. Child and Adult Care Food Program expenditures were understated by $4,883 and $71 for 2013-2014 and 2014-2015 school years, respectively.
   c. Special Education Cluster expenditures were understated by $345,914 and $331,048 for 2013-2014 and 2014-2015 school years, respectively.
   d. Title I Grants to Local Educational Agencies expenditures were understated by $105,262 and $285,277 for 2013-2014 and 2014-2015 school years, respectively.
   e. English Language Acquisition State Grants expenditures were understated by $4,544 for the 2014-2015 school year.
   f. Improving Teacher Quality State Grants expenditures were understated by $41,688 for the 2013-2014 school year.

   These errors resulted in an understatement of federal expenditures of $2,375,050.

2. Some nonfederal grant activity for the 2013-2014 and 2014-2015 school years was reported in error on the SEFA totaling $18,766 and $37,521, respectively. The inclusion of these nonfederal grants resulted in an overstatement of the federal expenditures of $56,287.

Audit adjustments were proposed, accepted by the School Corporation, and made to the SEFA presented in this report.

Governmental units should have internal controls in effect which provide reasonable assurance regarding the reliability of financial information and records, effectiveness and efficiency of operations, proper execution of management's objectives, and compliance with laws and regulations. Among other things, segregation of duties, safeguarding controls over cash and all other assets, and all forms of information processing are necessary for proper internal control.
Controls over the receipting, disbursing, recording, and accounting for the financial activities are necessary to avoid substantial risk of invalid transactions, inaccurate records and financial statements and incorrect decision making. (Accounting and Uniform Compliance Guidelines Manual for Indiana Public School Corporations, Chapter 9)

OMB Circular A-133, Subpart C, section .300 states in part: "The auditee shall: . . . (d) Prepare appropriate financial statements, including the schedule of expenditures of Federal Awards in accordance with section .310."

OMB Circular A-133, Subpart C, section .310(b) states in part:

*Schedule of expenditures of Federal awards*. The auditee shall also prepare a schedule of expenditures of Federal awards for the period covered by the auditee's financial statements. While not required, the auditee may choose to provide information requested by Federal awarding agencies and pass-through entities to make the schedule easier to use. For example, when a Federal program has multiple award years, the auditee may list the amount of Federal awards expended for each award year separately. At a minimum, the schedule shall:

1. List individual Federal programs by Federal agency. For Federal programs included in a cluster of programs, list individual Federal programs within a cluster of programs. For R&D, total Federal awards expended shall be shown either by individual award or by Federal agency and major subdivision within the Federal agency. For example, the National Institutes of Health is a major subdivision in the Department of Health and Human Services.

2. For Federal awards received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity shall be included.

3. Provide total Federal awards expended for each individual Federal program and the CFDA number or other identifying number when the CFDA information is not available. . . .

*Section III - Federal Award Findings and Questioned Costs*

**FINDING 2015-003 - ACTIVITIES ALLOWED OR UNALLOWED, ALLOWABLE COSTS/COST PRINCIPLES, SPECIAL TESTS AND PROVISIONS - SCHOOL FOOD ACCOUNTS**

Federal Agency: Department of Agriculture
Federal Programs: School Breakfast Program, National School Lunch Program, Summer Food Service Program for Children
CFDA Numbers: 10.553, 10.555, 10.559
Federal Award Years: FY 2013-14, FY 2014-15
Pass-Through Entity: Indiana Department of Education

Management of the School Corporation had not established an effective internal control system related to the grant agreement and the following compliance requirements: Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Special Tests and Provisions - School Food Accounts. There was no process to ensure that expenditures of program funds were only for allowable activities, allowable costs, and operation of the food service program. An adequate oversight, review, or approval process had not been established.
An internal control system should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the programs.

The School Corporation operated a food service program, which was the recipient of federal funding. All transactions related to the food service program were recorded in the School Lunch fund. This includes, but was not limited to: salaries and benefits, food purchases, supplies, and all revenue generated by the food service program.

The School Corporation employed playground aides that supervised children in the lunchroom as well as on the playground. The playground aides were paid exclusively from the School Lunch fund; however, not all duties of the playground aides were related to food service. The playground aides did not maintain personnel activity reports to support the distribution of their time between playground supervision activities, and lunchroom supervision activities.

Each aide spent one hour of the day on playground supervision, costs that should have been paid from the General fund. The $31,614.16 of playground supervision salaries and related employer costs paid from the School Lunch fund and charged to the federal program are considered questioned costs.

