REGULATIONS AND GUIDELINES OF STATE, FEDERAL, AND LOCAL AGENCIES

Soil and Water Conservations Districts should follow the regulations and guidelines of state, federal and local agencies, including, but not limited to, policies as developed and adopted by the State Soil Conservation Board and the Operations Manual For Indiana Soil and Water Conservation Districts prepared by the Division of Soil Conservation, Indiana Department of Agriculture.

MEALS AND/OR REFRESHMENTS

The following is the State Board of Accounts audit position related to meals and/or refreshments provided by a Soil and Water Conservation District.

In general, a governmental unit would be precluded from providing meals and/or refreshments to individuals who are not employed by the government. A governmental unit would also generally be precluded from providing meals, refreshments, or other personal items to their employees or officials, unless specifically provided for by statute or duly authorized written policy of the government.

Some governments authorize reimbursement of meals and similar expenses to their employees and officers while on travel status through a properly adopted travel policy. In the case of a Soil and Water Conservation District, such reimbursements would be made in accordance with the County's travel policy. In general, other meals or similar expenses provided to employees or members of the governing body are not authorized.
Likewise, meals and similar expenses for individuals who are not employees or officers of the District would not be allowable expenditures of District funds; however, the State Board of Accounts would not take exception to the following:

Meals or refreshments provided to volunteers who are in the process of performing services for the benefit of the District, provided such expenditures are reasonable and allowed by a duly authorized policy adopted by the Board of Supervisors of the District.

Light refreshments provided to the general public during field days and similar public events promoting soil and water conservation, provided such expenditures are reasonable and related to the event hosted or sponsored by the District.

Meals provided at less than the District's actual cost at the District Annual Meeting. We recognize the Annual Meeting is an integral part of the activities of the District, and as such, part or all of the costs related to the Annual Meeting are generally duly authorized expenditures of District funds. The Board of Supervisors should adopt a written policy describing costs or fees for its various activities, including the cost, if any, of the meal provided at the District Annual Meeting. If the District provides meals at no cost to certain participants, or if different rates are charged to different classes of participants, the written policy referred to above should include the methodology used to determine which participants are provided meals at no cost, or are charged different rates for meals.
