Change in Expiration Dates for Transport Operators

On July 1, 2021, the Secretary of State's office took over administration and regulation of Transport Operator plates. As part of that transition, plate expiration dates shifted to align with the Secretary of State's dealer plate renewal schedule. A chart outlining the shifts is below.

We are working to get new month-day stickers for Transport Operators but are encountering supply issues. As a result, you may encounter Transport Operator plates whose expiration dates in IDACS do not match the stickers on their plates.

Please contact our office at dealers@sos.in.gov with any questions.