OMB Circular A-133, Subpart C, section .300 states in part:

"The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

7 CFR 210.2 states in part:

"Nonprofit school food service means all food service operations conducted by the school food authority principally for the benefit of schoolchildren, all of the revenue from which is used solely for the operation or improvement of such food services."

7 CFR 210.14 states in part:

"(a) Nonprofit school food service. School food authorities shall maintain a nonprofit school food service. Revenues received by the nonprofit school food service are to be used only for the operation or improvement of such food service, except that, such revenues shall not be used to purchase land or buildings, unless otherwise approved by FNS, or to construct buildings. Expenditures of nonprofit school food service revenues shall be in accordance with the financial management system established by the State agency under §210.19(a) of this part. School food authorities may use facilities, equipment, and personnel supported with nonprofit school food revenues to support a nonprofit nutrition program for the elderly, including a program funded under the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.)."
OMB Circular A-87, Attachment B, Section 8(h), states in part:

"(4) Where employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports or equivalent documentation which meets the standards in subsection (5) unless a statistical sampling system (see subsection (6)) or other substitute system has been approved by the cognizant Federal agency. Such documentary support will be required where employees work on:

(a) More than one Federal award,
(b) A Federal award and a non Federal award,
(c) An indirect cost activity and a direct cost activity,
(d) Two or more indirect activities which are allocated using different allocation bases, or
(e) An unallowable activity and a direct or indirect cost activity. . . ."

The failure to establish internal controls enabled material noncompliance to go undetected. The failure to comply with the compliance requirements could result in the loss of federal funds to the School Corporation.

We recommended that the School Corporation’s management establish controls to ensure compliance and comply with the Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Special Tests and Provisions - School Food Accounts requirements of the programs.

**FINDING 2015-004 - ELIGIBILITY**

Federal Agency: Department of Agriculture  
Federal Programs: School Breakfast Program, National School Lunch Program, Summer Food Service Program for Children  
CFDA Numbers: 10.553, 10.555, 10.559  
Federal Award Years: FY 2013-14, FY 2014-15  
Pass-Through Entity: Indiana Department of Education

Management of the School Corporation had not established an effective internal control system related to the grant agreement and the Eligibility compliance requirement. There was no process to ensure that supporting documentation was retained and available for audit. Adequate oversight of the Food Service Department had not been established.

An internal control system should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the programs.
The School Corporation did not retain the free and reduced price applications for the 2013-2014 and 2014-2015 school years. The Food Service Department used a web-based program to store and manage applications during the audited school years. However, the School Corporation changed software vendors for the 2015-2016 school year and could no longer access the web-based program without payment of an additional access cost.

Due to the lack of access to the applications, a test of the eligibility determinations could not be conducted. Based on the Verification Collection Report the School Corporation provided, 555 of the 1,074 eligible students, or 51.7 percent, were directly certified in the 2013-2014 school year; 567 of the 1,196 eligible students, or 47.4 percent, were directly certified in the 2014-2015 school year.

OMB Circular A-133, Subpart C, section .300 states in part:

"The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

7 CFR 245.6(e) states:

"Recordkeeping. The local educational agency must maintain documentation substantiating eligibility determinations on file for 3 years after the date of the fiscal year to which they pertain, except that if audit findings have not been resolved, the documentation must be maintained as long as required for resolution of the issues raised by the audit."

The failure to establish internal controls could enable material noncompliance to go undetected. The failure to comply with the compliance requirements could result in the loss of federal funds to the School Corporation.

We recommended that the School Corporation’s management establish controls to ensure compliance and comply with the Eligibility requirements of the programs.

**FINDING 2015-005 - SPECIAL TESTS AND PROVISIONS - PAID LUNCH EQUITY**

Federal Agency: Department of Agriculture  
Federal Programs: National School Lunch Program  
CFDA Numbers: 10.555  
Federal Award Years: FY 2013-14, FY 2014-15  
Pass-Through Entity: Indiana Department of Education

Management of the School Corporation had not established an effective internal control system related to the grant agreement and the Special Tests and Provisions - Paid Lunch Equity compliance requirement.

The School Corporation had not designed or implemented adequate policies or procedures to ensure compliance with the Special Tests and Provisions - Paid Lunch Equity. There were no procedures in place to ensure that documentation of the calculations was maintained or that the lunch prices charged were approved by the School Board. An oversight, review, or approval process had not been established.
An internal control system should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the programs.

