Common Repeat Findings
Depository reconciliations of the fund balances to the bank account balances were conducted; however, the County's main bank account did not reconcile with the County Treasurer's records. The differences on the reconciliations ranged between $35,000 cash short to $18,000 cash long during the audit period. Additional errors were noted on the reconciliations at December 31, 2018, including:

1. Several checks for recorded in December 2019 that did not clear the bank were not listed on the outstanding check list.
2. A $500,000 investment was redeemed and recorded twice in the Treasurer's Daily Cash Book in December 2019.
3. A $72,000 transfer was incorrectly subtracted from the bank balance instead of being added.

The County did not record electronic fund transfers from the Auditor of State in a timely manner. Both the Auditor and Treasurer recorded the transactions two weeks after receiving the distributions in 30 percent of the distributions tested.
Internal Controls over Financial Transactions and Reporting

The County Treasurer’s office did not have an effective system of controls in place designed to prevent or detect errors associated with financial transactions, closing, and reporting:

Treasurer’s Daily Balance of Cash and Depositories (Cash Book)
The County Treasurer’s Bookkeeper recorded all transactions to the County Treasurer’s Cash Book, with no oversight or review process. There were several posting errors totaling $3672.89.

Bank Reconciliements
Depository reconciliements of the fund balances to the bank account balances were completed. The December 31, 2019 bank reconcilement for one bank account contained various reconciling items that dated as far back as 2012. The bank reconciliements did not include sufficient detail for all reconciling items.

Reconciliation Between the County Treasurer and the County Auditor
There was no documented internal controls in place to reconcile the County Auditor’s Funds Ledger between the County Auditor’s and County Treasurer’s offices during 2019. During the year, the month-end differences between the County Auditor’s ledger ranged from ($123,456) to $578,901 different from the County Treasurer’s ledger. As of December 31, 2019, the County Auditor’s ledger balance exceeded the County Treasurer’s funds ledger balance by $33,987.

Monthly Financial Report (47TR)

The County Treasurer’s Monthly Financial Report (Form 47TR) is to be prepared by the 16th day of the following month. All 12 of the 2019 year reports were prepared after the 16th day of the following month; some were prepared several months later.
Misappropriation of Funds

Failure to Immediately Report Losses of Public Funds

The County Treasurer failed to immediately report to the Indiana State Board of Accounts losses of public funds through a banking scheme. Verbal notice was given to the Field Examiners on-site six months after the loss was discovered.

Per the County Treasurer the bank account was compromised in November 2019. The County Treasurer discovered the loss while performing the monthly bank reconcilement and the funds were returned by the bank in the amount of $5,693.
