

EDUCATION & ENROLLMENT PACKET

A health savings account (HSA) is a tax-advantaged checking account that gives you the ability to save for future medical expenses or pay current ones. It is individually owned; however, you may elect to designate an authorized signer who may also withdraw funds and be issued a debit card.

HSA Eligibility

To be eligible to make deposits to an HSA, the account holder:

- Must be currently enrolled in an HSA-qualified health plan
- May not be enrolled in any other non-HSA qualified health plan
- May not have, or be eligible to use, a general purpose flexible spending account (FSA)
- Cannot be claimed as a dependent on another person's tax return
- May not be enrolled in Medicare, Medicaid or Tricare
- Must not have used VA medical benefits in the past three months, with the exception of preventative services or treatment for a service-connected disability

Contributions to your HSA

The annual maximum allowable contributions to an HSA, as established by the IRS, for 2022 are **\$3,650: Individual** and **\$7,300: Family**.

Individuals 55 and older can make an additional catch-up contribution of \$1,000 in 2022. A married couple can make two catch-up contributions if both spouses are eligible. The spouses must deposit the catch-up contributions into separate accounts.

The annual maximum contribution is based on a calendar year and there is no limit to the dollar balance that can build in the account over time. Contributions can come from:

- Employee pre-tax payroll withholding
- Employer contributions (non-taxable income)
- Individual contributions from account owner or other individual (tax-deductible for account holder)
- IRA or Roth IRA rollover

Distributions from your HSA

- You, or an authorized signer, can make withdrawals (or distributions) for qualified expenses.
- Distributions from your HSA can be made by check, debit card, ATM, online transfer or bill payment or by in-person request.
- Distributions for qualified medical expenses are tax free.
- Distributions made for anything other than qualified medical expenses are subject to IRS tax plus a 20% penalty. The penalty is waived if the account owner is 65 or older, or due to death or disability.
- Qualified medical expenses for your spouse and your tax dependents may be paid from your HSA, even if those individuals are not covered under your consumer-driven health plan (CDHP).
- You're responsible for keeping receipts for all distributions from your HSA. The bank does not monitor how the funds are spent.

ADVANTAGES OF AN HSA

Portability | Keep 100% of the deposited funds with you when you retire or change employers. You are the account owner.

Flexibility | You can choose whether to spend the money on current medical expenses, or you can save your money for future use. Unused funds remain in the account from year to year and there is no "use it or lose it" provision.

Tax Savings | Contributions are tax free (pre-tax through payroll deductions or tax deductible). Earnings are tax free. Funds withdrawn for eligible medical expenses are tax free.

Premium Savings | An HSA-qualified insurance plan tends to be less expensive than a traditional insurance plan.

Allowable Expenses

To be a qualified medical expense, the expense has to be primarily for the diagnosis, cure, mitigation, treatment or prevention of disease. It must be to alleviate or prevent a physical or mental defect or illness. These expenses may or may not apply to your insurance deductible depending on the coverage provided by your medical plan.

Vision and dental expenses, such as glasses, contact lenses, eye exams, dental cleanings and orthodontia are all allowable expenses from your HSA. Medical supplies and over-the-counter medications such as Band-Aids, crutches, test strips, aspirin, allergy medicines and even contact solution are allowable.

Insurance premiums are allowable *only under the following circumstances*: while receiving federal or state unemployment benefits, COBRA premiums, qualified long-term care insurance premiums and Medicare and other health care premiums after age 65 (with the exception of Medicare supplement policies such as Medigap).

IMPORTANT INFORMATION: Self-directed investments are the sole responsibility of the account-owner. Carefully weigh the advantages and disadvantages of investing your HSA funds before doing so. Investment products are not FDIC insured; may lose value and are not a deposit account. Investment accounts are not obligations of Old National Bank or Devenir, are not guaranteed, and not insured by any federal government agency.

HSAs at Tax Time

- You'll receive **Form 1099 SA** for your distribution total and **Form 5498 SA** for your contribution total for the previous year. These figures are reported to the IRS and you are required to report them on **IRS Form 8889** when filing your federal taxes. See IRS Publication 969 or consult your tax advisor for further information.
- You may make contributions to your HSA for the previous calendar year up to the tax filing deadline, which is normally April 15. If you make prior year deposits, you will receive an **updated Form 5498 SA** in May with your complete contribution total to keep with your tax records.

Prior Year Deposits: Prior year contributions should be clearly communicated to bank personnel. If mailing a deposit, be sure to note it is for the prior year. Deposits made at an ATM machine, remote deposit using a mobile phone, electronic transfers made using any method or those that are not specifically communicated to bank personnel will automatically be processed as a current year contribution.

Insurance Coverage Changes

- If you start an HSA-qualified health plan mid-year, you may contribute the full annual maximum to your HSA. However, a testing rule applies to those that start a CDHP any time other than January 1. Per the IRS, you must remain an HSA-eligible individual through December 31 of the next calendar year. If you're not sure you'll remain on the plan, you may want to pro-rate your contribution amount in order to avoid having the excess added to your gross income and an additional 10% tax on that amount.
- If your insurance coverage changes from individual to family mid-year, you're eligible for the full family contribution limit for that calendar year.
- If your insurance coverage changes from family to individual mid-year, your contribution limit will need to be pro-rated according to how many months you were on each type of insurance coverage.

What If...

You receive a medical bill or are paying for a prescription at the pharmacy and you want to use funds from your HSA.

Pay using your HSA debit card, HSA checks or through online bill pay.

You're at the pharmacy and realize you don't have your HSA debit card, checks, or you don't have enough funds in your Health Savings Account.

Pay for the purchase with personal funds and later reimburse yourself using one of the "Options for Paying Yourself Back from Your HSA" listed at left.

You're faced with a medical emergency and do not have enough in your HSA to cover your portion of the hospital bill.

OPTION 1: Ask provider to set up a payment plan. As funds are deposited into your HSA make payments to the provider using your HSA debit card, online bill pay or checks.

OPTION 2: Pay with another personal checking account, savings account or credit card. Reimburse yourself as funds accumulate in your HSA. Many providers will agree to offer a discount for paying the bill in full.

You're required to pay for treatment at the time of service. Later you receive a reimbursement check from the provider.

OPTION 1: Cash the check and pay for other eligible medical expenses and save those receipts.

OPTION 2: Mail the check to Old National Bank for deposit to your HSA noting it is a REIMBURSEMENT DEPOSIT.

You purchase groceries and a prescription. How should you handle the transaction?

OPTION 1: Pay for the groceries separately and use your HSA debit card or checks for the prescription only.

OPTION 2: Pay for everything with non-HSA funds and later reimburse yourself for the medical portion.