The School Corporation did not retain its paid lunch equity calculations from the Indiana Department of Education or other locally produced documents; therefore, we could not determine if they were in compliance with the Paid Lunch Equity requirements. Beginning in the 2010-2011 school year, the officials put a plan into place to raise lunch prices by ten cents each year from the 2010-2011 to the 2018-2019 school year in order to be in compliance with these requirements. However, the School Board did not publically adopt the breakfast and lunch prices for each school year.

OMB Circular A-133, Subpart C, section .300 states in part:

"The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal Programs."

7 CFR 210.14(e) states:

"Pricing paid lunches. For each school year beginning July 1, 2011, school food authorities shall establish prices for paid lunches in accordance with this paragraph.

(1) Calculation procedures. Each school food authority shall:

(i) Determine the average price of paid lunches. The average shall be determined based on the total number of paid lunches claimed for the month of October in the previous school year, at each different price charged by the school food authority.

(ii) Calculate the difference between the per meal Federal reimbursement for paid and free lunches received by the school food authority in the previous school year (i.e., the reimbursement difference);

(iii) Compare the average price of a paid lunch under paragraph (e)(1)(i) of this section to the difference between reimbursement rates under paragraph (e)(1)(ii) of this section."

7 CFR 210.15(b) states in part:

"Recordkeeping summary. In order to participate in the Program, a school food authority or a school, as applicable, must maintain records to demonstrate compliance with Program requirements. These records include but are not limited to: . . .

(6) Records to document compliance with the requirements in §210.14(e); . . ."

The failure to establish internal controls could enable material noncompliance to go undetected. The failure to comply with the compliance requirement could result in the loss of federal funds to the School Corporation.
We recommended that the School Corporation’s management establish controls to ensure compliance and comply with the Special Tests and Provisions - Paid Lunch Equity requirements of the programs.

**FINDING 2015-006 - EQUIPMENT AND REAL PROPERTY MANAGEMENT**

Federal Agency: Department of Agriculture  
Federal Programs: School Breakfast Program, National School Lunch Program, Summer Food Service Program for Children  
CFDA Numbers: 10.553, 10.555, 10.559  
Federal Award Years: FY 2013-14, FY 2014-15  
Pass-Through Entity: Indiana Department of Education

Management of the School Corporation had not established an effective internal control system related to the grant agreement and the Equipment and Real Property Management compliance requirement.

The School Corporation had not designed or implemented adequate policies or procedures to ensure that equipment purchased with food service funds was properly accounted for in the capital asset records, or maintain other property records. An oversight, review, or approval process had not been established.

An internal control system should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the programs.

The School Corporation failed to include all applicable equipment purchased with food service funds in their capital assets records, or maintain other property records. These assets included a $40,140 walk-in freezer, a $14,094 dishwasher, and a $5,000 dish machine exhaust. The School Corporation also did not maintain capital asset records or other property records that were up to date; the asset list that was provided for audit had not been updated since June 2013. In addition, assets purchased with federal funds were not distinguished from assets purchased with nonfederal funds in the School Corporation’s records.

OMB Circular A-133, Subpart C, section .300 states in part:

“The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs.”

7 CFR 3016.32 states in part:

“(b) States. A State will use, manage, and dispose of equipment acquired under a grant by the State in accordance with State laws and procedures. Other grantees and subgrantees will follow paragraphs (c) through (e) of this section. . . .
(d) **Management requirements.** Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place will, as a minimum, meet the following requirements:

1. Property records must be maintained that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.

2. A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.

3. A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated."

The failure to establish internal controls enabled material noncompliance to go undetected. The failure to comply with the compliance requirement could result in the loss of federal funds to the School Corporation.

We recommended that the School Corporation’s management establish controls to ensure compliance and comply with the Equipment Management requirements of the programs.

**FINDING 2015-007 - LEVEL OF EFFORT - MAINTENANCE OF EFFORT**

Federal Agency: Department of Education  
Federal Program: Special Education - Grants to States  
CFDA Number: 84.027  
Federal Award Numbers: 14213-047-PN01, 14214-047-PN01, 4215-047-PN01  
Pass-Through Entity: Indiana Department of Education

Management of the School Corporation had not established an effective internal control system, which would include segregation of duties, related to the grant agreement and the Level of Effort - Maintenance of Effort compliance requirement.

