TrustIndiana vs. S&P AAA/AA GIP* - Comparison of 30 Day Net Yields

*The benchmark, the S&P US AAA & AA Rated GIP All 30 Day Net Yield (LGIP30D) is a performance indicator of rated GIPs that maintains a stable net asset value of $1.00 per share and is an unmanaged market index representative of the GIP universe. The S&P benchmark utilized in this comparison is a composite of all rated stable net asset value pools. The index includes only those rated based on Standard & Poor’s money market criteria. Pools rated ‘AAm’ provide excellent safety and a superior capacity to maintain principal value within their stated net asset value range. Pools rated ‘AAAm’ offer very good safety and a strong capacity to maintain principal value (Source: Standard & Poor’s website, 9/27/2013.) The comparison between this index and the portfolio may differ in holdings, duration and percentage composition of each holding. Such differences may account for variances in yields. Public Trust Advisors, LLC took over the management and advisory services effective May 1, 2015. All data prior to this date is from the previous Investment Advisor. As both Investment Advisors adhered to the investment policy there may be variances in yield, weighted average maturities and portfolio composition due to differing investment styles. Past Performance is no guarantee of future results. Any financial and/or investment decision may incur losses.
