Indiana Horse Racing Commission statement on federal indictments

The Indiana Horse Racing Commission works tirelessly to ensure that horse racing is conducted with the utmost integrity. Over the years, the commission has dedicated significant time and effort to innovations in our drug testing programs and we will continue to do so.

While we are not prepared to comment on individual cases from other jurisdictions, we take allegations against all licensees very seriously and generally make note of disciplinary actions in other states when and if an applicant applies for a license to race in Indiana. We will continue to follow the developments of this case closely.