The School Corporation had not designed or implemented effective policies or procedures to ensure compliance with the program requirements of Level of Effort - Maintenance of Effort. An oversight, review, or approval process had not been established to ensure compliance with maintenance of effort amounts reported to the pass-through entity.

An internal control system should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the program.
The failure to establish an effective internal control system places the School Corporation at risk of noncompliance with the grant agreement and the compliance requirement noted above. A lack of segregation of duties within an internal control system could also allow noncompliance with compliance requirements and allow the misuse and mismanagement of federal funds and assets by not having proper oversight, reviews, and approvals over the activities of the programs.

OMB Circular A-133, Subpart C, section .300 states in part:

"The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

The failure to establish internal controls could enable material noncompliance to go undetected. Non-compliance with the grant agreement or the compliance requirement could result in the loss of federal funds to the School Corporation.

We recommended that the School Corporation establish controls, including segregation of duties, related to the grant agreement and the Level of Effort - Maintenance of Effort compliance requirement.

**FINDING 2015-008 - REPORTING**

**Federal Agency:** Department of Agriculture  
**Federal Programs:** School Breakfast Program, National School Lunch Program, Summer Food Service Program for Children  
**CFDA Numbers:** 10.553, 10.555, 10.559  
**Federal Award Years:** FY 2013-14, FY 2014-15  
**Pass-Through Entity:** Indiana Department of Education

Management of the School Corporation had not established an effective internal control system related to the grant agreement and the Reporting compliance requirement.

The School Corporation had not designed or implemented adequate policies and procedures to ensure that the monthly claims for reimbursement or the Annual Financial Report were properly supported by the financial records and/or submitted by the due dates. An oversight or review process had not been established.

An internal control system should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the programs.

The School Corporation failed to review and ensure the accuracy of the monthly Claims for Reimbursement and retain the proper supporting documentation. Monthly summary reports of the lunch counts were not provided for audit. A verification of the monthly claims for reimbursement, by comparing the total of the daily sales reports to the number of meals claimed, revealed meals claimed in excess of the monthly sales total. However, not all daily sales reports were provided for audit.
The School Corporation must submit an Annual Financial Report within 30 days after June 30. As of February 8, 2016, the School Corporation has not submitted the report for the 2014-2015 school year.

OMB Circular A-133, Subpart C, section .300 states in part:

"The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal Programs."

7 CFR 210.8(a) states in part:

"(2) School food authority claims review process. Prior to the submission of a monthly Claim for Reimbursement, each school food authority shall review the lunch count data for each school under its jurisdiction to ensure the accuracy of the monthly Claim for Reimbursement. The objective of this review is to ensure that monthly claims include only the number of free, reduced price and paid lunches served on any day of operation to children currently eligible for such lunches. . . .

(5) Recordkeeping. School food authorities shall maintain on file, each month's Claim for Reimbursement and all data used in the claims review process, by school. Records shall be retained as specified in §210.23(c) of this part. School food authorities shall make this information available to the Department and the State agency upon request."

7 CFR 3016.20(b) states in part:

"The financial management systems of other grantees and subgrantees must meet the following standards:

(1) Financial reporting. Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant."

The failure to establish internal controls enabled material noncompliance to go undetected. The failure to comply with the compliance requirements could result in the loss of federal funds to the School Corporation.

We recommended that the School Corporation's management establish controls to ensure compliance and comply with the Reporting requirements of the programs.

FINDING 2015-009 - CHILD NUTRITION CLUSTER

Federal Agency: Department of Agriculture
Federal Programs: School Breakfast Program, National School Lunch Program, Summer Food Service Program for Children
CFDA Numbers: 10.553, 10.555, 10.559
Federal Award Years: FY 2013-14, FY 2014-15
Pass-Through Entity: Indiana Department of Education
Management of the School Corporation had not established an effective internal control system, which would include segregation of duties, related to the grant agreement and the Cash Management, Procurement and Suspension and Debarment, and Special Tests and Provisions - Verification of Free and Reduced Price Applications compliance requirements.

**Cash Management**

The School Corporation had not designed or implemented adequate policies and procedures to ensure that the School Lunch fund monthly cash balances are limited to the average expenditures for three months. An oversight or review process had not been established to document the monitoring of the cash balances.

