

May 28, 2025 Minutes

Meeting began at 8:15 pm. All members approved and signed the Buffalo Fire Department contract. We also signed the Debit Card resolution, Salary Resolution, Library Access Resolution, Phone and Internet Resolution and Monthly office Rent Resolution for the trustee. State legislation has passed that will affect local government. Senate Bill 1, House Bill 1461, that may directly affect townships specifically. To comply with new changes, the township trustee, Kaila, has to buy a new computer capable of livestreaming all township meetings for the residents. We looked at several different options and the board approved of the option from Best Buy due to a better price point. We decided to keep the official Beaver Township office at the trustee's residence instead of renting a new space. The new State Legislation also wants 30% of the township budget to go to a Levy Access Fund, so, we have moved \$87 from our General Fund and \$30 from our Township Assistance fund to the Levy Access Fund, completed on May 27, 2025. We also discussed the opportunity to go to the Indiana Township Budget Training. While the invitation is extended to all the board members, we approved and support Kaila going to this training on June 23, 2025. This meeting was a public posted meeting 48 hours prior to said meeting and only board members were in attendance.

Meeting adjourned at 8:33pm.

Tarrah Ledford

Beaver Township Chairman
