Wednesday February 5, 2025

(Reflection January 22, 2025)

Scott Lehiy asked the Board about the zoning of the Fairgrounds. He mentioned it being private property so it should not be commercial. The Board discussed it. He talked about what he thought the change meant. Brian mentioned that realistically it helped them. They talked about it. Dave brought up the water in the fairgrounds and explained why the Town had put the meters in. He also informed him how the Town added Division St. to the Town's Road inventory. He asked about the hydrants and if the fire department uses the one on the fairgrounds will they be charged. The Board said they should not be hooked to a meter.

Jason Clemmons informed the board of the IDEM report and the issues. 2 of the 3, he will take care of, but the other one is the high levels of acetone and needs a letter from the Town telling IDEM how the Town will handle the situation if it happens again. The Board talked about it. Jason will give the Clerk his letter to send to IDEM along with the Town's letter that she will type up. Jason informed the Board the grinder is shot. He will get quotes. Dave talked about adding some on the wwtp items into the grant process. Jason talked about other issues at the wwtp. He said if there was a pole barn out there it would be very helpful, another sink would also help. Dave mentioned that he may be able to get a double sink and said maybe Kevin could get it installed. Jason also said there needs to be more lights out there. The Board discussed it. They mentioned there could be grants out there for some of these items too.