**Procurement and Suspension and Debarment**

The School Corporation utilized a third-party for Food Service bids. The third-party administered the bidding process as well as verified that the vendors were not suspended or debarred. The third-party made a recommendation to the School Corporation for the winning bids. However, there were no controls in place to ensure that the School Corporation and School Board formally approved the bids or awarded the contracts to the successful bidders. An oversight, review, or approval process had not been established.

**Special Tests and Provisions - Verification of Free and Reduced Price Applications**

Each School Corporation that participates in the National School Lunch Program must verify the current free and reduced price eligibility of households selected from a sample of applications that it has approved for free and reduced price meals. The School Corporation performed the verifications; however, there was no documentation that an oversight or review process had been established to ensure the accuracy of the verifications performed.

An internal control system should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the programs.

The failure to establish an effective internal control system places the School Corporation at risk of noncompliance with the grant agreement and the listed compliance requirements. A lack of segregation of duties within an internal control system could also allow noncompliance with compliance requirements and allow the misuse and mismanagement of federal funds and assets by not having proper oversight, reviews, and approvals over the activities of the programs.

OMB Circular A-133, Subpart C, section .300 states in part:

"The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

The failure to establish internal controls could enable material noncompliance to go undetected. Noncompliance with the grant agreement or the compliance requirements could result in the loss of federal funds to the School Corporation.
RIVER FOREST COMMUNITY SCHOOL CORPORATION
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
(Continued)

We recommended that the School Corporation's management establish controls, including seg-
regation of duties, related to the grant agreement and compliance requirements listed above.

FINDING 2015-010 - TITLE I GRANTS TO LOCAL EDUCATIONAL AGENCIES

Federal Agency: Department of Education
Federal Program: Title I Grants to Local Educational Agencies
CFDA Number: 84.010
Federal Award Numbers: 13-4590, 14-4590, 15-4590
Pass-Through Entity: Indiana Department of Education

Management of the School Corporation had not esta blished an effective internal control system,
which would include segregation of duties, related to the grant agreement and the following compliance re-
quirements: Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Level of Effort, Reporting,
Specials Tests and Provisions - Comparability. The failure to establish an effective internal control system
placed the School Corporation at risk of noncomplian ce with the grant agreement and the compliance re-
quirements. A lack of segregation of duties within an internal control system could also allow noncompliance
with compliance requirements and allow the misuse and mismanagement of federal funds and assets by not
having proper oversight, reviews, and approvals over the activities of the program.

Activities Allowed or Unallowed, Allowable Costs/Cost Principles

The School Corporation did not properly document segregation of duties related to the payment
of payroll. One employee was responsible for the generation and payment of payroll. The
School Corporation failed to properly document a review of payroll costs associated with their
various grants, which would include a review by someone familiar with the respective grant re-
quirements. The initiation, approval, recording, and reconciliation duties were segregated, but
were not properly monitored. The School Corporation did not have controls in place to ensure
that payroll expenditures charged to the program were for allowable activities and for allowable
costs.

Level of Effort - Maintenance of Effort

Maintenance of Effort calculations were prepared by the Indiana Department of Education
(IDOE) when allocating Title I funding to each school district. The IDOE used the expenditure in-
formation submitted by schools on their Form 9, Financial Activity Report (Form 9) to calculate
maintenance of effort. The Form 9s, which included financial activity of all funds and were the
basis for the financial statement, were signed by the Treasurer, Superintendent of Schools, and
President of the School Board. Although the reports were signed by the appropriate individuals,
there were no reviews or other controls in place to ensure the accuracy of the reports prior to
submission.

Reporting

The School Corporation was responsible for providing information that is used to compile the
State's Per Pupil Expenditure (SPPE) report. This information was provided to the IDOE via the
financial information in the Form 9s. In order to ensure accurate reporting of the Form 9, it was
signed by the President of the School Board and the Superintendent of Schools. Although the
reports were signed by the appropriate individuals, there were no reviews or other controls in
place to ensure the accuracy of the reports prior to submission.
Special Tests and Provisions - Comparability

The comparability reports were prepared and submitted by the Title I Consultant. There was no evidence of adequate oversight or review before submission.

An internal control system, including segregation of duties, should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. In order to have an effective internal control system, it is important to have proper segregation of duties. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the program. The fundamental premise of segregation of duties is that an individual or small group of individuals should not be in a position to initiate, approve, undertake, and review the same activity.

OMB Circular A-133, Subpart C, section .300 states in part:

"The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

The failure to establish internal controls could enable material noncompliance to go undetected. Noncompliance with the grant agreement or the compliance requirements could result in the loss of federal funds to the School Corporation.

