What is a Government Record?

“Any writing, paper, report, study, map, photograph, card, tape recording, or other material that is created, received, retained, maintained, used or filed by a public agency and which is generated on paper, paper substitutes, photographic media, chemically based media, electronically stored data, or any other material, regardless of form or characteristics.”
Government Records

What Does That Include?

- Paper
- Film and microforms
- Website
- Email
- Data in a database
- Born-digital records
- Scanned/Digitized images
- Audio files
- Social Media
- Metadata and Indexes
What is Records Retention?

- How is the length of retention determined?
  - Generally, Records Management staff work with county/local offices utilizing established retention schedules to identify:
    - The Administrative and Fiscal value
    - Legal value
    - Public Demand and Interest, and
    - Historical value of the information

- Paper, Film, Electronic
  - Retention is based upon *content* – NOT storage media
Retention Periods...

- Transitory: can be destroyed immediately.
- Short-term: generally ten years or fewer.
- Long-term: greater than ten years and not permanent.
- Permanent: forever.
• Officials should first reference this office-specific retention schedule [https://www.in.gov/iara/files/county_auditor.pdf](https://www.in.gov/iara/files/county_auditor.pdf).

• The AU Retention Schedule is divided into seven (7) categories:
  1. Books, Ledgers, Registers and Journals
  2. Notices, Certificates and Certification
  3. Tax Records
  4. Reports, Statements and Petitions
  5. Contract Bids
  6. Budget Estimates and Fund Encumbrances
  7. Asset Inventory

Permanent Records

• In many jurisdictions, you can only destroy permanent paper records if you MICROFILM the original paper records.

• If you digitize Permanent records, or they are submitted electronically, they may also be REQUIRED to be converted to microfilm.

• Digital records are generally NOT recognized as Permanent format to preserve information.
How do I microfilm these? (or is microfilm still a thing)?

- Estimated life span of microfilm stored at proper conditions is 500 years. The estimated life span of a digital file is about 10 years (Source: Temple University Libraries)

- The cost of maintaining microfilm is small compared with that of digital images. (Source: NARA)

- Save on storage space! We can also digitize from film!

- Contact us at imaging@iara.in.gov

What if the form/record series I’m looking for is not listed on the County Auditor Retention Schedule?
This Retention Schedule is divided into five (5) categories:

1. Administrative
2. Accounting and Finance
3. Personnel
4. Publications and Reports
5. Audio, Video and General Media

GEN schedule is applicable to all offices in addition to their office specific Retention Schedule.

Retention periods for some records are increased in length of time to be retained because current Indiana Code statute of limitations have been applied to all records on this schedule.
