

# INDIANA EXPORTS OF WOOD PRODUCTS, 2004-2015

## Introduction

Tracking Indiana’s exports in the arena of wood products necessitates the use of the United States Department of Agriculture’s Global Agricultural Trade Statistics (GATS). This data portal is relatively user friendly and provides a great deal of data over a 10 –year period (2004-November 2015). Its primary limitation is the lack of detailed information for more specific tree species as they are aggregated into larger categories such as “non-coniferous” or even “coniferous”. This limitation can be frustrating, when it’s desired to dig a little deeper into sustainability topics for specific species. The second limitation is the export data is presented in value terms and lacks the ability to analyze the results by weight. Thus, one needs to approximate the volume exported using average prices paid for the wood product to ascertain relative export volumes.

This brief report shows the top 20 countries importing Indiana’s wood products, ranked by value of shipments in 2015. The top five imported items and its trends by each top 20 country is also reported. Finally, the top 20 exported wood products are displayed.

## Indiana Export Partners and Trends

Between January and November 2015, the state exported approximately \$156.1 million of wood products to its partners throughout the globe, maintaining levels seen in the past three years (**Table 1**). Canada remained as the top export partner in 2015 at \$45.2 million, despite its declining import values. Trailing at a distant second was China with \$32.7 million in wood products’ imports, yet it has had positive growth in the past decade and in the past three years. Rounding out the top five export partners were Mexico (\$15.8 million), Japan (\$14.1 million) and the United Kingdom (\$8.2 million). Several countries have experienced growth in Hoosier wood products imports both in the past decade and recently (China, Mexico, United Kingdom, Vietnam, Turkey, India and Portugal).

**Table 1: Top 20 Countries Importing Indiana Wood Products (\$1,000), 2004-2015**

2015 Rank	Country	2013	2014 (Jan-Nov)	2015 (Jan-Nov)	'04-'15 Trend	'13-'15 Trend
1	Canada	\$ 59,793	\$ 54,837	\$ 45,168	-13.7%	-28.5%
2	China	\$ 24,372	\$ 34,213	\$ 32,748	112.8%	39.2%
3	Mexico	\$ 15,436	\$ 17,341	\$ 15,795	2,216.0%	2.7%

	<b>Grand Total</b>	<b>\$ 156.26</b>	<b>\$ 169.85</b>	<b>\$ 157.16</b>	<b>21.5%</b>	<b>0.6%</b>

\*DATA FOR 2015 IS ONLY AVAILABLE THROUGH NOVEMBER, HENCE THE COMPARABLE TIMEFRAME FOR 2014 WAS SELECTED FOR REFERENCE.

To better understand what these countries are importing from Indiana, Table 2 shows the top five wood product items. Recognizing that some of the product labels are less than intuitive, a glossary at the end of the report provides definitions.

**Table 2: Top 20 Export Partners and their Top 5 Wood Product Imports (\$millions), 2004-2015**

NOTES: NESOI INDICATES NOT ELSEWHERE STATED OR INCLUDED; A VALUE OF 0.00 REPRESENTS AN ACTUAL NUMERICAL VALUE, NOT A ZERO. ZEROS ARE REPRESENTED BY THE DASHES; 2015 DATA REFLECTS EXPORTS BETWEEN JANUARY AND NOVEMBER. DECEMBER 2015 DATA IS NOT YET AVAILABLE AS OF FEBRUARY 1, 2016.

## Top Exported Wood Products

While reading the results from Table 2, one can infer the most popular exported items from Indiana to its trading partners. The top 20 items as shown in Table 3 represent approximately 95 percent of total exported value from Indiana. Sawn sheet wood is the leading exported product, at a value nearly triple of the second most popular product – non-coniferous lumber (\$50 million vs. 15.6 million). Across the 20 products it's a mixed bag regarding export trends. It is worth noting that most trend swings in the past three years have been in the double-digits, begging the question if this degree of volatility is typical.

**Table 3: Top 20 Exported Indiana Wood Products to Trading Partners (\$1,000s), 2013-2015**

Wood Product	2013	2014	2015 (Jan-Nov)	2013-2015 Trend
Sawn Sheet Wood, Nesoi	\$ 50,608	\$ 55,319	\$ 50,007	-1.2%

Non-Coniferous Plywood	\$ 1,453	\$ 865	\$ 772	-46.9%
Medium Density Fiberboard	\$ 1,543	\$ 932	\$ 668	-56.7%
Share of Total	94.5%	94.0%	95.8%	

## Summary

Since 2004, the value of Indiana wood products' exports fluctuated year over year, yet likely grew approximately 10 percent over the past decade. An approximation is made due to missing December 2015 data. Using 11 months of data for 2015 already puts the growth at 5.6 percent since 2004. Without volume data, it's difficult to ascertain if the rising and falling values is reflective of price changes, demand or both. Regardless, the data show provides a snapshot of who are Indiana's top trading partners for wood products and the most sought Hoosier wood product goods.

## Glossary

**Ash Lumber:** Ash (*Fraxinus* spp.), sawn/chipped lengthwise, sliced/peeled, whether/not planed, sanded/end-jointed, of a thickness >6mm. HS Code: 440795.

**Builder's Joinery:** Builders' joinery and carpentry of wood, including cellular wood panels, assembled flooring panels, shingles and shakes. HS Code: 441890.

**Cherry Lumber:** Cherry (*Prunus* spp.), sawn/chipped lengthwise, sliced/peeled, whether/not planed, sanded/end-jointed, of a thickness >6mm. HS Code: 440794.

**Coniferous Lumber:** Lumber, coniferous (softwood) thickness < 6 mm. HS Code: 440710.

**Conifer Pole Logs:** Coniferous wood in the rough, whether or not stripped of bark or sapwood, or roughly squared. HS Code: 440320.

**Door Frames:** Doors and their frames and thresholds of other wood. HS Code: 441820.

**Impregnated Wood Ties:** Other railway or tramway sleepers (crossies) of wood, impregnated. HS Code: 440690.

**Maple Lumber:** Maple (*Acer* spp.), sawn/chipped lengthwise, sliced/peeled, whether/not planed, sanded/end-jointed, of a thickness >6mm. HS Code: 440793.

**Medium Density Fiberboard:** Medium density of fiberboard of wood/other ligneous materials, whether/not bonded with resins/other organic substances, of a thkns >5mm but not >9mm. HS Code: 441113.

**Non-Coniferous Logs:** Wood in the rough, whether or not stripped of bark or sapwood, or roughly squared (excl. rough-cut wood for walking sticks, umbrellas, tool shafts and the like; wood cut into boards or beams, etc.; wood treated with paint, stains, creosote or other preservatives, coniferous wood in general, oak "*Quercus* spp.", beech "*Fagus* spp." and tropical wood). HS Code: 440399.

**Non-Coniferous Lumber:** Wood, sawn or chipped lengthwise, sliced or peeled, whether or not planed, sanded or finger-jointed, of a thickness of > 6 mm (excl. tropical wood, coniferous wood, oak "*Quercus* spp." and beech "*Fagus* spp."). HS Code: 440799.

**Non-Coniferous Plywood:** Plywood, consisting solely of sheets of wood (other than bamboo), each ply not > 6 mm thkns, with at least one outer ply of non-coniferous wood. HS Code: 441232.