We recommended that the School Corporation's management establish controls, including segregation of duties, related to the grant agreement and compliance requirements listed above.

FINDING 2015-011 - ELIGIBILITY

Federal Agency: Department of Education
Federal Program: Title I Grants to Local Educational Agencies
CFDA Number: 84.010
Federal Award Numbers: 13-4590, 14-4590, 15-4590
Pass-Through Entity: Indiana Department of Education

Management of the School Corporation had not established an effective internal control system related to the grant agreement and the Eligibility compliance requirement.

The School Corporation had not designed or implemented adequate policies and procedures to ensure that the State of Indiana's pre-populated public and poverty enrollment figures reported on Eligible Schools Summary page of the Title I application were reflective of the School Corporation's records. An oversight or review process over the reported enrollment had not been established.

An internal control system should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the program.
To be in compliance with the Eligibility requirements, the public enrollment as well as the public poverty data on the Eligible School Summary page of the Title I application must agree to the School Corporation records.

The State of Indiana pre-populates the public and poverty enrollment based upon data previously collected as of October 1 of a school year. The School Corporation did not maintain supporting documentation to support the public enrollment reported. In addition, the Food Service Department did not maintain copies of the free and reduced eligibility applications to document poverty enrollment. The food service software was changed after the audit period so the School Corporation no longer had access to the eligibility applications or poverty data. Therefore, the public and poverty enrollment used to determine eligibility for Title I could not be verified to School Corporation records.

OMB Circular A-133, Subpart C, section .300 states in part:

"The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

34 CFR 200.78(a)(1) states:

"An LEA must allocate funds under subpart A of this part to school attendance areas and schools, identified as eligible and selected to participate under section 1113(a) or (b) of the ESEA, in rank order on the basis of the total number of children from low-income families in each area or school."

The failure to establish internal controls could enable material noncompliance to go undetected. The failure to comply with the compliance requirement could result in the loss of federal funds to the School Corporation.

We recommended that the School Corporation's management establish controls to ensure compliance and comply with the Eligibility requirements of the program.

**FINDING 2015-012 - SPECIAL TESTS AND PROVISIONS - SCHOOLWIDE PROGRAMS**

Federal Agency: Department of Education
Federal Program: Title I Grants to Local Educational Agencies
CFDA Number: 84.010
Federal Award Numbers: 13-4590, 14-4590, 15-4590
Pass-Through Entity: Indiana Department of Education

Management of the School Corporation had not established an effective internal control system related to the grant agreement and the Special Tests and Provisions - Schoolwide Programs compliance requirement.

The School Corporation had not designed or implemented adequate policies and procedures to ensure compliance with the Schoolwide Programs requirements. School Corporations operating a schoolwide program must verify that they were eligible to do so by ensuring that each school met the 40 percent poverty requirements and that the schoolwide programs included a plan that included the required components.
An internal control system should be designed and operate effectively to provide reasonable assurance that material noncompliance with the grant agreement or a compliance requirement of a federal program will be prevented, or detected and corrected, on a timely basis. This is accomplished by making sure proper oversight, reviews, and approvals take place and to have a separation of functions over certain activities related to the program.

The Food Service Department did not maintain copies of the free and reduced price applications to document poverty percentages. The food service software was changed after the audit period so the School Corporation no longer had access to the applications or poverty counts. Therefore, compliance with the eligibility requirements for poverty could not be verified. However, based on the School Corporation's Verification Collection Report that was provided, the School Corporation did have 32.9 percent and 37.1 percent of the total number of students directly certified for eligibility for the 2013-2014 and 2014-2015 school years, respectively.

Furthermore, the schoolwide plans presented for audit did not include the required annual evaluations of the results achieved by the program. Therefore, they also did not include any revisions of the schoolwide plans based upon an evaluation.

OMB Circular A-133, Subpart C, section .300 states in part:

"The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

34 CFR 200.25(b)(1) states:

"A school may operate a schoolwide program if—

(i) The school's LEA determines that the school serves an eligible attendance area or is a participating school under section 1113 of the ESEA; and

(ii) For the initial year of the schoolwide program—

(A) The school serves a school attendance area in which not less than 40 percent of the children are from low-income families; or

(B) Not less than 40 percent of the children enrolled in the school are from low-income families."

34 CFR 200.26(c) states:

"Evaluation. A school operating a schoolwide program must—

(1) Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;

(2) Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and
(3) Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program."

