

Electronic waste can be a confusing hassle to dispose of. With Borden and RecyclingWorks, Inc., it's as easy as 1 2 3. Our partners at RecyclingWorks can expressly deal with any electronic waste at our designated drop-off points. Costs may vary per item.

Working with RecyclingWorks allows disposed of items to be recycled and repurposed, some even restored. This process reduces electronic waste overall, and our single-stream process keeps things efficient and running smoothly.

For more information regarding drop-off points and our e-waste procedures, [contact us](#).
