AUDIT RESULT AND COMMENT

INTERNAL CONTROLS OVER FINANCIAL TRANSACTIONS AND REPORTING

Condition and Context

There were several deficiencies in the internal control system of the School Corporation related to financial transactions and reporting. There was a lack of segregation of duties, as the School Corporation had not separated incompatible activities related to cash and investments and receipts.

Cash and Investments

The bank balance was reconciled by the Treasurer; however, there was no documentation of a control in place, such as an oversight, review, or approval process.

Receipts

The Treasurer collects, records, and deposits receipts. There was no documentation of a control in place, such as an oversight, review, or approval process.

Criteria

The Indiana State Board of Accounts (SBOA) is required under Indiana Code 5-11-1-27(e) to define the acceptable minimum level of internal control standards. To provide clarifying guidance, the State Examiner compiled the standards contained in the manual, *Uniform Internal Control Standards for Indiana Political Subdivisions*. All political subdivisions subject to audit by SBOA are expected to adhere to these standards. The standards include adequate control activities. According to this manual:

"Control activities are the actions and tools established through policies and procedures that help to detect, prevent, or reduce the identified risks that interfere with the achievement of objectives. Detection activities are designed to identify unfavorable events in a timely manner whereas prevention activities are designed to deter the occurrence of an unfavorable event. Examples of these activities include reconciliations, authorizations, approval processes, performance reviews, and verification processes.

An integral part of the control activity component is segregation of duties. . . .

There is an expectation of segregation of duties. If compensating controls are necessary, documentation should exist to identify both the areas where segregation of duties are not feasible or practical and the compensating controls implemented to mitigate the risk. . . .

The Green Book identifies a list of control activity categories that are meant only to illustrate the range and variety of control activities; the list is by no means all inclusive, but is reproduced here for reference purposes: . . .

- Accurate and timely recording of transactions. . . ."
