## Town Business

### Online Bank Drafts:

For those of you who use online banking to pay your utilities, please keep in mind when you do this, the bank drafts a paper check at a processing center and then mails it to us. We have to apply payments according to the date we receive them in the mail, and not the date on the check. If we have not received the payment in the mail by the due date, (typically the 20th of the month) late fees will be applicable. Please be sure you allow enough time for your bank to issue and mail the check in order to avoid the extra fees.
