Data Review Committee Meeting May 12, 2016

"C" Collection Update:
- Data Share approved with INPRS – working with INPRS to receive data on all TERF employees; possibly providing DOE with salary, contract days, years of experience and degree held. We are hoping salary can be provided for each area a certified employee is paid. INPRS will not have data on non-public employees.
- Once we have the data needed IDOE will match to current data and do a "clean-up" of in house data for both STN and LVIS.

SPN Lookup Changes:
- Change to an Employee Report and "lock down" the SPN data submission; no longer allowing schools to change demographic data on a SPN. Forcing schools to submit a change request on demographic data same as they do for STN.
- Looking to add Total Years Experience, % of Salary Paid by Title and Degree to SPN lookup. Still leaves Prior Year Employment and Total Percent of Time Employed needed from CE collection.
- Suggested from the field; show license # on SPN lookup, Praxis (license paperwork), Workplace license (?)

Accomplishing the above could possibly eliminate the CE collection.

DOE-NE (non-certified collection):
- Need to begin looking at collection in regards to the special education data collected. I believe some of this data is collected on both CE and NE.
- Possibly reduce NE or eliminate if we can add all to SPN lookup (Employee Report).

Initial Meetings and/or WebEx held:
- Risa Regnier to discuss needs of CE, CP data
- Peggy Wild to discuss needs of CC
- Chris Deaton to discuss needs of CC, Dual Credit and data collected by DWD to see if we can consolidate. Items listed DWD collects end of school year:

Completion status	Concentrator status
Assessment/certification, Taken	Assessment/certification, pass/fail
# Dual Credits Transcripted	Earned Credits#
Pathway enrolled	Dual Credit Post Secondary Course
Dual Credit Post Secondary Institution	Work Based Learning-# Hours
Work Based Learning-Employer Name	Work Based Learning-Type of Experience
Work Based Learning-Pathway	

- End Users: Public and Charter school representatives to get input on burden of reporting "C" data and thoughts on moving data to the SPN, reducing down CP and CC data requirements. (5 members participated)
