Key eCivis Definitions

"Grantee" refers to when Indiana agencies receive funding from the federal government.

"Grantor" refers to when Indiana agencies distribute funding to subrecipients.

"Subrecipient" is a non-federal entity that receives a subaward from a state agency to carry out part of a federal program. An individual that is a beneficiary of such a federal program is not a subrecipient.

"Pre-Award" refers to the steps agencies must take to obtain approval from SBA to apply for federal funding. In other words, "Pre-Award" is the time before the federal funding is awarded.

"Post-Award" refers to the management of federal funding after a state agency receives the notice of award.

The Contact Grants Management Team page contains multiple options for getting help.

1. User experience-related questions will be routed to a member of SBA's Grants Management Team for quick resolution.

2. Technical questions will be directed to eCivis Customer Support.

3. Substantive questions regarding a particular grant opportunity will be channeled to the relevant agency point of contact.