The failure to establish internal controls enabled material noncompliance to go undetected. The failure to comply with the compliance requirement could result in the loss of federal funds to the School Corporation.

We recommended that the School Corporation's management establish controls to ensure compliance and comply with the Special Tests and Provisions - Schoolwide Programs requirements of the program.
AUDITEE PREPARED DOCUMENTS

The subsequent documents were provided by management of the School Corporation. The documents are presented as intended by the School Corporation.
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

FINDING 2013-3: INTERNAL CONTROLS OVER COMPLIANCE REQUIREMENTS THAT HAVE A DIRECT AND MATERIAL EFFECT ON THE CHILD NUTRITION CLUSTER PROGRAMS

Original Assigned SBA Audit Report Number: B43286
Report Period: July 1, 2011 to June 30, 2013
Federal Grantor Agency: U.S Department of Agriculture
Pass-Through Entity: Indiana Department of Education
Contact Person Responsible for Corrective Action: Lynne Styx, Treasurer
Contact Phone Number: 219-962-2909

Status of Audit Finding:

In July of 2014, the new treasurer and new Superintendent reviewed all procedures with the former Director, Carolyn Nowacki. There was some disagreement regarding these procedures and as a result, Carolyn resigned effective October 31, 2014.

Eligibility and Verification of Free and Reduced Price Applications

Beginning in October of 2014, the school corporation has put into place a system where applications are done and verified by at least two food service employees in addition to the Director of Student Nutrition. In addition, ALL approvals or denials are reviewed by the Director.

Equipment Management

The school corporation tags all equipment that is purchased with federal funds. Every piece of equipment used for the student nutrition program is purchased with federal funds. Every two years the inventories are updated by an outside appraisal service. Current management is still working on a procedure to track the purchase, use and disposal of these assets. During the current administration, there has been no capital purchases or disposal of equipment.

Procurement, Suspension and Debarment

The school corporation is a member of Northwest Indiana Educational Service Center. As part of membership bidding is obtained by the service center, awards are voted on by the members. The School Board approves participation and payment of membership dues to the service center. Beginning in February 2016, management will seek board approval for all awards given by the cooperative.

Reporting

The school corporation has a system in place where the status of reports is verbally conveyed by the Director of Student Nutrition. Management see where a more thorough system should be in place. Beginning in January 2016, the treasurer will meet with the Director of Student Nutrition monthly to review all required reports.
FINDING 2013-4 – EQUIPMENT MANAGEMENT COMPLIANCE – CHILD NUTRITION CLUSTER PROGRAMS

Original Assigned SBA Audit Report Number: B43286
Report Period: July 1, 2011 to June 30, 2013
Federal Grantor Agency: U.S Department of Agriculture
Pass-Through Entity: Indiana Department of Education
Contact Person Responsible for Corrective Action: Lynne Styx, Treasurer
Contact Phone Number: 219-962-2909

The school corporation is in the process of putting procedures in place to track equipment purchases and disposal. Management will compile an accounting of assets to ensure that the school corporation’s records accurately reflect and agree with the inventories compiled by the capital asset appraisal firm. We expect to have this in place for the next appraisal which is scheduled to take place during 2016.

FINDING 2013-5 – INTERNAL CONTROLS OVER COMPLIANCE REQUIREMENTS THAT HAVE A DIRECT AND MATERIAL EFFECT ON THE EDUCATION JOBS FUND PROGRAM

Original Assigned SBA Audit Report Number: B43286
Report Period: July 1, 2011 to June 30, 2013
Federal Grantor Agency: U.S Department of Education
Pass-Through Entity: Indiana Department of Education
Contact Person Responsible for Corrective Action: Lynne Styx, Treasurer
Contact Phone Number: 219-962-2909

The Educational Jobs Fund was expended and closed by December of 2012. The fund is currently inactive.

FINDING 2013-6 – COMPLIANCE WITH CASH MANAGEMENT AND REPORT – EDUCATION JOBS FUND

Original Assigned SBA Audit Report Number: B43286
Report Period: July 1, 2011 to June 30, 2013
Federal Grantor Agency: U.S Department of Education
Pass-Through Entity: Indiana Department of Education
Contact Person Responsible for Corrective Action: Lynne Styx, Treasurer
Contact Phone Number: 219-962-2909

The Educational Jobs Fund was expended and closed by December of 2012. The fund is currently inactive.
